SUMMER SENATE Begins Operation

The first session of the summer quarter Student Government Senate was held June 17. The meeting was mostly devoted to a general orientation of the new senators in the basic policies and process of Student Government.

Walt Komski, President of Student Government, administered the oath of office to the new senators at the first session of the meeting. Each senator introduced himself and identified the college he represented.

Komski also organized four committees from the Summer Senate members, an Academic Affairs Committee, a Physical Property Committee, a Tutorial Committee, and a Statutes and Procedures Committee. The committees were formed generally on a voluntary basis with a few appointments made by President Komski.

The Academic Affairs Committee was formed with the purpose of the cooperation of all the faculties interested in the summer school. It was planned to discuss the requirements for credit, the courses available, etc. The committee was to work under the direction of the summer President.

The Tutorial Committee was organized to examine the tutoring professor's names listed beside course names on class schedules, getting the requirements of the Dean's List altered to a GPA basis instead of an A or B basis, and investigating the possibility of the waiving of requirements of a few courses for students who have already completed them during the summer term.

In case of a swimming pool and other recreational facilities, and the classroom building was the subject of the Physical Property Committee. The committee will investigate what efforts could be made by Student Government to get a swimming pool installed on campus.

A Tutorial Committee was formed to organize interested students in a program for helping underprivileged children in the area. Tent Theatre Work Goes On

Dr. David D. Mays recently announced that construction of the lobby area and stage in the new Theatre is neart completion. When this is finished, lighting and dimming facilities will be erected and materials necessary for building a stage building will be available.

Mays praised the work being done by the University maintenance crew as a "marvelous job." This work consists of moving complete units and insuring straight goals. Any difficulties experienced during early stages of the construction were due largely to "lack of knowledge concerning the care and upkeep of theatre tents," Mays stated.

The addition of Dr. Harry Smith, a scene designer to the faculty in the fall, will add to the planning and displays, directed by faculty, to be produced. Also several art plays with student directors will be presented.

red and write more easily. This committee and student volunteers would work under the direction of VISTA.

To clarify the technical aspects of Student Government operation will be the job of the Statutes and Procedures Committee.

Unovkic Conducts Red Institute

Dr. Charles M. Unovkic, Chairman of the Sociology Department, conducted a daylong institute on "Skills in Interviewing" for Red Cross workers June 17, 1969. The session was held at the Central Florida Chapter house and was attended by Red Cross professional and volunteer workers from 14 counties. It dealt with procedures to Service To Military Families Division (SMF) problem.

The program was conducted with the cooperation of Miss Mildred Patterson, Altanta, Georgia, Regional Director of SMF.

Unovkic was invited by three students in the Sociology Department at Tech. They were Mary Jane Bolatto, Brenda Owens, and Richard King.

HEW Awards Tech Training Grant

The United States Department of Health, Education, and Welfare has awarded Florida Tech a $4,600 training grant from Health Services, Mental Health Association, for "Florida School of Alcohol Studies," with Dr. Charles M. Unovkic as Project Director.

The Florida School of Alcohol Studies is designed to provide training and education for professionals and clients in the field of alcoholism and drug abuse for a broad category of professional persons and other community leaders whose responsibility include service to the alcoholic or his family.

Objectives of the course include providing in-depth training in the techniques of working with the alcoholic and his family, enabling the student to better understand alcoholism, learning to recognize the symptoms, beginning to learn treatment methods, learning the scope of agency services to the alcoholic and methods of reference, and maintaining and developing local resources.

The course will be held August 5-15, and housing will be provided in the student dormitories.

Dr. Charles M. Unovkic, Chairman of the Department of Sociology at PTU initiated a three-credit course in the Sociology of Alcoholism for the fall quarter.

The class will be taught by Mr. S. George Clarke as instructor. Clarke is the director of Community Services for the State's Alcoholic Rehabilitation Program.

Grass sodding on the PTU campus is anticipated for sometime in July with the finishing touches to be added by the middle of August, according to J. C. Hicks, who is in charge of the direction of labor efforts.

Grass sodding on the FTU campus is anticipated for sometime in July with the finishing touches to be added by the middle of August, according to J. C. Hicks, who is in charge of the direction of labor efforts.

Proctor Chosen As Dean of Men

Dr. William L. Proctor will assume the position of Dean of Men at FTU, It was announced by Dr. W. Rex Brown, Vice President for Student Affairs.

Proctor previously served as Superintendent of the Rock Hill School District in South Carolina. He was involved in computer assisted instruction at Florida State University. He also worked in the area of student affairs by serving as Assistant Dean of Men at Florida State University and from 1962 to 1966 he was assistant football coach at FSU.

His professional memberships include Kappa Delta Pi, Pi Delta Kappa, American Association of Colleges Superintendents, American Education Research Association, American Association for Supervision and Curriculum Development, and Vice President of the Region V Education Services Center.

Proctor has been a participant in civic organizations such as the Fellowship Christian Affairs, Board of Trustees of the Y.M.C.A., and Chairman of Recreation Committee of the Chamber of Commerce.

President Charles N. Millican praised Dr. Proctor as "one of those young educators with a broad background who is able to build special rapport with both faculty and students. Based upon his recommendations and background, I believe that Bill Proctor will be an outstanding Dean of Men here at FTU."

Juge Promoted To Sciences Post

Recently appointed Assistant Dean of the College of Natural Sciences is Dr. Frank E. Juge, Jr., who assumed his new duties on June 9.

Juge was formerly an Associate Professor of Chemistry and has been on the PTU staff since July of 1968. Dean of Natural Sciences, Bernard Oller, approved of Juge's promotion and FTU's policy of filling administrative openings with present staff members by stating, "It is always a pleasure to be able to recognize the abilities and interest of one's own colleagues."

Dr. Juge acquired a B.S. degree in 1962 from Louisiana State University at New Orleans and a Ph.D. from the University of Arkansas in 1967. He has several patents and publications to his credit and he has expressed interest in continuing his research activities.

Professional memberships in the American Chemical Society, the Catalysis Society, and the Society of Sigma Xi have been earned by Dr. Juge. He is also a member of the Milliard Junior Chamber of Commerce and is presently serving as Chairman of the Florida Section of Sigma Xi.

From left to right, Mary Jane Bolatto, Richard King, Brenda Owens at Red Institute.

Letters to the Editor:)

Senate Gurney Writes FuTure

Editor:
I have read your recent correspondence regarding the Drew Pearson article in which he mentions members of Congress who refuse to give me the courtesy of a reply. I would like to point out that the list of recipients includes both Republicans and Democrats. I have certainly heard nothing to substantiate Mr. Pearson's allegations, and, after reading the list of recipients, I find them to be conservative Americans who have long been devoted to freedom and the preservation of our Constitution.

Again, I appreciate knowing of your interest, and I hope you will continue to write to me when there are matters of a federal nature which concern you.

Sincerely yours, Edward J. Gurney
Editor - in-Chief, FuTure

Chi Alpha Fрат
Hold Meeting
Chi Alpha Fraternity will hold its first monthly meeting of the summer quarter tomorrow night at 7:30 at the Fraternity Parental Home, 1718 E Michigan Avenue, Orlando. The meeting will be preceded by a coffee hosted by the senior girls of the Fraternity Parental Home and will be open to all students who are required to attend the meeting and bring their dues. Plans will be made at the meeting for a beach party to be held Sunday, June 22 at New Smyrna Beach.

IF YOU'LL GET ENGAGED THIS SPRING...

HERE IS A LITTLE HELP

DIALM Price Facts:
Don't spend more than you can afford. A good rule to follow: Spend about a month of your salary on the engagement ring. Be sure you get the most for your money. Is the ring the style that pleases her most?

DIALM BUYING FACTS:
Almost all engagement rings are chosen by boy and girl together. But in many cases the young man buys the diamond alone. Or he takes it over with a wit and then brings his girl in for final selection. It's up to you!

DIALM STYLING FACTS:
Modern girls are individualistic. Some want an absolutely perfect diamond even if it is smaller. Others want the largest stone possible even if it has slight flaws. Settles is the house of the traditional saying. These are the things to talk over with us.

COMING AS SOON AS POSSIBLE!
We have helped so many young couples that we can help you to come to the right decision. Let your wishes and your experience be the guide. For a lifetime of happiness with your diamond.

President Reviews FTU's First Year

The first academic year at FTU has proven to be one of "immense challenge, exciting fulfillment, and indicates the true greatness for the institution which many have predicted."

These were the words of Dr. Charles N. Millican, first president of the state's newest, publicly-supported institution of higher education, who is scheduled to retire on June 30. In 1968-69 academic year at FTU.

Although the summer program at FTU began Friday, June 6, it is customary to look upon an academic year as approximately nine months of schooling. In the case of the State University System, this means academic quarters. Dr. Millican was quick to point out that there have been minor problems and vexing moments when he appeared to be frustrated in his endeavors, but he noted that these have served only as stimuli to him and to the FTU faculty, staff and student community as a whole.

"Some of our progress this past year has exceeded even my fondest dreams," Dr. Millican emphasized "and I again would like to take this occasion to thank the Total East Central Florida community for the orderly support, inspiring encouragement, and general enthusiasm for our success during this first year of operation on campus." Among those, Dr. Millican noted, are total student enrollment in excess of 2,000 (P.T.E. in excess of 1,500), recruitment of outstanding faculty/staff personnel who have established excellent rapport with the charter freshmen and junior classes; and maintenance of steady progress on FTU construction program with second phase structures being more or less on schedule.

What I see around me today would not have been possible without the hard work and dedication of people who have largely never worked together as a unit but who, in spite of some difficulties in areas of staffing and budgeting, have launched us into orbit as the newest member of the State University System. For this I shall be eternally grateful.

Faculty - Staff

Dr. Millican had words of high praise for his faculty and staff at the new university. "Our faculty have proven themselves to be highly-motivated and dedicated educators, keenly interested in the student and his progress as an individual. They really seem enthusiastic over the opportunity of helping to build a new institution of higher education from the ground up. I am very proud of them."

The staff have also obviously endeared themselves to Dr. Millican. "The staff members at FTU are just getting started and due to some temporary restrictions in our first year of operation, those men and women, in all segments of the university, have steadfastly given of themselves in order that we may accomplish many additional tasks. Our faculty and staff have worked together in a group manner," commented Dr. Millican.

Dr. Millican paid special tribute to the students of Florida Technological University. "The student government and other leaders selected by our students are tops. Communication is a word that is everyone's mind these days in the world of education, and we are indeed fortunate that we have a unique opportunity here in structuring effective lines of communication between this group of great families who make up the FTU community: faculty, staff and students."

**Allen Appointed Chairman BioSci**

Dr. George E. Omans, former Associate Professor of Biological Sciences in the College of Natural Sciences, has been appointed Chairman of the Department of Biological Sciences in the College of Natural Sciences. His appointment has been approved by the Florida Board of Regents.

Allen will act as administrative head of the Department of Biological Sciences with responsibility for its research and teaching operation.

Dr. Allen received the B.S. Degree in 1959 from Stephen F. Austin State College, Nacogdoches, Texas; the M.S. Degree from Texas A&M University in 1960; and the Ph.D. Degree in 1968 from Mississippi State University.

His professional memberships include American Society of Microbiologists, Membership Chairman of the Society of Investigative Pathologists, American Association for the Advancement of Science, American Institute of Biological Sciences, the Association for Tropical Biology, Entomological Society of America, Consultant to International Minerals and Chemical Corporation, and serving on International Committee on Standardization of Preparations of Insect Pathogens.

**Omans Receives Fellowship Grant**

Professor Stuart E. Omans has received a Newberry Fellowship for this summer. The Newberry Library in Chicago is a privately endowed library, specializing in Renaissance material, including drama, and considered one of the best research libraries in the country for this field.

Omans is working in the area of Renaissance drama for his doctorate dissertation. He will return to FTU in the fall.
