We Live in the Present, By the Past, but for the...
Dr. Stoner will be on vacation the month of July. Dr. George Edwards will be in the place from the hour of 10 a.m. to 11 a.m.

Optimism is the word used to describe the feeling of both the faculty and the student body as the prospect of fielding a basketball team next season at F.T.U. continues. Dr. Frank Rohrer, Athletic Director of FTU, said in an interview last Friday that the program was proceeding according to schedule. The most enthusiastic enthusiasm is there from President Schrader,8 right down the line, the students," said Rohrer who added that there were two representative teams playing summer basketball at present in preparation for next season.

The teams, coached by student PF majors, are in two separate leagues. In the Winter Park YMCA League, Dean Brownson is in charge of a team consisting entirely of last year's basketball team.

Letters To The Editor

What is in the necessity of this continuing shouting of the FTU's against Students' Government on the FTU? The FTU's responsibility is to present fairly the conflicting views in this controversy, not to distort the facts for its own amusement. This ideal of factual, unbiased reporting was not developed, of course, by the FTU's. Any student who takes the trouble to read the FTU's will find that the FTU's has revealed from usually reliable sources that Morisons cancelled their subscriptions which is wrong.

Students were asked to subscribe to the FTU's. No subscription fees were involved. The subscription fees were due to the fact that the FTU's is a not-for-profit organization.

Did Dr. Abbott, psychology head, plan these sidewalks to test the students' intelligence in these sensible sidewalk mazes?

What you are calling editorials by 40s has gotten rather sick of ones who are more本国 than people.

Unfortunately we are getting the image of always slamming the student government and for this we apologize—but there is just so much to work with! When we arrive at the July 15 Student Government meeting we found that several SG members weren’t exactly pleased with our impressions of the July 1 meeting which appeared in the May 8 issue of the Future. It seems that we made a gross error in reporting. Charlotte Scott, Recording Secretary of SG, informed us prior to the meeting that Student Government met only on Tuesday during the summer session, not on both Tuesdays and Thursdays as we had reported. The news came as a great shock to us since we had shown up for an SG meeting last Thursday and we hadn’t noticed that it wasn’t held. We would like to apologize to all students who flocked to the Future expecting to attend the July 1 meeting which appeared in the Future expecting Student Government to arrive at the July 1 meeting. Apparently the most bitter of the one he must have been November 5, The Bulb Changer, JFK—Man active! We don’t know exactly where he was minutes ago. The idea was not expanded on—so we former presidential record was not on active duty (this approximately 8 minutes). His access at a lesser cost to campus purchased all the soft drinks for the meeting. The gwo guests were arrived at the meeting to attend this business meeting. Hank Richards, SG President, who attended the meeting. All the comments that were directed to the Future during the meeting were repeated for the benefit of Dean Schaefer, faculty advisor, who arrived to the meeting late (cute?)!

If we suddenly stop writing SG articles in the Future it will probably be the result of the passage of a Student Government law making us illegal. We’re expecting it anytime now. But if it happens, we will still attend the meetings. We’re not proud.

As a final note, we would like to give our SG friends this little thought: The (student) government that legislates together, vegetates together. Peace.

P.S. At its we know, President Nixon has not accepted to speak at graduation yet. What could be the delay?

President Mike H, who attended the event and played softball with the children, aided XBA in its effort to make the community more aware of FTU and the fraternity’s activities.
