No Visitation For Summer

The Florida Board of Education last week cancelled the Board of Regents university visitation plan and instituted a "no visitation" policy for the summer quarter. The Regents plan was considered "unworkable," and the university presidents were unable to agree on the project.

All visitation will take place in residence halls for the summer quarter.

Education Commissioner Floyd Christian expressed confidence that the visitation situation could be worked out during the fall semester. The Board will meet over the summer to come up with a visitation procedure by fall quarter.

Delta Sigma Pi closed out a successful quarter by presenting the Outstanding Achievement Award to Mr. Thomas J. Adams, the Student Government Awards Fifteen to Twenty Council member.

Campus Clanes

BOOK STORE CLOSED

The Delta Sigma Pi2 Bookstore will be closed for annual inventory on Wednesday. All students are encouraged to give orders before 1 p.m. on July 1. No rush or charge sales may be made during this time.

The Administrative Supply Office, in the Administration Building, will be open for inter-departmental charge sales only.

DELTA SIGMA PI

Delta Sigma Pi closed out a successful quarter by presenting the Outstanding Achievement Award to Mr. Thomas J. Adams, the Student Government Awards Fifteen to Twenty Council member.

Campus Clanes

EARLY MORNING traffic jams on Florida Tech Blvd. have caused many students to be late to class. To alleviate the situation the Student Body has planned for next Thursday's at 11 to take care of the intersection at Fla. Tech Blvd. and Goldenrod Rd (SR 16A). Lights should also be installed at the intersection of Fla. Tech. Blvd. and Semoran Blvd. (SR 436).

Grad Degrees Offered

In Psychology, Comm

Fifteen to 30 graduate students will be admitted to FTU's newly approved Master's degree programs in communication and industrial psychology this fall.

Graduation ceremonies for these programs, which were approved by the Florida Board of Regents at a June 7 meeting in Miami, will include additions to both faculty and curriculum. According to Dean Bernard C. Kisel, College of Social Sciences, 21 applications are already on file and more are expected. "We will, however," said Kisel, "invite both programs in only 15, or 20 students for the first year. I don't believe in playing the numbers game. Quality is of primary importance and numbers will have to take care of themselves."

Requirements for consideration for admittance to the programs include an overall 2.0 average score of 1,000 on the Graduate Record Exam. Applications for the two programs are still being accepted.

Kisel said that Dr. Casby Jaffee, "who is not to be one of the foremost authorities on industrial psychology," has been acquired by the university to teach an additional course for the new program. Kisel said that Dr. Casby Jaffee, "who is not to be one of the foremost authorities on industrial psychology," has been acquired by the university to teach an additional course for the new program.

Also Dr. Fred Feder, journalism, has been hired to fill one of the many vacancies in the communication department. There will be several more additions to the faculty," said Kisel. "Both are needed, and I'm sure they're being actively recruited by the university to fill these openings.

Tuition Hike Certain If Governor Signs Bill

A $40 per quarter hike in Florida in-state tuition was considered a certainty at press time. The increase will be the second in FTU's three-year history, the first a $25 hike passed in 1967.

The increase in tuition rates is part of the Legislature's general revenue bill to be considered in its entirety by Governor Askew.

The general revenue bill decision was extended to midnight Thursday by Governor Askew and, if necessary, will be re-extended. It is felt that the governor will veto any part of the general revenue bill.

Both the Senate and the House have agreed on the following increases in tuition: Florida in-state tuition will go from $150 to $190 per quarter, while out of state costs will rise from $460 to $540 per quarter.

Annual tuition rates for graduate students will be $720 for Florida residents and $1,770 for out of state students, an increase of $65 and $115 respectively.

The bill provided that the $40 increase be divided as follows: $25 for university operating costs, $10 for construction revenue bonds, $5 for the student loan program and $2 for student health services.

The House went along with the Senate in passing a bill creating a student loan program, adding $350,000 in general revenue to the loan budget. Loans would be provided at four percent, payable six months after graduation.

An amendment preventing the use of student activity fees for the sponsoring of initial speakers was also passed by the House. The amendment was sponsored in the Senate by Ben. Robert Haverfield, senior from Del Ray, minority leader in the House.

Brown To Assist Brown in Student Affairs Post

The appointment of Dr. C. William "Bill" Brown to fill the position of assistant to the vice president of student affairs, recently vacant by Dr. William L. Proctor was announced by President Charles N. Millican and Dr. Rex Brown, vice president of student affairs.

Brown has been appointed to the position of assistant to the vice president for student affairs under the joint dean of men at Iowa State University.

Men have been made to Dr. Paul McQuilkin, former assistant dean of men at Iowa State University, in his new position Dr. Brown, a West Virginia University graduate, will report most recently Associate Dean of Men at Purdue University, will be directly responsible to vice president for student affairs.

Brown has a broad background in student-oriented positions at Purdue and at Illinois Institute of Technology. Chicago, and has been a teaching and counseling counselor in 1950, at Breckinridge, Va., teaching English and physical education.

Brown was a member of B.S. from West Virginia Wesleyan and M.S. in Industrial Recreation from Purdue. His undergraduate work, which began in 1942, was interrupted between 1943-44, when he served as a bombardier with the Army Air Force in the Pacific. From 1954 to 1961 he was Assistant Dean and later Dean of Students at Illinois Tech and has also been in student affairs.

Brown's assignments include the National Association of Student Personnel Administrations (NASPA), Indiana Personnel and Guidance Association Phi Delta Kappa, Delta Pi, Alpha Phi Omega and Alpha Sigma Phi.

Married and the father of three year old, Dr. Brown resides with his family plan to live in the Goldenrod area.

According to Dr. Rex Brown, if McQuilkin, who is presently dean of men at Iowa State University, in his new position will be divided as follows: $25 for university operating costs, $10 for construction revenue bonds, $5 for the student loan program and $2 for student health services.

The Senate went along with the House in passing a bill creating a student loan program, adding $350,000 in general revenue to the loan budget. Loans would be provided at four percent, payable six months after graduation.

An amendment preventing the use of student activity fees for the sponsoring of initial speakers was also passed by the House. The amendment was sponsored in the Senate by Ben. Robert Haverfield, senior from Del Ray, minority leader in the House.
A Balance To The Hike

Now that the Senate and House have passed the tuition hike bill, an increase in the cost of living on Florida state university campuses appears inevitable. Perhaps it is about time that this campus initiated some programs to balance out the hike.

A complaint heard at the end of each quarter is the University Bookstore's system of buying back books. Students are often seen carrying armfuls of used books into the store and leaving with the same pile. The problem: Professors are changing the required texts from quarter to quarter, causing students to accumulate books they have no desire to keep. The end result is the loss of an expected reimbursement.

There are numerous solutions to this problem. One would be to establish a program with a large university such as the University of Florida. FTU could obtain a list of texts being used by UF and vice versa and the bookstores could take charge of the exchange process. This process would also require that professors not change texts too often. We are completely in favor of implementing the best textbook possible for his class and continuing to use that text for at least two years. We are completely in favor of implementing the best textbook possible for his class and continuing to use that text for at least two years. We are completely in favor of implementing the best textbook possible for his class and continuing to use that text for at least two years. We are completely in favor of implementing the best textbook possible for his class and continuing to use that text for at least two years.

We must emphasize concern for the individual student in the initiation of new or corrected programs that will decrease some of the everyday costs of education and balance out the tuition hike.

Finding Utopia
In A Garbage World

Philosophers talk today of creating a utopia, but that's absurd.

Whoever heard of a utopia where all the streets are paved with litter.

Damn, would it ever make people bitter.

They treat their garbage like cattle.

Damn, would it ever make people bitter to see dying fish in lakes they treat as playgrounds.

What a sad thing it surely is to see our rivers and lakes filled with garbage.

And what about the literature and art of this generation. How does your garbage flow?

"Mary, Mary, quite contrary. How does your garbage flow?"

With clumped up walls, and rancid smells, and one damn beer.

What a bad thing utopia is.

When all the work and research is done to find that the quest for utopia can never be won. All of our efforts will be for naught.

To determine the appropriate hourly weighting of assigned duties other than classroom contact, the Preceptorial and Committee work.

The committee will discuss and perhaps write a formula designed to equalize the time and effort each faculty member puts into duties with classroom contact hours.

It is determined that each faculty member will be recharged to a maximum number of classroom contact hours in proportion to the number of classroom contact hours per week as his salary paid by the state.

The committee will also consider the financial aspects of the provision of this act, and provide further data to colleges of medicine and law which are required for purposes of implementing and developing budgetary standards prescribed by the American Medical Association, and the American Bar Association.

The committee will examine the act to the extent that the requirements of the act differ from the requirements of accreditation.
Fidelles, Tri-K Locals
Attain National Status

Two FTU sororities, Fidelles and Tri-K, were pledged to national status at the recently held Kappa Chapter of Delta Tau Alpha Sorority and Tri-K is the Beta Lambda chapter of Delta Delta Delta Sorority.

Fidelles celebration announcement was made at the Annual Alumni Awards Banquet at Gigi's on June 4.

Tri-K learned of its acceptance on Thursday, July 24 and was the first FTU sorority to go national.

The girls had been called together for a sorority meeting in the Engineering Building and were surprised by 15 Delta Tau Alpha alumnae who told them they had been accepted by the sorority as pledges.

Mrs. Harrison, an advisor and a faculty member at FTU, pinned the girls and each new pledge was presented with a paper fastener and hung on her door.

A luncheon was held Saturday, June 6 at the Orlando Federal Savings and Loan Bank on Colonial Drive.

The ceremony was conducted by registrars from Fidelles and Tri-K alumnae who were in attendance.

Each pledge was presented with a letter of tri-angle with three triangles inside and a Delta of Delta Tau Alpha.

The ceremony was conducted by a ballet toss.

The Tri-Del pledge class consists of 24 pledges – Leonard Ashley, Paula Averett, Linda Baker, Tonya Barnes, Bobbi Bax-, 116, Brenda Boren, Patti Breslin, Yonne Clark, Debbi Daily, Casey Ehrlich, Linda Evers, Arlene Farkas, Teresa Luttrell, Kathy May, Linda McCall, Sally Micle, Sue Mierek, Susan Posch, Mimi Pimlott, Sandy Politoff, Sally Quinby, Sandy Stalnaker, Joanne Stotano, Mary Jane Studding, Barbara Studden, Martha Swann, and Sigrid Tidmore.

Grad Program

Grad programs in Business Administration, Biology, Chemistry, Economics, and English were turned over to FTU last Thursday.

At a meeting between FTU students and representatives from NASA and the U.S. Air Force, Dr. Troy Jones, resident faculty director, and Dr. Edward Patrick, transferred the programs to President Charles N. Millette, Vice President for Academic Affairs Dr. C. R. Gambrill, and College of Business Administration Dean Dr. E. J. Gilliland, Dr. Jones reported that only 1,600 FTU students and NASA have had as many as 99 students in them and that now the classes are averaging between 135-150 students.

Dr. Jones indicated that he was pleased with the transfer of the programs and that it was the continuation of the high degree of cooperation that was noted.

The programs were turned over to FTU because the university is now capable of handling such classes.

Well, the sign doesn't say anything at all about "No Towing" does it? For Security, it was one of life's more embarassing moments. (Photo by Chuck Seidel)

Grads Given Diplomas as Heat Fills Stadium

FTU graduated some 411 seniors in its second formal commencement ceremonies in the Orlando Sports Stadium as heat and causing unfavorable comments about the comfort of the graduates.

The extreme heat of the Sports Stadium was offset to some degree by a moderate breeze and the noise encompassed the entire enclosure.

Grad Program

Two masters degree programs in Business Administration, Economics, English, and Sociology, and a pointer degree in Business Administration were turned over to FTU last Thursday.

The Platform Party was then introduced and consisted of President Millican, Dr. Louis Murray, Dr. Gambrill, Vice President for Academic Affairs W. Ray Brown, Vice President for Student Affairs John Philip Gioe, Vice President for Business Affairs Larry Snyder, Dean of the College of Business Administration, Dr. E. J. Gilliland, Business Dean Robert Combs, Engineering Dean Charles J. Micarelli, Humanities and Fine Arts Dean Bernard Glaise, Natural Sciences Dean Bernard Kissel, Political Science Dean R. Bolt, Academic Affairs Dean Howard Combs, Humanities and Fine Arts Dean Charles J. Micarelli, Humanities and Fine Arts Dean Bernard Glaise, Natural Sciences Dean Bernard Kissel, Political Science Dean R. Bolt.

The musical selection of the Platform Party was "For the Rising of the Moon", "Well, the sign doesn't say anything at all about "No Towing" does it? For Security, it was one of life's more embarassing moments. (Photo by Chuck Seidel)

The commencement address was given by The Honorable Joseph Boyd, Florida Supreme Court Justice, who spoke on a "Ban of Utopia." His address contains statements that these demands mean new programs and suggestions for dealing with the problems of the day.

Jaffee To Head Program
In Industrial Psychology

FTU's newest faculty member is Dr. Caleb Jaffee. A graduate of Florida State University, Jaffee holds a Ph.D. in psychology and comes most recently from the University of Tennessee where he taught industrial management and psychology for five years.

Jaffee, whose major area of interest is industrial psychology, has been acquired by the university to help implement the recently approved Master's program in that subject.

After graduating from Florida State, Jaffee worked for two and one-half years for American Telephone and Telegraph before accepting a teaching position at the University of Tennessee.

Jaffee is presently teaching one course in psychology and will begin teaching full time in the fall. "Right now I am getting oriented," said Jaffee, "and will spend the rest of the summer making preparations for the Master's program."

Approval for a Master's program in industrial psychology at FTU was granted by the Florida Board of Regents at a meeting in Miami, June 7.

Jaffee, who will reside in Maitland with his wife and four children, explained that the field of industrial psychology has grown in importance over the past five to ten years.

"Many industries have learned the potential advantages of making use of the behavioral sciences to solve some of their problems," said Jaffee. "For this reason there are many opportunities in industry for people with an M.A. in industrial psychology."

Volunteers Needed
For VC Committee

The Village Center needs volunteers for the summer quarter to plan activities. Students who are interested in joining a summer committee to decide what and where such activities as picnics, watermelon feasts and informal trips should take place are asked to contact the Village Center Office or call the VC ext. 2611.

Included in the summer activities are movies such Wednesday night in the Village Center Patio at dusk. At least two pieces are planned, as well as a table tennis tournament and a pool party. More informal activities are also planned.

A new program, short weekend trips to such places as Sarasota and St. Augustine is being planned.

VC Slates Movies

The movies will be shown on the Village Center Patio about 8:30 pm. There is no admission charge, and refreshments will be free.

The Rains came Wednesday... unexpectedly...

AND MANY students, like this unidentified sprinter, unprepared for the summer downpour.

Winks’ Contest Won by Barnes

Bart Barnes, a sophomore at FTU, was awarded a tuition grant for fall quarter as winner of the Philomathic’s Dial-a-Wink, a student service counselor’s contest. The contest was held during the first week of spring quarter and students were given the opportunity to win tuition by playing a trivia-wink after getting a wink into the cup, such cups were scattered around campus in a box and the drawing was made by Dean of Women Gerri Batchen.

Barnes is majoring in business administration and is a member of Lambda Chi Alpha Fraternity.

Promotions Approved In Six FTU Colleges

The deans of six FTU colleges announced they would promote this week. The College of Business Administration did not promote any of its faculty members. All promotions are effective in September.

The College of Engineering promoted Dr. John J. Beenie from assistant professor to associate professor of physics, and Dr. W. K. Taylor from assistant professor to associate professor of biological sciences.

The College of Social Science promoted Mr. D. D. Adair from associate professor to full professor of psychology. Dr. Robert L. Arnold from associate professor to full professor in communication.

Richard G. Ross was promoted from assistant professor of criminal justice to professor of criminal justice.

The following were promoted associate professor to full professor in the Colleges of General Studies:

- Smith, chemistry; Johann K. Rydell, art; Dr. Paul W. Weir, history; and Dr. Stuart R. Osano, English.

The following promotions were approved in the College of Education:

- Mrs. L. F. Poe and Ken R. Begian from instructor to assistant professor; Dr. B. B. Anderson from assistant professor to full professor; N. M. McLain, Dr. R. H. Thompson, and Dr. R. E. Weidner from instructor to assistant professor; and Dr. D. B. Hernandez from associate professor to full professor.

Two FTU officials are officers of the newly organized Torch Club of Greater Orlando. Bernard J. Poy, director of Campus Services, and Donald J. Hughes, assistant dean for student services, are among the 30 members who became charter members at its organization meeting recently.

The Torch Club plans to begin fund raising by selling ticket stubs for $10.

Two groups are chapters of the International Association of Torch Clubs.

- The group is a chapter of the International Association of Torch Clubs. Meeting monthly gives the members of the different professions an opportunity to come together in a spirit of fellowship.

The professional man is tempted to confines himself to research, he can be a good member of the Torch Club, said Walter "Pink" Murray, acting chairman, department of humanities, is a member of the board of directors.

Santry Vetoes Bill For FM Funding

The bill funding $14,000 for the creation of a FM radio station on campus, to be run by WPOT, was vetoed by SG President Frank Santry during the quarter break had last two weeks for what Santry called "major financial reasons." vetoing the project, Santry said, "I have been informed that President Millican is setting an ad

"First," Santry told the senate, fiscal year should be spent on the money from the 1971-72 senate's forced budget." He said that funds for next year have not been confirmed, and that the bill would have the SG spending money which it doesn't have.

Santry went on to say that he felt there had not been enough long range planning on the questions with future implications were left unanswered, such as will BG keep funding the project forever, will student funds ever definitely be available, and foremost, according to Santry, who will be the formal licensee if BG pays the operation.

"I have been informed that President Millican is setting an ad through the Executive Committee," and Santry, "to have the Senate study other problems and questions. I have requested that the Finance Committee, and will keep the Senate abreast of this situation.

The bill was brought before the senate Tuesday in an attempt to override Santry's veto, but Santry removed the senate that if the bill was passed over his veto, Dr. Brown would veto it and then President Millican would veto it, "There is no need to move too quickly on this type of legislation," said Santry, "and the President, considering the dual possibility both feasibility and need for the station, I feel it would be in the best interest of us all to wait for these studies to be completed."

"It is your prerogative to override my veto," admitted Santry, "but I can not risk my academic calendar again it will be vetoed again, and again.

After Santry's statement, the vote was called and the override attempt failed. The bill was officially dead, for although the bill was approved by the 1970-71 senate.

Secondly, Santry expressed the fear that "this bill would either create or perpetuate the precedent for Student Government to function as curator or at least co-curricular activities. "SG, I feel, should not be a part of any type of funding program should not be undertaken until firm guidelines have been established. This has been the nucleus of the debate from the 1971-72 budget even though the bill was approved by the 1971-71 senate."

Communication is a much used and much abused topic for discussion, especially when pertaining to Student Government relations. Everyone clamors for more and better rapport between the constituents and their elected representatives. In state and national governments there can be little problem — widespread dissemination of news is effected by the governments themselves, mainly to larger monetary resources and the importance of the news to a large segment of American society. On a college campus, FTU in particular, the situation is different. We are striving to lay the groundwork for much of the future accomplishments of generations of students to come. Just as the campus newspaper and broadcasting organizations are moving to finalize initial steps in their overall plans of operation, Student Government is also in its early stages of organization. Behind the scenes of the Student Senate, especially in the committees, much is being done to form the structure and procedures of many Student Senates to come. But back to communication and my point is this: Communication is a two-way process, moving from representative to constituent and from constituent to representative. In the future, as in the past, Student Government will make every attempt to contact its plans and its legislation to the student body. We thank the FTU for the rebirth of a student government news page, this week.

SG Approves New Senators

The new summer senators were approved at Tuesday's SG meeting, the first session of the 1971 summer senate, and the new clerk, Kathy Matthews was approved by the senate. Additionally, Shirley Oulestea, a business accounting major was approved as comptroller.

The summer senators are Bob VanRixon and Jim Thomas. Frank Santry, SG President, told the senate that he would like it to receive some information on police procedures during the summer.

All members of national sororities are requested to contact the Director of Women and gain a residence advisor.
Sports Camp Draws Youths

Summer fun for 35 Orange County Elementary School students began at FTU Monday when the initial two week session of a summer sports camp got underway.

A first time venture, the camp, which is designed to teach students ages five through twelve the fundamentals of such sports as basketball, football, aquatics, etc., has attracted students from all over Orange County.

According to the camp's director, Richard D. Hunter, "The camp activities have gone over very well with the kids and apparently the idea is still spreading as we have more coming in every day."

The session now going on features instruction in golf, basketball and aquatics. The second session, which will begin July 5 will include tennis, wrestling and aquatics, and the final session, to begin July 19, will feature football, baseball and aquatics. Tuition for each two week session is $10.

ALL OUR ECONOMY NEEDS TO PULL ITSELF BACK ON ITS FEET...

...IS A FEW MORE HONEST CONTRACTS...

KIDS AND SWIMMING pools go together naturally when the days are long and the weather is hot. The elementary school students pictured here are enrolled in FTU's first summer sports camp, a program designed to teach youths ages five through twelve the fundamentals of such sports as basketball, football, aquatics, etc.

PE Announces Summer Sports

The FTU Intramural Department will offer a complete schedule of sports for the summer quarter. The summer program began Wednesday with the table tennis tournament at the Village Center and will continue with a golf match at Land O' Lakes Country Club June 30 at 6:15 pm. Entry forms will not be required.

The volleyball entry deadline will be June 28, with league play beginning on Thursday, July 1. Teams will consist of six members, male and/or female.

All league-type activities will operate on Monday, Tuesday and Thursday and individual dual activities will be on Wednesday.

FTU's new intramural bulletin board is now located in the Intramural Bulletin Board in the Library. Further information may be obtained from the Intramural office in the P.E. Building.

Divers Resume Scuba Classes

The FTU Aqua-Knights will be giving their second scuba diving class this quarter. Classes will be held Tuesdays from 4 to 6 pm at the FTU pool, beginning June 26. Instructors will be Harro Willis and Ron Reeves.

The course will be offering NAUI, PADI and NSDA certification. Interested students may contact one of the instructors, at 886-2153 or 644-3203, respectively, or plan to attend the first meeting and sign up for the class.

The Aqua-Knights had an eventful break, culminating with a dive-out of Islamorada in the Keys. Ten of the members participated in the event. While several of the members went a little farther south and camped at Knights Key, the rest stayed at the Holiday Inn and enjoyed the more domesticated comforts of television and air-conditioning.

The divers found a beautiful underwater world loaded with spectacles of variegated underwater fish and flora, not to mention the thrills involved with barracudas, rays and 75-pound groupers swimming around lazily almost within touch.

A final note: the Aqua-Knights have changed their meeting dates from Tuesdays to the first Thursday and third Monday of each month. The Thursday meetings will be during activity period on campus and Monday meetings will be in the evening, dates and times to be published beforehand.
