Candidate Contests Vote

Voter Turnout’s Low, Poll Placement Blamed

The results of the Student Government elections for the office of Freshman Senator in General Studies is being contested. Alton "Jeff" Nolle has contested the results of the voting, charging that his defeat was due to the use of his proper name (Alton Nolle) on the ballot, rather than his more familiar name (Jeff Nolle). Nolle believes that the election results may have been different if his familiar name had been used. Jim Stringer, SG president, will certify election results next week.

In the Student Government (SG) elections only 800 to 900 students voted, considerably less than 20 per cent. Last year, 22.2 per cent cast their ballots.

SG officials partially attribute the results to lack of publicity and the fact that many students did not know where the elections were being held. Previously, voting has been held at the library. Since the campus has grown, there is no central location now, and the VC Patio was used for the balloting.

Two errors were made in the procedure. First, no reminders were sent to the Freshman Class President Dan J. Hodges. James Brocks won the Sophomore Senate seat from the Chair of Business.

Students also voted for an organization. Phi Alpha Epsilon won $25 prize for getting out the most voters.

In the Senate categories where no official candidate ran, write-in candidates were elected. The Freshman Senate seat for Administration were won by Fred Millican and Bill Roof, who each received one vote. Gregory Marin won the Freshman seat in Natural Sciences. There was a four-way tie for the second seat. However, only three candidates ran for office, so these three will face each other in a runoff election. Again, each of the qualified candidates received only one vote.

Ram Gammashenker won the

Rush Charge Hearing Set

An Inter-fraternity Council (IFC) hearing will be held Sunday to determine whether or not an FTU fraternity which has been charged with "violations of rush procedures" is guilty.

Kevin Wadsworth, a TRK brother and appointed prosecutor for the IFC judicial board, refused to comment on the details of the case. "I think personally that the charges will be dropped after the hearing," he said.

Barry Wilson, who is the Freshman Senator for Education, will face each other in a runoff election. Wilson won in Sophomore Humanities and Fine Arts by a margin of one vote, while David Boelzner was defeated by Steve Smith, a Sigma Phi brother.

Run-off voting will take place on November 2, from 9 to 10 on the VC Patio.

Drugs Being Peddled Close to Tech Campus

The open peddling of marijuana, LSD, and other harder drugs is the latest development in a series of problems the people of Union have faced while under siege by a number of young people who come from other areas to gather there nightly. Yet, there has been no action taken.

The manager of the restaurant on sales of drugs on the premises; but girls have been hospitalized due to a lack of manpower to full-fledged investigation. It has been determined whether or not an IFC judical board, refused to comment on the details of the case.

Students are always wanting to help their fellow man so this is your chance. If you are eligible to donate blood to the Mender family, you are most urgedingly requested to do so.
These Boots Were Made For Walking

A number of queries have been made as to why Student Government elections are so poorly supported. Casting aside the usual, turnout is not exactly enthusiastic. In past elections, the main voting booth was in the Library, the location most frequented by students. Now the Library has ceased to be a gathering place due to the movement of administrative offices and classes. The natural location for such elections to take place is now the Administration Building. However, such functions have been prohibited. Although this is a disadvantageous organizations wishing to reach a large number of students, it is, in the opinion of the Future, a good move on the part of the University.

The Library has taken quite a beating in due to carelessness of organizations and individuals hanging posters and handing registration leaflets.

Therefore, the problem of a central location remains.

It appears easier to understand in that only one booth was set up for the elections. The logical answer to the lack of a central location is to move those who care away. Several organizations, wishing to reach a large number of students, is, in the opinion of the Future, a good move on the part of the University.

This of course, will not make the average student vote, if he has no interest in the election. But it will help those students who want to vote but do not have time to travel across campus to the Village Center.

The Not-So-Gentle Night

It was a great relief to find that FTU officials were so seriously concerned over the mounting of an FTO club at the point a few weeks ago. On the evening after the attempt, the dorms residents were called together and told that there was no need to worry. University Housing officials were questioned by a resident about the lack of proper lighting in the parking lots. In reply the residents were told that a requisition to be made for the well-lighted buildings.

It was further learned that in the opinion of the Physical Plant director the incident occurred during the day and therefore lighting did not have to do with the problem. An attempt is being made to get lighting in the parking lots, which could happen at night in a totally dark lot.

The bank of official concern has been increased. Therefore, we offer some suggestions which we hope will last longer than University officials concern.

Do not go gentle into that good night...

Take your red and staff with you. They may comfort you in the valley of the shadow.

Soon the only people who will venture out into a dark parking lot will be those who care away. Then you won't be able to tell the muggers from the victims.

You must take the previous suggestions with as many grains of salt as you wish. But the seriousness of the situation will remain evident as witnessed by anyone who stays on campus after dark and must stay from a 10:30 to 12:30.

FTUer Helps in Life for Flight

When he isn't preparing electronic experiments for physics and engineering classes at Florida Technological University, W. P. Poster can be found much of the time in the Orlando Naval Air Station, Orlando, Florida or the Orlando Flying Club, which has given him a housewife who is suffering from a nervous def of being a janitor.

Each Tuesday, members of the Club take flying lesson down to Gainesville for experimental treatment at the University of Florida's Medical Clinic.

An attractive 25-year-old housewife has a liver disease that reportedly affects less than one per cent of the population, and normally is restricted to young women.

Poster, an electronics technician in FTU's Engineering Research and Development Lab, and a Naval Aviator, joined with other Flying Club members in volunteering for the weekly flights from Orlando after an appeal for transportation appeared in a local newspaper. Poster is unable to drive, due to her condition, and her husband must work the days she is treated.

"The best part is news that Donna is responding exceptionally well to her treatment. That makes all us happy," Poster of 7220 Bocas St., Orlando, says.

Politically Perfect

Sally and Stu

Stu moved by a militant minister.

He was a member of a Birmingham police dog, which was found in the back of a car at 12:30 on October 12. The K-9 unit requested security assistance. Poster was called to the Duplicating Room and was returned. The case was forwarded to the appropriate authorities.

"I believe that there will always be a need for a watchman who will continue to have their disgusting garbage wherever they go. Cleaning the environment must be left to those who are not polluters. The idea is to pick them up after others. It is not hard to pick up a can or an errantly thrown piece of paper.

America is polluted by "civilized" people who go about their business of throwing their trash in every direction. Do not allow our university to fall under the garbage of these Americans.

Frosh Hits Toad

Dear Editor:

Enclosed is last week's "Slimy Toad" column, newly rolled into a little ball. Need I tell you what to do with it? Damn it, why don't you freaks lay off the freshmen. Take the time and think back a couple of years. Freshmen have enough problems with the system, rather than worrying about getting hassled by a sociable group of drunks. I believe that there will always be some sort of friction between the Freshmen, but why print it in the school paper, that's going a little bit too far.

So wise up "Toad", go back to writing your articles with intelligence and acceptable humor. "Toad", don't you dare.
October 30, 1970

**Art Faculty Display In LLRB**

Problems, who has problems? This is just normal procedure. When Miss Dorothy Cannon, of the Graphics Dept., shook the rumored problems arising from the faculty art exhibits, she regretted that there really wasn’t any problem at all. Not many anyway. The Art Faculty has been planning to exhibit its work since the beginning of this quarter. The first problem was just when to put the show, the new Administration building was first suggested but permission and space seemed unavailable. Then the library was suggested but for large pieces like what Mr. Eyfel’s special exhibiting equipment was needed, which the library doesn’t have. Now it’s settled. The library is the place to watch. And right now, for Hans Kragge is exhibiting there until November 13, and the library has ordered the equipment necessary for larger displays. The remaining members of the art faculty will be exhibiting at later dates. We will keep you posted. For now don’t miss Mr. Krenn’s showing now on the main floor of the Library.

**Campus Glances**

The State of Florida will be interviewing for jobs on Friday, November 13. All majors, and especially Civil Engineering majors, are invited to attend the interviews. FTU Student Directories for 1970-71 will be available by late November. Please make sure to check the Arts Department for your copy.

**Registar Needs SS Numbers NOW**

The Registrar’s Office notified the FTU Universe that approximately 120 male students have not registered their selective service number for the fall quarter; the yearly notification of the draft board by the Registrar’s Office must include each male’s SS number. Registration of your number is mandatory.

The Registrar’s Office must have Selective Service numbers before 109 Forms can be sent to the Draft Boards notifying the boards of a student’s full-time enrollment in the fall. The following are those students who did not furnish the Registrar’s Office with their Selective Service Numbers:

- Adriansen, John
- Alden, Alfred
- Harrel, Anthony
- Jansen, Randy
- Kolman, William
- Brothers, Kenneth
- Brougment, Timothy

What’s Your Problem?

(What’s Your Problem will be a weekly column devoted to answering your questions about almost any subject. If you think something needs to be corrected, but feel you won’t “Right City Hall”, ask us, and we will entertain the suggestion. Address all questions to “What’s Your Problem” 1st C. O. Box 25000, FTU, and either mail them from off campus or drop them in the inner-campus mail boxes.)

What is the law regarding faculty members of a Florida college participating in political activities?

A Painfully Minded Student

The law states that a faculty member may run for public office and participate in the political process, but he cannot use the classroom as a “soapbox” for the endorsement or ridicule of a political candidate or for giving his own political philosophy in the class. The only exception to this rule is in the case of a political science class.

Temporary parking lot 100 is in poor repair. It has gulles and large rocks in the gullies. Because of the conditions of the lot, I had to have $69.99 worth of repairs done on my car. Who is responsible for the maintenance of these parking lots?

Apprently unknown to you, the dirt parking lots are repaired regularly. The repair consists of spreading gravel in the bad spots. Your next question is probably “Why don’t they just pave the lot?” and then forget it. The next dirt lot is in such poor condition that it will be in the same state in 10 years and until then the parking lot will be there—gullies, rocks, and dirt. What can I do about it?

— V.

During the recent United Appeal campaign in our area, major employers were listed almost daily in the local papers showing the percentage and dollar contributions by their employees. Will FTU be listed in this year’s list? Why are FTU employees not contacted until one week before the end of the campaign and then asked to respond no later than three days following the FTU’s part of the Orlando community?

Mrs. Keegan, Administrative Assistant to the Director of Personnel, says that FTU was represented by the majority employers of the area. You may have missed though, because FTU was thrown in with a number of organizations and businesses in the area into the grand category of “Pacesetters.” Please don’t write in next week and ask what a “Pacesetter” is supposed to be because no one around here knows. She also said that when the soliciting area directors at FTU were briefed on October 1 there was nothing about the area limit so it must have been an irregularity in your area.

LITTLE MAN ON CAMPUS

Stewart Udall To Lecture On ’76 Book

Stewart Udall, former Secretary of the Interior, will speak at 10:30 a.m. Monday in the Village Center Multipurpose room. His topic will be ’76: A Pause for Tomorrow.

Admission is free to FTU students and faculty, and $1 at the door for the public. Student tickets are for reserved seats, students and faculty are urged to pick up tickets now at the Village Center office.

Stewart Udall was Secretary of the Interior for eight years for Presidents Kennedy and Johnson. In 1969, he formed the Overview Group, an international consulting firm which works with national, state and local governments, industries, and regional planning groups to solve urban and rural problems and create a better total environment. Udall is also the founding professor of Environmental Humankind at Yale University. He has written two books, “1976: Agenda for Tomorrow” and “The Quiet Crisis.”

Yrs To Sponsor Mock Elections

The Young Republicans are sponsoring a mock student election to determine how the FTU student body feels about national, state, and local political candidates.

The same candidates appearing on the regular general election ballot on Nov. 3, 1970, will also appear on the FTU election ballot. Claudia Kirk to be Resolved Askin for governor. Bill Carter to be Lawton Collins for the U.S. Senate.

The state legislative races of local interest will be presented on the ballot along with the candidates for the County Solicitor’s office.

Students must present ID cards in order to vote and the election will be limited to students of FTU only.

The polls will be open from 8 a.m. until 5 p.m. today, with the results of the election being published in both the next issue of the Florida and Saturday’s Orlando Sentinel. Results will also be broadcast over WFTU.

Harvey W. Matthews - G.O.P.
Candidate - House of Rep. Dist. 39

In our own way, we do.

As a candidate for the Florida House, Dist. 39 (Orange- Seminole Delegation) I represent a personal protest; a protest against dogma. I see the youth of Florida frustrated in their attempts to work into society; frustrated by closed minded people who seem to forget that they too are individuals. I see parents stuck with increasing college bills, taxes, and expenses. I also see our Senior Citizens ignored.

I protest.

My first action of protest was to file for candidacy. My second was to enlist one of your students as my campaign manager. Though young, he exhorts himself as a part of society; a society he too wants to work with and change.

Many of you probably know him. He works with Student Government and is your Resident Adviser. He is also president of the fall TKE Pledge Class.

There are many more of you like him. Express yourself.

The System DOES Work!

A PAID POLITICAL ADVERTISEMENT
Fidelis Sorority is selling "Spook Insurance" for those who wish to protect themselves from Trick or Treat demons on Halloween night. A 75-cent donation provides you with assurance that your house or yard will be cleaned up in the event that any vandalism occurs. The Fidelis pledges will be doing the cleaning up on Sunday morning.

Fidelis are proud to announce their pledges for full quarter. They are Mynn Dunny, Linda Fagone, Joann Seagraves, Joann Santoro, Debby Daily, Mary Jane Shilling, Eileen Brennan, Martha Mezzon, and Joyce Teeterson. Fideles for the pledges include powderpuff football, money raising projects, and Joyce Tettemer.

Treat demons on Halloween night. Insurance for those wishing to protect themselves from Trick or Treat during the holiday. A 75-cent donation provides you with peace of mind. Fidelis pledges have proven to be one of the most outstanding groups ever for the TAs, and have made the lives of all brothers much more pleasant.

Social activities have been a highlight in the TAs. Last Saturday a party was held at the Club Frisco at Nohl Hill. An enjoyable atmosphere, the band, the refreshments, and the brothers all helped make the party one of the best ever.

On the following Monday, many TAs attended a barbecue held in their honor at Springhill in an invitation from ATO National Fraternity. The occasion was enjoyed by all and increased the good relations between ATO and TAs. This coming weekend several groups of brothers are heading for Orton Grovel and the University of Florida homecoming. TAs will be present at Florida ATOs, and look for a high flying weekend. But here at home, TAs will be having a social on Friday afternoon, followed by another party on Halloween night. It looks to be a good weekend for the TAs.

This week the Kappa Sigma Brothers would like to congratulate the fall quarter pledge class. They include President, Paul Hawksworth; Vice President, Charley McCarthy; Treasurer, Les "Chicken Plucker" Constantine; Head C.O.O., Dary Graham; and the remaining pledges are Paul Ford, Bob Ferris, Jim Griffin, John Gilbert, Bob Golah, Bob Hawksworth, Mac Hartley, John McCann, Kevin O'Sheara, Dennis Pythons, Manuel Rodriguez, Eddy Smith, Steve Wamsak, Burke Dennis, and last but not least, Dave Hansen.

On Halloween night, the entire group of Kappa Sigma brothers led by Fred Daniel's (no relation to Jack) Fred Daniel,我们应该 congratulate TKE for their fantastic performance this past week. We caught you guys mugging in the TKE booth to BEWARE all others — the Big Blue (the color of TKE) has gone on a campaign to roll on with the help of that supporter — located MYTHICAL AND LEGENDARY ARNIE RAY!

On Oct. 30th, 1970 the Kappa Sigma Alpha Fraternity of Florida Tech. University will hold a student forum at the Civic Center in Sanford, at 7:00 p.m. The purpose of this function is to get the residents of this area involved in vital issues of the times. The principle speaker will be Congressman Bill Young, (Dem.), 4th Congressional District.

Everyone is invited. Free door, afterwards Free refreshments.

A welcome party was given in honor of Tyes pledges, Monday night. The party was held at the Vice President's residence, with a yellow rose and their knot (which they either like it or knot) Tyes are proud to announce their new pledges: Susan Alspaugh, Barbara Arbury, Belinda Blanton, Helen Brandtsteder, Chris Clifford, David Coleman, Susan Connell, Linda Forth, Doris Formal, Perry Formal, Robert Foster, Wanda Foster, Charlene Rose, Sue Sidaway, Linda Smith, Mary Willet, Sue Wamsak, Donna Wann, Jenny Watson, Angela White, and William Young.

Tyes are presently working on the Poppy Drive and in conjunction with the national work.

Tae Epsilon Rho fraternity has nine pledges this quarter. They are: Dennis Dugan, Frank Dunaway, Bob Williams, Bob Kerth, Tom Maitland, Guy Pytko, Jack Eitel, Bob Williams, Bob Keeth, Tom Maitland, Guy Pytko, and Charles Clenney, Larry Young, and Robert Weston.

TEP welcomes its new pledges and hopes that there are other pledge classes as good as this one in its future.

TEP brothers will meet on Tuesday October 27, with Sidney Couch, current Chancellor of Tau Epsilon Phi national.

Brothers, pledges, wives and dates of Theta Sigma Chapter of the International Fraternity of Delta Sigma Pi are having a Homecoming Party Saturday Night. It will be a dance party and will be awarded to the best costumed participants.

Last Saturday night the Brothers, pledges, wives and dates of Theta Sigma Chapter of the International Fraternity of Delta Sigma Pi were having a Homecoming Party. Two weeks ago, the brothers and pledges gathered at Semoran North Apartments for a Pledge Welcome Party. This past Saturday, the brothers and pledges along with respective guests met at pledge John Brooks' house for a party.

Controversy over popular belief, the MYTHICAL AND LEGENDARY ARNIE RAY did not make an appearance; however, a good time was enjoyed by all those present.

The brothers of Phi Alpha Epilson wish to announce their offensive and defensive players of the week. Skip Repass was selected offense player of the week for his outstanding performance and spectacular time under fire as quarterback. The defensive player of the week for PAE is Chris Johnsen. Chris earned the honor because his performance was in the backfield which resulted in making up an interception, breaking up numerous pass plays.

It is announced that Phi Alpha Epilson won the Organization award for having the best turnout and best attendance at the recent Student Government Election. The brothers are proud of their latest achievement and congratulate the winners of the recent elections.

The brothers, little sisters, and pledges wish to extend their congratulations to the new brothers who just (Continued on Page 12)
Executive Comm. OK's Mascot Council

By Paul Steen

Last Friday the FTU Executive Committee met and gave final approval to the plans submitted to them by the mascot committee. The General Duty of the mascot committee as proposed by the executive committee was to implement the selection of mascot.

There are times when writing a witty, thought-provoking, deep-thinking, intelligent column is pretty tough. This usually happens when one is writing a column on a topic that is not particularly interesting or appealing to the readers. However, there are times when writing a witty, thought-provoking, deep-thinking, intelligent column is pretty easy. One such time was when the mascot committee met to implement the selection of mascot.

This award will be given to the person who writes the most witty, thought-provoking, deep-thinking, intelligent column. The recipient of this award will be announced at the next meeting of the Student Senate and the winning mascot will be featured on the front page of the Student Affairs newspaper, the WFTU.

The execution of the mascot selection process is open to all faculty, whether they are in the legislative branch of government or any other branch. The mascot will be chosen by a separate and distinct committee, the mascot selection committee, which will be appointed by the Senate President. The mascot selection committee will consist of three people: the Senate President, the Senate Vice President, and the Senate Secretary. The mascot will be chosen by a roll call vote of the Senate.

Time: 11:30 a.m.

Mascot should be a representation of the school's name, the school's colors, and the school's traditions. Mascot should be a representation of the school's name, the school's colors, and the school's traditions. Tech Flag Football Giants Battle

Chi Alpha Bests TAU

By Bart Barnes

and

Bob Hazelwood

How can you highlight the superlative? Answer: You tell it like it is—and that’s how this reporter plans to tell the story of the game of the year.

Monday, at about 4:49 both teams came on the field to practice. Tau, dressed in navy blue jerseys and white shorts, ran their warmup patterns as their fans gathered on the east side of field one. Meanwhile, Chi Alpha, dressed in khaki green jerseys and gold shorts, ran through their warmups while their fans gathered on the west side. About 100 others gathered on the sidelines of the field to watch what was to ensue during the following 45 minutes of football.

Tau won the toss and elected to receive—the side from which Chris Wilson kicked off for Chi Alpha, and the game was on. Players of Tau received the kick and ran it back to the Tau 25-yard line.

Chi Alpha, anticipating an air bombment from Tau, moved middle linebacker Bob Hazelwood back, changing the defense from their standard 2-3-2 to 2-2-3. On the first play of the game Jerry Whelan of Tau threw an illegal block and Tau was moved back to the 10-yard line. Noticing how open many of the Tau were, Chi Alpha moved to the unusual 3-3-1 defense.

Both sidelines were alive with excitement. From the Tau side you could hear things like “go blue machine” and “let’s go, AFO!” On the other side, Chi Alpha fans were cheering their guys on with “Let’s go, II.”

On the next play, Chi Alpha inserted Ed Wightman and Hugh Tompkins. Tau quarterback Dennis Darin threw the ball away.

The ball bounced off a Tau player’s hand and after a little juggling, was recovered by the Herring, Larry Scott's Scuba School, Inc.

“Gergley’s Grapplers Groaning, Growing”

Gergley’s Grapplers

“After two informal practice sessions, I feel that the new FTU Wrestling Team (fifty on) has overcome its lack of wrestling experience and quickly develop a championship program with student cooperation,” said Coach Gergley in a PsiUre interview on Thursday, October 22.

He disclosed the start of official practice sessions at Lorraine Elementary School, Monday through Friday, from 4:30 to 6 p.m. Interested men need no previous experience to join the team. Coach Gergley and Ellis will begin instruction with basic techniques.

The scheduling of intercollegiate “home” contests lasts on the arrival of official FTU regulation mats, but Gergley has decided on a tentative “away” schedule. FTU wrestlers may attend the Georgia Tech Invitational, Miami-Dade, and Sunshine Open tournaments. The last one mentioned takes place around Christmas and will probably feature freehunger "Gergley Grapplers" from the University of Buffalo as well as other teams from around the nation. Gergley also plans dual meets at North and South Miami Dade Junior College and Frost Senior College. Dual meets winning confirmation include those at Florida State, Florida A&M, University of South Florida, Florida University, and Duke University.

At the end of February, Florida’s best teams will grapple for the AAU State Collegiate Championship. A possible post-season scrimmage with the Pan-American Wrestling Teams hangs on the progress of the FTU’s wrestlers.

Gergley praised FTU athletic director Dr. Frank Rohr and George King, Executive Assistant to President Millican, for their role in founding the team. He also asked this reporter to introduce his assistant coach, Wrestling Club president John Ellis to the readers. Coach Ellis, a 26 year-old Business Management major, served eight years in the Air Force and now lives in Orlando with his wife and son.

Concluding the interview, Gergley asserted that "the student athletes at FTU definitely have the desire and potential to reach for the stars and become outstanding collegiate wrestlers."
The Tau defense, composed of Wightman, Ashby, Bill Hurl, Mike Pregley, and Bill Rich at the alternating line position, Leland, Hazelwood, and Wilson at linebacker, and Weir and Wolfe at the corner, had allowed only 12 points in three previous games against tough teams in the league. PAF, TRE, and TEP. The Tau offense, led by Terry Gwinn, Hansley, and quarterback Dennis Durkin had compiled 109 points in three previous games. It was truly a battle of the giants.

For some reason, Chi Alpha fired a long bomb on the first play from the Tau 10 with 1:20 seconds left in the half. Mark Blackwell intercepted for Tau and ran it to his own 30. After Durkin passed to Abufaris several times for good yardage, XA stopped Tau on four plays at the Tau 21. Tau ran out the clock and both teams left the field with the half time score:

XA 6 - Tau 0.

Chi Alpha kicked off to Tau and because of a missed catch, Tau began play at their own 15-yard line. Durkin threw to Greg Gavel for a first down on the first play, but a blocking penalty moved the ball back to their own 9. Durkin connected with Mark Stockwell for a 19-yarder on the first down, however, and XA closed in on the Tau goal line. The Hill to Kirk combination was intercepted for Tau and ran it to their own 8-yard line by D'Amato. Then Durkin threw to Hansley with a 21-yarder for a first down at the Tau 39. Durkin then completed his first pass and ran it back to the Tau 15 with 1:00 left in the half. The Tau defense had only allowed seven points in three previous games, but a surprisingly strong offense put it together for three points, as Ashby kicked the extra point.

Chi Alpha defense versus Tau offensive men in game action; Chi Alpha was later victorious, defeating Tau 19-6 in a hard-fought game.
Intramural Season Kicks Off

"All God's Children"

SPORTS SHORTS

"FTU students interested in archery can now join one of two Country Meet Friday, October 30 area interest clubs," Tom at 5:15 p.m. Entry forms were due Washington, FTU's bow and arrow is no later than October 25. There have been low teams and several Worthington, who took first at individuals signed up for Inter-Collegiate tournament, and sixty participants area contact. It covers approximately 1.7 miles. Hello once again, sports fans. Having survived the last three weeks, traveling incognito, here I am once again bringing you the weekly Fantastic Fearless Freddy Forecast.

WOW! Who would have ever thought that such a small column could have stirred as much attention as this one has. Everybody wants to be in the spotlight. Faculty-Staff is in the Indie spotlight this week.

In the October 26 edition of his little-heralded column, Fearless Freddy, veteran football quarterback-prognosticator, Fearless Freddy knows little about the merits of a football team and its players. However, this does not excuse his flagrant, haphazard misrepresentation of the Delta Tau football team.

In the 20th, 200th edition of this little-broadleaf column, Fearless Freddy explains that Delta Tau fielded "the world's worst football team." We ask you — how could any team which is quarterbacked by a freshman in both his high school and first-year college football seasons (the played end), has such stellar performers as Bob "Moose" Smedley, John "Ankle " Broussard, "Blue" Chuck Schmidt, and "Golden Boy" Moore — be fielded by the MYTHICAL AND LEGENDARY ARNIE RAY, ever be the world's worst?!

We will not tolerate any more of the reckless fearless fare! Help us put everyone up to know that we will be on the football field... in heart... if not in brutal physical competition.

Mike Broockman, a former FTU student turned professional race car driver, sits defeated in his Lola as his pit crew desperately tries to cure ignition trouble that caused Broockman to start 30 seconds behind the pack at the beginning of last weekend's L&M Grand Prix of Sebring.

Davey and Dr. Jerry Ventre. The end and halfback positions are ably handled by Bruce Meyers and Ken Renner, respectively.

In the big ones, look for Teke to be a formidable threat next year.

As of this printing, Teke is formidable, perhaps possessing one of the best defenses in Dreamland. Look for Teke to be a formidable threat next year.

A volleyball clinic will be held Tuesday, Wednesday, Thursday, Nov. 11 and 12. Intramural play begins Nov. 15.

Entry roster blanks, available around campus, should be completed and returned to PE Bldg. 101 before 4 p.m. Monday.

In the interest of men to go women out of the nest and get them to stop laying eggs." A quote from Betty Friedan, Women's Liberation Movement Leader. Not quite.

The statement was made by a woman who decided that she wanted more of life than child bearing.

The name is Mrs. Joel (Winifred) Sharp and she is an Orlando attorney. She spoke during an informal class of Sociology 225, Contemporary Woman and Society.

Mrs. Sharp, the daughter of former Florida Senator Beth Johnson, studied herself as an example of what a woman can do if she sets her mind to it. She emphasizes getting through law school, finding a job, and maintaining a love relationship while having children who can't go easy, but on the same token, not impossible.

She discussed work problems and the problems that a professional woman comes across getting lack of acceptance at high on the list. She said that she has been able to form better relationships with men than with women. Women tend to mistrust the professions, according to Mrs. Sharp.

Mrs. Sharp has educated as one of the most difficult, yet important issues. wasn't easy, but on the same token, not impossible.

President Vetos MRA-WRA Combine

The bill to unite the Men's Residents Association (MRA) and the Women's Residents Association (WRA) into the Residents' Hall Student Council (RHSC) was passed by the voting students of the fresh, but the bill was not appropriate at this time, and that many students living in the dormitories were not here when the bill was passed by the residence hall council.

After new officers are elected, the judicial boards of the MRA and WRA are off official representatives of the residence students. The judicial boards judge students who have violated dormitory rules.

A Clear Goal - The Murky Econ

A full scale attack on the polluted Big Econolochiches River, the stream that once was a haven for many of the students living in the dormitories, has been going on for months. The county community projects the "butcher" is a number of Tech students and faculty members who come together to try and save the dying Econ as a place to live and work in.

Getting involved in this project along with the FTU community projects the "butcher" is a number of Tech students and faculty members who come together to try and save the dying Econ as a place to live and work in.

Contrary to popular belief, the FTU archology department has not studied its new digs dug deep at the main entrance leading to Athens Trail. Actually Physical Plant is trying to construct two large signs which will clearly denote the entrance to the "butcher" is a number of Tech students and faculty members who come together to try and save the dying Econ as a place to live and work in.

If you don't see what you want, ask for it!
**Campus Glances**

A faulty circuit breaker caused the temporary blackouts in The Administration Building Monday, but the other blackouts resulted from someone switching off the wrong lights in an attempt to remedy the original problem.

**Lots of Lotz To Like**

By Colleen Noe

It is quite an honor for anyone to be invited to exhibit in a museum. Throughout this month and during the first two weeks of November, Ross Lotz, head of the art department here at FTU, is conducting a one-man show at the Jacksonville Art Museum. He is showing twenty-three pieces, fifty per cent of which will be works produced this year. Most of Lotz's works are in a large scale. The work pictured here is part of the exhibit is called "Good Tails." It is pencil on paper and is four feet by eight feet.

I talked to Ross last week after he returned from the reception given in his honor at the opening of the exhibit. When asked what he wished to express in his work, he said, "I am concerned with documenting personal emotions and interior visions. I am not interested in documenting data from the external environment even the same minute might as might a news camera man. I find most of the visual forms produced by our society to be quaint, wavy, and indecisive; they have a flat line and my spirit. What I want to produce are images that are beautiful, joyful, unusual, and rich, hopefully, alike to some aspect of the Holy.

Russell B. Hicken, Director of the Jacksonville Art Museum says of this Lotz, "Steve Lotz, after all, is master of his own expression in a technical sense. His work is spectacular in a technical sense, it is not facile in the perceptive sense. His technique is completely at the service of a powerful imagery." It is this powerful imagery Lotz has that is projecting in everything he does, from casual conversation to class room situations. He is one of the most interesting faculty members here at FTU.

**Please, For Your Sake: Don't Park In The Dirt**

By Chris Van Oudt

Commuters to FTU have been getting stuck in the dirt parking area on the campus in the last few days. Signs are posted stating that those commuters to park at their own risk because that is exactly the situation. When you commute to get stuck in the dirt area, you are also adding to the problem. If one of these areas, do not put the regulations of your car into play in all the further. Instead back out slowly. If you become enmired anyhow, the Campus Security Officers will notify the Maintenance Department to send out a tow truck for a fee of $5.00. This fee is charged in an unauthorized area, as signified by a "No Parking" sign, the driver is responsible for getting her own car. Security will allow the driver to use their phone for bailing a tow truck.

On the 18th, Don Lee says that there are about 1200 paved parking spaces available in the Temporary 101 and 200 areas, which are of a solid light rock composition. These temporary spaces are large and distant location making them unsuitable with space. Therefore, the approximately three blocks distant from the library, but nearby, to these lots the students would be taking a loss of receiving a parking citation, and no risk at all of getting stuck. After all, if a car is stuck in a dirty area the tractor driver won't be there for 15 minutes, in addition to the time it takes to pull out, so pulled out, it is also a big on Temporary Number 203, it still can save the commuter time.
VC Fashion Show Battle of Midi Vs. Mini

Fashion 70 was the theme of the Midi vs. the Maxi vs. the Mini Fashion Show held October 27 in the Multi-Purpose Room. Attire for the first Village Center-sponsored fashion show of the fall quarter was furnished by S.H.E. of Winter Park. Pictured above are commentator Mary Ann Erben and Susan Autrey, modeling maxi outfits.

Susan Autrey parades down the ramp in a stunning pants outfit as a receptive audience looks on with delight.

Nicki Jackson shows a combination of bravery and rebellion by modeling a controversial midi ensemble.

We Bid All Greek Gals Welcome

Bids were released and smiles and tears were abundant. Rushees-turned-pledges run down the stairs to the sororities that have presented them with bids.

Sorority rush ... a time for meeting new people ... making friends ... laughing ... crying ... happiness ... and good old-fashioned fun. Last Saturday saw sisters and prospective sisters meeting on common ground as official bids were given out.

New pledges are welcomed with screaming and hugging as another sorority rush comes to a close.
CAMPUS GLANCES

George Kline has been appointed to the Village Center board of directors by the Student Government. As a member of both SO and VC, he will serve as liaison between the two organizations.

Kern will have the same voting rights as other members of the VC board, but will not have departmental duties.

Kern is a new FTU student, coming from Seminole Junior College, Sanford.

Several weeks ago rumors were spreading around the area to the effect that FTU would be buying additional land around the campus. However, several people are interested in buying land to the university. Concerning this prospect, no additional information is available at this time.

The Village Center has scheduled the date and location of the Spring Formal. The dance will be held in conjunction with the Miss FTU Pageant in the Supper Room Auditorium on Friday, May 28.

CAMPUS GLANCES

If you didn’t know it already, campus mail delivery has been curtailed by the lack of OPA help in Physical Plant. All office mail will have to be hand delivered by office personnel within their respective buildings.

“Security is making money by giving tickets to all those who can’t find places to park,” stated a Letter to the Editor from the 10:56-20 FTU.

This is not true. Money from traffic fines goes to the Loans and Scholarships Fund, Account No. 19 2019 in the Finance and Accounting Department.

**FuTure's Friday Girl**

This stand of trees is a perfect setting for a photo of this week's Friday Girl. JoAnn Kavanaugh, a hazed, brown-haired, 18-year-old Freshman dorm student is an outdoors gal from the word go. JoAnn loves all sorts of sports - but particularly water skiing, tennis and horseback riding. JoAnn adores horses and all animals for that matter. That's why the Cocoa Beach resident is a Pre-Vet major. Got any sick cats you'd like JoAnn to take a look at? (Don't look now, but the FuTure's roving photographer may be looking at you right now, ready to plop the question: Would you like to be next week's Friday Girl in the FuTure?)

**Camelot - Repulsion**

**Fine Flicks At SCAUD**

By Joe Aertman

Camelot is a long (3 1/2 hrs.) film by Joshua Logan based on the English King Arthur myth. The music and adaptation was done by Lerner and Lowe.

The best single thing about the film is the acting. It is indeed difficult for the actor in a musical to make his role believable and taking this into account, the performances of the cast in general and Richard Harris, Vanessa Redgrave, Franco Nero, and David Hemmings in particular are commendable.

The story itself is sentimental, but not to the point of being maudlin. The excellent use of deep shadows and strong contrasts in the black and white photography combined with the skillful utilization of music and sound effects heighten the mood, increase the dramatic impact of the visual imagery and build the suspense by giving the viewer a sense of deep foreboding and dread.

Overall, the film is a very skillful and perceptive treatment of the Camelot story.

**Repulsion Preview**

REPULSION, written and directed by Roman Polanski (who also did Rosemary's Baby), is a well-executed, suspenseful film about the evolution and development of psychosis in a young woman from the early stages of madness to virtually total separation from reality. The woman, Carol, is masterfully portrayed by Catherine Deneuve. It is one of her finest movie film roles and, since there is very little dialogue, she must rely on movements and facial expression to show the inner conflict of insanity.

The excellent use of deep shadows and strong contrasts in the black and white photography combined with the skillful utilization of music and sound effects heighten the mood, increase the dramatic impact of the visual imagery and build the suspense by giving the viewer a sense of deep foreboding and dread.

Although there are some rather brutal murders in the film, Polanski tastefully spices up the blood and gore.

Overall, the film is a very skillful and perceptive treatment of the actual stages of psychosis. The split personality, the hallucinations, the nightmarish atmosphere, the ultimate breakdown of sanity - all this is portrayed with skill and sensitivity. Highly recommended. (Rumors abound that the film will be shown on campus the weekend just prior to the publication of the newspaper and preview the film to be shown the weekend just after publication. I hope that these criticisms will help the reader to better relate to the particular films shown on campus, and to films in general as art.)
