FTU Endorses Proposed KSC Shuttle Site

The role of the Kennedy Space Center in planning shuttle flights in space has received a strong endorsement from key officials at FTU. Led by President Charles N. Millican, the FTU Advisory Council composed of the vice presidents and deans, has sent to President Nixon, the Director of NASA and pertinent Legislative Assistant a resolution which endorses the Kennedy Space Center as a space shuttle site.

A special session of the US House Subcommittees on manned space flight, which includes membership from the Florida Congressmen, Lou Frey, Jr. and Don Fuqua. This session will be held April 10 at Cape Kennedy to consider views of such a site by several prominent Floridians. Among the group to be present is the President of the University of Florida, Steven C. O’Donnell, representing the universities of Florida. There will be new legislation on education relationships at the Kennedy Space Center. In their resolution, FTU Advisory Council planned a significant role.

Clubs Look To SA Recognition

FTU clubs and organizations have now received initial approval by Student Affairs, the FTU Peer Review Board. Although Student Government approved a constitution for each club, formed, Student Affairs has not yet given recognition to the 30 student clubs. All organizations were required to submit their constitutions to Student Government to attend a constitutional workshop April 7 where the procedures for writing and submitting a constitution were discussed.

Dean William Proctor, representative of the Student Union, talks about the need for having Student Affairs to satisfy the constitution and review them whenever necessary, and turn them into the Student Government office. There from they will go to Student Government where they will either be turned down and sent back for more revision or recognized.

On The Inside With Dick Gregory

"The youth of America will have to solve problems they had nothing to do with creating, that were here before they got here," said Dick Gregory at a recent appearance in a special event at FTU April 6. The theme of the Gregory was a special event at FTU April 6. The theme of the Gregory was "Civil Rights" and his entire talk was based on the problems of this "Righteous Acquisitor" and what the youth are up against.

Gregory talked about a number of subjects, those prominent being the news media, the Chicago Seven, drugs, democracy, tricks of the adults, the postal service, law enforcement, the Supreme Court, and Nixon, riots, and poverty. His speech was sparked by a great deal of spontaneous humor and he尤其 approached the stage with the sound of the drum. The audience was also introduced by Chris Schmidt, general station manager of WKYU, and approached the stage with the sound of the drum. A banquet at the Hendon

LOOKS like the get her man. Well, after all, it was Sadie Hawkins Day. For more on FTU’s celebration of the event, see pages 7-8.

Commencement Speakers Proposed by Committee

The Ad Hoc Commencement Committee has sent President Charles N. Millican a list of proposed guest speakers and platform guests for graduation exercises. However, President Millican feels that it is unwise to release the names of the person on the list, because of the possibility that the person of his initial choice is unable to attend, another speaker from the list will be selected. Thus, if the names were published now, the second speaker chosen (if there is one) may feel that he is being considered second best. As soon as a speaker accepts the invitation, the name will be published.

One of the subcommittees is working on distribution of diplomas and the assembly of graduates and faculty prior to commencement. The subcommittee is investigating the various necessary details of diploma distribution. Another subcommittee is working on the distribution and retrieval of caps and gowns. Printed instructions concerning commencement will be given to the students and faculty prior to commencement exercises. Since it is impossible to find a convenient time for rehearsals, those instruction sheets will be extremely important.

Mr. Dick Maxwell, manager of the bookstore, has ordered 5000 graduation announcements. He expects them to come in soon. Student Government is giving the graduating seniors ten announcements free of charge, and the bookstore will sell the students any additional announcements they may need. Given measurements will begin in two weeks, the past few weeks, the past few days, their 150 graduating seniors will be ready for the graduation fee, which should have been paid by April 7, the end of the Add-Drop period. Joseph Oates of Finance and Accounting stated that arrangements for late payments of graduation fees may be made, but if a graduating student fails to pay his fees, he will not receive his degree in time, or at all, or his cap and gown.

The FTU Bookstore now has copies of the annual publication. The Catalyst, "a launching pad for creative ideas," is on sale for 81. The magazine is published in which you have published your personal programs, plans, and opinions on any topic. It is a free newspaper on sale for 31. That the Catalyst enables you to speak out freely, honestly, and seriously. It publishes short stories, poems, and poetry.

In Doubt? Tech AAUP Chapter Questions Facilities

Final accreditation for FTU may be delayed due to lack of personnel, facilities, and seating capacity of the library. The Catalyst learned this week. Final accreditation is scheduled to occur after FTU has graduated a class of seniors.

The following resolution was passed by a unanimous vote at the April 7 meeting of the FTU Chapter of the American Association of University Professors (AAUP). We urge the proposed Governor’s budget for next fiscal year provides no additional funds for the operation of the Florida Technological University Library, and

Whereas, By the time the student opens in October 1968, and

Whereas, Enrollment figures have been that doubled since October 1968, and

Whereas, The purpose of this institution continues to increase to accommodate the rising enrollment;

Whereas, The library collection is inadequate to support the undergraduate programs; and

Whereas, Graduate programs are being added without additional funding for library materials; and

Whereas, The seating capacity of the library is less than 200 seats with over 3,400 students currently enrolled; now, therefore, be it

Resolved, The FTU Chapter of the American Association of University Professors urges the Florida Technological University administrative officials, the Board of Regents, and Members of the Legislature to increase the budget for the FTU library in order that the staff may meet the University’s increasing demands; and

Whereas, The students and faculty provide its valuable service to the FTU students and faculty;

In essence, the resolution states that the facilities and personnel of the FTU library have not been increased enough since the opening of the library to meet the needs of the students and faculty.

On The Inside With Dick Gregory

"The youth of America will have to solve problems they had nothing to do with creating, that were here before they got here," said Dick Gregory at a recent appearance in a special event at FTU April 6. The theme of the Gregory was "Civil Rights" and his entire talk was based on the problems of this "Righteous Acquisitor" and what the youth are up against.

Gregory talked about a number of subjects, those prominent being the news media, the Chicago Seven, drugs, democracy, tricks of the adults, the postal service, law enforcement, the Supreme Court, and Nixon, riots, and poverty. His speech was sparked by a great deal of spontaneous humor and he especially approached the stage with the sound of the drum. The audience was also introduced by Chris Schmidt, general station manager of WKYU, and approached the stage with the sound of the drum. A banquet at the Hendon

**Yong Republic Speak**

C.C. What kind of name is that for a column? Well, it could stand for Campus Commentary, Cautionary Chauvinism, or perhaps Conservative Critique. But everyone knows that many medicines, especially those for grave illnesses, are measured in qts. And everyone knows that this country and its campuses have some grave illnesses.

Let me explain. If everywhere you called to the cause and provided the usual number of panaceas but these have been something less than successful. The campuses are populated with many groups; some are well intentioned, others are less constructive, but the overall result is mostly nonaccomplishment. So it appears that the doctors need more and more often finding no place to it in the library. The Future, P.O. Box 26278. All replies from responsible parties only. The sporty crowd is a target of your campaign. The library may even experience a spike in the number of controver sial ideas and thoughts.

CAMPUS GLANCES

The brothers of Pi Kappa Epsilon are reading for this weekend's 60 hour marathon car wash. Things are all set, and the brothers hope a lot of people will show up, since the marathon is benefiting the Florida Sheriff's Boys' Ranch, as well as the fraternity.

**Minority Groups Are Represented**

Effects by Florida Technological University to increase enrollment and participation on campus from minority groups have been recognized in a letter to PTF President Charles N. Millican from U.S. education officials in Atlanta. A letter to the HEW regional office notes a March 20 report from every promising to such efforts. A second report is due May 31.

Your overall plan indicates that you, our administration, and staff are cognizant of an ever increasing need to expand opportunities to minority group members, the HEW lettering part.

Dr. Millican stated the University is constantly aware of the need for increased participation by minority groups. "We are currently expanding the role and structure of membership in our Equal Opportunity and Equal Opportunity Council," the president said. "We continue to recruit minority students to the Florida Technological University, and persons for the faculty, have met with black community leaders in attempts to improve current recruiting procedures, and maintain equal employment opportunities in all departments of the University."

Dear Editor:

The Ki Young Youth Center has been serving the community and its members for its entire history, and its growth is the result of the ongoing efforts of its many members. The Ki Young Youth Center is an organization with approximately 16,000 teenage members, and it is the only such organization in the country.

In our maturationally affected society, the only truly valuable thing we can offer to young people is encouragement and appreciation. The job done by this fraternity, by its president, Russell Pryor, is exceptional.

On behalf of the Board of Directors, staff, and members of the Orlando Ki Young Youth Center, we thank you and invite you to observe their annual gala on Wednesday night in the Orlando Civic Center.

Appointments Approved For Three Professors

The appointment of three faculty members to the positions of Chairman of Business-Vocational Environmental Sciences, and Teaching Analysis is the week.

Dr. David E. Hernandez, Chairman, Teaching Analysis Program, College of Education, has been Associate Professor and Chairman, Teaching Analysis Program, College of Education. Dr. Miller, a native of Lake View, South Carolina, has been Associate Professor and Acting Chairman of Business Administration at Florida Technological University since Jan. 1, 1968. A native of Tampa, Fla. Dr. Hernandez received the M.S. in environmental health, and Teaching Analysis at Florida Technological University in 1968. A native of Tampa, Fla. Dr. Hernandez received the B.S. Degree from the University of Tampa and the M.S. and Ed. D. Degrees from Florida State University. Dr. Waldron M. McAllister, Department Chairman, Civil Engineering and Environmental Sciences, College of Engineering, has been a member of the FTU Engineering faculty since Sept. 1969, with specialized interest in sanitary/environmental engineering, environmental health, and radiological health.

The Washington, D.C. native received the B.S. Degree from the United States Naval Academy and M.S. Degree from Ohio State University. He also received the B.C.E., M.C.E., and Ph.D. Degrees from Rensselaer Polytechnic Institute. Dr. McAllister came to FTU from Clemson University in South Carolina, where he served as Associate Professor of Engineering from 1966 to January 1968, and as the United States Navy in 1963 and having served 27 years.

Dr. Ernest E. Miller was named as Chairman, Business-Vocational Environmental Education Program, College of Education; Dr. Miller, a native of Lake View, South Carolina, has been Associate Professor and Acting Chairman of Business Administration at Florida Technological University since Jan. 1, 1968. He has been active in the development of the business education program, and has assisted in the development of programs for secondary education majors.

Dr. Miller received the B.S. Degree at Appalachian State University (N. Carolina), the M.S. at Florida State University, and the Ed.D. at the University of North Dakota. Prior to joining FTU, Dr. Miller served in an administrative and teaching capacity in the Business Teacher Education Department at the University of South Florida. Along with memberships in professional and honorary societies, Dr. Miller was appointed by the Florida Commissioner of Education as a member of the State-Wide Advisory Committee. He is a member of the Executive Board of the Florida Business Education Association.

SA to Sponsor Car Rallye

Sigma Alpha’s “Run-to-the-Beach Rallye” takes place tomorrow, with registration at 2 p.m. and starting time at 3 p.m. The “Rallye” is open to everyone for an entry fee of $1.50 and it will start from Parking Lot 1 and will reach New Smyrna Beach in approximately two and one-half hours. At the beach party Sigma Alpha will present a trophy to the winner of the “Rallye” and a seven outrage tape for the second place winner. The Sigma Alpha, the Sigma Alpha pledges proposed the “Rallye” and Philip Robertson, one of the Sigma Alpha brothers, expressed the hope that the “Run-to-the-Beach Rallye” will become an annual event.

The FTU Student Chapter of the Association for Computing Machinery will hold the second annual Computing Machinery meeting of the year at 4 p.m. Tuesday in the library lobby. The topic for the meeting is "Computing Machinery—A View of the Past and the Future" and the speaker for the meeting will be Mr. Robert E. Miller, President of the Computer Society of the FTU Student Chapter of the Association for Computing Machinery.

The U.S. Atomic Energy Commission has awarded a matching grant of $9,400 to FTU for the purchase of laboratory equipment to be used in sources.

A stipulation by AEC requires that the grant must be matched with an identical sum from non-Federal sources.

The application of the funds will be directed by Dr. Leslie L. Ellis, Director of Research and Graduate Studies at FTU, who will be the principal investigator in charge of the research.

The AEC award brings to 12 the number of grants that have been matched with funds from various sources. The research will be conducted in the Fort Lauderdale area and the facilities will be located in the University of Miami, Miami, Florida.

The grant will be used to purchase laboratory equipment and materials needed in the undergraduate nuclear education program in chemistry and physics.

Weightlifters

Take Honors

Two members of the FTU
Weightlifting club participated
recently in the State Teenage
Weightlifting Meet at Jacksonville.
Representing the club were Farrell
Byrd and Kevin Schnur, each taking
first place in their individual class.

All teenage boys in the state were
eligible to enter, with more than 50
boys competing.

The next scheduled meet for the
club will be in the State Collegiate
Meet at the University of Florida
April 17. Competition will be
among all colleges and universities
in the state as well as a few junior
colleges.

The FTU Soccer Club is still
fighting hard to become the next
varsity sport. In their last
scrimmage at the close of the
winter quarter, the team lost to
Rollins College 2-0. But Mark
Ostrander, the team captain, said
the FTU players looked very good
against the Rollins team, ranked
number ten in the nation. The
club's next scrimmage will be
played with Stetson University.

The FTU Golf Club will meet the
Seminary of St. Vincent De Paul in
a golf match tomorrow in Delray
Beach. This is the first match for
the FTU golfers with "outside"
competition. The members of the
club include: Wayne Leland, Mike
Urs, Paul Heidrich, Dean Brunson,
Mark Stockwell, Bob Ashton,
Roger Cooper and Ray Johnson.
The faculty advisor for the club is
R. D. Hunter.

Golfers To Have
First Match

INTRAMURAL Schedule

Spring Intramural Schedule:
MEN
Basketball play-offs will begin
next week with the semi-finals on
Wednesday and the finals Thursday.
The pairing will be as follows:
1st place fraternity vs 2nd place
independent.
2nd place fraternity vs 1st place
independent.
Men's softball entry deadline is
April 27 at 4 p.m.

WOMEN
Basketball entry deadline is April
13 at 4 p.m. There will be an
important meeting of all captains
on April 14 at 4 p.m. in GC 226.

MEN AND WOMEN
Men's and women's entry
deadline for golf is April 16 at 4
p.m. A meeting for pairings will be
held in GC 226 at 4:30 p.m. on
April 16. The meeting will be posted
on April 17. Competition will be held
at the Cape Orlando East Golf
Course on State Road 520 east of
Orlando. This will be a team event
with four individuals to a team.
Women's competition will be held
Saturday April 18 and men's play
will be April 19. Green's fees are
$5.

CAMPUS GLANCES
Attention Folk Musicians!
The "Underground" Coffee
House, a non-profit, non-denominational
organization, is planning its second annual "Folk
Festival" May 9. This festival is a
fund raising event necessary to
keep the Underground in operation.
All folk musicians, singles or
groups, interested in donating their
talents for part of the evening, are
requested to phone 838-8914 or
447-5449.

The brothers of Pi Kappa Epsilon are inviting all the people in the Orange County Juvenile Home. Teams were chosen with half-children and half-brothers on each team. Turning towards the future, SA will sponsor a car rally-beach party tomorrow with registration beginning at 2 p.m. in the PTU parking lot. The cost of the rally is $1.50. It will end at New Smyrna Beach with a party. A trophy will be presented to the winner and the function is open to the public.

The brothers of Pi Kappa Epsilon are inviting all the people in the Central Florida area with dirty cars after brothers won the softball game held Central Florida area with dirty cars. It seems that lately when I see a bunch of boys, one in particular, my nose runs and my eye watches him. Despite my useless efforts, I'm still only the girl that will lend him a number six needle.

I started knitting my formal for the spring fling, and now all I need is for him to take the lead. Narcissa, Narcissa, I need some womanly advice, please, and soon!!!

Dear Wilted Pits,

(Are you any relation to Zand?) You could knit yourself some dress shells in case that doesn't help, you will be glad to know that I have announced that Don Mathis is the new vice president of the fraternity. In case that doesn't help, you will be glad to know that I have announced that Don Mathis is the new vice president of the fraternity.

Dear Narcissa,

I'm a mature college girl who will past the puberty stage and my girlish desires are finally coming into focus on the boys. It seems that lately when I see a bunch of boys, one in particular, my nose runs and my eye watches him. Despite my useless efforts, I'm still only the girl that will lend him a number six needle.

I started knitting my formal for the spring fling, and now all I need is for him to take the lead. Narcissa, Narcissa, I need some womanly advice, please, and soon!!!

Signed, Wilted Pits.

College Advisory Council Now Taking Applications

Governor Claude R. Kirk, Jr. has announced that the Governor's College Student Advisory Council is now taking applications for the term beginning June, 1970. Students selected will serve until their graduation. This Council serves the vital purpose of channeling youth views directly to the Governor, of providing a student sounding board for the Governor, and helping to coordinate state-wide student concern.

Organized in the fall of 1969, the Advisory Council is composed of twenty-eight students selected at the Governor from all Florida institutions of higher learning which award bachelor's degree. Requirements for membership are: 1) knowledge of youth interests and problems, by virtue of involvement in campus community affairs; 2) willingness to serve, and 3) demonstrated ability to perceive and work with youth interests and problems.

The Council meets with the Governor six times each year at Tallahassee to discuss ideas and proposals on issues relevant to youth, between meetings each Council member works on a task force which researchs and develops an area of particular interest. At the present time, there are six task forces in operation: 1) Environmental, 2) Talent and Cost of Education, 3) Youth Advisory Boards, 4) Drug Clarification, 5) Board of Regents Study, and 6) Board of Trustees Study.

Applications submitted now will be considered for vacancies arising throughout the academic year 1970 and 1971. All applications are reviewed by the Council's Nominating Committee before being referred to the Governor for appointment.

If you are interested and feel you have the time and ability to serve, please pick up an application at the Village Center main desk. Applications will be returned to the Governor's Office no later than May 1, 1970.

Sociology Students
Placed In Agencies

Nine sociology students who are studying in the social welfare program will begin their placements in social agencies in the spring quarter. These agencies have been selected by Dr. William D. Allen, Professor of Sociology and Director of the Social Welfare Program. The agencies will provide the students with learning experiences under the supervision of professional workers. Placement in local social agencies is scheduled in the fifth course of the six-course sequence, according to Dr. Allen.

The agencies selected and the students assigned to them are as follows: Catholic Social Services, Chris Neuhaus; Florida Alcoholic Rehabilitation Program, Outpatient Clinic, Brenda Owens and Charity Hart; Children’s Home Society of Florida, Ann Lapp and Patricia Nolan; Orange County Welfare Department, Mary L. Blake and James H. Conley, and Florida Division of Family Services, James Benoit and Neil Richards.

The students have the opportunity to relate to and apply classroom theory and knowledge while actually working with clients who are experiencing some social dysfunction. These learning experiences, depending on the agency, will include reading, writing, and studying case records, interviewing clients in the agency and in their homes, conveying case loads; working with professional staff in the treatment of alcoholics; participating in adoption studies; and placement of foster children; placement of children in foster homes; and attending staff meetings, board meetings, and supervisory conferences.

Allen explained that several hundred colleges and universities throughout the nation offer undergraduate programs in social welfare. FTU is just beginning this program with a help of a $42,000 grant through the Division of Family Services, Florida Department of Health and Rehabilitative Services. It is anticipated that the program will grow in both number of students enrolled and in the number of students placed in field placements.

Don Allen stressed that this is not vocational training or on-the-job training, but pre-professional education similar to student teachers in their internship programs. The FTU social welfare program is designed to enrich the liberal arts education of the students; to prepare students to pursue graduate work in social welfare; and to provide a sound preparation for professional social workers.

Pollution Theme
Of FTU Teach-In

The Teach-In concerning pollution and ecology, on April 25, will be held from 11 a.m. to 1 p.m., on the Village Center Patio. It will be sponsored by Student Government, the Sigma Sigma Chi Fraternity and the Biology, Outing, and Delta K Chi Chi clubs. The Publicity Committee is Greg High, Al Jen, and Rob Stansbury; the sponsor folk singers, political speakers, and FTU downtown merchants. The professor will speak on biology and sociology.

For anyone, who wants that extra bit of fun, there will be clean speakers, and efforts of those involved and up workshops, at the Econ River, professors will speak on biology

Come to "obh." Next Tuesday, April 14, at 11 a.m. in Odonn lounge "obh" will open. High Tavel will begin the discussion "LBD and God." Everyone is invited.

SOCIOLGY students pictured are: Ann Lapp, Mary Blake, Chris Neuhaus, Patricia Nolan, Charity Hart, James Benoit and Brenda Owens. In back of room is Dr. William D. Allen, professor of Humanities and Social Sciences.

Speakers to Highlight VC Event-Filled Week

The week of April 15-17 will be an eventful one for the FTCU campus and community. Appearing Monday evening at 8:15 p.m. in the Science Auditorium is Dr. Ronald E. LeBleu, a technical specialist with the LE, DuPont de Nemours Corporation in Wilmington, Delaware. Dr. LeBleu is young, dynamic executive whose scientific research has turned up some interesting facts concerning the generation gap between older and younger scientists as well as the disparity in the values of college students today and the values of their parents. Dr. LeBleu will speak on "The Generation Gap-Some Thoughts On How We Can Bridge It" and will bring his scientific training to bear on the subject. He is sponsored by the Village Center and the College of Natural Sciences.

On Thursday, April 14, at 11:00 a.m. the film "Dimensions" will be shown in the General Classroom Building room 13. This artistically composed film depicts the variety of cultural activities and organizations in the Orlando area, public.

The College of Business Administration and the Village Center are sponsoring an entire day of programs on April 15. Mr. Hugh E. McCoy, Orbital Systems Manager at the Kennedy Space Center, is an insider when it comes to planning the future space programs of the United States of America. Mr. McCoy will give an intimate glimpse of the aerospace industry's future in his discussion Thursday, April 16, at 8:30 p.m. in the Science Auditorium.

All of the above programs are free of charge and are open to the public.

**FTUARC Competes In QSO Contest**

Last weekend the FTU Amateur Radio Club was competing with several other Florida amateur stations in the Fourth Annual Florida QSO Party Contest. The club set up three ham stations on the 3rd floor of the science building and adopted Cecil Poston's (faculty advisor) call letters K4PWC for the event.

Between early Saturday morning and 7 p.m. Sunday evening the club had made 284 contacts representing 50 different sections, placing K4PWC in the top contender for first place. The more outstanding contacts came from as far away as Italy, Germany and Czechoslovakia as well as South America.

The contest winner is determined by the number of contacts made by a station multiplied by the number of different states (or countries) associated with each contact; the largest number determines the winner.

Club members participating in the contest were: Dave Trimble, Tom Byeon, John Davis, Floyd Van Auken, Mike Whidden, Jerry Vondracek, Bill Corriveau, Cecil Poston (faculty advisor K4PWC), Ed McCarver, and Dr. Mathews. Officials results from the Florida Skip will be released next month.

Dave "Trimble" (left) operates as Dr. Mathews logs the contacts in the FTUARC which competed in the Florida QSO party last weekend.

**Bill Amendment Proposed by SG**

The Student Government of FTU is now considering amending the Constitution concerning eligibility requirements of the president and vice-president of the student body. The proposed amendment is reprinted below and will be brought up for ratification by a 2/3 Senate vote at the April 16 SG meeting.

If you have strong convictions, pro or con, concerning this proposed amendment, see or write your Senator in care of the Student Government office prior to the April 16 meeting.

Florida Technological University Student Senate Bill No. 2-17

**Constitutional Amendment**

**Changing Eligibility Requirements**

1. Be it resolved that Article III, Section 4, subsection B of the Constitution

2. of the Student Body of Florida Technological University shall be amended

3. in the following manner: the word "Sophomore" shall be substituted for the word "Junior".

4. Announced shall be the amended subsection shall be stricken. The word "Sophomore" shall be substituted for the word "Junior".

5. The amended subsection shall read: To be eligible to seek and hold the office of President or Vice-President of the Student Body, a student must be of at least Sophomore classification when assuming office.

6. the office of President or Vice-President of the Student Body shall be
denied.

The next major program involving the FTUARC will be the Orlando Hamfest, May 23, at the Statler Hilton Inn on W. Colonial Dr.

**Dig Thyself Theme**

Of New Program

The Developmental Center is now registering students who want to participate in personal growth groups.

The groups are designed for students who are psychologically healthy but want to increase their self-understanding and effectiveness of interpersonal relating.

Many of the growth producing activities to be used have been developed in sensitivity, encounter and role-play type groups. Emphasis will be upon relating to each other in the here and now rather than upon hang-ups from the past.

Another distinction will be greater emphasis than is true of other approaches upon identifying and using personal strengths as opposed to charging weaknesses. Interested students should stop by the Developmental Center and sign up.

**Club Chairman Paul Gougeon**

of the Young Republicans has announced that the voting age will most likely be lowered. Already the United States Senate has passed a bill to lower the age to 18 nationally. If the House consents then the next Florida election in November may see 18 year olds voting.

As a result the Young Republicans will announce a special education course starting at the next meeting, Thursday, April 23, 1970, the Young Republicans will offer a course to the student voter and the prospective new voter to understand Florida politics and the candidates who are involved. Gougeon stated one very important point. He stated that this course would be impartial and would involve a discussion of both Democrats and Republicans.

Treat From Daily Routine
Brought Good to FTU

FTU's recent guest, the president of Clarion State College in Pennsylvania, has visited after a visit, a particular, was Dr. James Gemmell, FTU. While he was here, he was development of a graduate program in the College of Education, and in development of a Seminar in Education. Dr. Gemmell felt that it was the "time to get away from the daily routine and administration and get back to the classroom."

The major problem of having an exchange program is that Europe has a differently structured university system. Therefore, in most countries the possibilities of exchange at the undergraduate level are remote. According to Dr. Gemmell, "the idea of the curriculum at Cambridge is highly specialized." Students read material covering only one area. There is a general education because it is supposed to be accomplished at the secondary level.

The public school system has a duration of 13 years and each student must take 10 subjects. Therefore, entering university students in England are better prepared. FTU's study to discover whether we might learn from each other; and to explore the possibilities of exchange."

Students Needed

For College Bowl

The Village Center is looking for students who are interested in helping the College Bowl program scheduled for May. Needed is a moderator, several judges, time keepers, and scorers. Students interested in these positions please contact the Village Center Main Desk.

Entry blanks for the double elimination tournament scheduled for the latter portion of May have been sent to all student organizations. However, if you are an individual student not belonging to a campus organization or an organization not sponsoring a team, you can still participate in College Bowl by leaving your name at the Village Center Main Desk. The Village Center will take the individual entries and make them into teams of four players.

Everyone is invited to participate.

York's to Sponsor Project Wake-Up

The Young Republicans Club of FTU will sponsor a "Project Wake-Up" rally on campus on Monday, April 14. The project is designed to awaken the American college student, as well as the general American public, to the value of the American ideals. Love and respect for America will be emphasized throughout the project.

The project also is designed as a counter-measure to the Moratorium day march on April 15, that is being inspired by the Student Mobilization Committee. College students who were invited by their parents and to the rest of the country. The campus coordinators are demanding the right to sit in on the bottom of this page, and all achieved. John's classmates. John would have been sufficient? Foundation . He was called into the army. Since his induction, John has been working with the Moratorium Movement, and is about to be notified about induction.

Henry was an American ideals. Love and respect for America will be emphasized throughout the project.

Pegasus Meets First Deadline With Ease

"The yearbook is coming along beautifully," said Ron Page, editor of the Pegasus.

Approximately 1,760 copies have been sold, 46 of these to FTU faculty and staff Page estimated 3,000 copies will be ordered, and the surplus copies will be presented to

Web Site: wwww.pegasus.org

Here’s What You Get for only $8.95

• Machine thoroughly checked.
• Type and Platen (roller) cleaned.
• Minor adjustments made for thorough cleaning.
• Free estimate for major repairs

Trade-In below:

Gregory

(Continued from Page 1)

the law enforcement officers do.

On the Chicago Seven Trial: When the jury went to deliberate

and politicians looking the other

way, there would be no dope here.

money. The federal government knows

every dope pusher in America. If they

know every opium agent, you know they

know every dope pusher. They also know where the
dope comes from. Without cops

and politicians looking the other way, there would be no dope here.

On democracy: If democracy is as good as say it is, why are we

running away from it? Running away from it is what is making it
down people's throats with a gun. If something is good, people

steal it.

On the tricks of the adults: We've

used up all the tricks. Getting Nixon's

assistance, the only help Nixon had

was that last trick this country has.

On the problem of dope: It would have
cost more money to get the army to deliver mail for three months than it would have cost for the postal
group to get their raise for the rest of their lives. This is the only country in the world where the college kids don't

back the workers. College students should have sided behind the

postman.

On law enforcement: If you try
dynamite in defense of getting some

money, it's all right. The

police are the number two man in the country. When a man is

planted in a responsible position

with little money he will rebel and
takes it out on the poor people.

On the Supreme Court nominees: President Nixon had to pick

one person out of 200 million for the SC and he picked Haynsworth

saying: 'He's the most honest man I

know.' Nixon isn't lying. They have

reached further into the barrel of

secrecy and picked Caswell.

On the dollar: It's a sick, degenerate nation that doesn't give a
damn about anything but that dollar.

On racism and Viet Nam: I'm not

worried about your racism today. I'm worried about your insanity. If

I got killed in Viet Nam and my mothers would give $15,000 she couldn't

buy a house in any neighborhood she wanted in this country. We'll
deal with your insanity.

On women: Men have to see to it

that women in America become first
class citizens. All women should be looked at as human first

and women second.

On education: One day school

teachers should be one of the

highest paid professions in the

United States. Not now. The

teachers will strike and close the

schools when it's their own dollar, but

when Nixon cuts the education

budget, which is the LId's money, that is when they would strike and

close. An educational system in the

nation.

On integration and busing: Who

are the white people going to hurt if they refuse to let kids go to

school? Black folks have been busing in past white schools for

50 years? Just to promote segregation, so why do white folks think they have come up with something new when

they introduce busing to promote integration?

On President Nixon: The same

people who voted Nixon in will vote him out. He said he was going to

share the wealth and he gave more money to the AFB and

wound a living bill. Nixon is the dumbest white boy that ever followed

in the White House in the history of this country. If you put

Nixon in all the great colonial days and the states, the blacks would

take over the country.

On riots and the Declaration of

Independence: If everyone should go

to the library and copy down the

Declaration of Independence. When people are burning down cities, they should be read the Declaration so they can see what they are destroying. When rights are destroyed, democracy is. In six months there will be a low economy unparalleled in the history of America.

In concluding his speech, Gregory

addressed the audience and youth in
general saying, "Thank you for changing our civil rights movement into a human rights movement."

According to Ken Lawrence, Director of the Village Center, "most likely that Gregory was, by far, the best speaker we've ever had on campus. If he didn't do anything else, he made us think.

Bill Taylor
