SG Suffers From Apathy
Due To Five Vacant Seats

There are presently five unfilled positions in Student Government. Three of these vacancies are senators seats. The other two are the President and the Governor of Education. The missing senators are the Senior senator of Sciences, and the Junior senator of Humanities. These three senators have a vote from a senior of 26, comprised almost 15%, vacancy, with another 10-20% of the senate absent weekly. This leaves only one fifth of the student body completely unrepresented, while the Student Government's objective is to represent all of the students.

The Student Government has made an attempt for a working senate. About one month ago, S.G. passed a statute which states: If a senator accumulates six or more absences or three unexcused absences or is late six or more times, he will be suspended from office. This statute also holds true for class presidents and college governors, except that they are allowed to up to four unexcused absences.

When a legislator resigns or is suspended from office, the president of S.G. appoints replacements which are put before the senate for approval, and if after looking over his qualifications the senate approves, the replacement may then assume his official duties.

Out of the five legislators, were suspended by the absence statute and they were Senators Dennis Bohn and William Finch.

Scholarship Decision Will Be Delayed Until Spring

In an interview with Dean Calvin Miller, Dean of the College of Education, the Futu discovered that there would not be a decision made on the feasibility of offering athletic scholarships at FTU until sometime in the spring quarter. Miller said that he was asked by the President to hold a meeting with his athletic staff and several other professionals and recommend to the Executive committee what type of inter-collegiate athletics they felt the University should pursue.

Miller said that his committee was responsible simply for suggestion to the Executive committee, and the final decision will be made by the President.

"The recommendations will be as to the extent of our athletics, and not whether we should offer scholarships, or not," Miller said.

"If we suspect to the President we want to play Notre Dame in two years, we are going to need to give bigger and better scholarships than if we just want to play Rollins and Florida Prebyterian.

Once Miller's committee meets, which Miller promised would be in the "near future" the idea will be presented to the President's Executive committee, which in turn will deliver its suggestion to the President who will make the final decision.

POLLUTION

Teach-In

POLLUTION is a dirty word. So what can an FTU student do about it? Or, for that matter, what can anyone do about it? That's a local group of businessmen are thinking this over. The Audubon Society, the Sierra Club and otherolumbia and conservation groups. They are trying to find out if there are students at FTU who are enough in the pollution around us to organize a campus on "Teach-In" on April 22.

For the high site record of 2,900 ft. is presently held by Dave Jackson and Dave Solomon. On Feb. 23, 1970, these two young men managed to fly their kite attached to 3,000 feet of string. They broke the old record by using a tee-type kite and cotton string.

Chancellor Robert B. Mautz, of the Board of Regents congratulated the FTU library on the concept and quality of the FTU Library Current Awareness List. A regular publication, the Awareness List gives a review of current news and comments on higher education, and in the words of Chancellor Mautz, "provides a much-needed service for the FTU campus community."
**Sports Page and Two Days After the Race.**

What the paper would have looked like if someone got busted for pot.

Around 7

**That, in the modern sense of an old-fashioned word, he was a saint,**

But satisfied his employers, Fudge Motors, Inc.

**And all the reports on his conduct agree**

**That he was popular with his mates and liked a drink.**

**For his Union reports that he paid his dues,**

**And our Social Psychology workers found**

**And that his reactions to advertisements were normal in every way.**

He was fully sensible to the advantages of the Installment

**Both Producers Research and High-Grade Living declare**

**And his Health-card shows he was once in hospital but left it cured.**

He was married and added five children to the population,

**News Reporting?**

It would seem that much of the news media in this country bows to a double standard of news reporting. When a bunch of college students get busted it makes front page. But when a bunch of "mature adults" get busted the news gets lost.

In a classic example which a friend of the FutUre pointed out last week he couldn't believe that the front page of the St. Petersburg Times included a story about a young person breaking the law. Of these there were 191 traffic violations, 31 for intoxication, 23 million for liquor violations, 3 for disorderly conduct, 7 for disorderly driving, 2 for carrying concealed weapons, 5 for gambling, and 31 for ticket scalping. It was mentioned in the Orlando Sentinel, but on the sports page. Students who are busted for pot are not newsworthy, but the stories reflect the whole group and the good are often not all but forgotten.

We urge all prospective SG members to consider what they are taking on and take their final decision. The student body must be fairly represented.

**Letters To The Editor**

Marine Corps

**Gas Pumps**

The U.S. Marine Corps officer selection Team will be on the FTU campus March 9 and will set up a display and be available for interviews from 9 am to 3 pm in the Arrowhead at the Village Center.

The Marine Corps Offers Platoon Leaders Class for undergraduates in the program ground as well as aviation for pilots and flight officers. Platoon Leaders Class training leads to a commission upon receipt of the Bachelors Degree from college. Seniors may attend Officer Candidate School after graduation.

Upon completion of Platoon Leaders Class training Officer Candidate School the newly commissioned Second Lieutenant are assigned to The Basic School at Quantico, Virginia or the Naval Air Warfare Training Command at Pensacola, Florida.

**VC Exhibits**

**Art Posters**

The Village Center in its continuing effort to provide a variety of art programs to the students, faculty and staff of Florida Technological University welcomes all to view the latest exhibition in the Village Center.

**The IN TREND,** a collection of 50 professional artists posters, is dedicated to the pendulum swing of the psychodrome movement, is provided from the collection of the University of South Florida and is scheduled from March 2 through the end of the winter quarter.

If you need a break from the bedlam of cramming - break out on **THE IN TREND.**
**The Slimy Toad**

Marriage is a mistake, a mistake inexorable even in the face of ignorance. Hopefully the single F.T.U. male can be made aware of the trials and pitfalls of marriage, and use that knowledge to assure himself of a happy prosperous life.

Love, perhaps, is for the most universal answer to the "why marriage" question. Any and every young couple will tell the world of their love for each other—a married couple of five years standing most certainly will not. This simple observable fact says more than enough for that passing infatuation called "love." No doubt the women on campus, wherever they may be hiding, will debate this fact for the complexity of love is immense. As many of us today own a dog, we can certainly say we love that dog. In fact, again, the point can be made that many many males are married to dogs.

The female and the male both continue to think of marriage as "companionship," 'Scop and think a moment, you male mules. Does not a dog, cat or elephant offer companionship also? And these animals unlike most females, have sense enough to come in out of the rain.

Abish as you doubt the knowledge of the Toad, so be it, turn your attentions to one of higher authority; the Federal Government. It is a well published fact that the government allows only $600 for a female companion—this meager sum should yield an insight as to the value of a wife (yechh!!!)

Do you continue to doubt me, query another respected authority, your Dad. Talking with Dad this weekend you will find that he still finds companionship— in fact your Mom is probably continually reminding him to keep his eyes on the road while driving and not all the desired companions that are pacing the street.

And how many of us really expect to remain married to that sweet thing that said yes so sensually at the alter in that lovely little chapel. Five years after you're married you'll not recognize that sensuous thing said yes so sensually at the alter in that lovely little chapel. The organization should consider the young ladies they know personally, relatives or daughters of friends, and should encourage the girls to enter the pageant.

Judging of the candidates will be based on the same values as considered at the Miss Florida Pageant and at the national Miss America Pageant. Poise, beauty and talent are the three major requirements. Each contestant will be judged in evening gown, in the presentation of her talent, and by her personality.

Applications can be obtained at the Dean of Women's Office. To qualify, a young lady must be between the ages of 18 and 28 on September 1, must be a high school graduate by September 1 and must never have been married.

Talent will be considered in the judging and each contestant should possess some quality of talent, either trained or potential. Mr. Jackson stressed that the range is varied and that no girl must necessarily be trained in any specific field. He pointed out that many young people think that a quality of talent until they considered entering the contest. He also pointed out that in almost every national Miss America Pageant conducted in Atlantic City, N.J., there have been state queens who have presented dramatic readings or comedy monologues as their talent presentations before a panel of nationally prominent judges.

"Any potential entrant may also have a talent unrealized," Jackson commented, adding that a young lady might be a delightful singer, but without ever having exhibited her singing ability before an audience.
NARCISSA KNOWS

Dear Narcissa,

Your poor dear, so rumbling and inchoate. So much for sympathy. We all have it coming. You just don’t feel so good about it. You have been solemn for a few months, and you may be unwell. We write to say that we are well.

The two Festival champions will be present at the Multi-Purpose Room. Until a selection is made among them, the food service will remain in the Multi-Purpose Room. The Multi-Purpose Room seats approximately 200 and is difficult to maneuver through when filled to capacity. This problem will be solved by the new cafeteria, which will have a seating capacity of 600.

Many students are under the misconception the food is catered by Morrison’s Cafeteria. Morrison’s only offers professional help, by hiring the cooks and bakers to work in the kitchen of the Multi-Purpose Room.

By HENRY POPKIN

FTU is presently the only State University in Florida with its own food service. Auxiliary Services, the formal title of the food service, is located in the Multi-Purpose Room. Until a selection is made among them, the food service will remain in the Multi-Purpose Room. The Multi-Purpose Room seats approximately 200 and is difficult to maneuver through when filled to capacity.

This problem will be solved by the new cafeteria, which will have a seating capacity of 600.

Many students are under the misconception the food is catered by Morrison’s Cafeteria. Morrison’s only offers professional help, by hiring the cooks and bakers to work in the kitchen of the Multi-Purpose Room.

William Bryant, manager of the cafeteria, said, "We will not allow the cafeteria to become second rate. We are constantly trying to see how we can better the system and keep the costs to the student at a minimum."

Eiler said he had not received any complaints about the food since the new system has been in effect, and in fact, the FTU food has become a rallying point for other state universities that have received recently demanding "food as good as FSU's."

There is also a food committee which meets every two weeks to try and better the food system and assist Eiler's department in any way possible. The committee is comprised of students and faculty members.

What's Your Problem?

Anyone who has a question for the FTU/EU answer column may mail it into the FTU/EU office, Box 26,267. Letters may be put in any campus mailbox.

### Florida Technological University

#### Spring Quarter 1970 Class Schedule

**IN THE STUDENT:**

The class schedule lists the hours, days and rooms for courses and course sections to be offered in Florida Technological University during the Spring Quarter of 1970. A student register or university, college, and major requirements, as well as registration fees, may be obtained by returning the University Bulletin available at the Registrar's Office.

**REGISTRATION**

A listing of off-campus and Continuing Education courses will appear in a separate schedule.

**ANTEPRED PREPARATION**

All students should consult with their faculty advisor for assistance and course selection. Course and section schedules are available for the Spring Quarter. Students should be aware that the completed form must be signed by the faculty advisor and presented at the time of registration. In addition, students are expected to complete a completed and signed Assignment and Trial Schedule. Registration will be held at 5:00 PM prior to the start of the Fall quarter. Students who do not plan to continue at the University must be dropped from courses by the end of the first week of classes. Students registering at any time during the quarter will be charged a late registration fee of $5.00.

**REGISTRATION REGULATION**

Registration by appointment of returning Undergraduate students not registered. Schedule advisement for the student's schedule during the official Add-Drop period.

**COUNSELING**

Registration by appointment of returning Undergraduate students with University Registration by appointment of returning Undergraduate students. Counseling prior to registration. Schedule advisement for the student's schedule during the official Add-Drop period.

**CLASSS FOR THE SPRING QUARTER BEGIN WEDNESDAY, APRIL 1 AT 8:00 AM**

Florida Technological University reserves the right to change the class schedule as needed to properly meet the needs of the student and the university.

**Comments:**
- This course is divided into 5 sections, each lasting 90 minutes.
- The sections are held on different days and times.
- Each section is taught by Greenhaw.
- The course takes place in PM 202.

---

**Additional Details:**
- The course is focused on data analysis in the field of electrical engineering.
- It is a practical course with laboratory sessions.
- The course is part of the Electrical Engineering (ELEC) program.

---

**Course Description:**
- The course covers fundamental concepts in data analysis, including statistical methods and software tools.
- Students will learn to analyze data sets, interpret results, and make informed decisions based on their analysis.
- The laboratory sessions will provide hands-on experience with data analysis tools and techniques.

Scholarship Funds Set Up
In Memory of WP Student

By MARY ANNA JACKSON

The students of Winter Park High School have started a special scholarship fund through the FTU Foundation to honor the memory of John Stonington, Jr., a Winter Park High School senior who was killed in a February 13 auto accident. John, the son of John and Roma Stonington, was a 4.36 student who was chosen to attend the University of Florida. The Stoningtons did not have to attend the university, but they wanted to send flowers to their son's funeral. The scholarship will be awarded to a Winter Park High School graduate of the class of 1971 (the same year John would have graduated). Contributions to the memorial fund have come from the Winter Park High School faculty, staff and students, and anyone wishing to help may send their contributions to the principal of the Winter Park High School or to the FTU Foundation.

Mr. George J. J. King, Jr., Executive Assistant to the President at FTU, said that he had spoken to Mr. Stonington, and that Stonington had said he was pleased with the scholarship fund.

Doctor Millican
..The Man
..The President

A CLOUD of dust and a hearty... well, whatever grader operators showed up to do their job, the parking lots now under construction are nearing completion.

Don't Miss Trip
To See Eclipse

Denny Massman, of the Astronomical Explorers Club is sponsoring a bus trip to see the eclipse on March 6. The bus leaves at 8:30 a.m. and goes to 8 miles north of Lake City. There, the club will have a special program of information concerning the solar eclipse. The cost is $10.45 for adults and $1.32 for children under twelve. For more information contact Denny Massman at 276-6934 or Orlando Transit Company.

PLAYING to a SRO crowd of students, faculty and guests last week were these excellent musicians, Dr. Leonidas Sarakatsannis, FTU professor of music at the piano, Peter Harris the clarinetist and Ahmed Samour was the cellist.

Capacity Crowd Hears
Sarakatsannis Concert

The Science Auditorium was filled to capacity last Monday, March 2, for the evening concert which was presented by the Village Center. Dr. Leonidas Sarakatsannis began the concert with two of his own compositions for the piano. The first, by Beethoven, Subtitled "Appassionata," is considered one of the greatest sonatas up to the date of 1806. "Appassionata" is in three movements which integrate virtuosity and craftsmanship and preserve unity by being thematically related. Kirk Declares A 'Circle K Week'

Monday, February 23, Circle K elected a new board for the coming year. Elected President-Church McClendon; Vice President-Robert McMillan; Secretary-Tyrone Dean; Treasurer-Dean Nixon. Newly appointed District Governor is Richard Fenton, Jr., a Winter Park High School senior. Member is John Nelson and the Freshman Board Member is Arthur Haas.

This past week has been declared Circle K Week by Governor Claude H. Kirk. The weekend of February 26, 27 and 28 Circle K had its Florida District Convention at the University of Florida. The convention was held at the Florida Union in Jacksonville. This week's District Governor is Dave Mellow of Winter Garden Junior College. The new Lieutenant Governors are: Citrus Division-Bruce Hale of Daytona Beach; Gold Coast Division-Bob Whalen of Broward J.C.; Orlando Division-Bob Selby of Deland; Palm Coast Division-Dennis Ray of St. Augustine; Tallahassee Division-Darrell Brown of Tallahassee State University; and Alachua Division-Kirk Aronson.

Kirk is the President of Florida State University. He was elected Governor of Florida in 1966, and has served two terms. Kirk is a Democrat, and is running for a third term in the November election. Kirk is a strong supporter of education, and has worked hard to increase state funding for public schools and universities.

Kirk has also been a strong advocate for the arts, and has worked to increase funding for the arts in Florida. He has been a strong supporter of the Florida Arts Council, and has worked to increase its funding.

Kirk has also been a strong supporter of the environment, and has worked to increase funding for environmental programs. He has been a strong advocate for the Florida Keys, and has worked to increase funding for the Keys.

Kirk has also been a strong supporter of veterans, and has worked to increase funding for veterans' programs. He has been a strong advocate for the Florida National Guard, and has worked to increase funding for the Guard.

Kirk has also been a strong supporter of sports, and has worked to increase funding for sports programs. He has been a strong advocate for the Florida Gators, and has worked to increase funding for the Gators.

Kirk has also been a strong supporter of the military, and has worked to increase funding for military programs. He has been a strong advocate for the Florida National Guard, and has worked to increase funding for the Guard.

Kirk has also been a strong supporter of the arts, and has worked to increase funding for the arts in Florida. He has been a strong advocate for the Florida Arts Council, and has worked to increase its funding.

Love of People, Subject Needed For Teaching

Love of people and love of the subject are the two basic requirements for teaching English, or any subject, in the 1970's, explained Dr. Ross Brackney at a recent Language and Literature Club meeting. There are no successful formulas, however, for aspiring young professors. Their success must depend on the above qualities plus a special, unique identity. Dr. Brackney went on to say, Usually, the best indication of the professor's (young or old) ability is a mixture of the small faculty-student audience and the success of his grading system, his use of text and lectures, etc.

Concerning grading, Dr. Brackney and he favored the pass-fail system to the segmented letter or numerical systems. He warned the students not to be tyrannized by grades, that a "C" in a challenging course is much better than an "A" in a repetitive and boring class. "Education doesn't matter today," said Dr. Brackney. "If someone were selling degrees for course records, the students would gladly pay $20 for the degree without the knowledge, curriculum, and integrity that goes with it."

Personal anecdotes and jokes among the small faculty-student audience. Dr. Homer Combs, Chairman of the English department, welcomed the small group and Anne Lynch, Language and Literature Club president, presided over the program. Dues were announced as $1 per quarter and anyone interested in joining the club is asked to contact Anne Lynch.

Science Tech Building

To Be Completed By Fall

The completion date for the Science Technology Building and Phase I of the Data Processing Building is set for September 1970 if all goes according to schedule. The Science Technology Building, to be the store for the students. It will have the usual professors' offices, lecture halls and classrooms, seminar rooms and labs. These labs are of different types, electrical and physics labs are just two to name a few. An added feature is a lecture wing. This wing will house three auditoriums. The largest will be on the ground floor and include a rotating stage and a projection booth. The other two auditoriums will be directly above the largest and half its size. These will be used for lectures. The total usable floor space of the building, not including hallways and closets, is 63,014 square feet.

Directly behind the Science Technology Building is the Data Processing Building. It is being built at the same time as the Science Technology Building. Only a small portion is being built now and the rest of it will be completed after the university grows somewhat. The completed building will be in the shape of a circle and hold the computer system.
Sports Shorts

The FTU Golf Club held its first intra-club qualifications meet Feb. 22 at the Howry-In-The-Hills golf course. Medalist was Mark Stockwell with a score of 70. Other qualifiers were Paul Heidrick, Dean Brunson, Mike Uts, Roy Johnson, and Larry Martin.

The club defeated the Faculty-Staff club 506 to 545 March 1. Medalist in that event was Mike Uts with a 70.0.

Coach Ken Renner, Director of Intramural Sports, announced that the spring quarter intramural sports for men are golf, softball, and track. The girls sports will be basketball, golf, bowling, and track.

Intramural tennis matches for men and women have started. Matches are played on FTU courts with players furnishing their own rackets.

Sports Writers Needed For Future

With the ever-increasing number of athletic sports and clubs at FTU, the Future is in need of personnel interested in sports to cover various programs. The Future has one Sports Editor, Jeff Pippin, who covers the majority of the athletic events. You are encouraged to write for the Future office at 2500 or come by room 153 of the Village Center.

Twelve men and women figure prominently in the first game. The Future is after a news source to cover the Varsity For the Physical Education Department with no financial support, donated 2 rubber balls and practice balls.

The girls sports will be basketball, tennis, and soccer. The soccer team consists mainly of players furnishing their own equipment with few exceptions.

The girls basketball team is coached by Mark Ostrander again. Captain Mark Ostrander and his assistant coaches are Bob Steadman, forward; Richard Schmit, forward; Mark Thorp, guard; and Larry Martin, center.

The girls tennis team is coached by Mark Ostrander, center halfback; and Don Miller, left inside. Mark Ostrander has one Sports Editor, Jeff Pippin, who covers the majority of the athletic events. You are encouraged to write for the Future office at 2500 or come by room 153 of the Village Center.

Sports Writers Needed for Future

With the ever-increasing number of athletic sports and clubs at FTU, the Future is in need of personnel interested in sports to cover various programs. The Future has one Sports Editor, Jeff Pippin, who covers the majority of the athletic events. You are encouraged to write for the Future office at 2500 or come by room 153 of the Village Center.

For More FTU Housing

For a situation. The group announced A legislature could ever do. For a housing at Palm Beach.

FTU Young Republicans Push For More FTU Housing

The FTU Young Republicans came out strongly in favor of more housing at FTU. A proposal was submitted to the YR Executive Board, and it was passed quickly. The proposal was submitted to the G.O.P. State Legislative committee which visited the FTU campus on Thursday, March 5. At a special meeting between the Young Republicans and the Republican State Legislators the committee discussed the proposal.

According to the legislators, the primary problem concerning housing was the state financial situation. The group announced that they would look into the proposal.

The State Legislative Committee of Regulations was formed to study the state and college campuses to obtain hearings and complaints of all students on any issue. The group visited FTU at the Village Center on Thursday. The committeeقدل الجد - co-chair Earl Dixon of Jacksonville and Bill Jones of Palm Beach.

According to Young Republican Vice Chairman Cathy Creel, the group "was one of the finest things the Republicans or the state legislators could do. For a change college students are finally getting a chance to voice their opinion." Paul Gougehan, Chairman of the Young Republicans, added that his club planned to fight right in the footsteps of the G.O.P. Legislators.

"We wish to help the FTU student, and we feel that housing or lack of housing is one of the most important issues. This is why we have presented this resolution to the legislators." Gougehan remarked that he had been in touch with Housing Director C. Bart Egert, and that he had been informed that due to the lack of state funds more housing would not be built until possibly 1972 or 1973. The Young Republicans felt that since the legislature was the group that funded such activities, someone would have to approach them.

You will find counterfeit student IDs on your campus. You will find counterfeit student IDs on your campus.

Tech Band Alive and Well

By MARY ANNA JACKSON

FTU has had a band since the winter quarter of 1969, but as noted in Arthur Haas, a flute player for the band, many students did not even know that the band existed. Right now the band has 25 members who play 12 different types of instruments, ranging from the flute to the bassoon. The band director, Mr. Edgar Williams, is an adjunct professor at FTU and band director at Winter Park High School.

The band has not given a concert since the well-received Christmas program last quarter which was held in the lobby of the Library Building. Arthur Haas said that this response to the band since the fall quarter has been better, but the band still needs more instrumentation. Among the instruments needed are trumpets, trombones, clarinets, oboons, and bassoons. Dr. Leonidas Sarakatsannis of the Music Department remarked that the band could double its size without encountering any problems.

The band's music is varied; it plays anything from classical to modern, or from marches to jazz.

CAMPUS GLANCES

Dr. W. McEniffon has been appointed as a Consultant to the National Water Pollution Control Foundation, Inc. and the National Manpower program entitled MANPOWER FOR A Clean Environment.

The reason I'm late from P.E. is because the hands drove someone "down in the locker room!"

FSA to Hold Congress at UF

A proposed Florida Student Association will hold an organization Congress at the University of Florida campus March 6 and 7. Approximately election of regional chairmen and on this university campus have an opportunity to make the changes that are important and make the changes that are necessary. It may take a little bit longer than any of us may like, but as we have happened in a democracy before, perhaps that is better than to do it in order for the changes to come to be for the sake of change. And we think that we must always in mind that if we don't take the chance of change, then we cannot do this one thing: to make the change and make the change in the best way. One of the things that Americans must keep in mind, and that is the opportunity to work towards building a better world without doing things better. And I believe that all of us must have the opportunity to work towards building a better world without doing things better. And we can have the opportunity to work towards building a better world without doing things better. And I believe that all of us must have the opportunity to work towards building a better world without doing things better.

WANT TO BE A B.M.O.C.? Want To Determine What Programs And Activities Come To The Campus?

You can by PETITIONING NOW for DIRECTORSHIP on the VILLAGE CENTER BOARD!

Petitioning opens March 1 and closes April 7
