Florida Technological University
**Tuition Hike Certain If Governor Signs Bill**

A $40 per quarter hike in Florida in-state tuition was considered a certainty at press time. The increase will be the second in FTU's three-year history, the first a $25 hike passed in 1969.

The increase in tuition rates is part of the Legislature's general revenue bill which will most likely be approved in its entirety by Governor Askew.

The general revenue bill decision deadline of 6 pm Wednesday was extended to midnight Thursday by Governor Askew and, if necessary, will be re-extended. It is felt that the governor will not veto any part of the general revenue bill.

Both the Senate and the House have agreed on the following increases in tuition: Florida in-state tuition will go from $150 to $190 per quarter, while out of state costs will rise from $460 to $540 per quarter. Annual tuition rates for graduate students will be $720 for Florida residents and $1,770 for out of state students, an increase of $65 and $115 respectively.

The bill provided that the $40 increase be divided as follows: $25 for university operating costs, $10 for construction revenue bonds, $5 for the student loan program and $2 for student health services.

The House went along with the Senate in passing a bill creating a student loan program, adding $500,000 in general revenue to the loan budget. Loans would be provided at four per cent, payable six months after graduation.

An amendment preventing the use of student activity fees for the sponsoring of initial speakers was also passed by the House. The amendment was sponsored in the Senate by Sen. Robert Haverfield and by Rep. Reel, minority leader in the House.

**Brown To Assist Brown in Student Affairs Post**

The appointment of Dr. C. William "Bill" Brown to fill the position of assistant to the vice president of student affairs, recently vacated by Dr. William L. Prosper was announced last week by President Charles N. Millican and Dr. Rex Brown, vice president of student affairs.

Brown, it was announced that he will offer for the position of Dean of Men has been made to Dr. Paul McGillicuddy, former assistant dean of men at Iowa State University.

In his new position Dr. Brown, a West Point graduate, and most recently Associate Dean of Men at Purdue University, will be directly responsible to vice president William Prosper.

Brown has a varied background in student-oriented positions at Purdue and at Illinois Institute of Technology. Chicago and began his teaching and counseling career in 1950, at Bachmann, Ill., teaching English and physical education.

His undergraduate degree is from West Virginia Wesleyan and his M.S. in industrial recreation from Purdue. His undergraduate degree, which began in 1942, was interrupted from 1943-1946, when he served as a bombardier with the Army Air Force in the Pacific.

From 1954 to 1961 he was Assistant Dean and then Dean of Students at Illinois Tech and the additional requirements for his Ph.D. at Purdue in 1962 when he also became assistant dean of men at the Indiana university, he was named associate dean of men in 1966.

Brown's affiliations include the National Association of Student Personnel Administrators (NASPA), Indiana Personnel and Guidance Association Phi Delta Kappa, Kappa Delta Psi, Alpha Phi Omega and Delta Sigma Pi.

Married and the father of three young children, Dr. Brown currently resides and plans to live in the Goldenrod area.

According to Dr. Rex Brown, if McGillicuddy, who is presently dean of men at Iowa State University, is named to the position he will become July 21.

**No Visitation For Summer**

The Florida Board of Education last week cancelled the Board of Regents annual visitation plan and instituted a "no visitation" policy for the summer quarter. The Regents plan was considered "unnecessary," and the university presidents were unable to agree on the program.

All visitation will take place in residence halls longuors for the summer quarter.

Education Commissioner Floyd Christian expressed confidence that the visitation situation could be worked out during the upcoming quarter.

The Board will meet over the summer to come up with a visitation procedure for fall quarter.
A Balance To The Hike

Now that the Senate and House have passed the tuition hike bill, an increase in the cost of living on Florida state university campuses appears inevitable. Perhaps it is about time that this campus initiated some programs to balance out the hikes.

A complaint heard at the end of each quarter is the University Bookstore's system of buying back books. Students are often seen carrying armfuls of used books into the store and leaving with the same pile. The problem? Professors are changing the required texts from quarter to quarter, causing students to accumulate books they have no desire to keep. The end result is the loss of an expected reimbursement.

There are numerous solutions to this problem. One would be to establish a program with a large university bookstore. As the University of Florida, the bookstore could obtain a list of texts being used by UF and vice versa and the bookstores could take charge of the exchange process.

Student Government could set up a "student bookshot," handling only textbooks sales and exchanges.

But probably the easiest and most reasonable solution is re-using books quarter after quarter. We suggest that each professor determine the best textbook possible for his class and continue to use that text for at least two years. We are completely in favor of implementing the best educational system and having the same material for a few years. Perhaps the more updated material could be obtained from journal articles. This process would also require that professors not change courses each quarter but rather have basically the same schedule each quarter. The end result is the loss of an expected reimbursement.

We must emphasize concern for the individual student in the initiation of new or corrected programs that will decrease some of the everyday costs of education and balance out the tuition hike.

Finding Utopia
In A Garbage World

Philosophers talk today of creating a utopia, but that's absurd. Whoever heard of a utopia where all the streets are paved with litter.

Damn, would it ever make people bitter. What a battle of clogged up wells, with clogged up cattle.

That would be changed if... Damn, would it ever make people bitter. What a battle of dung, produced at an amazing rate, to... Damn, would it ever make people bitter. What a battle of swarms.

"Mary, quite contrary, how does your garbage flow? With clogged up wells, and clogged up defeat, do you drown your cheer..."

"Mary, Mary, quite contrary, how does your garbage flow? With clogged up wells, and clogged up defeat, do you drown your cheer..."

A Credit
"HUNGER? WHERE?"

A bill that will require each fulltime faculty member to teach 12 hours per week was passed by the Florida Senate and House. The original bill was amended to provide increased flexibility in administration, but requiring accountability for faculty time outside the classroom. The formula to be developed by the Board of Regents is derived from:

H. Successful implementation of new or corrected programs that will decrease some of the everyday costs of education and balance out the tuition hike.

Fideles, Tri-K Locals
Attain National Status

Two FTU sororities, Fideles and Tri-K, were pledged to national status at an installtion ceremony at the Delta Kappa Chapter of the Delta Tau Alpha Sorority and Tri-K is the Beta Lambda chapter of Delta Delta Delta Sorority.

Tentative plans call for initiation of winter quarter. Fideles celebration announcement was made at the Annual Awards Banquet at Gigi's on June 4. Mrs. Horley Rickel, a member of the Orlando Delta Tau Alpha Alumnae and the group's extension director, announced the acceptance and ribbon pinned the girls. Fideles president, Linda M. M. Martin, was presented with a Zeta lavaliere and Brenda Cutter, a member of University of Florida Zeta chapter and forerunner of FTU, presented the sorority with the traditional "Zeta Lady." The official pledging ceremony took place Saturday, June 11 at the home of alumna Ms. Carol Osika with University of Florida Zeta continuers. The new chapter members were each given the Zeta pin which is the character a carpenter's square in the sorority colors. Each new member also received a gold pin bearing ZTA from the national Zeta Tau Alpha office. The ceremony was conducted by a baflet lunchhron.

Well, the sign doesn't say anything at all about "No Towing" does it? For security, it was one of our favorites.
Volunteers Needed
For VC Committee
The Village Center needs volunteers for the summer quarter to plan activities.
Students who are interested in joining a summer committee to decide when and where such activities as picnics, watermelon feasts, and informal trips should take place are asked to contact the Village Center Office or call the VC, ext. 2611.
Included in the summer activities are movies each Wednesday night in the Village Center Patio at dusk. At least two picnics are planned, as well as a table tennis tournament and a pool party. More informal activities are also planned.
A new program, short weekend trips to such places as Sarasota and St. Augustine.
VC Slates Movies
The movies will be shown on the Village Center Patio about 8:30 p.m. There is no admission charge, and refreshments will be free.
Movies and their dates are:

Promotions Approved
In Six FTU Colleges

The dean of six FTU colleges announced thirty promotions this week. The College of Business Administration did not promote any of its faculty members. All promotions are effective in September.

The College of Art and Sciences promoted Dr. John B. Jeane, an assistant professor to associate professor of physics, and Dr. W. K. Taylor from assistant professor to associate professor of biological sciences.

The College of Social Sciences promoted Dr. Robert L. Arnold from associate professor to full professor and Dr. Robert B. Smith, theater; Johann K. Kydofil, art; Dr. Paul W. Wett, history; and Dr. Stuart R. Oamos, zoology.

The following promotions were approved in the College of Education: Mrs. L. F. Poe and Ken R. Bennet from instructor to assistant professor; Dr. B. B. Andrews, sociology; Dr. L. M. Lincoln, Dr. R. A. Thompson, and Dr. R. E. Weidner from assistant professor to associate professor; and Dr. D. B. Hernandez from associate professor to full professor.

Tech Officials In Torch Club

Two FTU officials are officers of the newly organized Torch Club of Greater Orlando. Bernard L. Foy, president of the university for reader services, is the new vice president and Dr. Robert Flach is chairman, department of humanities, as a member of the board of directors.

Other officers include Donald M. Waite, secretary, and J. Hugh Glazer, treasurer; J. William Loving, secretary; and Dr. J. M. Sanderford, director. Waite is manager of the university's program of Currus Central, Inc.

Win's Contest Won By Barnes

Bart Barnes, a sophomore at FTU, was awarded a tuition grant for the fall quarter as winner of the Filipina, International Association of Torch Clubs, and was held at the end of spring administration. and is a member of their diplomas will be mailed. June

Santry Vetoes Bill
For FM Funding

The bill funding $14,000 for the creation of a FM radio station on campus, to be run by WFTU, was vetoed by SG President Frank Santry during the quarterly break last week for what Santry claimed was an official reason.

"First," Santry told the senate, "the amount of the cost of the bill is $14,000. The cost is for a project which costs a lot of money. In the future, you will hear about the costs and the expectations of the project.

Secondly, the bill will be vetoed because the contents of the bill have not been properly debated. The bill was presented without any debate, and therefore, it is not in the best interest of the student body to approve the bill."

Santry went on to say that he felt there had not been enough time to present the contents of the bill, and to discuss the implications of the FM radio station. He also expressed concern that the bill would divert funds from other necessary projects.

He concluded his veto by stating, "I am not an against student government, but I believe that theFM radio station is not necessary for the success of the student body. Therefore, I am vetoing the bill for the benefit of the student body."
Sports Camp Draws Youths

Summer fun for 35 Orange County Elementary School students began at FTU Monday when the initial two-week session of a summer sports camp got underway.

A first time venture, the camp, which is designed to teach students ages five through twelve the fundamentals of such sports as basketball, football, aquatics, etc., has attracted students from all over Orange County.

According to the camp's director, Richard D. Hunter, "The camp activities have gone over very well with the kids and apparently the word is still spreading as we have more coming in every day."

The session now going on features instruction in golf, basketball and aquatics. The second session, which will begin July 6, will include tennis, wrestling and aquatics, and the final session, to begin July 19, will feature football, baseball and aquatics. Tuition for each two-week session is $10.

KIDS AND SWIMMING pools go together naturally when the days are long and the weather is hot. The elementary school students pictured here are enrolled in FTU's first summer sports camp, a program designed to teach youths ages five through twelve the fundamentals of such sports as basketball, football, aquatics, etc.

PE Announces Summer Sports

The FTU Intramural Department will offer a complete schedule of sports for the summer quarter.

The summer program began Wednesday with the table tennis tournament at the Village Center and will continue with a golf meet at Land O’ Lakes Country Club June 30 at 6:15 p.m. Entry forms will not be required.

The volleyball entry deadline will be June 29, with league play beginning on Thursday, July 1. Teams will consist of six members, male and/or female.

Campus Misc.

WRESTLING CLINIC

A wrestling clinic is being offered for the summer quarter for anyone interested in this sport. The instructor for this 10-week clinic will be Wrestling Coach Gerald Gergley and will be held from 7:00 p.m. every Monday and Wednesday. For further information contact Coach Gergley in his office at extension 2391.

SUMMER INTRAMURAL SCHEDULE

All league-type activities will operate on Monday, Tuesday and Thursday and individual dual activities will be on Wednesday.

All information will be posted on the Intramural Bulletin Board in the Library. Further information may be obtained from the Office of Intramural activities in the P.E. Building.

Divers Resume Scuba Classes

The FTU Aqua-Knights will be giving their second scuba diving class this quarter. Classes will be held Tuesdays from 4 to 6 p.m. at the FTU pool, beginning June 29. Instructors will be Horis Willis and Ron Reeves.

The course will be offering A.A.U., P.A.D.I. and N.S.D.A. certification. Interested students may contact one of the instructors, at 568-2153 or 644-3205, respectively, or plan to attend the first meeting and sign up for the class.

The Aqua-Knights had an eventful break, culminating with a dive-out of Islamorada in the Keys. Ten of the members participated in the event. While several of the members went a little farther south and camped at Knights Key, the rest stayed at the Holiday Lake and enjoyed the more sedentary comforts of television and air-conditioning.

The divers found a beautiful underwater world loaded with spectacles of variegated underwater flora and fauna, not to mention the thrills involved with barracuda looking them and 75-pound grouper swimming around lazily almost within touch.

A final note—the Aqua-Knights have changed their meeting dates from Tuesdays to the first Thursday and third Monday of each month. The Thursday meetings will be during activity period on campus and Monday meetings will be in the evening, dates and times to be published beforehand.

Youth Advisory Group Favors Draft Reforms

Approximately 650 members of the 86 Selective Service Youth Advisory Committees (YAC) gave their opinions in a poll recently taken concerning proposals concerning the draft. All four considerations are now proposals before the U.S. Congress.

The committee members, whose descriptions of the selective service system as being "generally representative of the youth in their state," were asked their opinion on the extension of the draft, maintaining an all-volunteer army by July 1973, phasing out student deferments, and establishing a uniform national call.

FTU will not be affected greatly by any change in the draft laws now proposed. Statistics compiled in August of 1970 showed that 87 per cent of the students at FTU are over 21 years old, past the usual draft age under the present system. It was also found that 13 per cent of the students were over 28 and cannot be drafted except in case of a national emergency.

The majority of the committee members were in favor of all four of the proposals. The strongest dissent occurred on the question of the phasing out of student deferments, with 36 per cent in favor of it, 13 committees split on the issue, and 40 per cent against it.

Commenting on the point of an all-volunteer army proposed by Dr. Curtis Dirks before the Senate Armed Services Committee in February of this year, a YAC member from Maryland said, "Congress should select policies for improving the quality of life in military service in order to attract volunteers; there should be very strong civilian control over the military..." Another Youth Advisory Committee from Virginia said, "... an army staffed solely with volunteers might be the unwitting refugee for social controls, multia and diversities."

First Forensics Season Finishes

FTU's forensics team has completed an inaugural season that included national and local successes. The team, consisting of 8,000 miles, The Knights traveled to tournaments at various locations, including Georgia Southern University, Miami-Dade Community College, and Florida State University, among others.

Charles Holt and Jack Hight of FTU's forensics team discussed the future of the program in the final meeting. Holt explained that the money, time, and energy have been well spent on the team and the success of the students.

In the foreword, "The 1970's education in the ranks," the team's progress was described. They have been working hard to improve their skills and become better debaters. Holt continued, "The team is on the road to becoming one of the top teams in the region."

"The debate squad won more than a dozen tournaments during the year," said Buchanan, FTU forensics coach. "Our debaters have shown remarkable improvement, and the season has been a success."

Engr. Students Devise Waste Disposal Plans

A trio of FTU industrial engineering students has come up with a study on solid waste disposal on campus, including eleven tournaments and a superior rating from the FTU Foundation.

"Presently, a team of students has been working on the study," said Buchanan, FTU forensics coach. "They have conducted research, and have developed a very impressive study on the disposal of waste." Buchanan explained that the team has been working hard to improve their skills and become better debaters. Holt continued, "The team is on the road to becoming one of the top teams in the region."

The debate squad won more than a dozen tournaments during the year, said Buchanan, FTU forensics coach. "Our debaters have shown remarkable improvement, and the season has been a success."

A Quest For Blue Power, A Cop's Book By Bill Bopp

"Blue Power" does not mean a cleaner wash. It refers to the high school police, fire, and county

"Police—all the way from Bill Bopp, assistant professor of law enforcement and coordinator of the law enforcement program at FTU."

The book, entitled "The Police Rebellion," is published by Charles C. Thomas and was produced with funds from the FTU Foundation. A percentage of the sales will return to the Foundation.

"The 1970's might be the decade when the police decide to put their own revolution...policemen in this country, who number 50,000 in 10,000 separate agencies, are concerned with the issue of whether the police." Buchanan explained the book's aim to educate the public about the importance of police reform.

This revolution among police is taking hold, Bopp states. The book increases the need for education for the public and police.

The book speaks most of its vertices in the areas of police administration, telling of police unions that have been growing in strength, through which the demands for better pay are made, of unsightliness of administrators and politicians whom policemen no longer trust, and of the struggles and work slowdowns in departments that threaten the safety of the cities the departments serve.

Campus Glances

Nearly half of all auto deaths and injuries occurred on weekends, and well over 50 percent of all highway deaths occur between 6 p.m. and 6 a.m.
