You'd Never Guess Who I Spent The Night With

By Beth Weilenman

They look like any two young men. Their hair lengthens to cover their shoulders. They work on weekends so they can spend more time at home. They are known for their opinion of Women's Liberation.

They performed for about 7,500 at the Orlando Municipal Auditorium. Collectively, they are called The Future.

Individuals, they are Burton Cummings, lead vocalist, who also plays piano, harmonica, guitar and piano; Kurt Winter, who plays lead guitar; Greg Leskew, who also plays guitar, and Garry Peterson, drummer.

Before the concert, Cummings, who has shoulder-length dark hair, played a medley of songs on the piano, from a big band-radio style routine, "The Machine," Cummings wants to go into the African jungles during the group's vacation time in January and February. He enjoyed Hilo, Hawaii, which he found refreshing after New York, Chicago and Detroit, and was impressed with the fact he could walk right out into the Hawaiian jungles near his home.

Cummings was one of the few to arrive at the dressing room timing his guitar, but after the show, he explored the city's plan to Europe during January and February to a fan. Currently the group performs most of their concerts during the weekends. This allows them to return home frequently to Winnipeg, Manitoba, Canada, and thus group prefers the weekend shows to long road tours. Tell Greg Leskew noticed this reporter's key which has a large rhinestone ring attached, and he commented that "Big Bertha" of the Royal American Chiefs, could wear one that size. Later, he asked this reporter's opinion of the Women's Lib Movement. He later explained that although he thought "American Woman" would be successful as a single, he felt he was a group's recent experiences in working with Johnny Cash for his television program, he was feeling that "It was a real buzz to go out of their way to make you comfortable." The group was on the show, "backed up after his American Woman down solo," as he was concentrating on a complicated guitar arrangement.

"He creates a feeling," Cummings said. Speaking more seriously, about the President's Ball, where he and Winter were invited to as Prince Charles and Princess Anne, he said, "It was more like a diplomatic gesture to me, but it was better.

Save the County - Close the Park

Rock Springs Park and Wekiva Pkrs, two favorite weekend retreats for FTU students and their families, were closed last Sunday by order of Orange County Commissioner Ben Benham.

The official reason given was that a "peace" gathering of more than 100 was expected at Rock Springs the Sunday before had turned rowdy. Acting on rumors that the Sunday happened, the park was closed and guarded by order of and that it had been the several hundred yards in front of standing barricades to keep out a rumored influx of the "hippie types." Deputy driver casually pulled up to fellow got when he asked why the FTUers, also lead guitarist, Jim Kale, bass guitarist, and Garry Peterson, drummer.

BOYS WILL BE BOYS, especially when there aren't any wrong doers to arrest and lawmen have time on their hands. The only real action came when one of the deputies pulled out an M-80 firecracker in his hand and tossed it into the woods.

"But the same deputy, having rounded with an officer in a car, hit another finally tried to run the first deputy down. It was a tattletale, said the administration of the State of Florida, and the powerful M-80 firecracker hit it and tossed it into the woods.

By the time the deputies got back to the park, the road signs were being swiped.

Vandals Are Out, Sign Boards Swiped

Pranksters, vandals, thieves really, made quite a haul on campus last week.

More than a half dozen large wooden signboards, erected by Student Government for the campus during the elections, were stolen.

Physical Plant reported that a traffic lights were also reported torn from the poles and spirited away.

According to SG President, Don Stringer, the materials for the signs cost $215. SG didn't include the campus regulations if they tried to replace the sign.

"I'm not accusing any individual student, but if you painted an office in yellow," Stringer said of SG was investigating the theft.

The road signs were being replaced this week.

(Continued on page 3)

Oragnizations Asked To Back Nominations

The mascot committee received 203 suggested names for the FTU mascot. The committee was scheduled to vote on the selections to be in their opinion of the best choice for the semifinal position.

Golden Hawks, Quips, Falcons, Barons, Panthers, Stetsons, Suns, Argonauts, Knights of St. John, were closed last Sunday by order of Orange County Commissioner Ben Benham.

The official reason given was that a "peace" gathering of more than 100 was expected at Rock Springs the Sunday before had turned rowdy. Acting on rumors that the Sunday happened, the park was closed and guarded by order of and that it had been the several hundred yards in front of standing barricades to keep out a rumored influx of the "hippie types." IFC Dismisses Tau Fraternity Charges

Charges that Tau Fraternity, a group of men, were dismissed Sunday by a 4-2 vote of the Judicial Board.

Charges filed by Kappa Sigma fraternity alleged that Tau Fraternity "violated the constitution and Bylaws of the Judicial Board. This action was approved Tuesday morning in the regular meeting of the Judicial Board.

The organization which does the most to support a mascot (even if it is not chosen as the winner in the voting to be FTU's mascot) will win the "Outstanding Group Award." This year the Interfraternity Council will be suspended by proper authority), and the board voted 4-2 to pass it. The new motion will not take effect because it seems Cueman Terry Cune had suspended the rule concerning moratorium and notified both Tau and Kappa Sigma groups. Apparently he could not contact the other fraternities to notify them also. Kappa Sigma, upon seeing two members at the Tau football game, promptly accused the Tau of the broken rule.

At the hearing the prosecution said the group had no lack of evidence (no rule had been violated, and the board voted 4-2 to pass it. The new motion will not take effect because it seems Cueman Terry Cune had suspended the rule concerning moratorium and notified both Tau and Kappa Sigma groups. Apparently he could not contact the other fraternities to notify them also. Kappa Sigma, upon seeing two members at the Tau football game, promptly accused the Tau of the broken rule.

Student Government run off elections were held Monday for the Fort Lauderdale College Student Government Senator and Freshman Social Sciences Senator. "Hat" Bruce Petersen, a member of the Natural Sciences, and John Brooks won both elections.

Of a total of 384 freshmen eligible to vote in Natural Sciences, 56 cast their ballot, 23 for Brooks and 35 for Petersen, the winner, giving Brooks winning by one vote.

Sympathy For The Devil

By JOE AYERMAN

PREVIEW: "Sympathy for the Devil" was made by Jean-Luc Godard ("La Chinoise," "Weekend") in 1968 right after the events of May in Paris. The film is shot as a series of images in support and counterepoch of each other. ("The words are less important than the music," said the director of the film's photo-process.) The recurrent images are primarily of the Rolling Stones—working out the title scene (Eve's Temptation). Some of these images mixed in are on the ones that help give us an idea of what the film is about. There are two things that the viewers will find of help to clarify some of the meaning Godard intended: 1) Godard had the final scene of the movie ( freeway democracy being boosted up by the crane) silent; the producers added the final track of the title song, 2) Godard's title for the film was "One Plus One," leaving the answer to the viewer and implying that the revolutionary power of love was the answer. ("Sympathy for the Devil" will be shown next Tuesday and Thursday from 10 to 11 in the Science Auditorium at 8:15 p.m. Admission is free.)

The Educated Man - Who Can He Be?

This is the second in a series of six articles on the educated man. The purpose of this series is to gain the ideas of the student, his concept of the educated man. For the first time, all intelligent individuals have one thing in common: an interest in and some understanding of a wide variety of subjects. Not all of us know everything, but we do know that in order to be a part of our society, we must become educated. The educated man is one whose paintings are being exhibited in your college, and whom you may or may not have heard of before. He will be Tuesday, Nov. 8, from 2 to 4 p.m., in the Library Building Lobby. Refreshments will be served, and members will be available to discuss Krezn's works with him. FTU students and the public are invited to attend Center and FTU Library to attend.

An Open Letter to "The Slimy Toad" from FTU Food Service: Dear Toad: After reading your volume in the latest issue of Future we would like to take advantage of the opportunity to reply to your article on the food service at FTU. First of all, we would like to state that this article is a ridiculous exaggeration and a gross fabrication of facts. Locally and nationally we must admit that it did have merit in some of its points. Your FTU cafeteria has as its disposal two highly qualified chefs who have had many years experience previously and have well-earned reputations as chefs. In reference to the section on pest control we have only one thing to say: All FTU eating areas are made of stainless steel, and STAINLESS STEEL TIPS! As far as the hair situation goes, all cafeteria personnel are required to wear either hats or hair nets. This leads us to the conclusion that any hair which you find in your food must be your own. The FTU Food Service feeds approximately 1,700 students per day. With our doors swinging open and shut almost 3,400 times in a single day, files have ample opportunity to enter. If you would like to know how much the cafeteria personnel work, you will find located around the ceilings of both the snack bar and dining room, inadecmately dispensers strategically placed to keep eating areas "fly-free" as possible.

The Guess Who Cost the Village Center $2,000, which did include the costs for security, the administrative personnel at least 1,560 tickets were sold at $3 and $4, and the VC expects to break even on the concert. The guess is that the fee designed to be a profit-making event, because the group was offered to the students by the athletic, student, and department head, who constitute some of the best teachers. Will there be enough dorm space to house the students who have applied for the school? The answer is yes. The student who has been offered the school is not only a part of the entertainment field, but the diverse images mixed in are also the charge which the viewer should be advised of to help clarify some of the facts. It's just a funny smelling, soft sidewalk.
Dormitory Hotbed May Be Re-made

Solutions to the problems of the residential units are underway, according to President Millican and Vice President Brown. Actual work with students will begin as soon as the dorm students. The selection of residential delegation is selected by the dorm students. The selection of representatives had been delayed pending a decision on the formation of the new RHA organization as presented by Dr. Brown to make arrangements to contain the appropriate residential unit structure for the residential units.

Among the many possibilities the organization might be in the form of: (1) RHA and MRA, (2) individual house governments, or (3) modified or revised plan of RHA, and (4) others. Such plans must be accomplished in full communication with the Assistant to the Dean for Housing and all students in the residential units.

Elections for MRA and WRA officers are scheduled to be held in the next two weeks. Representatives will most likely be selected from elected officials. This far two major steps have been taken toward the solving of the problems, President Millican met with students in the dorm lounge in an informal meeting and answer session, then Brown and T. K. Wehrell, assistant to the dean for housing, met with 14 resident students at the Ramada Inn, also in a question and answer session. A list of major questions and problems was compiled after each of the meetings.

A meeting with Dr. Brown, Dean William Proctor, Dean Green, Sarchet, and Wehrell is scheduled as soon as the student delegation is official.
The Great TKE Kidnap, Capital Crime for Charity

"He sent one of his deputies back for something and that's when we grabbed him." Thus began one of the most unusual kidnaps in Seminole County history when FTU IFC sponsored a Seminole Sheriff's Joke, John Polk and held him for four days. The demand ransom of $10,000 "will be reached by the end of the week.

TKE's Russ Pryor, chairman of the Fraternity committees, commented on the kidnapping in an exclusive Ft. The interview Wednesday. The idea, it seems, had been conceived in April to support the Great TKE Kidnap, a representation of the Status of Liberty, done by Rick Creanman. The men plan to hang it in their offices in Winnipeg.

After the concert, the men were driven to their motel. During the drive they discussed the conservatism of the audience, which they considered unresponsive, and they wondered why "Friends of Mine" was not requested. At the motel, they debated who would go for change and the motel door key, and received the next day's allowance. But the drive itself interested this writer greatly. It was her own compact station wagon that carried the Guess Who to their motel, while they sang to a radio station's recording of their performance.

The group was given a painting of the "American Woman," a representation of the Status of Liberty, done by Rick Creanman. The men plan to hang it in their offices in Winnipeg.

Although the music has progressed, the Guess Who prefer working alone, because the music has progressed, the Guess Who is still able to perform onstage, since they limit their use of heavy orchestration.

"Will be reached by the end of the week.

The actual grabbing was filmed and shown Wednesday night by the local radio stations. So far to date, $10,000 food and clothing and $3,500 cash has been raised. Largest cash contributor was George Jenkins, owner of the Publix chain of supermarkets, who came to the aid of the sheriff with a $2,000 check. The Bishop Moore High School Student Union won a WLOF-sponsored contest, amassing $1,000 dollars for the kids. A rival fraternity, PAR, held the sheriff's body.

If you don't see what you want, ask for it!

The brothers of Sigma Sigma Chi urge all interested persons to give blood to the Pints for Pedro blood donation drive when the blood units come to PTU on the 24th of November. A more worthy cause for giving blood will never be.

- Please help us save the life of a 14-year-old boy. All types of blood are acceptable.

The pledges for the fall quarter are: Jim Jolly, David Jensen, Joe Hartman, Stan Horton, Kenny Nichols, Dennis Hultle, Pat Peckinghagh, Bandy McCurry, Rich Bradley, Ralph Tomlinson, Bernie Knuefer. Officers for the pledge class are: President, Joe Hartman, Vice-President, Stan Horton. The pledges put on a highly successful car wash last week, raising a large sum of money for the fraternity.

And another new one is formed. Sigma Nu Beta, hoping to colonize in the organizational stages with T. R. Weedwell as advisor.

Sorority Sorority held a swim party for the pledges last Saturday night at Grove Park Apartments. The sisters are proud to announce the unusual, but happy initiation of pledge. Teri Foster last Sunday night. Teri was Initiated at Orange Memorial Hospital where she was admitted as a result of a car accident. The fact that she was in the hospital didn't hamper the happiness of the occasion.

Pledge initiation was held Thursday night. After the ceremony sisters and pledges attended a party. New pledges are: Chris Abbott, Lynn Lindsay, and Vicki Williams.

New officers for Sororities are: President, Kitie Wallace; Vice-President and Pledge Trainer, Berta Thompson; and Secretary, Chalana Waddy.

The sisters are getting ready to sponsor a car rally on November 10.

TAU Fraternity initiated the Blood for Peace drive again last Wednesday. Donations will be taken in the C-Dorm lounge from 9 p.m. every Thursday for the next four weeks.

First you take a pumpkin, and put on a happy face.

You can own a Total-Electric, 3 or 4 bedroom home in Englewood for as low as $109,000. Models are open today. FHA & VA Financing Available.

Then you grab a knife and start hacking away at any one of a circle of pumpkins in the dorm circle.

The brothers of Chi Alpha would like to welcome these new members to their Little Sister organization. They are: Linda Falgione, Terry Pevstine, Linda Dier, Carol Lewis, Marsha McDiap, Brenda Smith, Mary Mitchell. Carla Melvin, Pam Hayes, Susie Finder, Nancy Grider, Roma Pyle, Mary Anne Eriason and Sue Subdiah. With these (4) new additions XA feels their little sisters will continue their reign as best on campus.

What you wind up with is The Great Pumpkin. What they ended up with at Tech after the last weekend in an effort for a lot of un-peeled pumpkins. Pie anyone?

(Photos by Lee Defant and Steve Haltzman.)

Flabellini Sorority and pledges with people strong showing by both.

The brothers, pledges, and little men are burning a get-acquainted party Friday night at the Penmar apartments. Due to the busy schedule of classes and varying activities, there's not really any chance for everyone to get together in one place. The Friday night will solve that and it should be a fabulous party.

The brothers would like to announce at this time that Helen (Continued on Page 9)
The CCC (College Civician Club) continued to succeed with its fund-raising projects for the underprivileged children of the Orlando area. The club's golf insurance project turned out to be quite profitable. The club estimates that it raised over $300 for its fund for underprivileged children. The project was conducted last week and consisted of club members selling golf insurance policies to residents of Orlando for $1. The policy entitled the resident to the services of Casper's Cleanup Committee (also CCC), the day after Halloween if they were the victim of a Halloween burglary. The club, in conjunction with the Orione, manned three member's booths on the following day, awaiting for the calls, but not one of the policy holders phoned for the service. It was very successful and an enjoyable event.

The CCC intramural football team dropped in last two games to Faculty-Staff and the Roadrunners. Both of the teams were tough and the club would like to continue each of them on their sportsmanship and good team work. The CCC team now stands 2-2 in league play and they are looking forward to meeting the Bombers, who are currently on tap in the other independent league.

The results of this week's meeting on the books for the CCC. This one will involve the young people of the community and will again be for the benefit of the underprivileged children. The club has established a committee and more will be reported on the project soon.

The CCC has registered for registration week. All the members are confident of a good season since the team has had a chance to play with the Orlando Volleyball Club in school and community games.

Membership is still open for anyone interested in football held weekly on Monday evenings at 8 p.m. at Plaza National Bank.

The first meeting of the PTU (Planning, Safety, Chapter of the ACM) was called to order on Oct. 15, 1970, by Connie Picard. After brief introductory talk, the annual election of officers was held. The officers for the 1970-71 year are: Gary Deese, Chairman; James Kelly, Vice-Chairman; Eloise Beach, Secretary-Treasurer. The meeting was then turned over to Gary Deese. John Anderson was appointed Assistant to the Secretary-Treasurer.

Gary noted that we will continue to have guest speakers periodically throughout the year. In addition we are interested in establishing some sort of computer discussion among our list of club activities for the year. Young's in Gainesville, Navy, and NASA facilities appeared desirable to all.

It was also announced that the PTU Chapter was planning a service project of providing volunteers to the Computer Center.

Regular meetings will be held on the second Thursday of each month.

Courageous students with noble ideals, the PTU Young Republicans continued their vigorous campaigning Saturday. By going door-to-door the candidates hoped to influence people living in important precincts to vote for good government. PTU Young Republicans constituted a major portion of this campaign termed "Victory 70."

Saturday night Ron Thom, Chairman of the Orange County Young Republicans, gave a party for the students who are on their faculty actively as well as politically active.

Friday the Young Republicans sponsored a mock student election. The results of this "straw ballot" proved extremely interesting and the results are included in this issue of the PTU.

Anyone interested in good government should seriously consider joining the PTU Young Republicans. YM meetings are each Thursday at 8 a.m. in Building C.

FTU's Communications Department hosted a high school debate tournament last Friday and Saturday. Participating were 16 schools, including two from out of state.

This year's high school debate topic is "Resolved, that the federal government should finance, administer, and program air and water pollution in the United States."

Colonial High School captured first place in the two-man division. Finishing as runner-up was Boone. Semi-finalists were Tampa Jesuit and a second team from Colonial.

In the four-man category, Colonial's affirmative and negative teams were both undefeated in their classifications. Tallahassee Leon was second and Dothan, Alabama, third among the affirmative teams. The negative teams taking second and third were Dothan and Panama City Regional.

FTU has previously hosted debate and speech competitions, but this was the first tournament for debaters only.

Dr. Raymond Basham, Jr., FTU's Director of Forensics, managed the tournament. Aiding him were some 25 FTU students, who gave each from three to fifteen hours of their own time in judging, criticizing, and assisting the high school students.

CAMPUS GLANCES

The Physical Education Department requests that students attending the intercollegiate football games park in the rear of Lot 200, rather than on the road. By parking in Lot 200, students will not only be closer to the playing field, but they will also relieve the congestion due to the large number of vehicles.

Pick up your "Football Kick-off" Available at both stores.

Enrollment Figures Show Total of 5,119 Students

The total number of students on the campus is now 5,119, according to the final figures released by the Academic Affairs Office. This figure includes 33 campus employees who are taking classes. Of the 5,119 students, 3,356 are lower level students (freshmen and sophomores) at the junior level or below, and 1,763 are post-baccalaureate seniors. There are four to five students seeking a master's degree; 11 are seeking their master's.

Asbury of Academic Affairs said that the number of students on the campus is the lowest number of bad codes this far.

The College of Education leads with the largest enrollment—1,371 students. Of this total, 846 are females, 525 are males, and 276 are students of academic Affairs.

It was a typical Monday. A great show of rain descended from the heavens accompanied by gusts of snow-laden snow—it was the middle of July. A great flash of light was seen in the sky, the clouds parted with the thunderous overture of a million lightning bolts. And suddenly there appeared up in the sky, an Aardvark—no!!!—A Vincent—no!!!—THE SLIMY TOAD!!!

And so it was on that wondrous day that the Slimy Toad was born—born to combat evil, goodness and Ho-Hum breath.

The number of students enrolled according to college is 560. Those students are those whose majors are undecided and those who are majoring in General Studies.

The official Full-Time Enrollment (FTE) figure is 4,477. The FTE is a calculated figure determined by dividing the total number of hours taken by all students by 15 hours, which is considered the average full-time load.

Enrollment Figures Show Total of 5,119 Students

The total number of students on the campus is now 5,119, according to the final figures released by the Academic Affairs Office. This figure includes 33 campus employees who are taking classes. Of the 5,119 students, 3,356 are lower level students (freshmen and sophomores) at the junior level or below, and 1,763 are post-baccalaureate seniors. There are four to five students seeking a master's degree; 11 are seeking their master's.

Asbury of Academic Affairs said that the number of students on the campus is the lowest number of bad codes this far.

The College of Education leads with the largest enrollment—1,371 students. Of this total, 846 are females, 525 are males, and 276 are students of academic Affairs.

It was a typical Monday. A great show of rain descended from the heavens accompanied by gusts of snow-laden snow—it was the middle of July. A great flash of light was seen in the sky, the clouds parted with the thunderous overture of a million lightning bolts. And suddenly there appeared up in the sky, an Aardvark—no!!!—A Vincent—no!!!—THE SLIMY TOAD!!!

And so it was on that wondrous day that the Slimy Toad was born—born to combat evil, goodness and Ho-Hum breath.

The number of students enrolled according to college is 560. Those students are those whose majors are undecided and those who are majoring in General Studies.

The official Full-Time Enrollment (FTE) figure is 4,477. The FTE is a calculated figure determined by dividing the total number of hours taken by all students by 15 hours, which is considered the average full-time load.

Since June this column has been devoted to quite inflammatory statements about the candidates of the opposition party. This writer makes no apologies for the style in which the facts were presented - facts that have been responsible for defeat of those candidates.

I once referred to Mr. Carwell's "statement: "This time the people will decide" and I believe that statement says very much because the people have decided. The people have begun to understand the power of positive and action over negativism and stalemate leadership.

Robert Askew was not against mandate taxes but was for a positive tax reform to allow relief to was the average Floridian.

Students voted in a mock election at FTU last Friday with the results generally following the pattern of Orange County voters in last Tuesday's statewide election.

The election was sponsored by the Young Republicans Club and took place in the Village Plaza. A statewide basis the election featured a considerable Democratic victory while student voting ran strongly Republican.

The election was won by John Askew defeated incumbent governor Reuben Askew for governor. The new senator from Florida's 5th District, R. C. Bolden, who lost to Bill Cranmer in the FTU election. Louisiana's governor, David Cook, has easily over Democrat Roy Girod for Congresswoman from the 5th District in both elections. Florida's voters elected a complete Democratic cabinet while FTU's voters chose Republicans on three positions. Campus voters agreed with statewide voters in the election of Shirley E. Edrington of the Department of Education and Robert Shevin for Attorney General. FTU voters disagreed with the elections of Democrats Dick Stone for Florida's 6th District. Thomas O'Malley for the Florida Senate, and Bill Bexis for Florid Public Service Commissioner.

Fifty-one pumpkins were carved in the Village Center Arcade from 11 a.m. to 4:30 p.m. Friday, Dec. 30.

This is the first in a series of spontaneous activities sponsored by the Arts and Crafts department of the Village Center. Pumpkins and candles were offered free to students who wanted to create jack-o-lanterns.

The carving was offered "just for the fun of it," according to Anna Edgington of the VC, and expanded repeat of the event may be scheduled next year.

Arts and Crafts are also sponsoring workshops on Saturdays and Sundays, and information on these events may be obtained from the Information Booth, Administration Bldg., second floor.

The brothers and pledges of Theta Sigma chapter of Delta Epsilon Pi are doing their thing to aid the U.S. servicemen who are prisoners-of-war in commercial North Vietnam.

The fraternity is preparing to launch a "write Hanot drive" here at Florida Technological University. The first of next to dramatize their concern for the welfare of the fellow Americans held in the South. Theta Sigma plans on having their guest speaker next Tuesday, November 5, one of the Orlando area POW wives.

Bill Watkins, a sophomore for the fraternity POW campaign, said he has the hopes that the FTU community will be responsible for sending the necessary letters to the POWs. His presentation is dramatizing the fact that the great majority of the POWs are university students. Watkins is dedicated and concerned young people who love their country and respect their service men.

Office of the President
Democratic Republic of Vietnam
Hanoi, North Vietnam

I am writing to you to express my deep concern over the American men being held as prisoners of war in South Vietnam. I do care about those men. They have been held captive in the hands of our enemies for nearly 15 years. I am asking for a full accounting of all those held prisoners.

Summer Session
Amendment OK'd
Bill 3-7, student vote on amendment, and approval of the constitution of the united national political organization for the Student Senate meeting on November 5.

The amendment dealing with the voting of the students stated that, "The Senate will conduct a full review of the Student Senate's constitution and rules and regulations and submit the constitution to the Student Senate for the fall semester meeting in the fall for the Senate's consideration and approval."

The amendment was adopted in the following manner: The words in the absence of or at the request of the President. It was then voted on and the amendment was passed with the vote of the Student Senate. The amended section shall read "Notwithstanding the previous vote of the Student Senate, the Student Senate shall hold a special meeting on the Student Senate's discussion at the meeting of the Student Senate in the Fall for the purpose of discussing the amendment and the reinsertion of the new constitution. This period for review will be for a period of four weeks from the date of the first Fall Senate meeting."

The student body will have the opportunity to vote on a constitutional amendment in a special election. The amendment will attempt to separate the Executive and the Legislative branches of Student Government.

The amendment reads as follows: "Be it resolved that Article III, Section 9, Section 13 of the Constitution of the Student Body of Florida Technological University be amended in the following manner: The amendment will be taken at the next Student Senate meeting."

Section 7, Subsection A shall be amended in the following manner: The words: "In the absence of or at the request of the President. It was then voted on and the amendment was passed with the vote of the Student Senate. The amended section shall read "Notwithstanding the previous vote of the Student Senate, the Student Senate shall hold a special meeting on the Student Senate's discussion at the meeting of the Student Senate in the Fall for the purpose of discussing the amendment and the reinsertion of the new constitution. This period for review will be for a period of four weeks from the date of the first Fall Senate meeting."

Big Sports No Problem

With the recent Florida trend of the students taking a de-emphasis on athletics, the role of athletics on the university is under study. A committee of officials at FTU were asked to consider how to re-emphasize athletics. FTU will have to de-emphasize athletics before it can get up and go. Both Dr. Frank Ruberto and Coach Gene "Torczy" Clark have said that FTU will not go to the University of Florida, State, and Florida A&M would have any effect on FTU's program.

"Miracle" Mike Clark, FTU's big scoring gun last year is shown here warming up before going into a practice session at the Oviedo High School gym, home for the team this year. Clark is expected to again lead his team in point production during this tougher upcoming season, but predictions are varied. The role of athletics on the university is under study. A Gnu Is New At FTU
By Bill Clark
Sentiment Sportswriter
Dispatch to the PuTure

FTU needs a mascot, huh? Well, don't sneeze it. It's no big deal. You're saying, in another writer's words, it's just because the other guy's idea is different from yours. Just pick one, almost any one, and then make it mean something. There's the obvious solution to your problem. You could even take a Gnu, for example, and call yourselves the FTU Gnu. (Does sort of have a ring, doesn't it?)

You know what a Gnu is, I trust? If not, let Webster help.

A Gnu is a bit larger than a hop, with a full-sized regulation wrestling mat for his team. Undergrad. player ... good scorer, feeder, quick, and so could the FTU Gnu. This sort of sexy, anyway."

Coach Clark parried the question, pointing out the fact that FTU's program has been far from having the problem - "mainly because academics are stressed here at the university and we've just gotten under way. We are the forefront of academia." The Florida Alligator reported that Gainesville's athletic department received $457,000 annually through parimutual betting in the state of Florida.

Santa To Present Mats for Gergley

Coach Gerald Gergley is hoping for a large Christmas present this December. He's wishing for a large $450 to replace the mat for his team. Each day 30 students gather at Lawton Elementary School gym a gnus' frontal shield being present everybody's favorite!

"This will be our first look at a full-sized regulation mat," Gergley commented. The team will "have to turn their best effort to keep up with the Gators." A Gnu should be the brightest team in Central Florida if this mat is given. We still need a scale - we've been using the bathroom scale which I keep in the trunk of my car.

With 30 out, Gergley insists there is no way the team will fall out of the way come out. The whole team should stay strong after Nov. 20th in Gainesville.

SPORTS SHORTS
FTU's golf team took Embry-Riddle Aeronautical Institute to its last test in the Nov. 20th at the Royal Oaks Country Club in Winter Park.

Marc Ruskewick was low man for FTU with a 77; this is the second time FTU has put down Embry-Riddle. Mr. Hunter of the PE department noted the rest of the FTU individual scores: Mike Yutzi 83; Steve Jobe 83; Ed Griffin 83; and Mike Johnson 83.

PuTune

GDVI Clips TKE 
With 19-7 Upset

Rus Salerno, TKE’s assistant basketball coach, was elected to the chairmanship of the Pep Club Tuesday morning and he immediately outlined a vigorous campaign to raise school spirit for the rest of the season.

Salerno pointed out the ideas that might be brought into play to make the Pep Club a more active, more service oriented group.

High hopes were expressed for a sign-satler at the entrance of the campus to attract student attention to the activities to the students.

He also expressed the hope that the TKE football fraternity might win a trophy for groups that participated in the TKE powerlifting competition, and the fact that WBU hopes to have the new gym will give the possibility of broadcasting on FM radio, both in home and away basketball games.

He mentioned that the Orlando Homecoming Powderpuff Division at FTU is searching for new recruits for the 1970 fall quarter. Everyone interested should complete the registration form on the schedule, which may be purchased at the Olympic Gym or the Recreational Center.

Although neither team captain or players have been chosen, I think we will have about 12 powderpuff teams this year, compared to the four we had last year, commented Student Woman’s Coordinator Dizade Glazier. The first game will probably be played November 16 or 17 of this month," she added.

Owen’s office plans to publish a schedule for Wednesday and Thursday afternoons (Nov. 11 and 13) at 4:00 p.m. - 5:00 p.m.

Get Off the Ledge
Panthers Look Good

Some FTU students who had bought season tickets to see the Orlando Panthers’ games against their fellow stockholders in 1929 when rumors began spreading that the Panthers might stop playing the game or at least cease to charge admission to their events. If it’s true, according to Coach Clyde, Dean of Sports, the Panthers Football Club, that things are improving, much to the delight of those who had just received them.

In the phone conversation, Coach said that the football players were guaranteed only half of their salaries for last Saturday’s game but the response at the gate was rewarding enough to allow the team members full pay. He also announced that members of Commerce supported the team by making the difficult decision to purchase and sold another 800 season tickets — a book total 2,000 tickets not including those from this fortunate turn of events, Coach said he will see no changes in the Panthers’ schedule or procedures.

The FTU Band, sponsored by the Student Activities Council, will play its usual program at the Winter Park WMCA. Tickets for the most, will be available at the Student Service Office or in the Village Center.

A volleyball clinic will be held Wednesday and Thursday for those participating in men’s intramural volleyball during the fall quarter. For information, contact Ken Kenna, director of intramurals, or in building 101 for details.

in the past, but how good some of the girls had looked the Sunday before with their see-through bloomers and low cut high-heeled shoes. There was no official word if the parks would be reopened this Sunday, but chances were good they would be done the three publics for the Orange County's welfare seemed to be abating.

Mock Election (Continued from Page 8)

In all eight county legislation contests the university's voters chose Republican. Democrats Bill Pofford and Robert Milburn won the actual elections for state representatives from the 40th and 44th districts, respectively. The list of Republican winners includes: Robert McGee for the 39th, Eugene Fulford and Robert Milburn won the 43rd, and William L. Butch Mooney for the 38th, William D. Sanders for the 37th, Walter D. Jowell for the 36th, William D. Norment for the 41st, William D. Ruger for the 43rd and William L. Gibson for the 45th district. The newly elected County Solicitor is Republican Rom W. Powell, supported by the mock vote.

The turnout was very disappointing with only 7% of the student body participating in the election. Returns clearly indicate that those students who are concerned with the problems of the country are very few, conservative, and Republican. Students voted in favor of amendments proposing the vote for 18-year-olds, majority rights for 18-year-olds, judicial reform, and fiscal for pollution control. Florida voters denied the vote for 18-year-olds.

Drug Education (Continued from Page 8)

community. Father O'Neill calls it the "educational phase," designed to inform the community on the medical, legal and psychological aspects of drug abuse. The slate of speakers includes eminent medical and scientific people chosen for their expertise in their fields, such as Dr. Morris Bernstein, psychiatrist at Mt. Sinai Hospital in New York City.

"This is the first coordinated effort to give the total drug picture," says Father O'Neill. The lectures will take place at the Winter Park High School auditorium, 2100 Summerfield Road, on four successive Friday evenings at 8 p.m. beginning Nov. 6.

The drug treatment facility is envisioned as a place where ex-addicts will have an opportunity for complete rehabilitation. "We will integrate them into the community with work-study programs, service-oriented projects, tutorial projects, and work with crippled children," Father O'Neill says. "I have a terrific optimism on it. I believe anyone can do anything. One's only boundary is his own mind and his own imagination."

HAVE YOU HEARD THE BOSE 901?

The Amazing Quest of Dr. Amar G. Bose ...

Professor of Electrical Engineering, here revealed for the world to understand! Dr. Bose loves music. He frequents Symphony Hall in Boston, and was a student of the violin. But Dr. Bose (a hi-fi enthusiast, too) could not equate what he heard in concert halls with the music reproduction of commercial speakers. So he put all his skill, knowledge and resources (extensive, all) into the designing of a perfect speaker. Sparing you most of the scientific-engineering-type details (see Audio, 12/68, for the whole story) he succeeded ... and you can possess the results of these years of research.

The Bose Model 901 Direct/Reflecting Speaker System. You’re not just getting speakers — you’re getting a legend, and a piece of history.
