Visitation Privileges Require Permission

Freshmen students under 21 will have no visitation privileges this year, under the new Board of Regents visitation policy, approved at the August 20 BOR meeting. The policy was approved by the Board of Education August 31.

The new policy includes numerous changes, including a provision for two types of visiting units, those with no visitation and with "limited" visitation. The limited visitation will be permitted under "strict university control."

The "no visitation" residence halls will house freshmen under 21 and nonfreshmen under 21 who do not have parental consent for visitation privileges. The no visitation halls will also house students who by individual request or group vote decide to reside in a dorm without a visitation program.

Students over 21 may choose either to reside in a visitation residence hall or in a no visitation hall.

Before visitation will be permitted in my dormitory area, two conditions must be met, according to the BOR policy: the president of the university must designate the facilities as suitable for visitation and the residents must agree by a vote of two-thirds majority to permit visitation.

The new policy was approved and introduced to the Regents by the Council of University Supervisors.

Continued on Page 4

Dorm Supervisors Reduced By Two

The residence hall supervision program has undergone some major changes with a reduction in the number of supervisors and advisors.

According to T. K. Wetherell, director of housing, the number of supervisors was reduced because "students didn't know who to see when they had a problem. Now they can go to the person in charge of their dorm or on duty that day."

Each of the four supervisors will have one duty night per week and one weekend duty per month. Wetherell said he hoped the new system would "start competition between dorms and floors" for various things.

**Allow Youth Vote To Improve Politics**

This is not your typical “Welcome to campus - get involved” editorial. Everywhere you go for the next month or so people will be urging you to join a club or run for an office. We’ll bypass the repetition.

We want you to get involved - but in something a little more important. It’s been called the 18-year-old vote (and a lot of other things, for that matter) and it deserves attention and consideration. It isn’t particularly popular in this area - which, in our opinion, is all the more reason to consider it.

The near future will present the final opportunity in history for 18-20-year-olds to vote in national, state, and local elections. A popular attitude among college students now is “why bother? Politics is corrupt and I can’t even begin to change it.” Perhaps, you as an individual can’t change it. But you, as a whole, can.

The 18-20-year-old vote is not a popular issue. The general attitude appears to be that this age group is not mature, intelligent or concerned enough even to register. We are not attempting to persuade you to “show them” but rather to do something for yourself and your country. To use your right to vote. We cannot “prove” maturity, intelligence or concern to those who are truly down on the subject. But maybe its time to prove something to ourselves.

Some of the more active citizens of Orlando are on the bandwagon to bring registration to the new voters or to get the voters to register. Citizens like Gene Burns of WKNR Radio who has received permission from the City of Orlando to sponsor a mobile registration unit. And local students who are sponsoring drives to get students to register.

If you are one of those who feel that politics is corrupt, remember, it took more than one person to make it that way. And by the same token, it will take more than one to straighten government out.

Not all have shown confidence in youth but enough have to make a difference. Let all voices be heard now that the door has been opened.

**Don’t Stop Rotation**

A recommendation was made last Friday’s Board of Regents meeting to discontinue the practice of rotating BOR meetings from campus to campus. This move would serve two immediate purposes - that of saving time and expense of traveling all over the state.

In actuality, it would probably do more harm than good.

From the individual university’s point of view, the Regent’s monthly meetings should be seen as an opportunity to offer the Regents a firsthand glance at the achievements and problems of that university. It is also an opportunity for students and members of that community to see the Board in action and ideally, to get on the agenda, if desired.

Moving the meetings to Tallahassee as a permanent location would subtract from the reality of the Board as a working body. Granted, it would be more convenient for the individual Regent, but convenience should not be a major issue. The Regents are located all over the state anyway, and the same “convenience” could be obtained by setting the meetings up for afternoons rather than mornings.

Regent J.J. Daniel, initiator of the proposal, expressed his desire that each Regent visit each campus in the State University System once a month, prior to the monthly meeting. In our opinion, this would do little more than cause added inconvenience to the Regents. These campus trips would be costly, time-consuming and a bit idealistic, in that few of the Regents could afford to take nine days off from their meetings.

Regent Chester Ferguson expressed his doubts, saying that he thought it would be a great mistake to take the Regents away from the campus atmosphere. We concur.

It takes more than recommendations and requests from the Council of University Presidents to truly know the needs of each campus.

---

**Circle K Labeled ‘Gentle Protest’**

To all students of FTU:

During the course of these first few weeks, many clubs and fraternities will confront you with membership into their organization, if they haven’t already. The difficulty of trying to establish an effective program that involves the student and impresses both the school and the community is a problem that haunts many advisors and new officers. This problem, however, has been under study during the summer months, and will evolve into progressive activities to begin a very short time period of time.

Circle K has often been considered “a gentler form of protest.” Gentler in the form not despective, but constructive, and a form of protest because Circle K exists to change ineffective social institutions, thus solving social problems. The Circle K Club of FTU has developed into these ideals quite successfully and has thus been honored to be a part in solving some of today’s most controversial issues.

The club’s success is due to its effective service program. Circle K has been working in the areas of youth involvement, scholarship service, and a host of other areas involving many fields; everything involving photography to medical research. The club has had many, many projects on ecology and will continue to do so in supporting Mission 5000.

Circle K, as an international organization, is in a unique position to make universal impact in the areas where each local club is working. Circle K also maintains an active social calendar to develop enthusiasm and fellowship among its members and is solely devoted for that purpose. Circle K is not a social club - it is a college involvement organization.

The organizing of the Mission 5000 program is presently underway, receiving reports from Atlanta, Chicago and Washington, D.C. When the final plan is underway, all students are invited, and even urged, to help restore favorite landsites throughout Central Florida in which pollution has already taken its toll. Even if it is the simple task of writing a letter, everyone’s help will be requested, and the opportunity given for all efforts to be put to use.

Circle K gives everyone a chance to change their institutional condemnation of American society from simple cafeteria chatter to confrontation with the true ills of today. If you can take the shock of how wrong we have been, then try to change it. Join Circle K!

Together to form a better world,

R.J. Brown, President

---

**McGovern To Visit Central Florida**

An Open Letter to the Student Body:

The morning of Tuesday, Sept. 28, Senator George McGovern will be visiting both Rollins College and Valencia Community College during a brief swing through Central Florida. His visit is so short during this visit that it has been impossible to find time for the Senator to make the lengthy drive to the FTU campus and still make his departure deadlines. We regret very much that he will not be on campus during this visit.

However, we want to personally invite all members of the Florida Technological University community to join us either at Valencia (9 am) or at Rollins (11 am) and to discuss the current issues with Senator McGovern including his recent trip to Salgon and Tokyo.

Let us also emphasize that Senator McGovern will be returning to Orlando later this fall and a visit to FTU will be a top priority item at that time. The Senator has stated that he is looking forward to meeting with the Student Government and the student body and faculty upon his return.

In the meantime, students at FTU are welcome to become part of the Central Florida McGovern for President campaign. They can “help American happen again" by conducting one of us.

Bill Castellini (253-1641) Bob Van Buren (422-0678) Coordinators, FTU Students for McGovern

Divergent Opinions Voiced At Stadium Riot Hearing

The Orange County Student Association sponsored a voter registration rally at Eola Park last Saturday to promote a massive voter registration campaign.

Rick Namey, an FTU student, told the approximately 450 young people in the audience, "We want 5,000 young people to turn out to see the supervisor of registration's office - let's make Dixie Barber's office the biggest happening around."

Tuesday, Dixie Barber reported that 85 young people between 18 and 21 had registered to vote last Monday, while 77 people over 21 were registered. Mrs. Barber described the turnout as "slightly higher than on a normal Monday."

More than 2,500 young people between 18 and 21 have been registered in the last six months, according to Mrs. Barber.

A MEMBER of the Orlando Police Department's Community Relations organization raps with young people at Eola Park about the police department and their role in the recent Orlando Sports Stadium incident.

(Continued from Page 1)

In nature (this remark in reference to an Orlando Sentinel report that he had introduced the bill "jokingly"). The education of Florida's underdeveloped human resources was considered by the committee in the form of a resolution which received support from the president of Florida A&M University, Benjamin L. Perry, and several other state university officials. The committee passed over the resolution in favor of converting it to a bill.

A bill which would strengthen the tenure process for Florida teachers (SB 130) was temporarily passed by the committee until its next meeting. Regents Louis Murray, Orlando, championed the proposal saying, "tenure is a very important aspect of academic life and the education system needs to increase productivity and the confidence of the public." SB 50, a bill which would extend to 60 days the period of paying registration fees by veterans, was passed by uncontroversially called.

The president of the Finance and Personnel committee into two committees and approval of an additional area for speakers on the University of Florida campus.

**Constitutions Discussed**

Amendments to the FSU and UF constitutions were approved by the Board but no action was taken on initial approval of the proposed constitutions of FTU and Florida Atlantic University.

Bay Gross of FSU and Robert Hightower of USF. Gross, commenting on the tuition increase, questioned the legality of the hike in view of the recent price freeze. Hightower advanced a four-part proposal on drug education, stressing the importance of educating all people on and off the university campus, in the business world, and the community.

The defeat of a request for approval of a budgetary increase for the FSU press.

Royal's new, full-size electric portable with extra-wide 12" carriage. Nationally advertised at $119.95. George Stuart's Special Price $99.95... or pay as little as $9.25 a month. And for only $10 additional, you can get a $25 U.S. Savings Bond.

Contest Rules
1) No purchase necessary. Pick up entry form at George Stuart's.
2) Mail completed form with your entry to Royal Contest, P. O. Box 974, Rosemount, Minn. 55068. Only one (1) entry per contestant. Entries must be postmarked not later than October 31, 1971.
3) Entries must be original essays, typewritten or printed in block letters and 500 words or less.
4) All entries become property of Royal Typewriter Company and will not be returned.
5) Winning entries will be judged on originality of expression, aptness of thesis and clarity. Entries will be judged under supervision of an independent judging organization. All judgments are final.
6) Contest void wherever prohibited, taxed or restricted by Federal, State or local regulations.
'Untouchables' Not Distant
By Linda Merital

The Untouchables - those administrators that the average student rarely sees. And when he does get an opportunity to meet them, they sometimes come across as business-like as their titles. Sometimes their personalities are never released from behind the desk.

This is obviously not the case, as candid interviews with the new dean of men and women and the assistant to the vice president for student affairs proved. All three came across as personable, optimistic and frank.

Dr. Bill Brown, assistant to Dr. W. Rex Brown, plans to relate to student in terms of contact. "By building the kind of positive relationship which I think needs to exist."

"Communication is like an old bromide - it is overworked and yet a critical problem. FTU, in its critical stage of development and rapid growth, manifests communication problems. Many haven't yet learned very well to anticipate these problems," he added.

Brown said he considers himself available to students. "At a certain point, my time probably should not be taken with individuals if I can exist."

"Communication is an area of concern. We are in the initial stages of bringing nationals on campus, there is an increasing interest on the part of other nationals to colonize," he said.

"I can best help students by making myself available and by removing any hesitancy on their part to take advantage of services offered by this office," she said.

She said she is still trying to determine the percentage of time she can devote to students but plans to utilize "as much time as possible."

Dean Wilson hopes to relate to students by making them aware of her open-door policy. "I want to work with students in as many areas as possible. Although I am here to help with problems, I'd also like to work with accomplishments," she said.

She spoke of FTU, describing it as a university "attempting to keep the benefits of a small college while experiencing rapid growth. FTU is much farther ahead than other universities in accomplishing this and it all goes back to 'accent on the individual.'"

The new dean of women is interested in students and the academic realm. She also enjoys football but admits to being a novice. Prior to her appointment as dean, she was an instructor in the College of Business Administration and "would be teaching or working with students through the classroom" if she were not a dean. Mrs. Wilson spoke candidly on the subjects of residence halls and the Greek system. "Because of the continual growth, we will see an increase in commuters and we are all faced with the commuter problem... Student Government has been working positively for the commuter... The private sector will take care of housing around the university," she said.

The dean will be working with the Panhellenic Board and the sorority system. "The Greek system has a very good future at FTU. As we are in the initial stages of bringing nationals on campus, there is an increasing interest on the part of other nationals to colonize," she said.

All three administrators were interviewed by student teams. Dr. Brown spoke of the procedure as a possible "positive or negative force."

"I was pleased to have them (the students) involved because of my position in student personnel. I was impressed by the student interviewing committee but there are potential problems in screening students that are involved, such as how do you determine prejudices?"
6,150 Students Win Computer Roulette

Despite difficulties with the computer at Gainesville that resulted in a final shutdown Friday afternoon, fall quarter registration proceeded approximately on schedule. Preliminary estimates for enrollment were set at 6,150 by Registrar W. Dan Chapman, down from the projected 6,500.

The regular delays in registration were caused due to problems with the Gainesville computer. FTU had been notified that the computer would be unable to operate on the University of Florida's power, but a portable airplane power unit would be brought in so that registration could be conducted.

However, approximately every four hours the power unit had to be shut off in order to add oil to it. Chapman explained that each time the power went off, the computer automatically went down with it, necessitating a 20-minute recharge period.

Friday, however, the Gainesville computer gave up completely. It shut off about noon, and after an hour's delay, FTU registration officials were told it would take three more hours to fix the machine. Rather than wait, Chapman decided to postpone the add-drop period in order to record the correct number of persons in each class.

The entire program was rescheduled Monday night, and the rolls were corrected and ready to be used Tuesday morning. By the time add-drop opened, the Administration Building lobby, normally crowded by long lines, was even more congested with lines of students paying their fees at the cashiers' window. Deadline for fees is October 1.

Although official figures for enrollment have not yet been tabulated due to late registration and add-drop, the registrar predicts the final count will be approximately 200 persons below the expected 6,500.

FTU Receives Slashed Budget

FTU has received an operating budget of $10,145 million for the current fiscal year. According to Vice President for Business Affairs John Corre, the original request for the budget was approximately $14.5 million.

Goree said that the cutback has been particularly in the area of equipment.

"Many departments have nowhere near the necessary equipment, and this is an area in which we feel we have a serious problem," said Goree. He added this is true for academic areas as well as physical plant and that there are no funds to replace or to add new equipment.

Goree also said there is always a need for more supplies in the classroom and that the funds to provide these supplies are not "generous." Florida's six other state universities have also received their budget allocations. The University of Florida has received $47.7 million; Florida State University, $42.5 million; and the University of South Florida, $29.9 million. Florida A&M University will get $19.4 million; Florida Atlantic University, $12.5 million; and the University of West Florida, $7.7 million.

YEARBOOK SALE
Twenty extra 1971 yearbooks will go on sale Thursday, Sept. 30, at 11:30 a.m. in AD 108. Yearbooks will cost $7.50 per copy and will be sold on a first-come, first-serve basis. There will be NO EXCEPTIONS. All students purchasing a PESCA MUST also have their student IDs.

Better Teaching Demanded By Florida Legislature

MEMBERS of the PTU faculty were told this week that the Florida legislature is demanding more and better teaching and less emphasis on faculty research. Board of Regents Vice Chancellor Dr. Allan Tucker Tuesday addressed the faculty assembly and explained the legislature's shift in attitude toward universities.

Tucker pointed out that the legislature also feels that research has been overemphasized as a criterion for employment, promotion and tenure.

"The many criticisms that we hear today about research in the universities are a result of what a large portion of the public distinctly feels to be an overemphasis upon this function of universities at the expense of the teaching function," Dr. Tucker stated.

"No one is proposing that universities abandon their research function," Tucker said. "But the public feels that we have overdone this aspect of university activity."

The vice chancellor went on to say that "the legislature not only wishes, therefore, to improve the quality of teaching for each dollar spent in higher education; it is also demanding that the quality of teaching be measured and that there be a reward system which will discriminate in terms of teaching effectiveness."

"Those teachers who teach more effectively than others should be identified and rewarded accordingly," the legislature insists that criteria be developed which will enable us to measure the quality of teacher performance."

Dr. Tucker explained the criteria for teacher evaluation has thus far been left to the universities, but warned "if the faculties and administrations of universities can't come up with ways more acceptable to the legislature of measuring the output of their activities, some legislative side will be assigned to this responsibility and will figure out a way."

Earlier in his remarks, Tucker had stated, in regard to university teaching, "There are very few occupations, if any, in which the practitioners enjoy as much freedom and are burdened with so little accountability."

Tucker feels that increased scrutiny by the public of spending of tax dollars is one reason why some by the public of spending of tax dollars is one reason why some form of acceptable accountability is being sought by the law makers. The legislators in turn, must exhibit accountability for the programs for which they provide monies.

"I suspect that a large number of people are still clinging to the belief that the primary mission of the university is to educate and the majority of a professional's working hours should be devoted to teaching and its related activities."

Tucker summed.

**Riot**

Captain Pfe, who later testified, said that he didn't have time to answer the questions.

All of the witnesses said that no announcement was made from the stage that the place would be tear gassed.

**POLICE DESCRIBE SCENE**

Sgt. Delbert Fisher, appearing before the panel in civilian dress, said that when he administered the tear gas, he thought that the warning had been given to the crowd.

Delbert said, "No one was told who was trying to exit the building."

Odham asked Delbert, "Isn't it interesting that the gates were locked to keep people from leaving?"

Delbert replied, "There was every opportunity to escape-the gates were not locked at the north side."

Odham retorted that Delbert was at the north side spraying his tear gas fogger.  

When Lt. Sam Bush, the information officer for the sheriff's department testified, a panel member asked why the department had given the owner of the stadium 20 minutes to clear the building but instead started tearing gas five minutes later?

Bush said that the officers inside had no way of judging how much time had gone by - "you know time goes by at different speeds depending on which side of the bathroom door you are on."

Spontaneous outbursts from the crowd demanded that Capt. Pfe come before the panel to answer questions.

Pfe came forward and said that he ordered the gas because "inside the stadium the damage was so heavy that I thought someone might be killed."

When he was asked if he would handle the situation the same way he answered "Yes the same way."

Pfe was asked what he thinks would be the answer to the rock concert problem in Orlando? He replied, "I am in favor of letting any person of any age listening to any kind of music that meets his fancy. There is a need for a place for young people to go and enjoy their music."

**CREATIVE ARTS --- 'I AM'**

By Grace Kohler

Attempting to review or to comment upon the creative efforts of another is at best a hopeless task. Reviews, critiques, no matter how well or poorly understood must be exercised in foolishness. In its simplest form a review is a whole manufactured from separate singular objects as perceived by a reviewer. However, these objeified entities are, paradoxically, once and forever in the eyes of their original creators, i.e., the artists. Whols in themselves. In another way, for the artist each creation is a finished statement, a flash of reality that alone

...
The FTU Interfraternity Council Presents ....

Fall Rush 1971

To: All Incoming Men!

From: FTU Interfraternity Council

Welcome to Florida Technological University! In the next few weeks you will have your hands full just getting adjusted to your new environment. This can be a most enjoyable experience, particularly if you organize your activities well.

The IFC invites you to join with hundreds of fraternity men and prospective fraternity men in fall rush. Fraternity rush is probably the most organized and most enjoyable activity available to the new student. Rush is not only the system by which a guy investigates and is observed by fraternities. It’s also a chance to attend parties, make friends and meet influential people. It is still the most exciting way to join a fraternity.

The IFC would like to encourage you to look over the Greek organizations at FTU. There are nine fraternities on campus; nine groups of men each with its’ own characteristics but each being a vital force composed of many individual personalities. At FTU, fraternities are not out-dated...they’re new as the school itself. The entire fraternity concept is new, dynamic and ever-changing. For a firsthand look, sign up and get involved in the fall rush activities. You can’t go wrong!

The FTU Interfraternity Council:

Alpha Kappa Phi
Alpha Tau Omega
Delta Tau
Kappa Sigma
Lambda Chi Alpha

Phi Alpha Epsilon
Sigma Alpha Chi
Tau Epsilon Chi
Tau Kappa Epsilon

Fall rush is very short and to the point. We begin at 8:00 pm on Friday, October 1, with a party for all rushers and fraternity members. Activities continue Saturday starting at 11:00 am and ending at 6:00 pm. At this time you are invited to visit with the individual chapters in an open Smoker atmosphere. This will be the time for you to ask questions about each chapter and for the chapters to ask questions about you. Then at 8:00 pm individual chapter parties will begin. Your bids may be picked up either on Sunday evening at 7:00 pm or we would prefer this or on Monday or Tuesday from 10:00 am to 3:00 pm. Between October 6 and October 17, you will not be able to pledge any chapter if you did not do so between October 3 and October 5. Then starting October 18 and continuing until the end of the Quarter an open rush period will be in effect. This means that you may be rushed and pledged at any time in this period.

Explanation of Events

Registration...

Registration will take place in the Keos (that’s the multi-sided building across from the reflecting pool) daily, from 11-2 the week of September 27. A processing fee of $1 will be paid. Register Early!!

All Greek Party...

Be ready for a great time. This an opportunity to meet all the fraternity men in an informal atmosphere. The shindig starts at 8:00 pm at the Ramada Inn with “In the Beginning” providing the sounds.

Smokers...

A chance to see some facts first hand about the chapters. Try to see them all!

Wildcat Parties...

A chance to narrow your choices by attending one or several parties of your choice. Locations will be posted.

Picking Up Bids...

Your bids can be picked up Sunday night, October 3, starting at 7 PM in the Library lobby. If you happen to miss this, you can come by the IFC office in the Village Center between and

Why Rush?

You have a limited time which to decide whether or not to enter rush. Many men have positive reasons why they should rush. Among them is need to belong to a close organization and to make eternal friends with men of character.

If you have no positive reasons for entering rush, try it from another angle. What have you got to lose? It only costs a dollar to sign up and see what fraternities at FTU are all about.

That small fee and a little card entitle you to attend all functions and to see for yourself the Greek system. Just sign up with an inquisitive mind. We're willing to bet you'll find some reasons to stick with the Greek system for life.

Which Fraternity is for Me?

In the past 160 years, thousands of young men have faced this question. Of these thousands, I doubt if you would find many who ever regretted their decisions.

The way in which a man decides on which fraternity he will pledge can take many forms. To some guys every fraternity looks good. To others, the important thing is to receive a bid from the fraternity with the friendliest letters, the biggest house or the best looking little sisters. Some guys see a bid from the most prestigious national.

The man who finds the happiest fraternal home is the one who looks for a true sense of brotherhood with the group of guys who cares are the most compatible with his.

What about the fraternities on the FTU campus? One thing you'll immediately notice is the absence of a fraternity row. This is due to the losses of the campus. Now that you have eliminated the size of houses as a criterion, try examining some of the important characteristics.

A Word About Nationals

There are several national fraternities represented at FTU. Every chapter at FTU is affiliated in some way with a national organization.

Some are called chapters, some are called colonies, some are called candidates for affiliation and some don't even have a real classification.

One thing is sure, thought-every fraternity has ties with a national and the effects are strong. Each chapter has its own assets and peculiarities but there is a little national in every one.

AKT

ALPHA KAPPA PI FRATERNITY
ASPIRING COLONIZATION WITH THE PI KAPPA ALPHA FRATERNITY

Alpha Kappa Pi Fraternity was founded in the winter of 1971 by men who thought that the Tech campus had room for a different and new fraternity. The Pikes, as they are known around campus, seek young men who are leaders among their fellow students. Among these leaders AKIT is proud to have two student senators, varsity athletes, Village Center members, Editor of the 1970 and 1971 Pegasus yearbook, staff members of the FuTUre newspaper and Pegasus yearbook, and every member is in at least one other outside club or organization on the FTU campus. Being a leader doesn't stop with just the brothers; our Pikes (little sisters) have the same qualities. Miss Winter Park for 1971, the business editor of the Pegasus yearbook, officers of their sorority pledge classes, and not to mention that they are a group of some of the best looking young ladies on campus.

All male students are invited to come by the Pike's Rush Smokers, meet the brothers and Pikes and view the 15-minute Pi Kappa Rush film "Going Places with PIK." Look for notices around campus concerning time and place or ask any brother or Pikes wearing a garnet and gold jersey.

If you are the type of student that is fired-up on getting involved, then jump on the Pike Fire Engine, we promise not to put your fire out. The Pikes have it and they want to share it with you!

ATΩ

Alpha Tau Omega

Alpha Tau Omega was founded as a local in 1968 by two individuals one of which was Jim Fay. Fay is the发起 from the University of Florida. The Group called itself Tau and set out to colonize with Alpha Tau Omega. There were fourteen originals in the group...seventeen men dedicated to the ideals of ATΩ.

Basic communications began to be exchanged between ATΩ and the TAUs almost immediately. The present fraternity house was obtained in the spring of 1969 and has served as the apex for all the TAUs' activities since that time. A little sister organization was formed in the winter of 1969 to help the brothers in feminine ways.

On December 19, 1969, Dean of Men William Proctor and the administration announced that local fraternities could colonize with national fraternities. That same day at 12:00 TAU became a colony of ATO. The TAUs were officially installed at impressive ceremonies at the Ramada Inn East.

Service has been a byword for ATO. The pet service project has been the annual "Blood For Peace" drive held in the fall. In scholastics, ATO finished third in overall GPA among fraternities this last year. In intramurals, ATO has never been far away from the IFC trophy, finishing second and third respectively the past two years.

In social life, ATO takes a back seat to no one. The annual Hells Angel party has become a noted affair on the FTU campus. Brothers and their dates dress appropriately in motor cycle garb and have a blast.

Afternoon keg parties and get-togethers with the alumni have become regular occurrences. ATO seeks to enhance your academic and social life while you are a student here at FTU.

THINK ALPHA TAU OMEGA

ΔΤ

Delta Tau Fraternity

To the new students, Delta Tau welcomes you to the Greek system. The advantages of a fraternity are available to new and returning students. The purpose of the Delta Tau Fraternity is to "serve as a constructive adjunct to the system of higher education, contributing to moral, spiritual, and social development of its members. To instill the qualities of brotherhood maturity, truth, self-respect, and service to our country and our God." (Delta Tau Constitution)

Delta Tau has many principles upon which it is founded. Two of the most important ideals of Deltaism are brotherhood and service. In the recent past, Delta Tau has participated in many service projects including helping the Red Cross, and the Maitland J.C.'s with their 4th of July celebration. These projects as well as others have served to bring the brotherhood closer together. This closeness comes only from a willingness to work, both for the fraternity and for the brotherhood. The Delta brotherhood is proud of its high scholastic average. The Interfraternity Council's Scholastic Award went to Delta Tau for the 1970-71 school year.

We, the Delts, would like to invite all the prospective rushers to the Greek smoker on October 2. We would like to tell you about Delta Tau Delta, the national fraternity we are planning to affiliate with this year, and how we are striving among ourselves for high standards, both scholastic and social.

K S

ΦΦΦΦΦΦΦΦΦ

The Philosophy of the Lambda Epsilon Chapter of Kappa Sigma

An important part of the philosophy of this fraternity is the conviction that men are endowed with what they can receive. However, the prospective pledge has every right to ask what benefits he will receive after accepting an invitation to join a fraternity. Kappa Sigma offers many.

First, membership in a well-organized, well-governed, financially sound, homogeneous fraternal society.

Second, intimate association with young men of the highest caliber, is offered through Kappa Sigma. No man ever receives an invitation to join us merely because he is a great athlete, or an eloquent speaker, or a good writer. This is not to say we are indifferent to campus honors; we are deeply interested in them; but we are far more interested in the personality and character of the man who holds or seeks those honors. We are composed, therefore, of members who have undergone the most rigid scrutiny and who are in good standing with his fraternity, for a true sense of fraternity.

If you're the type of student that is fired-up on getting involved, then jump on the Pike Fire Engine, we promise not to put your fire out. The Pikes have it and they want to share it with you!

ΔΤΩ

Delta Tau Omega

Delta Tau Omega was founded as a local in 1968 by two individuals one of which was Jim Fay. Fay is the initiate from the University of Florida. The Group called itself Tau and set out to colonize with Alpha Tau Omega. There were seventeen originals in the group...seventeen men dedicated to the ideals of ATΩ.

Basic communications began to be exchanged between ATΩ and the TAUs almost immediately. The present fraternity house was obtained in the
Finally, every fraternity embodies certain tenets—seek to make a permanent contribution to strong, clear, useful manhood by inculcating in young men those gifts and graces and virtues that are in the tradition of Kappa Sigma.

Kappa Sigma—The First National Fraternity On The Florida Tech Campus.

Fifth, the Initiatory observances. We pledge to remove ourselves from the stereotyped fraternity "initiation". Our ceremony is serious, impressive, and beautiful—and has been shared by over 100,000 Kappa Sigmas throughout the world.

ΛΧΑ Lambda Chi Alpha

Lambda Chi was one of the original fraternities on the FTU campus. From inception during Winter quarter, 1969 to the present, the chapter has evolved from a local called Chi Alpha to an affiliate of Lambda Chi Alpha national.

Lambda Chi Alpha has always been one of the strong, active fraternities on campus. Social life is stressed, but there are many other facets to the Lambda Chi personality. The chapter has always been active in intramural sports and community service projects.

One of the annual service projects has been a Christmas party for the Orange County Parental Home.

Lambda Chi also has a strong little sister program which stress a close relationship between the chapter and the little sisters. "The FTU chapter has worked long and hard to build within itself a strong feeling Lambda Chi tradition. As a new member you would not be a pledge. We prefer to think of you as an "associate member."

Good luck in rush from Lambda Chi Alpha.

OAE

Founded in the Spring of 1969, Phi Alpha Epsilon has progressed through the arduous process of becoming a chapter of Sigma Alpha Epsilon. Moving toward official initiation this fall, Phi Alpha Epsilon is going through the process faster than almost any SAE chapter in the past. Even the University itself was not considered until membership last winter.

To pledge Phi Alpha now would be to step right into the excitement of official nationalization. Phi Alpha Epsilon is proud of the record it has established and will not sell idle brags. You are invited to check for yourself. You are in fact urged to investigate all the fraternities on the FTU campus.

There is a fraternity for every man. Phi Alpha will issue bids on the basis of that belief. Every man will know if he is Phi Alpha material.

The Greek system at FTU is strong. Keep it that way. . . investigate all the chapters. Phi Alpha Epsilon seeks men who will carry on the "Phi Alpha Tradition" in service, athletics, social life, and campus politics. Bids will be issued to those who have the ability and the desire to carry on these traditions and the creed of SAE...

To become the True Gentleman.

TEP

Aspiring to affiliate with Tau Epsilon Phi national, our colony was formed in October 1969. Correspondence has been maintained with our national headquarters in New York City, and through the assistance of our local alumni, we shall soon gain National status.

Tau Epsilon Rho is a true brotherhood with its idea based in giving each man an equal opportunity to live and relax in a homogeneous group which adds strength to his convictions, and character to his life. We are individuals, broadening our perspective of life.

Through interaction in a highly organized, yet relaxed social atmosphere, our members become leaders. We endeavor to respect each other and to promote pride in our relationships. Supporting each other, we become unique in understanding the meaning of life.

Because we exemplify our ideals in Service, Chivalry, and Friendship, our brotherhood becomes active in every aspect of campus life. Congratulations on choosing FTU. The brothers of TEP offer you a place to find friendship. TEP is responsive to its brothers' needs.

SSX Sigma Sigma Chi

Sigma Sigma Chi Fraternity was founded on the FTU campus in the spring of 1969. It was and is a fraternity of many temperaments, talents, and convictions. Having this type of personality we do not have a colony system for locals but initiates new fraternities by a petitioning process. It is a long, hard road to travel to meet the qualifications Sigma Chi requires to local petitioning fraternities. We feel that the reward of receiving a charter from Sigma Chi is well worth the effort.

To give you a better idea of what Sigma Sigma Chi is, let us give a brief history of our fraternity. We are a social fraternity, but we have not lost sight of the needs of our campus and community.

Last year our "Scholarship Day" netted over $70,000 to be used for student loans. This was the largest single contribution to this fund.

Sigma Sigma Chi sees each rushie as an individual and approaches you with knowledge that you as an individual can offer us fresh ideas, and fresh leadership. You can help us and we can help you. A fraternity is what you make it, it does not make you.

Brotherhood...

Only as a fraternity man can you know the satisfaction of belonging to a tight group of men who feel each other's pain and joy.

Service...

The best way to stick together is to work together.

Academics...

Belonging to a fraternity is to share the knowledge and receive the help of those who "have been there".

Social Life...

The basic benefit of belonging to a fraternity. To see what we mean, enter rush and find out for yourself.

TKE Tau Kappa Epsilon

Tau Kappa Epsilon fraternity believes any man can fit into a fraternity. Often a man will wait in order to discern if he is the "fraternity type," but in actuality there is no man who best fits a fraternity. In fact, the greater diversity of backgrounds, interests, abilities and experiences, the stronger the fraternity and the more successful it is in realizing the Greek idea. Some men wait to join a certain fraternity single mindedly, but this "best fraternity," however there is no best fraternity. Every chapter has many opportunities to offer and the longer you wait the more experience you miss.

Living, working and enjoying life together makes men more appreciative, tolerant, and respectful of each other, while it broadens one's range of experience. Tekes are a group of individuals brought together studying, competing, planning, and partying for the mutual benefit of all. There is a sincere concern and dedication which bonds and unifies brothers and creates a spirit we feel is unique to FTU's campus.

TEKES are proud men who know they have so much to be proud of. They have worked long and hard to prove themselves scholastically, socially, and athletically. When you look at Tau Kappa Epsilon you will see it excels in these areas.

Tau Kappa Epsilon invites you to examine it closely and encourages you to look at the other fraternities in the Greek system. When you decide upon a fraternity, accept the responsibility of the fraternity or wait to find the "best fraternity," a decision that will affect you for the next several years, at least. Accept the responsibility as a mature individual and above all...

BE PROUD OF YOUR DECISION!
The men of Tau Kappa Epsilon got off to an early start before the beginning of school, getting together for fellowship and an all-round good time at the Summit Apartments on September 11. These guys had a great time, and the little sisters were there also to help with the fun and refreshments.

They have received good news from national. It looks as though the Teks will be chartered by the end of November, and will become a member of the largest social fraternity in the world. Plans are already being made for the festivities.

The brothers would like to congratulate Dean McDowell, the new dean of men. They feel that the administration has made a good choice and look forward to working with him.

Tri Deltas have been active with alumnae and collegiate members these past weeks. To begin planning for the fall quarter, an ice cream social was held in conjunction with a business meeting at the home of Mrs. Dunlap. All Central Florida collegiate members also participated in this social. The following week the alumnae provided a spaghetti dinner for the chapter at the home of Peg Hartman, alumnae advisor. The next few days were spent training officers for the new positions. Future traditions will be the main topic discussed for the new Beta Lambda chapter.

To follow up the chapter's raising of $3,000 for the Florida Symphony this summer, the girls will be distributing posters throughout the Orlando area. These posters will further the efforts of the Symphony Committee to inform the public of coming activities.

Along with the business meetings held on Monday nights, the members will participate in pledge training directed by the alumnae.

The Brothers of Sigma Sigma Chi would like to welcome all new and returning students to FTU and hope they all have a rewarding and fun-filled school year.

Sigma Sigma Chi remained active during the summer quarter, holding weekly meetings, fund raising projects, and working on the new house the brothers acquired last month. The new fraternity house is located about 3 miles from school, just off I-How 50. Prospective members are invited to drop by and see the home at any time.

Sisters would like to extend a special welcome to Hugh King, Ignition Zeta Chapter of Sigma Chi, to the FTU campus.

This Saturday night is the annual awards and installation banquet for the fraternity. Officers for the 1971-72 school year will be installed and awards will be given to the outstanding brothers of 1970-71. Dinner will be served at the HiRon Inn West in Orlando. All brothers, dates and little sisters are cordially invited to attend. A party at the home, (celebrating A. U. being No. 1), will follow the awards and installation ceremony.

Ty's Sorority is looking forward to a very eventful quarter and busy year. With a firm, enthusiastic decision to remain a local sorority, Ty's affiliates are continuing to re-evaluate sorority procedures and improve their program.

To begin the year, Ty's extended an invitation to Alpha Kappa Pi Fraternity to participate in a specific segment of the Grand Opening Ceremonies of Walt Disney in Toypad section of the parade.

Ty's would like to congratulate Delta Delta Delta and Zeta Tau Alpha on their national affiliations and all other Greek organizations who have made definite decisions to stay local or go national.

The Sisters of Zeta Tau Alpha spent a busy summer working with alumnae and in meetings preparing for official pledging. The pledging will last approximately one quarter and installation and initiation are planned for December.

Plans are also in the making for deferred formal rush in January.

Summer activities included a window wash, bi-monthly meetings and numerous committee meetings. Recently held was a Tupperware party with proceeds going to the cost of nationalization. The sisters held a party in early September at the Summit Apartments Recreation Room and sold over $500 of Tupperware.

The Orlando Zeta alumnae hosted its FTU chapter at an Italian dinner where the Zeta Pickens Jug Band provided entertainment and led a sing-a-long for alumnae, husbands and dates.

The Zetas will hold a coffee to welcome and get to know Dean of Women Carol Wilson on October 2. October 15 is Zeta Tau Alpha Founder's Day and plans are in the making for a Founder's Day activity with area alumnae. The pot luck supper will be held on October 15 and the FTU Zetas will be introduced to their big sisters from the alumnae group.

During the first two weeks of classes the Pikes will be carrying the traditional cases which is the national symbol for the Pikes around the nation. It is being done in conjunction with the Fall Rush. Once rush is over all new members will be carrying them on. On Wednesday the Brothers will be giving a banquet in honor of their little sisters, the Pikiteters.

The Pike district president attended recent meetings of AK/Pi and assures the brothers of nationalization as soon as the petition is entered to the Supreme Council. This was also confirmed when three members met with the council in Memphis this last August.

The Pikes have been practicing for intramural football which they will debut for the first time this fall. They would like to thank all of themselves as "Dark Horse" candidates for league championship.
Dorm Supervisor Stone Resigns

"Educational and family commitments" made it necessary for Michael Stone to resign as resident supervisor in FTU's male dormitories. Stone's resignation was effective last Monday.

T. K. Wetherell, director of housing, evaluated Stone's performances as excellent. "Replacing him will be extremely difficult," Wetherell added.

Wetherell outlined the duties of the resident supervisor. He must be on duty one night a week to handle problems and answer questions.

Every fourth weekend he will be on duty to handle problems, unlock doors and handle other complications.

The resident supervisor supplies general counseling to any resident student. He supervises programing in residence halls and takes care of miscellaneous jobs, such as keeping FTU's Housing Office does not have anyone to fill the job accepting new ones. Graduate by the old applications and with student guided tours furnished student or upper division dormitories. Stone's resignation was the furtherance of professionalism Friday, housing, evaluated Stone's Membership is restricted "Replacing performances as excellent. people who are actively engaged in Administration Building lobby.

SIGMA DELTA Sigma Delta professional journalism society will have its first meeting of the quarter 6:30 pm Wednesday, Sep 29, at 140 Magnolia, Orlando. The meeting will include a dinner, and members must notify Sigma Delta president Mary Anna Jackson or Sigma Delta advisor James B. Couch by Monday if they plan to attend.

It is important that as many members as possible come since the first order of business will be to elect a new secretary and a new Treasurer. Also to be discussed are plans for future meetings and formation of sub-teams.

YOUNG DEMOCRATS There will be an organizational meeting of the FTU Young Democrats on Tuesday, Oct. 5 at 11 am. The place of the meeting will be announced later.

The purpose of the first meeting will be to solicit new members, to orient for club purposes, to review activities currently underway, to give a prospectus of future political involvement and to present the club's purpose relative to participation in local politics. The Young Democrats is a strictly activist organisation which is soliciting persons who wish to involve themselves directly in political affairs. You can now vote—let's participate. All questions may be referred to P. O. Box 369, Orlando, 32802.

ACTIVITY DAY Panhellenic Board, Newman Center and Aqua Knights were awarded plaques for outstanding exhibits during Activity Day.

Oralation Ordeal Like 'Happening'

By Ann Sperring

If there were a banner hung upon the sky proclaiming what took place, no doubt it would have said "Happening Here." People wonder the game of "Orientation and Advising," a happening, almost academia, occurred. Perhaps it would best be remembered for the smiles that happened too.

Confusion at its worst is chaos, and may be recognized at its best by the smiles worn by those in its midst. Those most deeply enmeshed in the years of confusion were most clearly recognized by the smile that grew until its bearer could no longer recognize himself. Perhaps it was the smile of "smiling idiot."

"Orientation and Advising," a happening, also academic, occurred. Perhaps it would best be remembered for the smiles that happened too.

Now to return to the student who in rapid succession considered and discarded such ideas as joining the Army, digging ditches, getting married, or any number of situations that would remove him from his present one. It was a happening, happy, confusing, but definitely a happening. "Orientation and Advising" if you could smile you were already oriented to FTU.

The faculty member is quite sure happening. If there were a banner hung upon the sky proclaiming what took place, no doubt it would have said "Happening Here." Perhaps it would best be remembered for the smiles that happened too.

This week's Portun's Friday Girl, Ellen Kisiel, is not only pretty, but she is also the daughter of Dean of Social Sciences Bernard Kisiel. Ellen, a freshman at FTU is a graduate of Winter Park High School and is majoring in communication. Since this is her first quarter here, she has not yet joined any clubs or sororities, but the lovely 18-year-old says her main interests are swimming and playing piano.

Twelve Join Nat. Science

The appointments of 12 new faculty members, including a chairman of the physics department, was announced by Dr. Bernard Oster, dean of the College of Arts and Sciences.

Three of the newcomers are full professors, one is an associate professor, three are assistant professors, four are visiting assistant professors and one is a visiting instructor.

Dr. Jack Noon, who has been on the faculty of Rensselaer Polytechnic Institute, is the new chairman of physics. Noon is a research fellow and author of 60 publications in physics.

He is a native of Australia and has taught at the University of Queensland, the University of Sydney and the University of Rochester. Noon is a member of the American Physical Society, American Institute of Physics, Sigma Xi and a Fellow of the Australian Institute of Physics.

Dr. George H. Haynam, who has been appointed a full professor of mathematical sciences. Before coming to FTU Haynam was chairman of the department of systems and information science at Vanderbilt University.

Haynam, a Cleveland native, has been actively engaged in research on computer hardware. He has developed a number of computer-language processors. Haynam is served as a consultant to several major industries in the computer field, and he has written almost 30 publications. Haynam is a member of Sigma Xi, Association for Computing Machinery, and the Southern Regional Education Board’s Council on Computer Science.

Joining the faculty in December will be Dr. James L. Koenig, who will be a professor of biological sciences.

Koenig is a native of the University of Kansas, and is a member of the American Academy of Arts and Sciences. He is a member of Sigma Xi.

Joining the faculty in December will be Dr. Charles N. Lindahl, who is a professor of mathematics.

Lindahl is an instructor at the University of Wisconsin and has taught at Inter-American University of Puerto Rico and at Virginia Commonwealth University in Richmond.

Dr. Charles N. Lindahl is a professor of mathematics. He is a native of Wisconsin and has taught courses in high school and college level courses, is a member of the department of mathematics.

Education Faculty Adds 7 Members

Three education backgrounds from the Orange County school system and two who have been at FTU previously are among seven new assistant professors who have joined the College of Education faculty this fall.

Dr. Carol F. Martin, dean of education, has announced the appointments.

Robert E. Pedder, a native of West Allie, Wisc., is teaching science education, mathematics and elementary education.

Another new member of elementary education is Dr. Michael C. Hynes, who has taught in Akron, Ohio, school system.

Dr. Timothy J. Sullivan, a Chicago native who has taught college, elementary and junior high school level courses, is a member of the professional laboratory program.

A former instructor of art education at FTU and Rollins College, Dr. Virginia Barr-Johnson, is now a member of the teaching analysis faculty. She has a background in design and geology, with works on a display at several sites in the Greater Chicago area.

She attended the Vogue School of Design, Washington School of Gemology and the Chicago Art Institute, and has been head designer and a design consultant for private industry.

Art, Music Profs In H & FA Faculty

Seven new faculty members have been named to the College of Humanities and Fine Arts, Dean Charles N. Micarelli has announced.

Dr. Bruce F. Pauly, a noted associate professor of music, has been appointed associate professor of history.

Dr. Albert I. Silvani is an associate professor of music. Stereo sound is teaching assistant in the department of photography and drawing at the University of New Mexico.

Dr. Elmer F. Feltcher has been named assistant professor of humanities and is teaching part-time teaching assistantship in the department of history at the University of Georgia.

Dr. Cabot L. Jaffee, who has been at the University of Tennessee as a director of cultural politics, is now at the University of Florida. The University of South Carolina has appointed a full professor of industrial foreign languages is L. Alexander Vance Jr. who is currently a Ph.D. candidate at Vanderbilt, where he has been a part-time teaching assistant in French.

11 Named In Soc. Sci.

The appointments of 11 new faculty members to the College of Social Sciences have been announced by Dean Dr. John C. F. Kishel. Four of the new faculty are women, two of them with doctorates.

Dr. Carol F. Martin, dean of education, has announced the appointments.

Jaffee is a member of the American Psychological Association, Southeastern Psychological Association, Eastern Psychological Association and is listed in American Men of Science.

Jaffee is a member of the American Psychological Association, Southeastern Psychological Association, Eastern Psychological Association and is listed in American Men of Science.

Joining FTU as associate professor of political science is Dr. E. Henry Kennedy, most recently on the faculty of Oakland University in Michigan. The one-time Michigan State University varsity cross-country runner specializes in political science, having written a number of publications relative to British and Irish politics, including "A Theory of Conflict in Northern Ireland."

Dr. Robert C. Bird, a native of West Allie, Wis., is teaching science education, elementary education, mathematics and elementary education.

Another new member of elementary education is Dr. Michael C. Hynes, who has taught in Akron, Ohio, school system.

Dr. Timothy J. Sullivan, a Chicago native who has taught college, elementary and junior high school level courses, is a member of the professional laboratory program.

A former instructor of art education at FTU and Rollins College, Dr. Virginia Barr-Johnson, is now a member of the teaching analysis faculty. She has a background in design and geology, with works on a display at several sites in the Greater Chicago area.

She attended the Vogue School of Design, Washington School of Gemology and the Chicago Art Institute, and has been head designer and a design consultant for private industry.

Two new faculty members have joined the area of secondary education. Both have backgrounds in county school systems. They are Mrs. Geraldine Snellings, formerly librarian at Valencia Community College, and Albert L. Wood, former Oak Ridge High School band director.

Mrs. Snellings was with the FTU library staff and taught library science here before joining VCC in 1965. She was also a member of the the American Library Association and a member of the National Teachers Federation, Conservation Council, American Science Film Association, Sigma Xi, and the National Association of Biology Teachers.

Dr. Charles N. Lindahl is a professor of mathematics. He is a native of Wisconsin and has taught courses in high school and college level courses, is a member of the department of mathematics.

Dance Tonight

"Power" in the band featured g. 30 on the menu at the Welcome Dance in the Student Union at FTU. The group performed its first concert at the Village Center. The group has been appearing more frequently in Central Florida, and recently performed at a Jacksonville rock festival.

Admission is $5, and it is open to the public as well as to FTU students, staff and guests. Tickets will be sold at the door.

Four of the new faculty are women, two of them with doctorates. They are teaching assistant in the department of photography and drawing at the University of New Mexico.

Dr. Elmer F. Feltcher has been named assistant professor of humanities and is teaching part-time teaching assistantship in the department of history at the University of Georgia.

Jaffee is a member of the American Psychological Association, Southeastern Psychological Association, Eastern Psychological Association and is listed in American Men of Science.

To announce the appointments of 11 new faculty members, including a chairman of the physics department, was announced by Dr. Bernard Oster, dean of the College of Arts and Sciences.

Weightlifters 2nd In 2 Summer Meets

During the last 10 weeks of summer quarter, the FTU Weightlifting Club won second place honors in two meets held in Sarasota and Winston-Salem, N. C. The West Coast Power Meet was the first meet that FTU competed in. In that meet the University of Tampa placed first, FTU took second place honors, and the University of Florida finished third. In Winston-Salem, FTU once again placed second in the Olympic Meet.

The Olympic Meet consists of the press, snatch, and clean and jerk competitions while in the Power Lift Meet, the bench press, squat, and deadlift competitions are judged.

During the summer, the weightlifters have added four new members to the club. Mike Richards, who comes to FTU from the University of Maryland, will lift in the 198 pound class. Barry Leen, who weighs in at 232 pounds and lives in Orlando, Jim Weaver, a Boone High School graduate, lifts in the 164 pound class. Bill Hoffman is classified in the unlimited weight-class, which is a weight class of 242 pounds or more. Both Hoffman and Weaver are on the wrestling team as well as in the Weightlifting Club.

The next weightlifting meet will be held October 9 in Deland. It will be an All-Southeastern Power Meet in which all the major weightlifting clubs in the southeast will be invited to attend.

Wrestling

(Continued From Previous Page)

Miami; Ted Harris, junior Long Island, N.Y.; Bill James, freshman, Miami; Elio Junco, junior, Miami. Other recruits include Kevin Fewster, Meridian, Miss; Pete Lecai, junior, Orlando; Paul Maddox, freshman, Dover, Del.; and Pat Murphy, freshman, Miami.

Most of the wrestlers that put FTU within the top 25 in the state will be returning to the team this year. Some of the new students are Fred Mauri, who won the honor of being the most outstanding FTU wrestler during the 1970-71 season. Jim Weaver, voted most improved wrestler; Johnny Roux, who received the coaches award for leadership; and Tommy Denton, who won the first FTU pin for his wrestling achievements last season.

Other returning wrestlers include Mike Richard, George Savini, Bob Mcghe, James Montgomery, Richard Nott, Steve Campbell, Don Risteen, Bob Lea, and the Orlando Crew Club meet in Deland.

OFFICIAL practice sessions will begin October 18 at the Physical Education Complex where exercises will be held. All persons interested in wrestling are asked to see Coach Gergley in his office (GC 338).

SOCCER CLUB

The FTU Soccer Club will begin its second year with its first organizational meeting today in front of the Library Building at 5 p.m.

With a more intense schedule this year, which includes scrimmages with Valencia Junior College, the University of Florida, Rollins College, Embry Riddle University and the Orlando Clappans, the Soccer Club will be looking forward to seeing many new faces to play for FTU.

According to president Bob Steadman, the soccer club is looking for all male students interested in competing in the fall’s lineup of games. No experience is necessary. For further information contact Steadman at this week’s soccer club meeting.

CREW CLUB

All students interested in starting a Crew Club for FTU are invited to attend its first meeting today at 4 p.m. in the Student Government Office on the second floor of the Library Building.

Club advisor will be Dennis Kamrad, who in 1969 led Edgewater High School’s crew to a highly successful season.

Both experienced oarsmen and nonexperienced students are urged to attend the Friday meeting.
Intramurals: Something For Everyone

Now you too can be the remarkable Jim Plunkett, "Earl the Pear" Monroe, the human vacuum cleaner Brook Robinson, or the great Pele. How? Intramurals has made it possible for you to be your own hero in any sport you choose. The FTU program has an activity personally suited to fit your tastes and ambitions. This program consists of a carefully planned activity for every season of the year. Each academic quarter is divided into two phases, with every phase producing a major sport. For you women athletes, major events will also be offered twice a quarter except during the first half of the winter quarter. The following calendar will show why FTU has one of the best intramural programs in the nation:

**MEN**
- Flag Football
- Handball
- G. Country
- Volleyball
- Volleyball
- Basketball
- Table Tennis
- Wrestling
- Tennis (S)
- Soccer
- Team Tennis
- Golf
- Water Polo
- Track
- Swimming

**WOMEN**
- PF Football
- Table Tennis
- Tennis (S)
- Basketball
- Table Tennis
- Team Tennis
- Golf
- Softball
- Track
- Swimming
- Water Polo

**COED**
- Volleyball
- Bowling
- Football
- Frisbee

Boredom and apathy are unknown to those who participate in an intramural activity. The intramural program has expanded sufficiently to handle the 15 percent increase in students as you can see from the list of activities offered.

Each year many students fail to participate—not because they didn't want to—but because they thought they didn't have the ability or the size. Don't let this happen to you! Our program was developed to provide an opportunity for EVERY student to express himself other than in the classroom. The program is one of the nation's best, only you can prevent it from being THE BEST.

Don't forget to keep an eye on the Kiosk for schedules and results of intramural play. Deadlines for each sport will always come on a Monday at 4 pm with a captain's meeting the next day. Don't miss out on all the fun; get involved in the sports of your choice.

Education in Journalism. He has written a number of articles and has freelanced for magazines. Another member of the faculty is Dr. Margaret A. Hanratty, who is assistant professor of psychology. She was awarded her doctorate this summer at Tulane University. Dr. Hanratty's specialties are in the fields of personality and development psychology. Melvin E. Jonns, who is completing his doctorate this summer, is an assistant professor of political science. He has written a number of articles on American government, has worked with national TV during election night telecasts, and has consulted for several research organizations in public opinion polls. Jones is a member of the American Political Science Association and Southwestern Social Science Association. Also joining the department of political science is an assistant professor is Douglas C. Smyth who is completing the Ph.D. at Syracuse University. Smyth's major field is comparative politics with emphasis on the developing nations of South Asia. Eleanor H. Brock, who has been a sociology instructor at Miami University in Ohio has joined as an assistant professor in sociology. Before joining the Miami University, Mrs. Brock was a research consultant for the Settappa Foundation and served as a social consultant with the J. Hillis Miller Health Center at the University of Florida.

**Ye Ole Futur e HORS I SC O P E**

By John the Good Resident Seer

**AIL: Today you should set long-range goals extending over the rest of your college career. Notice I said set, because before you graduate you will have changed your major six times and thrown all your plans out the windows. If you work very hard right now, you may be able to change that, and switch your major seven times instead. Gird your loins for the task that lies ahead.**

**ARIES: Today you may be your own worst enemy (whatever that means). Remember: He who knows not and knows not be knows not is a fool, just your type.**

**TAURUS: Mars will interes the **v**irginal** triangle of Sun-Moon-Venus tonight, which is a sign directed to the bull. The skies scream danger tonight for you. Stay home. Stay inside. Stay in bed. Whatever else you do, don't, by any means speak to anyone across the room. One has been sent to do you ill. It is written in the stars. You should have watched where you were walking last February.**

**GEMINI: One who has claimed your affection in the past is due to return today. Don't pay. The photographs are faked and wouldn't stand up in any court in the land. Just take it easy from now on. Next time you may not be so lucky. Did you notice the flashbulbs?**

**CANCER: Financial stress will enter the picture today. Avoid borrowing or loaning money. You know not what you know not.**

**LEO: Polacks and swimming pools figure heavily in your immediate future. The two don't mix, unless the pool is filled with tequila. Avoid feeding friends any spicy food until the end of the month. The mouth you burn may be yours. Incidentally, there is a kind of mushroom, let you be smitten with a dreaded, fatal disease, which could even cause you to tip, stumble and fall.**

**VIRGO: You used to be the type who begins projects but never completes them. That is no longer the case. Now you don't even bother to begin them. The stars do not shine favorably on you today, and I feel called to tell you that things look gloomy in the near future. I foresee that everything will start going wrong after you get your finger caught in a spigot.**

**LIBRA: That valiant effort you thought you thought was doomed last week will fail today. The reason it failed is you are a chid of the first hour. You should have been fined $30,000 for having you. That's the average price for a public nuisance. You will be tried and found innocent of witchcraft tonight. The only catch is: if you are guilty you float; if innocent you sink. You loose.**

**SCORPIO: It was 200 years ago today that your ancestors witnessed giant loads invading the town hall in Zihuat, Pt., turning it into a huge war. Take your hat off to commemorate the occasion.**

**SAGITTARIUS: The stars say you should be creative today, but you, once again, will ignore the stars. Seek out another Sagittarian for help and money. He can provide neither, but muny loves company. Put your trust only in people with the initials Z. (Zamora Zifgen). Avoid people with long fingernails. Also avoid top-heavy turkeys.**

**CAPRICORN: The man who watches the sky the all time is likely to fall into an open manhole. Keep your eyes straight ahead, and stay out of trouble for a week more. Your parade is up after that, and then you are free. Count your toes every morning. There is a toe that loose in the area, and you are particularly susceptible.**
