A land use planning committee of Dr. Martin Wanielista’s “Man and Environment” class is searching the county to obtain information for a report to be released next month.

A few of the findings uncovered by the committee thus far include such findings as the following:

The Winter Park area has nearly doubled the national per capita average of solid waste disposal.

On the corner of Cortina Avenue and Ferndrock in Orlando stands an historical marker commemorating the Council Oak, a Seminole Indian meeting place, and...
Now Is The Time......

A variety of problems plagues the average college student in the area of scheduling time needed to accomplish the many things that must be done. One of the main hassles is that the student spends too much time doing those things he has to do (reading, studying, term paper research) to allow sufficient time for those things he wants to do or should do. Such as registering to vote and actually casting a ballot. NO ONE can really help in the actual voting process. You either want to or you don't, and you either provide or don't provide for the necessary time.

But registration is another matter. Understanding the "battle against time," Lambda Chi Alpha Fraternity is sponsoring a "bring the registration to the people" campaign, designed to get students on the voting rolls.

Representatives from Elections Supervisor Dixie Barber's office will be on campus Tuesday and Wednesday to register students. They are providing an opportunity, a privilege and a responsibility.

THE OPPORTUNITY lies for people who are attempting to make registration easier for the students. The privilege and the responsibility belong to the student. One cannot be forced to register and vote, but considering the clamor for the youth vote in the past few years, one could expect overwhelming lines at both the downtown offices and at Tuesday's registration campaign.

As college students, the 18-20-year-old segment would be expected to be just that much more interested in securing the privilege of voting and living up to the responsibility that goes along with it. The university segment is generally better informed and more prone to become involved in politics than his working counterpart. But only time will tell.

It is probably take about five minutes to obtain the opportunity to help determine this country's political future. The 1972 political year will prove to be a scarcity one if, after weighing all sides of a question, you can't even make a choice.

And this time, it won't be because you're not interested. It will probably take about five minutes to obtain the opportunity to help determine this country's political future.

Letters To The Editor

Mrs. Gordon, the author of 'Johnny's Soccer', is quite disturbing to think that out of 6,000,000 15-20-year-old people in the United States, no one was ever informed of the actual voting process. This is his idea, he is writing, and he is attempting to make registration easier for the students. The fact that he is, he is doubtless correct. Perhaps Mr. Gordon would like to know that his efforts are being accompanied by other programs and action.

So we are asking Mr. Gordon's help in taking a positive attitude by pushing enthusiasm and talking up the cheerleaders.

Eileen Brennan

抄写员

FTU. Apathy! Perhaps the fact that the basic idea in apathy should not be brought to the fan by saying, "We are apathetic." Rather, we should publicize the fact that "We are enthusiastic!" In other words, take a positive attitude.

So we are asking Mr. Gordon's help in taking a positive attitude by pushing enthusiasm and talking up the cheerleaders.

Letter to The Editor

Apothy Problem

Dear Editor:

PTU is faced with a major problem which is hindering its expansion as a futuristic university. Contrary to popular belief, it is not the acquisition of funds for further construction which is delaying the growth of our school. Instead, it is the widespread apathy which has permeated the majority of students on this campus.

Evidence of this condition is so prevalent that it is not even considered unusual any more when any student inability fails to receive an adequate response from the students. It appears the only things that generate interest are fraternal organizations and the intramural sports program.

Apparently, FTU students, unlike students in other universities, fail to realize the need for participation. Recent attempts to form an environmental improvement group and a health awareness group failed because there was no Internet support. This is quite disturbing to think that out of 6,000,000, no one cares or wants to become involved with either of these pertinent lobbies.

It is disheartening to think that a modern university like FTU has been infiltrated by students who, through their passive behavior, regard every and any attempt to broaden their limited spectrum of interests.

Six FTU Delegates Attend Model Senate

A delegation of six FTU students are attending the Model U.S. Senate today at Stetson University in DeLand.

The Model Senate, which was planned initially by two Stetson students, Sandy McClelland and John Fraser, has received national attention as "being the only place going into an election year where there can be found a collection of students representing a cross section of the newly enfranchised 18-to-21-year-old," according to Miss McClelland.

According to assistant professor of political science Dr. William H. Jervey, the FTU delegation was chosen "originally from members of my 'Congressional and Legislative Process' class. Four were chosen from this class," said Jervey, "but since that time it has become a university wide project and a total of six students are attending the session.

The students, each of them representing or actually playing the part of a U.S. Senator, have spent some two to three months investigating the background of their respective senators, Jervey said. "The students have researched the Congressional Record, the Congressional Quarterly and in many cases written to their senator and received answers in the form of volumes of information," said Jervey.

The Model Senate session which began yesterday is intended to duplicate as closely as possible all the functions of the real U.S. Senate. Meetings will include Senate sessions. Fulbright, D-Ark., and Smith, D-Ore., will be approached as and will last until midnight.

Hill House A White Comedy

Satiric Documentary on Nixon
Nixon Satire Set For SCAUD

The Florida premiere of "Millhouse: A White Comedy," a satire of American politics using President Richard Nixon as symbol, will be shown at the Science Auditorium Monday.

The film, which has only been released publicly in New York, will be Shakespeare Troup

To Appear At VC

"The World of Shakespeare's Comedies" is coming to FTU Tuesday, presented by the South Carolina Theatre Company. The program is a collection of scenes, songs and soliloquies from every comedy by the English playwright, and has been adapted for stage by the founder-producer of the South Carolina Theatre Company Milton Dickson.

The company is in its seventh year as the only professional repertory theatre in South Carolina, and is one of the few self-supporting professional theatres in the U.S. The troupe will appear on the VC green at 11 a.m. Tuesday.

Being A Full-Time College Student Costs, Many Must Work To Pay Their Way

By John Goldston

Students are forced to support themselves as much as possible, "which means get a job," to quote from "West Side Story." So, while many students get whatever jobs are available, busing tables, washing dishes, janitorial work or similar tasks — others are able to work at jobs which more closely utilize their talents.

One of the latter is senior Chris Schmidt, who is working full-time for WDBO television and plans to continue on a full-time basis after graduation this December. "I've been broadcasting for several years," said Chris, "and it's what I like to do." WDBO radio employs another student, Ron Page, to work as the behind-the-scenes man on the new Tom Marshall talk show. Scott Clarke, station manager of WFTU radio, works off-campus in the production department of WEDB-FM, working with video tape, doing camera work and floor directing. And there is Steve Jones, another communications major, who fills his weekends as a floor cameraman at Orlando's WFTV.

Over at radio station WKIS, WFTU students include Jim Gantner, producer and coordinator for the Gene Burns Program P.M. and other 740 evening programs and Bill Bailey and Pat Flynn, both members of the news department at the WFTU affiliate.

The long summer days are never long enough for Bob Polshad, a junior and betty mayor. This young Winter Park student has made the most of every summer day for four successive summers doing research work in the fields and labs of the Department of Agriculture. TODAY newspaper in Cocoa employs student Bill Day as one of its three editorial cartoonists. Bill, a junior who is majoring in art and political science, finds the job an excellent way to hone his talent and knowledge.

WFTU has a program of financial assistance for deserving students, through the Office of Student Affairs. Dr. Werner Metz, a German major, and Beth Reichwald, a Spanish major, are student assistants in the department of foreign languages. This gives them an opportunity to be exposed to all facets of the department, including the language laboratories, while earning extra money. Students are employed in this fashion by nearly every department on campus.

With more than 6,000 enrolled, it is safe to assume that several thousand are employed in some way to ease the financial strain. The handful of students above represents merely a cross-section of young people filling the dual role of student/worker.

"Rap With Experts" To Be AT ENAUD

"Come Rap With the Experts," the third in a career information series sponsored by the Placement Center and the Developmental Fund, will be held Tuesday at 3:30 p.m. in the Engineering Auditorium.

Guests at the question and answer session will be representatives from areas in social sciences; Dr. Werner Metz, director of mental hygiene in Seminole County; Wayne Strickland, psychiatric social worker from Florida Hospital; Robert Hall of the Federal Bureau of Investigation, and Charles Tyson, Kissimmee city manager.

The November 19 issue of the Future is looking for young students and a banner saying "Uncle Sam" is looking for young people, especially those in college, to train in sales so that they, in turn, may teach others in sales. The business itself is a cash discount card enterprise.

Being a full-time college student today is an expensive proposition, and for those enrolled at WFTU this statement is no exception. With events occurring before December 5 must be submitted to the WFTU office before noon Tuesday, Nov. 16.

ENROLLMENT
WFTU's enrollment has hit an all-time high this quarter, with a total of 6,337 students, 5,551 undergraduates and 787 postgraduates.

NEXT THING YOU KNOW THEY'LL BE VOTING!

RETRO Trainees

Work For Ecology

Former aerospace scientists and engineers enlisted in PFU's RETRO program are working to contribute their decades of experience and technical knowledge to help solve environmental problems. They have applied their knowledge in a number of studies designed to speed flows of personnel, communications, and even garbage. Much to contribute toward the solution of those everyday problems that plague us all.

When they complete their four-week course in June, RETRO students will be awarded Master's degrees in environmental systems management.

All of the current projects will be completed in December. Results will be published soon after, according to Doering.

The Florida Hospital project is just one of several. Other students are involved in studies of the Orlando solid waste disposal system, the courts system in Brevard County and a revamping of Orlando's public safety communications system that would cut the police and fire departments and ambulance services on a single radio frequency.

The one-time aerospace workers are preparing themselves for their new careers by "going out and doing." According to Associate Instructor, Dr. Robert D. Doering, associate professor of industrial engineering:

"We like to think of engineering as much more than a technical science wrapped in a coat of diagrams and formulas," said Doering. "Today's engineering has

Twelve New Faculty Members Appointed In BADC'M College

Twelve faculty members have been appointed to FTU's College of Business Administration. Dean Charles E. Gilliland Jr. has announced. Eleven of the new faculty members will be on the staff of the department of business administration, and one will be in the department of economics and finance.

Dr. Raymond L. Martin is visiting associate professor of business administration. Since retiring from the U.S. Army in 1970 with the rank of colonel, he has been working as an independent consultant in research and development management, and has just completed the manuscript for a new book entitled, "The Impact of the Nixon Administration Policies on Resources for Research and Development." He recently received an invitation to write a column for the Magazine of Industrial Relations.

Frank B. Bondurant comes to FTU directly from the business world as an assistant of business administration. He formerly was vice president for marketing with Kansas Gas and Electric Company, and has been serving as an instructor at the University of Tennessee. He was a chosen December 2, and the final decision will be made early this month.

Dr. Henry E. Malley, Jr., returns to FTU after a year's service in business administration after a year as visiting instructor in economics.

Returning to FTU after a year's service in business administration after a year as visiting instructor in economics, he will be persons from different areas of the world, and all American students are eligible.

"Another purpose of the group will be to have fun, and both the foreign and American students will be persons from different areas of the world, and all American students are eligible for membership. The organization will be made up of persons from different areas of the world, and all American students are eligible for membership.

Almost 100 foreign students are enrolled at FTU. The official meeting of the organization will be next Friday at 11 a.m. in LH 333. All foreign students are expected to attend the meeting and may contact Kasim at FTU. Kasim pointed out that almost all foreign students are very interested in the organization and that it is very beneficial to both the foreign students and the American students who stay with them. Kasim said that "this could be beneficial to both the foreign students and the American students who stay with them."

Representatives of Phi Kappa Psi National Fraternity will be on campus Monday and Tuesday to speak to men interested in forming a colony. The fraternity was founded in Cleveland, Ohio, in 1852 and now has chapters at University of Florida and State University and a colony at Florida Institute of Technology.

Interested persons may contact Neil Sandem, national treasurer, and other national officers in AD 211 between 9 a.m. and 5 p.m.

---

The annual Panhellenic "Pre-Rush" referee for prospective rushies will be held Wednesday from 7:30-9 p.m. in the Board of Regents Conference Room in the Administration Building. All women students are invited to attend.

Prospective rushies will be introduced to the Greek system of the individual sorority information, and the rush schedule, finances and requirements of rush will be presented.

---

The Delta are proud to announce that their colonization procedures are now complete. They offer a thank-you to the little sisters for the colonization party. Thanks to "Dee" for buying the brothers two pitchers of beer Wednesday night to help celebrate the victory of the Delta Tau Delta College Bowl team. On the parade were brothers Joe Thomas (captain), Bob Smelley, Fred Romanon and pledge Don Byrman.

They appreciate the alternating bars attended the matches. The party afterwards was a ripping success as Gene Lenzert tons off pants pockets.

The brothers welcome in their newest little sister, Dee Anderson. Congratulations to Bob Smelley for winning the second annual beer drinking tournament and to Gary Anderson for winning the Pult Putt tournament.

There is an official Colonization Bash scheduled Friday evening at 8 p.m. at the house.

Saturday, Nov. 20, the Delta Tau Delta chapters of the University of Florida, and the University of South Florida will have their annual football game here in Orlando. That evening the pledge class will go through formal initiation.

The brothers would like to thank the fall pledge class for the fine barbecue they hosted last Sunday. The pledges prepared chicken and potatoes for the brothers and their dates. Everyone enjoyed the fun and food and a great time.

---

They are looking forward to another cookout.

Last week a group of brothers were guests at the Sigma Chi Alumni banquet. After the meal, the past presidents of the alumni association were honored and given plaques. It was the 50th anniversary of the association which was founded in 1941.

The Delta Sigma Phi won its first collegiate tournament over the Delta Tau Delta newest little sister, Dee Anderson.

The Kappa Sigma brother-pledge football game was played Saturday night which went off like a well-organized machine.

The brothers were surprised to find out the number of jocks in the Alpha pledge class. After the night, the pledges were surprised at the quality of the jocks by visitors they made a hasty retreat to the B.C. House House for breakfast.

Elections for new officers were held last Sunday night. The results are as follows: Grand Master, Jim VanHorn; Grand Procuretor, Bruce Fletcher; Grand Steward, Craig Smith; Grand Treasurer, Gary Weithee; Grand Master of Greecian, Dave Hansen; Judicial Board, Hutch Dent, Jeff Junkins and Duncan Marks; Guards, Daryl Gubman, and Paul Harkewicz. The new officers will take over in January.

All brothers, pledges and little sisters are reminded that Parent's Day will be held Sunday from 3 to 5 p.m. at the house.

The Ty's

The Ty's Halloween Party for the children of the Lutheran Haven Children's Home was held October 31 from 3:30 p.m. and was successful. The children made jack-o-lanterns and bobbed for apples.

On Tuesday, Ty's will be attending the 15th Banquet at Summit Correctional Institution. The group will be leaving FTU at 4 p.m. to attend the dinner, which begins at 6 p.m. Correctional officials from all over the state will also be there.

As another service project, Ty's will be helping the Village Center for the elderly by making cookies for the Christmas Dance.

The group is in the process of making ties for Phi Kappa Alpha Fraternity, in their colors of garnet and gold. A second work party is planned for Monday, following the regular meeting. A surprise candy bar will be available until 6 p.m. Come prepared to work.

The pledge pins have arrived and are gold and silver, small replicas of the original rope knots.

Next week, there will be a social with ATO. The festivities will begin at 4 p.m. and will be at the ATO house.

The following Saturday, Nov. 29, there is a date social planned. It will be a beach party in New Smyrna.

The final deadline for outfits is this Monday.

Ty's tied for second place in women's volleyball this year. Thanks go to the team for the good jobs they did. In preparing for the upcoming football season, practices were begun this week.

---

The College Bowl team from ATO placed second over all the fraternities. ATO congratulates Delta Tau Delta for a fine showing in the Brain Bowl.

There is a barbecue at the house Saturday at 4 p.m. The cookout will initiate the newly-erected barbecue built by the fall pledge class.

The air-conditioner was installed last Friday but cold weather has precluded its use. The house is finally completed and will now serve as the center for all ATO functions.

There will be a band party at the house on Saturday, Nov. 29 from 8 p.m. "Tea and Crumpets" will be served.

---

The Zetas held a picnic social for the brothers and pledges of Pi Kappa Kappa at Watson Springs Park. Football, canoeing and lunch filled the afternoon's activities.

Zetas got together with alumnae last night for a "muck" run at the house of pledge trainer Carol Wooddridge. The girls practiced songs and the rotation system at the rush party.

STTA sister Martha Swann is speaking the weekend at Stetson University in Deland this weekend where she is participating in the Model U.S. Senate. Miss Swann is portraying Senator J. William Fulbright of Arkansas at the weekend activity.
**FTU-TV IS Brainchild Under Construction**

By Ann Sperring

Anytime you try to build a brainchild it’s rough. There are problems, frustrations and hazards of a general nature. So Clark makes a point of being a brainchild and problems. His adopted prodigy, WFTU-TV, is having its problems. But even with the technical setbacks besetting him, Clark foresees a great potential for the station.

"We aren’t a ‘boy’ as people often refer to us. We are a very real and concerned organization, and are trying to impress upon the student the many services we can offer," said Clark.

Among the services was a deep-layer coverage of the recent Student Government elections. More than 75 students worked on presenting the coverage, which included interviews with candidates, President Charles Millican and a "mystery guest" featuring assistant professor James Couch demonstrating the fine points of Japanese cuisine. Most of the show was done live, and Clark reports he was "very pleased with the production."

Scheduled for upcoming programs is a half-hour news show, done weekly, to focus on student news. Focus 4, the new feature in the making, will be a student-oriented program in order to stimulate interest in student affairs. In the same vein, WFTU-TV will also present a Student Government report.

"We want to establish an open line of communication for the students. We have great potential, and we are trying very hard to put this to work for the students. I have some hard-working people really getting to try a good thing going, but each new person can contribute," Clark said.

Brainchildren don’t come easy. Clark is finding that out each minute he works on this project. But many grow up into full-fledged membership. Clark is finding that out each minute he works on this project.

**BICYCLE CLUB**

Anyone who owns a bicycle is invited to attend a meeting noon Monday on the Village Center green.

Plans concerning the formation of a bicycle club will be discussed and a bike hike will be planned.

**ACLU**

The American Civil Liberties Union chapter at FTU will meet 11 a.m. next Thursday in LR 239. Anyone is welcome to attend or join at the meeting. There will be a speaker discussing student rights.

**CHESS CLUB**

The Chess Club will meet 7 p.m. Monday, due to a mix-up last week, this week’s meeting place will be GC 114.

**INTERNATIONAL CLUB**

The International Club will host an International Pot-Luck Dinner at the Winter Park Village Apartments clubhouse tomorrow from 6 p.m. till. For 50 cents members and guests may enjoy the dinner and the party afterwards. Any member who is a pot-luck excellence may take these items to AD 390 on any time today.

There will be an important business meeting 11 a.m. Tuesday when changes in the constitution will be discussed.

The production of the Spanish play, "El Viejo Celoso," is continuing well with the selection of actors and actresses to be announced November 30.

One of the upcoming money-making projects of the club is a shoe-shine.

**BILOGY CLUB**

The FTU Biology Club, in connection with the Chemistry Club, has succeeded in gaining approval for a lounge area in the science building. The club wishes to thank all persons, both administrative personnel and students who have helped achieve this goal. We are thankful all and science students are thankful for finally having a place to sit down!

A meeting will be held Tuesday at 11 a.m. in SC 350. All students are invited; club members always like to see new faces.

**CIRCLE K**

After attending the recent State Social Issues Conference, Circle K is ready to set out on its goals of involving the student in campus activities.

A campus-wide poll is scheduled during preregistration next week. This is a chance for all students to have their say in governing the actions of student organizations in view of the future quarters. All results will be available to any campus organization upon request. Student Government will assist in making a decision of the students concerned about the results.

Circle K is an organization that is involved in all phases of student life: social, political, ecological, etc. The persons it seeks are members who believe in themselves and care about others.

Meetings are held 11 a.m. Weddays in AD 225. All students are invited.

**PHI BETA LAMDA**

On Saturday, Oct. 30, Phi Beta Lambda held a District III Officers meeting on campus. Meetings are held in the General Classroom Building to discuss the state officers workshop. Approximately 60 state officers and advisors attended.

The District III chapters of PBL who attended were FTU and Lake Sumter Junior College. State representatives for PBL, Vicki Johnson; District III PBL advisor, Mrs. Ruth Pryor, and District III Student advisor for PBLA, Martha Chapman also attended. Jane Nunez, District III vice-president for PBL, presided over the meeting. Coffee and doughnuts were served for breakfast, and lunch was held in the cafeteria.

Free Day Sought
By SG Resolution

A resolution to exempt students from classes on all or part of election days was scheduled to be introduced at yesterday’s Student Government meeting.

The resolution points out that in the past many students have wanted to vote. The students who have reached the age of 18 are allowed to vote, students should have the opportunity to vote without having the problem of class conflicts.

"I got the idea from a similar bill proposed at the University of Nebraska in Omaha," said sponsor of the bill Senator Mike Strandberg.

This will give resident students the opportunity to get off campus and vote. It will also benefit commuter students, especially those who must vote in other counties," added Strandberg.

**Heard Us Yet?**
Soccer Given Go-Ahead
Leo Game Raises Spirit

By John Gordon

The FTU soccer Club has decided to continue its season of games into the winter quarter despite the good turnout at last Friday’s meeting and at last Saturday’s meet against St. Leo College.

Four students have joined the team since that meeting, meaning that new player substitutions can be made during a game without fear of risking a goal.

Although FTU lost to St. Leo by a score of 4-2, Team Captain Bob Steadman felt sure his Soccer Knights would have captured their first victory if there were more officiating referees to catch fouls “deliberately aimed at FTU.”

“At the end of the first half, we were winning 2-0!” Steadman said, “but, at the beginning of the third quarter we lost three good men due to intentional fouling by St. Leo players.”

According to Steadman, goalies Rudy Zereldo and Anthony (right to left) beat out students Ernest Baker and Julian Ganouchio in this week’s intramural handball tournaments, taking first place honors. (Photo by Jon Findel)

The FTU soccer club looks forward to playing against the Central Florida College in this Saturday’s meet. This meet is to prepare the Soccer Knights for the FTU collegiate tournament which will be held at the Fort Myers YMCA and open to all high school and college wrestlers.

Twenty Tech grapplers will leave the campus at 6 p.m. to represent FTU in the 122, 125, 133, 141, 148, 158, 170 and 188 pound classes, including all heavy weight divisions. Included in these 20 are John Rouse and Charlie Fattens, last year’s first and third place state champions, respectively.

Although the matches will be held by stricter AAU regulations, Wrestling Coach Jerry Gergley said he feels that his squad of men are together this year and will have no trouble placing high in this meet.

Soccer continues schedule - Soccer will remain as one of FTU’s intercollegiate sports, due to a good response to the team’s call for more players. In this shot, FTU halfback Robert Magnuson drives the ball past a St. Leo player and heads toward the FTU goal. (Photo by Ike Spinos)

Wrestlers Enter Fort Myers Meet

The FTU grapplers will enter their first wrestling tournament this Saturday at 11 a.m. in Fort Myers. The AAU-sponsored meet will be held at the Fort Myers YMCA and is open to all high school and college wrestlers.

Handball Winners- Dr. Robert Rothberg and Dr. John Anthony (right to left) beat out students Ernest Baker and Julian Ganouchio in this week’s intramural handball tournaments, taking first place honors. (Photo by Jon Findel)

HELP WANTED!
HELP WANTED!

SPECIAL PUBLIC ANNOUNCEMENT

THE AMERICAN SCHOOL OF MENTAVIOLOGY, Central Florida’s only licensed school of its kind, teaching TOTAL HUMAN ENGINEERING, needs trainees for a teaching staff.

Trainees should be able to spend a minimum of two hours a week in special class work for a total of 12 weeks. Those applying should have a sincere desire to serve humanity through the unique self-improvement program offered by the American School of Mentaviology.

Course includes a full and comprehensive study of what has become known as “hypnosis” and “self-hypnosis,” which is more correctly intensified persuasion through simple and easy to learn procedures. Each trainee will have the opportunity to submit any personal problems, “hang-ups,” or nerve-oriented physical illness for elimination.

Positively no fees to trainees.

SPECIAL $5,000 SCHOLARSHIP FUND FOR COLLEGE STUDENTS

The American School of Mentaviology has placed a $5,000 deposit at the Sanford Atlantic National Bank a special scholarship fund of $5,000 to be used to finance the education of qualified students who wish to pursue the Mind-Life Sciences as a career. Students interested should apply by letter to address below.

REWARDS FROM TOTAL HUMAN ENGINEERING ARE MANY:

1. Total and complete self-confidence.
2. Amazingly fast learning ability, developing true "computerized thinking".
3. Rapidly increasing excellence in any motor skills, including athletics.
4. Permanent relief from all forms of nervous tension and the unpleasant symptoms caused by nervous tension, such as migraine headaches, sleeplessness, stage fright, stammering, etc.
5. Rapid relief from health-destroying habits of smoking, drug addiction, overeating, etc.
6. Money-motivation techniques for those who need this type of drive in a competitive society.
7. IK-KI-WA Instant Self Defense, especially adapted to protection from assaults on women.

For full particulars, opportunities and long-range goals, contact the American School of Mentaviology at Box 2031, Sanford, Florida 32771.
Georgia Victory
Upsets Sports Seer
By LARRY McCORKLE
Okay, you can say it. I was very wrong about last week's prediction of the Georgia-Florida game. Quite wrong.

All day Friday, people talked to me sooner or later came out with a statement similar to, "You must have been drunk when you made your predictions."

To be honest, I probably predicted with my heart, not with my head. I just felt that sooner or later all my talent is bound to explode — although I was notified that the explosion probably already occurred during the Maryland game.

Florida was supposed to be a one-sided team. If these seniors don't hurry up they just might take the Gators to the SEC title. As sophomores, this group of seniors earned a 9-1-1 slate including a 14-13 edge over the Volunteers on October 1. The following year they showed some offensive weaknesses and were still scored 7-4 in a season — a great disappointment for many Florida fans.

And now Florida, this Florida will be lucky to come out of the season with a 3-6 record. The reasons — there's plenty of them. You could write a book about the misfortunes of Doug Dickey.

It is quite obvious that the Gators are not playing inspired football like the Gators of 1969. Why not? That's my question, as well as to speculate and for Doug Dickey to find out.

Last week's showing (right) didn't help.

This week's games:
Florida 21, Kentucky 13
This score could go either way, but once again I'm picking with my heart instead of my head.

Georgia 24, Auburn 22
Georgia did not play good ball against Florida despite winning 49-7. The offensive line was the Rock of Florida's defense, however, demolished the Florida line, and will do more of the same against Auburn. Georgia's running attack will control the game, preventing Auburn's Pat Sullivan and Terry Beasley from scoring enough to win.

Auburn 21, Miami 13
Ranged up Alabama will not win by that much. Honest "Bear" Bryant will be able to recuperate his big guns enough to beat the Hurricanes and still have enough left to take on Auburn. Look for a tough Miami defense and a strong ground game to give the Crimson tide a scare though.

Florida State 34, Georgia Tech 17
Florida State desperately needs this game if it hopes to play in any big bowl game. Quarterback Gary Huff and able receivers such as Kent Gaydos, rubber band defense will contain Tech quarterback Eddie McAshan.

And now this. Florida will be lucky to come out of the season with a 3-8 record. The reason — there's plenty of them. You could write a book about the misfortunes of Doug Dickey.

But, and Faculty, was a wild scoring affair, with both teams scoring at will. ATO outscored the faculty, and won it all by a convincing 41-31 score, and left no doubt as to who is the football king this year. ATO who led 27-19 at the half, scored their first half points on four TD passes thrown by outstanding signal caller Mark Stockwell. Greg Gavel caught two of them, one for 14 yards and other for 25. Mike Abufaris caught another TD pass from Walter Shinn to Ray Stockwell, but again the important conversion failed.

Spotlight On Sports

This week's sports spotlight shines on Mike LaLone and Dale Olson. Returning to the FTU basketball squad is senior Mike LaLone. He is a 6'11" tall guard-forward for the team and weighs 189 pounds. LaLone lives in Orlando.

Freshman wrestling star Dale Olson comes to FTU as a 1970 graduate of Aurora High School in Cleveland, Ohio. During his years at Aurora, Olson played third in sectional wrestling and first in the district tournaments. The 158 pound natural major is 19 years old and is 5'10" tall.

Ye Ole Future Horoscope

By John the Good, Resident Seer

For Friday, November 12, 1971

IF YOU WERE BORN TODAY:
You're not alone. So were several other people. Hina Duggal, Phylleline Hingabe and Ivan Loune, to name a few. In that respect you're not alone. There are others. You are unique, however, in many other respects, like your extra eye, and your amazingly weak mind.

AQUARIUS:
Your days are numbered as the hairs on your head. Do not feel too scared; however, your hairs are about to desert yourrinvium which will quickly begin to limit your days. Vision in your left eye will begin to fade by day and the fingernails will begin to gain color. Blue. Bad when.

PICTURES:
Don't pool all your money in one spot. Invest wisely and buy some nice chips, while we still have a chance. Sell your life insurance. It's not giving you the best benefits after you're dead, and it would be a real way to get back at your "loved ones." Prepare yourself for the unexpected. If it can happen, it will.

ARIES:
For as far as I'm concerned, you can carry on the way you have been for the rest of your life, but I happen to know that your greatest asset is your ability to get along with your behaviour and is threatening to cut you out of your will. That would mean that you would have no legitimate residence anywhere after you're 30. You could stay as you are and continue a life of solitary bliss by profession, but I don't think that would be the way to go.

GEMINI:
They have much to rejoice about. Tonight is the night you have been planning on for several months. All should work out well, and go just as planned. The only problem is that he will stand you up, and you will have to face the entire evening alone. Tough break.

CANCER:
Who do you think you are anyways? You go prancing around here like you own the place. We all know who your family tree really is. Not only do we know, but we have decided not to speak to you any more. We don't like you or your grandmother. Put your arm around it. It's getting ready in here, child.

LEO:
The problem with you is that you don't think before you speak. You, in fact, don't think while you're speaking. Come in and think of it, you don't think after you speak. You seldom stop thinking. Plato said that the wise man learns, but I say the wise man should temper his listening, and ignore you completely.

VIRGO:
Alarming eyebrows could be fatal to you this week. If you notice your eyebrows slowly coming together, then try quickly and take a bath in Chloro. Did you know your eyes are really red, and your mother painted the color in when you were two? That's why there are no color photographs of you when you were little. Hadn't you ever wondered?

TAURUS:
Exercise great caution. The man next to you is an important person. He is a great frngt, partner of the subgroup organization "I GIVE IT 100% (Great Frogs United To Conquer The World)."

SAGITTARIUS:
If you're always picking on Sagittarians," they tell me. "You're always picking on Sagittarians," they tell me. So this week I learn the stars, write a nice one. A lie, mind you, but a nice one. A lie, mind you.

SCORPIO:
I see by your dress that you will see short. If you were taller, your dress would surely contain more material. Let me tell you quickly, and briefly, if you're not selling, don't advertise. Modesty is its own virtue.

CAPRICORN:
"You're not alone," I say. "We will conquer." It's style. fire. The quick brown fox jumps over the lazy dog. Complete Take-Out and Drive-through service. AND WE'LL TREAT YOU TO
