Our Spaceship Is Filthy

By Daniel Kasier

For two hours this past Tuesday, 125 FTU students sat in the hot, midafternoon sun, listening to several speakers expose the contemporary problem of environmental destruction by man. Thus was the Environmental Action Teach-In, a Sigma Chi Fraternity, Circle K, and the Biology and Oeding Clubs. Their purpose, as spokesman Greg High of Sigma Chi Constanly expressed, was not just to show students the numerous problems with pollution in the Orlando area, but to also inspire FTU students to take some course of action to alleviate these problems.

First guest speaker was Hal Scott, treasurer for the Florida Audubon Society. He told students that the earth, like a person, has a certain amount of our resources.

Following Scott was Dr. David Vickers, a biology professor at FTU, who explained the principle of pesticide pollution. His main concern was the pollution that extends extensively around the area, and the effect it has on the human body. Vickers said that there are other, less harmful chemicals that can be used as pesticides, but that they are not used so much because they are more expensive.

After Vickers, the folk group, "Gyrate," performed for the audience on students, billed accidentally as "Clean Rain," the group appeared again, later in the program. On sale, throughout the program, were blue and white environmental pins, and booklets describing the nation-wide Teach-In. Vickers was also at the helm of a demonstration.

The Environmental Teach-In is planning a special Sunday Supper on campus, this Sunday, May 30. The group is also planning to take Wilter Park and Market Square to the Center for the Central Florida Museum and Planetarium through Tuesday, May 5. Of special interest to English and sociology students, a special exhibit covering the myriad aspects of pollution, and the impact of the development of our language.

Bus Service Show Loses Interest

Last week there was a questionaire concerning those students who, in their spare time, spend time on weekends from the college campus. As a result, 12 students showed their desire that it was wanted. Accordingly to the lack of interest, Mr. Reb Gaybert has decided not to initiate any service to the campus on weekends.

Would you like to spend the years after you leave, the student studying in Madrid, Spain? Or in Freiburg Germany.

The Year Abroad Program of the Associated Mid-Florida Colleges (AMPC) has limited opening for Fall of 1970 at the University of Madrid and the Pedagogy College. Interests are needed in the academic credit arranged through your home institution or one of the AMPC schools. Bethune-Cookman College, Florida Roosevelt College, Florida Southern College, Rollins College and Stetson University.

Total cost for $2,500.00 includes transportation New York to Europe, tuition, room and board, health insurance.

Astrip Proposal

The Pegasus Pilots, FTU's flying club, has submitted a proposal to the administration requesting a section of campus land to be used for the building of an airstrip. The proposal was received by the student's president, Milton, who referred it to his Advisory Board. A reply is expected soon from the Board.

Communication Process

The problem involved in adequate communication between groups of people is not one that a newspaper is very familiar with. The definition of communication for the news media should be the acquisition of information from one source and the relaying of this information to another source. Between these two processes come notetaking, writing, rewriting, headlining, typing and printing. The problem, however, does not lie with any of these factors.

The problem is inadequate cooperation from sources in getting the news. The FaTure is presently the main source that the majority of students and faculty members have for receiving news. We hope that the FaTure has built up a reputation in the past two years for responsibility, truth, and accuracy. But how can a newspaper live up to these features without cooperation from news sources in distributing information.

Time and time again FaTure reporters have approached news sources for a story and have been told to wait a few weeks. These sources then tell they will contact the FaTure with the full story. They are not only never heard from again but the same story often appears in a news release or another local paper.

These answers may not be deliberate and may come from forgetfulness part of the time, but working on a college newspaper is supposed to be voluntary. If we are constantly told to wait, the people who really need to see the information may never find it.

The communication process has been drastically misrepresented by many and we feel it is about time that these people woke up and realized the need for responsibility in the students in allowing them to know the entire truth about every facet of news on the FTU campus.

Blowing In the Wind

How many roads must a man walk down before he can walk on clean soil? How many seas must a man sail before he finds one without oil? How many tests must an idea flow before nature’s balance is spoiled? The answer, my friend, is blowing in the wind.

Blowing in the wind is all the mountainous strings that can be blown together.

How many years can the mountains exist till man kills and misses every tree? How many rains can the factories exist ‘fore they kill all the life in the seas? How many times can man afford to turn his head and pretend that he just doesn’t see the pollution, my friend, that’s blowing in the wind.

How long will it blow in the wind?

Wordy’s World

HI THERE! I’M A THUNDERBOLT... YOU CANT SEE ME BECAUSE I’M AND ENZYMA! ENZYMA! ENZYMA! REPRESENTING A LOT OF EMPTY NOISE... BUT NO ACTION. NOW WE ARE FINALLY BEING USED FOR SCHOOL MASCOT!! LET ME INTRODUCE MY OFFICIAL COMPETITION.

Letters To The Editor

Card Thief Sought

Dear Editor: The FTU card thief (that sneaky individual, that infamous unfeeling person who crept under the cover of darkness up to the second floor bridge table and stole our cards) has nearly destroyed our faith in mankind.

To the professor who stole the cards earlier this quarter, we would like to take this opportunity to ask him to please leave $1.75 with the L.R. second floor mail to save that new bridge and pinhole cards may be purchased.

Perhaps those professors and individuals who have expressed their scorn and unhappiness with those students who spend a sizable portion of their time at the bridge table should check the dean’s list before complaining that card playing is “running the GPA’s” at FTU.

Sincerely, Anne Lynch

Lit. Club Thanks

Dear Editor: The Language and Literature Club of FTU wishes to take this opportunity to sincerely thank those outstanding professors who gave of their time to help with the Professor’s Car Wash. And thank you, in order as well, for the students who participated in the event.

It was a demonstration of faculty-student cooperation such as has not been seen on this campus before.

Sincerely, Anne Lynch

Pollution Comment

Dear Editor: I would like to comment on FTU’s Anti-Pollution Rally. The rally speakers really said very little that hadn’t already been said and in several instances less enthusiasm than their topics deserved.

After all, how can one expect to stir a group to action when they themselves try to lead with so little enthusiasm, being evident? As the program progressed, I kept asking myself had the program shed the light on the problems it had intended to reveal, or was the final act, the irresponsible act of smoking an old worn-out car, going to destroy the good intentions of the organizers. The climax smashed not only the car but the good intentions.

I am afraid that the public is not yet ready to accept responsibility for the pollution problem. I have found that a majority of people refuse to accept fair responsibility for their actions.

The smashing of the car, symbolic as it may have been, only showed that this childish act was just another irresponsible act by a few college youngsters. This act killed all our purpose, showing the community we live in that we are responsibly concerned people.

I feel the act was probably carried out with good intentions but would it not have been more effective if the sponsoring fraternity had accomplished something constructive or at least original.

They could have cleaned up the dump area on the East side of our campus or picked up some of the hundreds of beer cans and other trash between our campus and Highway 50. This would have presented a better picture to those who look to FTU for leadership in such campaigns. Our campus is fine, but it would be even better with responsible actions. When we all become more aware that our community is watching us and we become more responsible citizens, then and only then will we be capable of cleaning up our environment.

I am a concerned student

CAMPUS GLANCES

A Field Day is coming to FTU. The days events will include a tug of war, tug-of-war, tug-of-war, string kite contest (open to individuals or groups) and a cook out.

Mrs. Kathy McClintock of the Village Center and Mrs. Joel Wilson of Business Administration have been feeding the resident dogs on campus. Food and water have been left at the back door of the Village Center, and the dogs seem to be benefiting from the care.
New Board Directors Announced by V.C.

The Village Center recently announced its Directors of V.C. Student Activities for 1970-71. They are Jim Edgington, an FTU Sophomore, who has been in charge of the official campus Tour Guides and has been instrumental in planning major events in Education, has been recording secretary of Student Government as well as secretary of the "Committee of 20". Charlotte has worked at the Sadie Hawkins Dance, the Valentine's Dance and the FTU Coffee House. She is a member of Phi Theta and is a member of the University Foundation.

Devo Heller, an honor roll student, has served as the Publicity Chairman of the Village Center Inter-Disciplinary Program and at Secretary of Circle R. Heller has worked on the Student Government Constitution Committee and is a student representative of the FTU Foundation.

Harrow Jordan, an FTU Junior, has served as a graduate student during the last two years, has been Governor of the College Business Administration and was a key student of the Village Center Inter-Disciplinary Program to develop Business Administration Day (April 15) and also designed the Stock Market Game currently being played on campus.

Richard Lancaster, a graduate student during the current year, has been Governor of the College Business Administration and was a key student of the Village Center Inter-Disciplinary Program to develop Business Administration Day (April 15) and also designed the Stock Market Game currently being played on campus.

Deborah Wheatley, transfer student from the University of Delaware, is currently Chairman of the P.U.T. Spring formal. A sophomore who was elected Holly Queen this past December, Debby is interested in the development of school spirit and traditions as well as special events on the FTU campus.

Charlotte Scott, a sophomore, is currently a member of the Village Center Inter-Disciplinary Program to develop Business Administration Day (April 15) and also designed the Stock Market Game currently being played on campus.

The Board of Regents has recommended to the legislature a bill which asks that registration fees for state universities remain at $150 per term for undergraduate students and $75 for graduate students. A provision to make registration fees for out-of-state students $900 was also included.

An Equal Opportunity Employer
already the hue and cry arises from indignant members of the students mobilization committee. the loudest complainer regards the alleged use of ids and smc as one and the same entity. in fact, cc merely pointed out the inconsistency of the id in supporting smc activities while perpetuating violence. cc does not dispute the intentions of the smc, only its illogical methods.

smc seems to be laboring under the vagueness illusion that its repeated demonstrations are the motivating force behind all progress made toward peace. they act as though they are the only persons interested in peace; that they are the lone valiant crusaders for the forces of god. the demonstrations may, in fact, have influenced the policy decisions; they probably have. it is doubtful that any president or congress will commit more troops in another such struggle without first seriously considering the consequences. in this case, the vietnam war has taught us a lesson that is not valuable unless it is learned.

but the demonstrators are not satisfied. now that they have "forced" the president to adopt a withdrawal plan rather than continue the war (a move which was inevitable anyway), they believe further protest will secure the immediate pull-out they seek. it is thought that all non-protestors would refuse to adopt such a simple, curtail solution if it were a practical one! if this be the case, then truly we have sunk below the survivable level of evil and should welcome doom with open arms. the silent majority is silent because it recognizes vietnamization as the workable compromise between the two intransigent evils. the war cannot be won militarily as it once could have been. on the other hand, our troops and our objectives cannot be abandoned.

the smc says the thieu regime is not worth saving. this may be true, but it is not our prerogative to pass judgment. our only objective is to reach a settlement whereby the s. vietnamese could hold elections without the aggressive interference of the communists to elect the government they wish. if the thieu government is unsatisfactory, it can be replaced, but the s. vietnamese have the right to decide; it is our goal to insure that right.

those who do not protest are not fanatic war-mongers. neither do they dispute the right to dissent from any view. but the protestors have been demonstrating for years and the only result has been to possibly prevent the war from being transferred to an inevitable end—the gradual withdrawal of american troops.

president nixon has just announced the withdrawal of 150,000 troops within the next year. he has reiterated the moves for peace which the u.s. has already made. the demands hanoi makes are not aimed at achieving a just or equal peace. they are designed to accommodate the interests of the government of the s. vietnam and the people of hanoi. hanoi is not interested in negotiating peace. this has been repeatedly proven. no rational man can deny that the united states has shown every sign of a justice to negotiate a just peace to the vietnamese. the communists have refused to consider any proposal. now the u.s. has adopted a new approach. recognizing itself from the side, the communists still show no signs of working for peace. the vietnamese are a proud people of constant stamina for miraculous instant cures, but the product of rational, logical minds working to solve a progressively insoluble problem.

The coverage of the initial s15 breakage fee has gradually dwindled over the past two years, so that the "breakage fee" has become merely a student deposit fee. Mr. James G. Smith of Finance and Accounting compared the deposit fee, which covers any unexpected or extraordinary costs, to a telephone or utilities deposit. Smith added that the use of the breakage fee for its original purpose—library fines, the Xerox machine, the health center and other extras—defeats the purpose of a deposit fee. The breakage fee, as it stands today, is a coverage for extra costs—laboratory brevity and related misprints—which are deducted from the initial fee. In the event of a student's withdrawal or graduation, the whole fee, or the existing balance of the fee, will be refunded.

Campus Glances

FTU's beloved security force, affectionately dubbed the "toothless lions", because orange county sheriff dave starr refused to give them guns, may soon be able to do more than guard campus. a new policy, sponsored by sara, bill gutter, orlando, and ken plane, orlando, will, if passed, authorize the board to employ campus security police who may be commissioned as peace officers by the governor. Campus security men at other universities have had no trouble gaining special deputy status.

No Waiting
There Is Beauty In A Dead Bird

BY BARBARA R. PIETRZAK

The minute world of nature is revealed in many varied art forms by Dorothy Kannon. The show which closes April 30 is displayed in both lobby's of the Library building and in the Village Center for the campus personal and enjoyment by an acknowledged native Florida.

The world as she sees it is intricately and infinitely bound to nature in many aspects. There is beauty in a dead bird, in the swirling tracery of a tidal pool, a fallen leaf, and so much else that there is in nature. In the instance of the dead bird, there is a dignity imparted to death and a loneliness in the rumbled, slightly curling feathers. There is not only this, but also many shapes drawn, inked, or impressed on flowers, fleurs that are inserted into compositions that accent their entirety, or perhaps a skeletal form that are just as striking.

SA and KAS Fraternities Merge

The fraternities of Sigma Alpha and Kappa Alpha Sigma formally merged as one fraternity at the Interfraternity Council meeting of April 21. The formal merge took place Wednesday, April 22. The name of Sigma Alpha will be retained and officers will be elected on the fourth Sunday of April. Next month the brothers of Sigma Alpha and the brothers of the Kappa Sigma Alumni Association of Central Florida plan a big get-together.

Sigma Alpha was successful during the spring informal rush by getting sixteen new pledges. The brothers are looking forward to working for the Heart Fund Drive, which was a total of more than $300.

CONNIE GRAHAM, Panhelene President, presents the certificate for the second quarter with a 2.9 sorority scholarship certificate to Georgianne Mollison representing Fideles Sorority. Fideles won the certificate for turning in the first addition for the fraternity.

Sigma Sigma Chi fraternity is selling initial license plates in the library lobby. Small letters on the plates are available for those who wish to put their name on them. Greek letters are also available for fraternities. Prices for the initial plates are $2.50 for two or three large letters on a plate and 25¢ for each additional letter. For the Greek lettered plates the cost is $3 or two letters and $3.25 for three letters.

Delivery for the plates will be the following day after the order has been placed. Other plates will take four or five days. The booth will be open until May 18 from 9 a.m. to 5 p.m.

The brothers of Sigma Sigma Chi would like to express their thanks to their little sisters who held a bake sale last Saturday for them. They felt that they have chosen the best girls on campus.

Sigma Sigma Chi brother Greg High handled the introductions of guest speakers at the Environmental Teach-In held Tuesday. Sigma front of the Village Center, Brownies, cakes and cookies will be on sale from 10 a.m. to 2 p.m.

Phi Alpha Epsilon recently acquired new pledges from spring rush. Those pledging PAE this quarter are: Randy Frye, Gary McDaniel, Bob Phillips, Skip Brooks, Joe Stephenson, Wayne Street, John Redgraves, Walt Shinn, Danny Williams, Rick Thomas, Bob Cooper and Tom Wilson.

The new pledges and the brothers held their first meeting Monday night. The pledges were presented to the brothers and they had their first introduction to the meaning of brotherhood in PAE. After the meeting the brothers, pledges and little sisters met at the Stone sisters are holding a bake sale in the Village Center. Brownies, cakes and cookies will be on sale from 10 a.m. to 2 p.m.

ODA fraternity will participate in this Saturday in an effort to clear the area of chemical pesticides. TAU brothers will man stations throughout the Orlando area and collect any of these harmful chemicals. This project is in coordination with the Department of Agriculture and "Earth Week".

The TAU won the golf tournament held last weekend by defeating Pi Kappa Epsilon by only a few strokes, but enough to now put the TAU in the first place running for the overall sports trophy.

The fraternity is proud to announce the election of the new officers for 1976-77. Bob Stephens, one of the new brothers, but one who has shown great interest, pride, and leadership ability to the brotherhood was elected president. Elected to the vice president position was Tony Gentille; secretary Terry Grims, Treasurer, John Sleeper, Parliamentarian and Historian, Paul Heidrich; and Sgt. at Arms, George Stewart.

In last week's column I wrote that Sue Goode would crown the TAU candidate for Spring Queen, Melanie Hart. A mistake on my part in case anybody thought that the contest had already happened or that it was fixed...sorry Melanie, but you haven't won yet!

CAMPUS GLANCES

The FoTule wishes to extend its sincere sympathy to Dr. Homer C. Combs on the death of his wife Jean.
Strongmen Take State Title

Outscore Five State Jr. and Sr. Colleges

by Jeff Rippee

The FTU Weightlifting Club has done it again! That is they have once again taken top honors in a prominent weightlifting meet. This time it was the Florida Collegette State Meet held in Jacksonville last week. Competing against five other state institutions the club powered all other competition to take the first place trophy with a total of 25 points. The only other school to even get close to the FTU Strongmen was the University of Florida team totaling 22 points.

None of the seven members representing the club finished lower than third in their individual class with a total of three first places and two second places. Copping top honors in their class were Danny Dana in the 123 lb. division, Farrell Byrd at 132 lbs., and club captain Mike Stone in the super heavy classification. The lone third place winner was Kevin Schaar at 148 lbs.

Included in the meet, but far behind the leaders were FSU and Jacksonville as well as Daytona Jr. College and Miami Dade Junior College.

This is the third time in five months that the club has placed in the top two categories in a meet in which it participated. They finished second in the National Collegiate Powerlifting Championships last December at FSU and also second at the Dixie Invitational in Atlanta, Georgia last month. The club has proven its prowess many times and has become well-known throughout the state as well as the nation.

Certainly it has earned the respect of lifters across the country and represents the hard work and dedication of athletes at FTU that we all can be proud of.

SPORTS SHORTS

The Faculty Staff "golf team" composed of Hunter, King, Hat and Wall were upset by 31 strokes at Rin Pinar by the FTU Golf Club last Friday. The club takes on Embry Riddle at Rio today, and the Rolls College reserves will serve as stiff opposition at a practice match back at Rio on Monday.

CAMPUS GLANCES

If you had passed by Dorm B last Friday afternoon, a nose tied to a tree might have caught your eye. Approaching closer you could have read the sign posted on the side. "Yep, Outing Club's Going Canoeing!" And that's just what they did. Friday afternoon a caravan of cars with canoes on racks headed for Juniper Springs in the Ocala National Forest. After a night under the stars club members and their advisor, Dr. Roy C. Dunn, woke at 5:30 a.m. to a hot breakfast and three hour canoe run down Juniper Creek. Following that was a second run (some enthusiasts tried it again) and swimming in the springs. Everyone enjoyed themselves (even those that fell in) and are looking forward to a tubing trip floating down the Ichetucknee River north of Gainesville the second weekend in May. Watch for Outing Club posters.

Lost and found items from the trip may be claimed at 275-6832.

The MRA humbly apologizes to all students who have been inconvenienced by the MRA Book Swap not being held. The Book Swap was cancelled due to the fact that the Village Center was not open during the three hours scheduled for the Book swap.

The FTU Amateur Radio Club will meet Thurs. April 30, at 7:15 p.m. in GC 177. The climax of this evening will come when Press-Times Reporter presents car wash tickets to the club. Everyone is cordially invited.
Teach-In

Mrs. Regis urged students to do anything possible to encourage legislation, so that more children should not die because of the inadequate sewage system.

Next, Frank Clark, an environmental engineer of Orange and Seminole Counties, gave figures of the ever-increasing rate of water consumption in this area. He said that, if present things continue, by the year 2000, there will not be enough fresh water to accommodate everyone.

Bill Southam, from the Zero Population Group of the University of Florida, told students of a plan to limit couples in the U.S. to no more than two of their own children. He talked of the need for more work in the Birth control area, liberalized abortion laws, and government programs.

Mickey Sheffield, of the Orange County Pollution Control Board, pointed out the contamination of the "nice beautiful" Lake Apopka. He said that fertilizers and nutrients drained into the lake, killing most fish and ruining the water. Sheffield then informed students of the research work that is being conducted by a special Governor's Council in the area.

Final guest speaker was Ron Mead of the Florida Power Corporation, who categorized pollution into three classes: air, water and thermal affects. Pollutants are the ones which the Florida Power Corporation dealt with in its services.

Publication of the program came with the "trial, conviction, and sentencing" of an automobile, as a polluter of air. As punishment, the old station wagon was smashed by several students with a sledge hammer. One irate student observed the demolition of the automobile, and complained that such action was "pigish." He thought that the car should have been sold, with the money going to charity or to the poor. The reply was, "get your own money and your own case. This is ours."

Many important announcements were made throughout the program, offering courses of action that students may take. First, there was mention of a Pollution Poster Photograph Contest, with a $25 prize. Deadline is May 15, and interested students should check at the student government office. Another announcement told of a meeting to be held at the Orange County Commissioner's office at 2:00 p.m. on April 28. Students were urged to go in the meeting and make their feelings about pollution known.

A third announcement told of a meeting of all interested parties at the Highland House, at the College of Orlando, at 9:30 p.m. on May 7th.

that Dorothy has composed over three years period, some of which we can also view at the Windermere Art Gallery. It will be well worth your time to take in all this before the show closes on April 30 (the two corresponding exhibits in the shows of the LERS and the VQ) for specialization in work such as this nowadays is a rarity. And even more, competent artists who render this type of art work as part of their professional routine, are still more rare and difficult to find in the art profession.

CAMPUS GLANCES

There will be a meeting Tuesday in the Science Auditorium for all members of Engineers of the College of Engineering. The purpose of the meeting will be to discuss the formation of engineering societies at the F.T.U. The group will determine what types of societies would be the most accommodating for engineering students. Dr. Schmider, Matthews, and McLeod will speak on the same and types of various societies available.
