New Dean Of Men Now Being Sought

Applications are now being accepted for the position of dean of men. A replacement is being sought for William L. Proctor, who was promoted to assistant to the vice president for student affairs. Proctor is currently serving as acting dean until the replacement is selected.

Vice President for Student Affairs W. Ben Brown stated that any student who has a serious suggestion for a possible dean may write him a letter, and he will see that it is passed on to the Director of Personnel, J. Thomas Simmons, for possible action.

Simmons said that the minimum requirements for the dean of men as established by the Florida Board of Regents are a doctorate degree with the emphasis in the personnel, guidance, and psychology fields, and three to five years of progressive student personal experience.

His job is defined as "overall responsibility for the general welfare of all male students... counseling... serves in administrative, counseling, and advisory capacity for student government and campus organizations." Simmons explained that the exact job of the dean may vary from campus to campus.

In reference to rumors that students might have a voice in the selection of a new dean, Brown commented that it was quite possible that students would have an opportunity to meet with any potential dean, and that the recommendations those students made would be considered in the final selection.

He stated, however, that the final choice is up to the office of student affairs, subject to President Charles E. Simmons's concurrence and final approval.

Ellis Now Dean Of Grad Studies And Research

Dr. Leslie L. Ellis, Jr., has been elevated to the rank of Dean for Graduate Studies and Research at Florida Technological University. The appointment was approved Monday by the Florida Board of Regents, meeting in St. Petersburg.

Dr. Ellis, who joined the FTU faculty in July 1968, has been serving as Director of the Office of Graduate Studies and Research since April 1969. His initial appointment was as Professor and Chairman of the Department of Biological Sciences.

Dean Ellis's new title reflects a wider responsibility for the conduct and operation of the University's growing research grant program, research proposals, and post-graduate courses and programs designed by FTU's six colleges.

PRE-REGISTRATION

Students who wish to register for classes are reminded to arrive no later than 3:30 p.m. The demonstration is being held on campus in the Sports Pavilion.

March Of Dimes Is For Dollars

Between 1,000 and 2,000 volunteers will be marching 20 miles Saturday from Gainesville to Ocala to raise money for the March of Dimes. Walking will be on the university campus and downtown areas.

Volunteers will be marching 20 miles. The event will begin at 9 a.m. and end at 5 p.m. Saturday. The March of Dimes campaign is being coordinated by the Florida Board of Education.

The event is open to all FTU students, faculty, and staff members, and is sponsored by the Florida Board of Education.

Preregistration

Preregistration for the March of Dimes will be held at the FTU library on March 5th. Preregistration forms will be available at the FTU library.

The March of Dimes is for Dollars is a nationwide event where students, faculty, and staff members participate in raising funds for the March of Dimes.

One aspect of the March of Dimes is for Dollars event is the "Feverish" Walk. The "Feverish" Walk is a 5K run/walk event where participants donate money for each mile they complete.

Another aspect of the March of Dimes is for Dollars event is the "Walking for the Dimes" event. Participants walk the 20 mile route, stopping at checkpoints along the way, and donating money for each mile completed.

The money raised through the March of Dimes is for Dollars event is used to support the March of Dimes programs, which aim to improve the lives of children with disabilities.

Volunteers are needed for the March of Dimes is for Dollars event. Volunteers will be needed to help with registration, route marking, and other events.

Volunteers will be needed to help with the "Feverish" Walk event. Volunteers will be needed to help with registration, route marking, and other events.

Volunteers will be needed to help with the "Walking for the Dimes" event. Volunteers will be needed to help with registration, route marking, and other events.

For more information about the March of Dimes is for Dollars event, please contact the FTU library.

The March of Dimes is for Dollars event is an annual event that raises money to support the March of Dimes programs. The March of Dimes programs aim to improve the lives of children with disabilities.
To Have A Greek Week?

There probably wouldn't be much argument to the statement that the Greeks of FTU are by far the most involved and active people on campus. Their enthusiasm to participate in campus activities is commendable and I feel it's about time we gave students an opportunity to offer their suggestions on ways to keep this high energy level up.

It is a good idea to start with the student leaders and get their responses and then, by using the students who are the most active, extend the survey to the other students. By having a larger percentage of the student body involved and to serve the university and the community the time and again.

These could be interpreted as positive statements. However, the Greek system is in danger of losing it's power due to a lack of communication and organization between themselves. It might be necessary to establish a university council to keep the entire system going, but also for organization.

The current issue is Greek Week. The weekend event was held the first week of May last year. That leaves approximately one month for an entire and thorough planning. Obviously, unless some miracle takes place, FTU will either not have a Greek Week or have a poor one.

That is unfortunate because it is one of the few events that bring all Greeks together as equals for a good time and healthy competition. It is my hope that, after a month of planning, the decision would be made to have Greek Week. At this point, it might be said that the decision had better be made pretty quick and it is a decision that is difficult to change. After a month of planning, you have made so many decisions that it is impossible to change them.

Perhaps the finder will learn through a thoughtful person. I am sorry.

Sincerely,

Elsie P. White

Thoughts On Stupidity

The following is a condensation of "Some Thoughts Concerning The Concept of Stupidity For Those Who Still Believe That The University Should Rule Over The Student Body-Or What A Hell Of A Semester This Was" by D. Stephen Goura.

"Stupidity" is a condition with which most of us must live. Fortunately, it cannot be overcome. What we can do is learn to recognize, classify, and combat those types of stupidity.

There are two theories concerning the cause of stupidity. The first is that it is a function of intelligence. Stupidity, on the other hand, is insensitivity. Both theories claim that people frequently behave in incredibly stupid ways.

1. Stupidity is missing a final exam, telling the instructor that one concept and thinking that the exact opposite is true.
2. Stupidity is not going to class for an entire semester and then asking the instructor what the chances are for getting an A or B on the exam.
3. Stupidity is telling an instructor that the course textbook is boring when one has not even purchased a copy of the book. Let alone read it.
4. Stupidity is cutting a class and then making sure that the instructor sees the student in question laughing and giggling outside the classroom.
5. Stupidity is giving a speech advocating the shutting of graves and then asking the instructor what the chances are for getting an A or B on the exam.
6. Stupidity is introducing one's speech with the expression, "I ain't much of a speaker," and then not understanding why the instructor continued to listen.
7. Stupidity is thinking that when one brings a country dancing, other minorities should not be invited. Stupidity is not immediately gaining for grading the participation's contributions.
8. Stupidity is saying not one word in a discussion and then wondering with the instructor why he had not been grading the participation.
9. Stupidity is suggesting that one instructor that one has a rare blood disorder and then being unable to specify the disease.
10. Stupidity is giving a country name after having been in class for an entire semester.
11. Stupidity is thinking that Reader's Digest is a "primary source" for accurate information.
12. Stupidity is thinking that Reader's Digest is even a good source for accurate information.
13. Stupidity is even considering using Reader's Digest as a source for accurate information.
14. Stupidity is believing that Jerry Rubin is an objective authority on the Vietnam War.
15. Stupidity is not being able to understand why faculty members are invited to and ten per cent of their salaries for the payment of student fees.
16. Stupidity is thinking that wanting a college degree is a sufficient concept.
17. Stupidity is being unable to understand why items 1-16 are indices of stupidity.
18. Stupidity is not knowing an instructor's name after having been in class for an entire semester.
19. Stupidity is claiming full credit for the Medieval Festival. Stupidity is not being able to understand why items 1-16 are indices of stupidity.
20. Stupidity is not knowing why, the instructor says, that it is necessary to order speech materials.
21. Stupidity is being unable to understand why items 1-16 are indices of stupidity.
22. Stupidity is introducing one's speech with the expression, "In short." Stupidity is being unable to understand why items 1-16 are indices of stupidity.
23. Stupidity is being unable to understand why items 1-16 are indices of stupidity.
24. Stupidity is introducing one's speech with the expression, "In conclusion." Stupidity is being unable to understand why items 1-16 are indices of stupidity.
25. Stupidity is not knowing why items 1-16 are indices of stupidity.
26. Stupidity is not understanding why items 1-16 are indices of stupidity.
27. Stupidity is introducing one's speech with the expression, "In my opinion." Stupidity is not understanding why items 1-16 are indices of stupidity.
Question: Is Lake Lee Polluted?

...YES

By Mike Critz

Dr. Martin Wanielista affectionately refers to the two students as "Marty's Marauders." He says that the pair will strive to "keep the lake as virgin as possible."

The pair's first idea was to reconstruct an old dock on the lake. They will be getting rid of some of the weeds. Their primary intentions will be to beautify the lake and maintain the natural environment.

J. C. Hicks, superintendent of grounds at FTU, sanctioned the club's help to clean up Lake Lee, saying that they want to do something about environmental problems, rather than just talking, explained Dr. Wanielista.

Campus Planner James Schroeder's explanation of the Lake Lee situation differs from Dr. Wanielista's contention that the lake is virgin. Schroeder says that the lake is partially polluted due to drainage from the highway along the road and the university. He goes on to say that FTU is changing the drainage problem. No university expansion is planned for the Lake Lee area.

...NO

Mr. James Schroeder

Larry Pope and Tom Rhoden, students of ENGR 488, are working on a project with Dr. Martin Wanielista, associate professor in Civil Engineering, to determine the physical characteristics of Lake Lee. They will be getting rid of some of the weeds. Their primary intentions will be to beautify the lake and maintain the natural environment.

J. C. Hicks, superintendent of grounds at FTU, sanctioned the project. "They want to do something about environmental problems, rather than just talking," explained Dr. Wanielista.

On the outside looking in? Just getting a sneak preview of preregistration.

Lettermen To Appear; Free To FTU Students

Mr. George J. King, Executive Assistant to President McAllister and Director of the FTU Foundation, received $755.56 on behalf of the foundation from the Delta Tau fraternity. The money was the product of the fraternity's booths constructed and manned by members of many fraternities and clubs on campus.

AQUA KNIGHTS CLEAN UP THE FTU AQUA KNIGHTS, a green team, participated in a clean up of the completed swimming pool last Monday and Tuesday. Daniel R. Abbott, utilities superintendent, requested the club's help to clean out the debris at the bottom of the pool, since the filtering system filters only small-diameter objects. Dave Anthony, a Knight, reports that among the objects in the pool were brick and cement chunks, a pair of eyeglasses, and 25 cents in change. He added that the Monday temperature of the pool was 94 degrees.

The pair's first idea was to reconstruct an old dock on the lake. They will be getting rid of some of the weeds. Their primary intentions will be to beautify the lake and maintain the natural environment.

J. C. Hicks, superintendent of grounds at FTU, sanctioned the club's help to clean up Lake Lee, saying that they want to do something about environmental problems, rather than just talking, explained Dr. Wanielista.

Campus Planner James Schroeder's explanation of the Lake Lee situation differs from Dr. Wanielista's contention that the lake is virgin. Schroeder says that the lake is partially polluted due to drainage from the highway along the road and the university. He goes on to say that FTU is changing the drainage problem. No university expansion is planned for the Lake Lee area.

The Lettermen, widely known vocal trio, are appearing in concert Wednesday, March 31, at 8:30 p.m. in the Orlando Municipal Auditorium. Admission to the concert is free to FTU students and tickets may be obtained from the Village Center office March 29, 30 and 31.

When I Fall in Love" and "Come Back, Silly Girl," sold almost two million copies. Their first album was a best-seller, and stayed on music charts for 88 consecutive weeks, and "For Christmas This Year," their Christmas album, is the second most popular holiday album.

The trio, which now has released 45 albums since its first single, has also been working at Las Vegas, Lake Tahoe, Reno, Chicago, Los Angeles, Miami and New York in hotels and nightclubs.

The Lettermen travel separately on tour, and rarely travel more than 250 miles between concerts. They have converted a 1969 full-size bus for all completed shows so that critiques may be done later.

To those students who, above & beyond the call, gave in excess of themselves - a sincere and heartfelt THANK YOU from FTU.
Folk Fest To Feature Professionals, Students

At least five professional performers will be in the Village Center Folk festival April 2. Gamble Rogers, Lil Corrigan, Robert Patterson, Paul Champion and Jim Bailie have been contracted to appear during the Friday evening event, which will last from 7 to 11 p.m. on the lawn between the Village Center and the Science Building. The festival will last until at least 6 p.m., but it may run longer if there is enough student interest.

Rogers is now performing at the Bitter End in New York. Formerly of the Serendipity Singers, he has appeared on the Ed Sullivan Show, Johnny Carson, Mike Douglas and Today television shows. He has also performed at the Bitter End, Gamble's Folk City and Gas Light in New York City, the Flick in Miami and the Last Resort in Athens, Ga. He has records for United Artists and Phillips, and his styles include folk, blues, rhythm and blue, and Southern Gothic.

Lil Corrigan, who has also appeared on the Ed Sullivan Show and at the Del and Gateway records. She has appeared on the Mike Douglas Show, and has appeared at Gamble's Folk City, the Cellar Door in Washington, D.C. She has also appeared on college campuses.

Jim Bailie, who is currently performing in St. Augustine, has had RIAF records. He also has appeared on the Mike Douglas Show and at the Bitter End, Gamble's Folk City and Gas Light in New York City. He has also appeared on the Ed Sullivan Show, Johnny Carson, Mike Douglas and Today television shows. He has also performed at the Bitter End, Gamble's Folk City and Gas Light in New York City, the Flick in Miami and the Last Resort in Athens, Ga. He has records for United Artists and Phillips, and his styles include folk, blues, rhythm and blue, and Southern Gothic.

FTU Co-sponsors Teacher Workshop

Applications are being accepted now for a two-week national teachers' workshop at Kennedy Space Center June 24-July 5 and co-sponsored by Florida Tech University and the National Aeronautics and Space Administration. The workshop is being coordinated by Dr. Anthony Cavallar, Director of FTU's Center for Continuing Education in Space and the Florida Coordinator for the newly-organized Space Education Advisory Council.

Applications accepted for the workshop will earn four quarter hours of credit. Instruction will be directed toward translation of space information, science, technology, and new discoveries into usable form for the classroom, said Dr. Drueske.

Each workshop participant will be expected to aid in production of learning activity packages, based upon development of concepts and instruction materials and methods, once they return to their own schools. Applications are being accepted until May from teachers who will visit during the week of June 25-29, 1970.

Results of political party preference showed that students who represented "Independent" political preference tend to place less weight in the candidates' party affiliation

Students Favor Muskie For President In '72

College students are placing their support behind Senator Edmund Muskie (D., Me.) for the 1972 Presidential election, according to an article that appeared in the Chicago Tribune. Muskie received 31.4 per cent of the votes cast. A recent national University Index survey showed that Muskie is running more than two to one ahead of his closest competitor, President Richard Nixon.

During the second week of January, 1,190 students attending 47 universities were asked "Which ONE of the following potential candidates would you most like to see elected President in the 1972 election?" Students were given 12 choices and they ranked them as follows:

1. Edmund Muskie (21.4%)
2. Richard Nixon (14.6%)
3. Eugene McCarthy (10.6%)
4. John Lindsay (9.0%)
5. Ted Kennedy (1.1%)
6. George McGovern (0.5%)
7. Nelson Rockefeller (0.5%)
8. Hubert Humphrey (2.9%)
9. Birch Bayh (1.1%)
10. Ronald Reagan (1.1%)
11. George Wallace (1.0%)
12. Other - no opinion (0.5%)

Muskie was also cited more frequently than any of the 12 other candidates when students were asked for a second choice. Nixon was followed by Kennedy, McGovern, Brezhnev and Nixon.

The results of political party preference showed that students who represented "Independent" political preference tend to place less weight in the candidates' party affiliation.

Additionally, according to a survey, those students with a political awareness was somewhat less than their peers tended to rank their votes for Humphrey and McGovern more often than those who were more politically oriented. This "political awareness was determined by an additional survey on the campus.

Campus Glances

EARTH DAY

Circle K is sponsoring "Earth Day" next Tuesday to inform people about environmental problems. Plans for the day include the built of a Volkswagen engine and bar of detergent, folk song, and speech by Dr. Martin Winters, associate professor of Civil Engineering.

Campus Glances will be next to the "Other Campus News" Multi-purpose Room. There will be an actual funeral service for the engine and detergent, presided over by a Circle K member.

Dr. Winters will speak on "Environmentally Bound Product and Practices."

The ceremonies will be broadcasted live by WEDO-TV, Channel 6.

FTU's Student Government and The Village Center proudly present

"The Lettermen" IN CONCERT

Wednesday, March 31st
8:30 P.M.
Orlando Municipal Auditorium

ADMISSION FREE TO FTU STUDENTS

Tickets are available at the Village Center Office March 29, 30, 31

Note: Dean of those of college classes desiring to schedule multiple sections courses should consider use of evening hours during the March 4-19 period since those days are available on the end of Winter Break for college classes and the beginning of the final examination period. Auditors and large classroom use should be scheduled through the Electronic Planning Office during the period.

I. Classes which meet first during the week on Wednesday, Thursday or Friday should schedule day or evening examinations during the first period of the week. The second period of the week should be used for the purpose of the instructor in consultation with all members of the class.

II. Classes which meet at 6 p.m. or later should normally meet for two hours or more and should schedule examinations at the regular class hour during the period March 16-19.

III. Continuing Education course examinations should be scheduled at the last period March 16-19.

IV. Final examinations are mandatory if required by the course instructor.
Co-Eds: Part-time work is available. Afternoon and evening hours available. 6 miles from FTU at 50% utilities. Call COL 566-4253.

Water Works Fools The Air
Hydrogen sulfide escapes into the air from the water plant located on FTU Boulevard about 500 feet from SR 436. The sulfurous odor is abhorrent to many students who live in the area.

The escaping gas results from a filtration process which removes sulfur from water before it is sent to the water plant for distribution. The City of the General Water Works Corporation said that Plant No. 5, the water plant in question, is due to be expanded soon.

Dr. Martin Wanielista, FTU associate professor of Civil Engineering, came up with a filtering device for the water plant which would raise the price of water for people in the area by two cents for 1,000 gallons. This would be an additional $2 or more a month for people in order to eliminate the odor.

Canty said that if a filter was put into use the increase in the cost of water would not be immediate. The cost of maintaining it would be paid out of a share of the price of water.

Faculty has had ideas of how much the increase would be.

Teeples Head Credit Union
The FTU Credit Union held its first organizational meeting Thursday night at the University Center, which was attended by over 100 interested FTU employees. The first slate of officers was elected. The Board of Directors includes the following: President, Dr. Eugene Teeple; Vice President, Dr. Cecil Poston; Treasurer, Mrs. Beti Bunnell; Secretary, Mrs. Minnie Payne; and Mrs. Linnie Cunningham. Members of the Credit Union, including Bill Dian, Jim Graeber, and Dr. Fred Green, have expressed an interest in being involved in the Credit Union. The Membership Development Committee (Marketing) is chaired by Mrs. Cunningham and members are to be named in the next few weeks.

The first Board of Directors and committee members have begun working on the formation of the Credit Union, which will be completed within the month. For further information contact Liz Cunningham at 2501 or Beti Bunnell at 2711.

The Only 6’5” Pygmy To Speak Here Tuesday
Jean-Pierre Hallet, collector of African tribal surface, authentic, and traditional cultures, art and folklore, has spoken for more than 10 years a 400-foot tall African woman in the FTU确认 Auditorium Tuesday at 10 a.m. After delivering his first portion of the program he will speak on the traditional crafts and arts, and until 11 a.m. when he will present the second half of his story.

Hallet, who said with the Belgian Ministry of Colonies in 1948, is the only Caucasian member of the two pygmy tribes, the Bandidre and the Hanging, who was assigned to the Congo as an agronomist and zoologist. Hallet let to win the confidence of the African tribes with such feats as building a 150-foot long lion with a man on its back. In only 30 years, the pygmy tribe has collected 330,000 languages and 17 dialects. After receiving their treat, Hallet was able to teach the African tribes to cultivate soil, to build homes and schools.

During a drought, he risked his life to bring water and dynamited fish to provide food for the starving people of South Africa. He lost his right hand when a defect in a well exploded prematurely, and had to walk on through the thick mud of people and animal interest.

Hallet decided to leave the Congo because of the uprising. Unlike many European who were forced to escape and leave all their possessions, Hallet packed about 13 months’ worth of clothes and was escorted across the border by a band of his tribal brothers.

The collection is now considered the finest private collection of African literature and is now at the University of California, Davis.

Hallet has written a book of his years in the Congo, "Afacia.

Tuition Waivers
Some out-of-state tuition waivers are still available. Prospective students who might qualify should contact Donald Baldwin in Financial Aid.

Lk. Claire Development
Effects Hard To Predict
As FTU expands into the Lake Claire area north of the campus, ecology-minded students will be development of the lake will have on "Any type of development will Chevreuil, assistant professor of Biology.

Dr. Don Henley, assistant professor of Biological Sciences, suggested that the development would affect the lake's ecosystem and the environment.

"The contents of the lake are generally acidic, and drainage from the limestone would be basic. Drainage of the parking lot and road will be planned for a nearby supermarket.

Reflecting Pool Changes Delayed
Improvements for the reflecting pool between the Administration and Library building will not begin until possibly next year, according to Fred Clayton, director of FTU Physical Plant.

"The delay is because of the current economic uncertainty," Clayton said.

It is expected that the cost of the project will be $15,000. In addition to the improvements, there will be a limestone parking lot and a rubber-lined pool from the main campus to Lake Claire.

The entire area that Lake Claire drains into will be landscaped.

Dr. Hallet, who has spent six months working in the area, explained that the lake is contaminated and very desirable for studies in biology and other fields of science. Dr. Hallet indicated that the lake will be developed as a building and the Library building will not be allowed. The center will be multi-spray, and to purchase, will be multi-spray, and to

Lake Claire is still under development, still under development.

Kopy Aid
Cophyphers

Three patented sturdy metalSerialized copy holders make tough copies easier. Copies of your homework, term papers, letters, envelopes, and slides are easily stored, and retrieval is easy.

Model 31-S. With bottom label for name, code, or price.

Lit-Ning Stationery Cabinet
The durable plastic hand-carved wooden-grain is assembled to this modern stationery cabinet. Paper, envelopes, and almacen are stored within easy reach. Does double duty when there is room to store absolutely everything.

No, ever again, does copy holding time take more than a few seconds.

Godfathers Delay Transfer Program

A two-year effort to standardize admissions criteria for community college students seeking entry into the state university, was delayed at least another month by the State Board of Regents meeting in St. Petersburg this week.

Despite plans from some university presidents, the board voted to postpone action on the proposal which would eliminate from consideration a failing grade in a course if the course was repeated and a better grade achieved.

Under proposed changes, a junior college student who failed a course in history, then took the same course again with a resulting "A," would be given credit for a "C." Presently, if a student fails a college course, administrators would see and judge.

The new proposal would allow only the second grade to count and be considered on a junior college student's transfer application to a state university.

Arguing against the new plan was U. of Florida President Dr. Steven OConnell, who said it would create a number of new problems. "And besides, the economic effect of this has not been fully analyzed."

Board Member classifier Ferguson said he would like to see the plan expanded to include the freshman and sophomore students in state universities who decide to transfer to other institutions. "I don't think a student should be penalized for how well he did in the second time around in a course by being held back for the first time through," Ferguson said.

A strong advocate of the new proposal was Dr. Charles Perry, president of Florida International University. Perry said he would lose most of his students from the ranks of prospective graduates.

"There are broader aspects involved here than just grading," Dr. Perry said. The board's real question is whether the community colleges in the state are a viable part of the state university system. If they are not going to be considered, then there must be created within the state university system, lower divisions to handle the needs of the new students."

"Gentlemen," Dr. Perry concluded, "times are changing."

FTU takes a vote in favor of the new plan at the meeting of the board of University Presidents. But despite the nearly unanimous support of the presidents, the regents voted to return the proposal for committee for further study.

 Territory Staked Out For Retraining Plan

The State Board of Regents has approved a retraining program for thousands of jobless engineers and technicians at Cape Kennedy.

The board okay may shortly be followed by a $32,000 federal grant to fund the plan, a study program at FTU, Brevard Community College and Florida Institute of Technology.

When the study is completed, a $15 million grant will be sought to implement a pilot program which, if successful, will retain more than 3,000 Cape people in the fields of environmental studies.

The two-year masters program in "environmental systems management" will be directed toward making pollution experts of the workers laid off by NASA, FTU and FIT will re-train scientists while BCC will train technicians.

The political aspects of the program were still evident during the brief presentation to the board by Orlando Regents Dr. Louis Murray. Dr. Murray made it clear that FTU's part of the program would involve just those persons in the Orlando, Titusville and Daytona areas, and that FTU would in no way attempt to offer overlapping services with BCC, Melbourne.

FTU officials have been angered recently by what they considered an attempt by FTU to establish itself as the center for technological education in Central Florida. The boundary lines outlined at the Regents meeting were seen as a stab at re-establishing harmonious relations with the Melbourne school.

BULLETIN
The Village Center Board Announces Elections of New Members

All interested persons must pick up and fill out an application by today, March 5, 1976.

Serve your school -- through the Village Center Board of Student Directors.

REGENTS APPROVED A new 4-year, $60,000 program at FPU for Graduate Studies and Research.

The Regents approved to call the indefinite (3-5 year) moratorium on new doctoral programs in the university system in order to study the changing needs in these fields.

"Now I see why they closed the library balcony during finals."
The FTU tennis team will square off against the Texas Engineers in a match on March 5th. The Engineers have a strong team, with several players holding top rankings in the state. The match will be held at 10 AM on the FTU tennis courts.

The FTU team is led by Coach Jack Pantelias, who has won several state championships in recent years. The team is looking forward to the match and hopes to continue their winning streak. The match will be a good test of the team's skills and will help them prepare for upcoming tournaments.

In other news, the FTU wrestling team has been working hard in preparation for the upcoming state championships. The team has been practicing every day, and the wrestlers are ready for the challenge.

The FTU tennis team is also hosting a fundraiser event this weekend to support their team. The event will feature a silent auction, a live auction, and a raffle. All proceeds will go towards the team's travel expenses and equipment.

The team is grateful for the support of the community and hopes to see many people at the event. They are looking forward to a successful tournament season and are confident in their ability to bring home the championship.
The FTU Golf Team traveled to Tampa, Florida, April 30, for a match with the University of Tampa and Saint Leo College. In a close eighteen hole match over Quail Hollow Country Club, FTU golfers were defeated by Tampa and Saint Leo. FTU gained the split by tying with Saint Leo.

The University of Tampa was surprised by the strong showing of FTU golfered by Mike Uze, who was medalist with a 75 Mark Stockwell and Dick Haze also have shown with scoring with 76 and 77, followed by Robert Harris and David Howard and Wayne Leblanc 82.

FTU will try to even the score with Tennessee who comes out of these two schools in a home match at 85. However, two weeks of practice Richard Hunter feels team is progressing very well. Every week we have ten to twelve boys qualifying for the six spots available for the next match, Hunter said.

people who accept the idea. The day that philosophy is gone, then I will walk out.

Despite losing their first three conference, the Knights began their hardest. Dr. Wood said, "They give us terrific account of themselves."

**Wrestling**

(Continued from page 9)

the turning point in the season was the first home dual meet when FTU defeated the University of Tampa in front of a standing room only crowd at the campus Village Center.

"To save the team a victory of victory," said Ellis, "I brought them together." The most improved wrestler on the team, it seems is Jim Weaver. In the eyes of the coach, John Brown, Weaver next on the most improved list, followed by Rickie Ford, Norton, Don Biggers, and Fred Masui.

"We have come along tremendously," commented Ellis. "He has improved twice in the dual meets we wrestled because we could not afford to lose in weight class. After two meets, he went in state, wrestled three or four times and took fourth in the state." Norton was beaten by super-Ghost Gary Gains in a 1-1 decision.

Next year, the wrestling team will compete in 15 or 20 meets, half at home. Among the collegiate scheduled will be a trip to the West Coast. Norton said it may be a plus opportunity for wrestling. Other than that, he said, "The Bombers, led by Bobby Gibson's two goals and Steve Alger's 3-0 victory over ODI, after previously defeating God's Children, 2-0. These goals each won by Mark Jones of the Ken Bomber led Faculty Staff to a 7-2 victory over Marjorie Maine. 23 rallied from an opening loss inflicted by the Roadrunners, to defeat Marjorie Maine 2-1. GDI, led by Larry McCord's four goals and Ivan Rotan's three assists, also overcame an opening game loss to defeat God's Children, despite Charlie Black's two goals.

Because the Intramural Office wanted to finish Soccer before it would conflict with finals, the schedule was set up so that the season would end in two weeks. Therefore, soccer finals are set for Wednesday at 4:30.

As their name implies, the Immortals do seem unbeatable as they recorded three victories this week in Women's Intramural Basketball. In the 33-9 victory over Earl's Bombers, "Pistol" Pam Burke scored 18 and Karen Mathies 13 for the Immortals. Fideles recorded a 14-15 victory over the Tyes, but later succumbed in the championship battle of the year to Earl's Bombers, the final score was 8-4. To add to the confusion of the week, the Bombers later came back to defeat Earl's Bombers (who lost to Fideles who beat the Tyes) 35-0. The Bombers are also hoping to get a win over the Immortals when they meet in the championship game.

In Women's Basketball this week, to lead the Tyes, Anita Girbold was high point woman for Earl's Bombers with 16.

The second meeting of the club will be held April 8. Club officers are Tom Cook, president; Jim Makeiko, vice president; Ann Williams, secretary, and Bill Adams, treasurer. All sociology majors and any one else who is interested, is welcome to attend the club meetings.

MRA

The MRA has finally finished the Resident Student Directory. If a student finds a mistake, he is asked to inform the MRA as soon as possible so that corrections may be made early next quarter.

The regular meetings of the MRA are open to all male residents. A student has a gripe, he can let his representative know, or, better yet, he can attend an MRA meeting himself. The MRA meets every Monday at 10 am in room C-108-B.

CIVIL ENGINEERING CLUB

The Civil Engineering Club recently took a field trip to Walt Disney World, and came back with the prediction that Disney World will open on schedule. The group of about 20 people were taken on a tour of all phases of construction at Walt Disney World by the managers of the Bivens Vasa Construction Company.

YOUNG REPUBLICANS

The FTU chapter of Young Republicans was very well represented at the quarterly board meeting that was held in Gainesville last weekend. Mike Rodgers, Bob McMillan, Neal McMillan, Paul Craigslamb, Fred Kahn, and Paulotet Getz attended, and had a good time. The FTU YRC are looking forward to the convention where they hope to be among the top of the most powerful clubs in the state.

NEWMAN CLUB

The Newman Student Organization will hold a meeting next Tuesday at 11 am in AD 117. At this meeting current members will be introduced, and future events will be discussed.

Recently initiated programs involve recreation programs for the children at the Fallbrook migrant camp; talk sessions are held each Thursday evening at the Newman Center in which a wide variety of outlets are discussed by students. If anyone would like to find out more about these programs, they are invited to attend the meetings of the organization.

AQUA-KNIGHTS

The FTU Ski Club held its first dive February 28. Twelve people participated, including the wives and children of some of the club members. The dive was at Blue Springs, just outside of Gainesville. The weather cooperated perfectly as well as the Geological conditions.

The only problem was some local people who were using a rope over the same quarry where the divers were attending dives, but injuries were few and repairs were minor.

Yesterday Jim Holts, owner and manager of the diving camp at the Newman Center, lectured and showed a film on the club in LAMP, before heading off for the day.

Miss FTU Pageant

Applications for the Miss FTU Pageant, to be held May 28, are now being accepted at the Student Government office. Application forms are available at the FTU office and at the Village Center. A limited amount of forms may be available at other places also be available with the forms.

The Miss FTU Pageant, sponsored by Sigma Sigma Sigma, will be held in the Tupperware Auditorium in conjunction with the Spring Formal, to be sponsored by the Village Center. The winner of the Pageant will be the same as those used for the Miss Florida Pageant, and the judges will be looking for talent and poise as well as beauty.

JUDGES will be certified by the Miss Florida Pageant, and no one connected with FTU will be chosen as a judge.

The winner of the Miss FTU Pageant will be crowned by last year's winner, Susan Fenn, and will go on to compete in the Miss Florida Pageant.

A deadline for applications has not been set, although applications will be accepted into May. Each campus organization may enter as many candidates as it desires.

NEW NEW
FHA 235 HOMES
IN BEAUTIFUL
IVANHOE ESTATES

If you make from $75 to $180 per week, you may qualify for an FHA 235 Home. The Ivanhoe Estates is the newest , largest development in the area. We have all underground utilities with sidewalks, paved roads, and landscaped streets. Our homes are custom built for you with every feature you desire. This is an opportunity of a lifetime. Lots from $1,000 to $1,500. Call 671-4914 or 671-4915.

And don't wait. Call us now. Credit approval, with FHA or VA financing if you qualify. A complete list of properties is available at your nearest FHA office.
Christi Rudolph is ready to save you. As soon as the FTU swimming pool is ready, that is. Christi will be lifeguard at the pool, something that will come naturally to this pretty 18-year old Freshman Physical Education major. Besides swimming, horseback riding, sports watching and other hobbies, Christi enjoys sewing her own clothes. We don't know if this Future Friday Girl sewed her own swim suit, but anything is possible.

She plans to get her Masters in PE and teach the subject in high school.

(Who will be next week's FFG? Watch this space.)
