Triumphant Debate Winners display awards garnered in last weekend's State Intercollegiate Championship Debate Tournament. The forensics squad won the state sweepstakes trophy by two points.

We Live in the Present. By the Past, but for the Future.

Vol. 4 No. 14 FTU Student Paper January 30, 1973

Leaders Fear 'High Costs'

By John Gohlston

Unless some student leaders change their minds, the University of Florida student body will not be participating in the "Project 7th of March" pre-primary ballot drive.

An article in the Florida Alligator, the U of F newspaper, quoted the student body vice president as saying that the student government would be "willing to participate" in the mock elections, but said that such a project would cost around $12,000, and the students were not enthusiastic about the idea.

By January, the U of F student body president, Don Middlebrooks, came up with a new figure of $1,200, and was quoted by the Alligator as saying, "I don't think it's a good idea to spend that much money for a straw vote." He also commented that he felt the turnout for the primaries on March 14 would be heavy enough without the earlier vote.

Then the apparent major catch developed in the same article, which quoted the U of F director of elections as saying that the student government could not sponsor the vote because the constitution declares that all full-time students will be able to participate in student body elections, but "Project 7th of March" is limited to voters registered with one of the two major parties. According to the article, that number would be at the most, 2,000 of the university's 15,000-member student body.

The two events would have to be separate, the U of F leaders are looking for a graceful way out of their commitment, and FTU Student Body President Frank Santry, "I am very disappointed," commented Santry. "It is difficult for me to see how they can interpret the project as anything unconstitutional."

Following the second article in the Alligator, 20 signatures were added to Middlebrooks. One of the letters was from Mary Frn McCugh, FTU's Student Government attorney general. In the letter she explained that if the project were used in that way, it would be unconstitutional, since the ballot is not a "student election," as the Alligator says, but a straw vote designed to build interest in the actual elections, which will follow the next week.

"The scope of this project extends..." (Continued On Page 16)

FOOD HOURS CHANGE

Starting tomorrow, serving hours of the cafeteria will be changed for weekends. Breakfast will now be served from 8 to 9 a.m., lunch from 11 a.m. to 1:30 p.m. and dinner from 4:30 to 6 p.m. Cafeteria hours for weekdays will remain the same.

"Col. Bryant's Chicken"

"Col. Bryant's fried chicken will be served in special boxes handy for all resident students Wednesday, due to the appearance that evening of Ace Trucking Co. James Elmer, director of auxiliary services, announced that the Multi Purpose Room will not be open for dinner Wednesday.

WTWK

There is a student-owned FM radio station, WTKW, broadcasting from D Dorm from 7 to 11 p.m. Monday through Thursday.

Rand Sturkey and Kevin Murphy, owners of the station which operates at 90.5 megacycles, said, "We play anything you want to hear," and added that "requests, dedications, contests and crack telephone calls" are being taken at ext. 4503.

The two students want to place an antenna on the dorm roof, but they must have permission from Thomas K. Welchmond, director of housing. The antenna would permit the station to broadcast to all FTU dorms. Currently the station reaches the men's dorms easily, but fades out before totally reaching the women's dorms.

ACE TRUCKING Company, the improvisational comedy group appearing on campus Wednesday, have the "Project 7th of March" pre-primary ballot drive to thank for their appearance.

The show will take place at 8 p.m. and 9:30 p.m. in the Multi Purpose Room. The company's concert kickoff Kaleidoscope '72, an 11-day "all day at FTU" being presented by the Village Center in Orl Farming. Admission to the concerts is free, and the presentations are open to the public. The Ace Trucking Company also appeared as regulars on "This is Tom Jones" television program.

I u of F Nixed In Campus Survey

The Student Government bill to sponsor a Miss FTU contest in 1972 and 1973 was to be withdrawn yesterday by the committee which proposed the bill, the on-campus survey showed that at least 60 per cent of the students who were polled opposed the pageant, and FTU could not obtain a franchise to participate in the Miss Florida Beauty Pageant.

During the past weekend, 50 Senators Karen Gay (General Studies), Bill Krasnap (Education) attended a Miss Florida workshop, and found that all but four franchises had been granted and the waiting list contained 11 more franchises. It would be no possibility of obtaining a franchise this year since the only communication FTU had received was the announcement of the Miss Florida workshop, according to Humanities and Fine Arts Senator Charles Black, who with Miss Gay and Krasnap make up the Miss FTU committee.

The poll taken by the three Student Government senators showed that about 60 per cent of the students polled opposed the contest. Black said that of the 40 per cent in favor of the pageant, many responded with no enthusiasm or a wisecrack.

"The money could be better spent out of the student body. The event would be good public relations for the university. Black elaborated. "I think that the money could be better spent in some sort of program for outstanding male and female students. It's not fair to other students, giving these three quarter-tuition to a girl because of her good looks. And I don't feel that the scholarship plays a large part in the Miss Florida Pageant.

According to SG President Frank Santry, a minimum of $2,000 would be needed to present the pageant. The figure, based upon last year's..." (Continued On Page 16)

Campus Bonds

Lake Project Help Needed

As Student Government's Lake Claire recreation project drove nearer to its February 1 completion date, SG President Frank Santry has put out an appeal for manpower to get out with nates and help remove roots from the areas around the lake that have been cleared and disked.

The project, which has been more than two years in development, will include areas for swimming and boating, while sand beach, lighting and barbecue facilities, electrical wiring and an area for playing fields.

Santry, in his appeal for help, urged fraternity, sorority and other clubs and organizations on campus to "come out and help finish up..." on February 1 at 10 a.m.

"We have been, as promised, by University Physical Planning Director Fred Clayton of the use of university tools for the project and we will have refreshments on hand for those who come out to help," said Dr. Raymond Buchanan, said "real team effort" made it possible for FTU to win top honors. (Photo by Harry Smith)
Matter Of Opinion

Gabriel Yanni, a native of Lebanon, has been in this country for four years. A Matter of Opinion hopefully will be a column that will give some insight from a slightly different point of view, into many of the topics that are of primary interest to college students today. Pollution, religion, art, politics and student affairs are but a few of the many topics that may be explored in this column.

Students who would like to discuss the column with Yanni or who have suggestions for it may contact him in the Future office, LA 213.

By Gabriel Yanni

Can a politician running for the presidency afford to be publicly emotional and retain his assets of strength, leadership and diplomacy, while under strain? Especially if hopeful may be a very scholarly, educated powerful and as depended upon as the United States? One Democratic president is said to have burst into tears, and now he is running again!

The THE SECOND point of responsibility lies with the professors themselves. Students are not infallible, but they, for the most part, possess an insight into what makes a good teacher, and strangely enough most students are looking for the same qualities.

The instructor should be aware of this and be prepared to accept criticism and seeming contradiction.

By the same token, we must consider the option of professors not to have their evaluations published. This definitely provides a negative stimulus and almost erases the point of printing a bulletin. We urge all professors to consider seriously the advantages of a faculty evaluation before refusing to allow theirs to be printed.

Campus Glances

SPEAKERS BUREAU
The department of public information has established a speakers bureau for area clubs, churches, fraternities and business groups. The bureau, composed of FTU faculty members, will be available for any organization wishing to make a speaker in a particular area.

Any group interested in obtaining a speaker through the bureau may contact Mrs. Jan Henderson at 275-5504.

Letters To The Editor

Businesses thanked for aid in Project

The brothers and little sisters of Alpha Tau Omega Fraternity wish to thank the following organizations who helped us raise over $4,500 in our annual Santa Claus community service project for the Muscular Dystrophy Association of Central Florida.

As part of our annual community service project, the brothers and little sisters dressed as Bumble helpers, and with Santa Claus, who happened to be an ATO, visited the homes of families with children in the Central Florida area. A minimum $5 donation was accepted from each family for the Muscular Dystrophy Association of Central Florida.

Tony Santismerno
Public Relations Officer
ATO Fraternity

Future Speed Reading

The reading study skills laboratory is offering a speed reading course for any student interested in improving his reading speed and comprehension. The course will last three hours each week, and the student may choose his own times. The laboratory is now accepting enrollment in Dorm Room 168.

Future

"THE MORE WE READ THE BETTER"
Faculty Evaluations Action at Standstill

Action on results of fall quarter faculty evaluations is presently at a standstill due to unsatisfactory tabulation methods and the fact that not all professors participated in the evaluation. Full participation was on a voluntary basis.

The first true account of evaluation results will be written in quarterly tabulations. Faculty evaluations for this quarter are mandatory and tentative tabulation plans include utilization of a computer program.

Each professor will have students evaluate one class, using a standard evaluation form. This form will be immediately turned over to the office of academic administration to be programmed. “We are now in the process of determining the proper computer program to do this work,” said Dr. Leland Jackson of academic administration.

Results will be used for recommendations, raises and tenure. According to C. B. Gambrell, vice president for academic affairs. They will also be used by department chairmen in determining the quality of professors in each department. Guidance and counseling professors, receiving low student rating, will be given the responsibility of department chairman.

“This instrument (faculty evaluation) will be valuable to us,” said an instructor. “It is a constructive approach to doing business,” said Gambrell.

Student Government will receive a copy of each evaluation as publication of the results. Gambrell noted that several universities compile results in a booklet form and sell them to students. The Student Government book exchange may now have until the end of the quarter to pick up books or money from the Student Government book exchange.

“We were overly enthusiastic about our students’ participation,” said Simpson. He added that the book exchange will explain the options by referring to a non-present evaluation as “instructor refused to have information available” or “approval not given by instructor.”

In explaining the problems of compiling evaluation results, Gambrell stated, “This was a sizable job for us to undertake with such little notice and preparation. We were unable to cope with the amount of data.” The fall evaluation project was abandoned because it was not a 100 per cent survey and there was too much computer information to be handled without the use of a computer.

Commission Petition Dice

Members of the Orange County charter petition campaign will be on campus Monday, 10 a.m. to 2 p.m. on the Village Center patio, selecting signatures of registered Orange County voters. The goal of the drive is to collect 20,000 voter signatures asking the Orange-Seminole legislative delegation to name a 15-man charter commission.

The fact that such a commission will be studied by Orange County government over a 18-month period, and place its recommendations on the ballot for ratification or rejection by voters.

The recommendations, if approved, would replace the current form of county government with a charter, serving in effect as a county government for unincorporated Orange County.

The Orange County Commission has previously declined to approve such a ballot, so sponsoring agencies have decided to go directly to registered voters. The petition must carry 15 per cent of the voting rolls to be presented to the delegation.

According to Allen Thriftion, former mayor of Winter Park and sponsor of the drive, these are the four major reasons sponsors would like voters to approve the charter commission study. To determine if the present form of government is not in the best interest of voters, including law enforcement and fire protection; to determine if government can be made more “sensitive”; to assemble legislative and administrative branches of the county government into a unit to establish “adequate checks and balances”; and to encourage existing 125 elective offices in county government to see if a charter would eliminate duplication.

The charter will not apply to incorporated areas, but only to unincorporated Orange County areas.
Ace Trucking Company opens Kaleidoscope '72 Wednesday in the Multi Purpose Room of the Village Center. Two free concerts, at 8 p.m. and 9:30 p.m., begin the day parade of events sponsored by the VC as an alternative to homecoming.

The troupe, whose comedy developed from improvisation acts, consists of five individuals whose former occupations range from doorman to pastry chef. Their act "came together" at the Village England Improvisation Society, New York. After appearing on the Tonight Show and the Sullivan Show, they became regulars on the "Thai Is Tom Jones" program.

The group also appeared in "Dynamic Chicken," a satirical film shown from outers and cities. Music and poetry will be combined next Friday, when Edmund Skellings reads his poetry Kaleidoscope of Skits at 11 a.m. on two-ticket limit, but these must be to a background of electronic and the combined next Friday, when also February 8 will be the for "This film Tonight Show and the Ed &'**********~***********, t----=------~~~--------:-~---~-..=:;__-----.J

Their act only secures it by acts, consists of five individuals evening. For every homecoming. Purpose Room.

"came together" at the Admission is free and the dance is Orlando Junior College. TKE Bitter End and the Improvisation in open to students. Engineering Auditorium. Tickets $5.00 for second and $15 for third.

Students who feel they have ideas of Sound," a band currently performing at the Back Door, may also be participating in the skins. Center. Two free concerts, at 8 a.m. in the Multi Purpose Room. The dancer's name is derived from the ptbox to be awarded during the evening. For every 100 PTU students attending the event, a $100 scholarship will be given away. Admission is free and the dance is open to everyone. However, only PTU students are eligible for the scholarship. There is a $100 maximum limit on the prizes. Two Canadian films, "The Universe" and "Toys," will be featured in "Vincent's Movie Machine" Tuesday, Feb. 9, at 11 a.m. in GC 115. Admission is free.

Also February 8 will be Kaleidoscope of Skills at 11 a.m. on the VC Cree, Participating in the skins will be members of The Atlanta Epsilon Fraternity and Tye Sorority. "Patch of Blue," a band currently performing at the Back Door, may also be participating in the skins. Sports events are not ignored in any para e o even s sponsore y the students. How many spiritualists and mediums make their livings by hoodwinking the general public? Higgins regarded virtually all spiritualists, particularly those connected with churches, as bungo artists. In the course of his lecture he conducted a sequence, complete with contacts, with the "world beyond" and mind reading. He later explained how he had staged the seance. (Photo by Ed Burton)

With a giant in his eyes, Dean Howard Higgins tells a group of PTU students how many spiritualists and mediums make their livings by hoodwinking the general public. Higgins regards virtually all spiritualists, particularly those associated with churches, as bungo artists. In the course of his lecture he conducted a sequence, complete with contacts, with the "world beyond" and mind reading. He later explained how he had staged the seance. "(Photo by Ed Burton)
Johnny Cash, long recognized as the king of country music, played to a sellout crowd of 8,000 at the Orlando Sports Stadium last Friday, despite a driving rain at performance time. The crowd was not disappointed. Cash is, without a doubt, the uncontestable king of the music which he helped shape. His crowd manners, stage presence and contagious personality blend together to saturate even the coldest, and in this case, the wettest audience.

Friday night Cash's back-up group, the Tennessee Three, started the evening parking, but had some trouble being heard over the pounding of the rain on the metal roof of the stadium. What I could hear of their presentation, I thoroughly enjoyed. Following the Three was Carl Perkins, writer of "Blue Suede Shoes," "Heartbreak Hotel" and many other early hits. He was introduced as the King of Rock-N-Roll, which is the title which I fear he does not merit.

The Statler Brothers finished out the first half of the evening, and finished it on a powerful note. The were nothing short of great. Their vocal harmony evoked emotions of "Memphis" and their hit "Flowers on the Wall." Cash was the second half of the show, and had I not taken notes on the first half I might have completely forgotten that there was anyone else on the program.

"A Boy Named Sue" opened his segment of the show, and he held the entire audience of 8,000 in awe as went through his repertoire of big hits, including "Folsom Prison Blues," "I Walk the Line," "Ring Of Fire," "Two Feet High and Rising," and "Orange Blossom Special." There was no trouble hearing Cash. He filled the entire arena, with voice to spare. Cash bought out his wife, June Carter, and together they performed "Jackson," "I Walk the Line," and "I'm A Carpenter." He closed by bringing down the house with a Hebrew spiritual, "Two By Two." It was a night that Orlando Country Western fans won't soon forget.
‘Design’ Course Yields Interesting Inventions

Fall quarter’s “Engineering Design” course has yielded two particularly interesting “inventions” by FTU student. Roybale, a vapor-operated valve system that eliminates air pollution, and “retrievable” contact lens. Roybale, developed by Stuart Kendre, won the quarterly design class competition. The invention, conceived in conjunction with the building of a steam engine, operates on the principle of expanding steam, rather than exploding gasoline vapor that drives pistons in standard internal combustion engines.

Kendre, who worked on his project alone, said the vapor is heated before it enters the valve. The built-up pressure is then released through secondary ports and consequently forces the piston into motion.

In a standard engine, the fuel vapor is heated after it enters the valve. Another result of the device is a reduction of friction, "because there is hardly any horsepower needed to move the piston," Kendre said.

Another group from the design class, Jay Jacko, Alan Young and Doug Henley, entered their invention in the competition. Their offering was a molded contact lens, raped with metal and coated with plastic, that can be snapped up with a magnet, thus eliminating the agony of searching for the tiny object in the thick pile of a rag rug.

Dr. Charles Gallagher

Shadeg, formerly at Florida Atlantic University, was appointed a visiting professor of political science. Before coming to Florida she spent three years as an assistant professor of psychology at Edwin C. Shadeg, a native of Anchorage, Ohio, also working on a doctoral degree from the University of Wisconsin. He has worked at the Center for Educational Development at the University of Illinois.

Jefferson D. Duffey, formerly an assistant professor at Georgia’s Institute of Government, has joined the social sciences faculty as an assistant professor of law enforcement. He has taught at Florida Atlantic University, was deputy defense director at Duke County for 11 years.

Joining the business administration faculty are Dr. Charles A. Gallagher and William G. Callahan, both assistant professors. Before coming to FTU, Gallagher was employed as a systems engineer and design manager with Pan-Am Airways at Cape Kennedy, and Sabre Radio Corporation in Chicago.

Lucille Lloyd

‘Stop the World’

The music and theatre departments’ production of “Stop the World—I Want To Get Off!” will be presented next Wednesday, Thursday and Friday at 8:30 a.m. in the Science Auditorium. Tickets may be purchased at String’s, Student Government or at the door for $1.50 for students and $1.50 for adults, and students will be admitted free of charge.

Senate Resolution Urges New Signs

The student Government Senate passed a resolution January 13, to adopt an international road sign system for the FTU campus. The resolution was referred to the University Traffic Committee during its next meeting, according to John F. Smith, traffic superintendent.

Another resolution in response to an order by the Federal Highway Administration, which states that the United States shall comply with a system of international road marks by 1973. The resolution is a request to the University Traffic Committee to set a plan for changeover by spring 1972 or by the earliest possible time.

The Federal Highway Administration has also ordered that by 1973 all U.S. highways have a system of road markings similar to the European system of road signs, and by 1977 the U.S. will be using a system of international traffic light signals.

Dr. Charles Gallagher

FTU has expanded its faculty for winter quarter with the addition of nine new members, four of whom are women.

Four new education faculty members are Dr. John N. Shadeg and Mrs. Delores Blum, both assistant professors, and Barry W. Seibert and Patricia E. Higginbotham, who are instructors.

Dr. John N. Shadeg, formerly at Florida Atlantic University, has held executive positions with the Hillsborough County Board of Public Instruction and served as assistant coordinator for teacher education for the Florida Board of Regents.

Mr. Blum formerly taught in Alachua County and is now working toward certification as an assistant coordinator in education.

Before Seibert’s present appointment, he was serving as a part-time instructor at FTU. He also served as chairman business education at Webster College in Balson Park, and was on the faculties of Polk Community College and Norwood High School, Norwood, Ohio.

Mrs. Higginbotham had been on the physical education faculty of the University of Richmond’s Westhampton College, before she came to FTU. During her undergraduate days she was honored as one of the “Outstanding Young Women of America.”

Mrs. Marilyn W. Whiter, whose husband, Bruce, is an assistant professor of music at FTU, was appointed a visiting professor of music before coming to Florida she spent three years as an assistant professor of psychology at the University of Wisconsin. She has worked at the Center for Educational Development at the University of Illinois.

Jefferson D. Duffey, formerly an assistant professor at Georgia’s Institute of Government, has joined the social sciences faculty as an assistant professor of law enforcement. He has taught at Florida Atlantic University, was deputy defense director at Duke County for 11 years.

Joining the business administration faculty are Dr. Charles A. Gallagher and William G. Callahan, both assistant professors. Before coming to FTU, Gallagher was employed as a systems engineer and design engineer with Pan-Am Airways at Cape Kennedy, and Sabre Radio Corporation in Chicago.

Callahan, who is completing work on a doctorate at Arizona State University, most recently has served as a captain in the U.S. Army and as a teacher of personnel management at Pt. Benjamin Harrison, Ind.

Mrs. Lucille Lloyd is a new reference librarian who had worked as a library assistant here in 1968.

Bill On Senate Attendance Criticized By Pres. Santry

A bill concerning absences and tardiness by senators during session which was referred to committee on one occasion, and amended on three occasions, was described by Student Government President Frank Santry this week as being "a patchwork job."

"I would prefer to see it referred to committee," said Santry, "particularly since many senators seem to object to points of philosophy in the bill."

The bill, introduced by Senator Paul Coughman (Social Sciences) was intended, according to Santry, to "amendate and update absence and tardiness regulations."

If passed in its present form, Bill 467, would consolidate into one the provisions of three bills passed in 1970 and 1971, and would, after passage, repeal those three earlier bills.

According to the bill's present provision, "a member of the senate shall be allowed one unexcused absence from per quarter (not to be cumulative with any unexcused absence per quarter (not to be cumulative with any unexcused absence per quarter( to be cumulative with any unexcused absence per quarter (not to be cumulative with any unexcused absence per quarter (not to be cumulative with any unexcused absence per quarter]

Objections to these provisions were voiced by several members of the senate at its regular meeting last Thursday.

Senator Jim Brooks (Business), expressed his feeling "that attendance should be an individual matter," and other senators concurred with his feeling, adding that "classroom attendance was not required, and involved senators would be willing to attend without the threat of penalties."

"I feel that it is not at all unreasonable to require senators to attend meetings," said Santry. "If a senator is unable to attend enough meetings to meet his responsibilities to his constituents he should resign, or Student Government should have recourse to eliminate him."

Senator Debbie Haneshek (Education), moved to eliminate all but four sections of the lengthy bill, including all mention of attendance requirements and penalties for absence and tardiness.

The senate was scheduled to vote on this amendment, which if passed would leave only sections dealing with meeting times of the senate and senate committees, scheduling problems, and the final section of the bill which would repeal the three previously passed laws.

In effect, this would relax all requirements for attendance of senate meetings and eliminate all penalties for the same.

ART SYMPOSIUM

The FTU art department committee on art as a sacred and transcendental force in a technological environment is sponsoring a three-day symposium on "Change and Evolution: The Function of Art in the Development of Cosmic Consciousness."

A preparatory session for panel members will be held Saturday, Feb. 26, in New Smyrna Beach. The main session will be held at Loch Haven Art Center, Sunday, Feb. 27, and will be open to the public by invitation. The work session will be held here Monday, and is intended for art majors.

The December issue of Design Magazine of Arts and Ideas, published in New Delhi, India, included a four-page photo spread on the art department's activities.

Bill Toczylowski Named Acting Media Head

Anthony Toczylowski has been appointed acting director of instructional media, taking over for Richard Cornell who will be on a one-year leave of absence as a visiting lecturer in Australia. Toczylowski arrived at FTU this week from Temple University, where he was enrolled in a doctoral program. He received the Associate of Arts degree from St. John's River Junior College in Palatka, the Bachelor of Arts degree in education from the University of South Florida and the M.Ed. from Temple University.

He was a visiting lecturer at the Nova Scotia Summer School in 1966 and began his professional media career as coordinator of instructional materials for Gilpin County later that year.

TEΦ

This Sunday the brothers of TEΦ are to meet in the Ramada Inn parking lot at 4 p.m. to view the yearbook pictures. Brother Dan Rice won first place in the Amalgamated Tea Drinker's Association Tea Chug-a-lug Contest held last Wednesday at the Penny Pub.

The Quasi Moto award for this week was given to brother Raphael Aguila for courageously defending the fraternity's best go with Bill and Shelley Frazier. The Three Stooges group also is planning a Valentine's Day party for the orphanage. It will be held Sunday afternoon, Feb. 13.

THE ΚΞ

Tonight, all the brothers and little sisters will be on hand for Bill Manzke's wedding at the First United Methodist Church in Winter Park. Showtime is 7 p.m. All the fraternity's best go with Bill and Marilyn. A reception is planned at the bride's former home immediately afterwards. A reception to the reception is planned at the house almost immediately after that. Now hold everything – because here comes Super Saturday with Kappa Sigma's "Keep on Trucking" party. Admission is 50 cents, punch (all right!) will be served, and everyone is reminded to be up for the longest Kiss brothers Partytime is 8:30 p.m. Don't forget to bring your tips. All rushing are invited.

ΦΠΑ

Phi Alpha epsilon brother and Tyes sisters stand on Village Center green with group of boys whose tour of FTU last week was sponsored by Youth Projects Inc. The project is a pilot program connected with the Department of Health, Education and Welfare. PAE brothers work with project groups, taking them on tours and camping trips, and providing counseling sessions.

ΔΣΠ

Tri Delta would like to welcome you new pledges, Pam Pfeilley and Karen Horne. These girls, along with the other pledges, were formally initiated into pledging Monday night. The girls received their sponsor with a "lot of strings attached." After the pledges received their sponsors the formal initiation began. Presents were given and food was eaten later.

Awards were given to outstanding scholastic Deltas, Sharon Smith received the golden trident for highest award. Silver tridents for the most improved average went to Kerry Wilkey and Diane Nixon.

ΑΧΑ

Lambda Chi Alpha will attend the FIT basketball game tonight and plans a party afterwards. Next week the fraternity has plans for horseback riding, a hayride and a bonfire. The party last weekend was a success, a surprise going away party for Richard Cornell. Cornell is advisor to DTD and director of instructional media. The party was held at Foxcroft Apartments and various faculty and staff members attended. During the party Bernie received the Smudley Cup from the Delta, a large stein from the Delta Tau Delta little sisters and a cake from "the ladies of the library." The Simon Cup represents a representative of outstanding and meritorious service to the fraternity.

ΔΣΠ

Delta Sigma Pi Fraternity Rose Queen for 1971-72 is Miss Cathy Street. The Selection was set at the annual Rose Dance in December and will reign for one year. Her court consists of Miss Judy Lustig and Miss Shelley Frazier.

Welcome the new pledges, all duty affair with plenty of liquid refreshments. The weekend before, Lam-ba Chi presented "Big Brother" paddles at a party at brother Bill Richie's home.

ΑΤΩ

The brothers of Alpha Tau Omega Fraternity had their annual rush party last Saturday night welcoming the prospective pledges for winter quarter. The band featured was "Nature" and live dancing entertainment was provided by "The International Eclectic Dancers" now appearing at Rip's Joint of Sanford and by brother Dynamic Dentists. Free refreshments were served to all attending.

Special recognition goes to brothers John West, Jeff Bales and Tom Wilson for being present with their usual barnyard sampling. Brother Mark Stockwell also did quite well at the party, arriving with no date, turning into a snake and leaving with two.

The brothers would also like to congratulate little sister Detyll Ross for her outstanding work in the recent ATO sponsored Santa Claus community project.

ΠΚΑ

On Saturday, Jan. 15, formal ceremonies were held to install the officers of Alpha Kappa Pi Fraternity from FTU as an official colony of the Kappa Alpha national fraternity. Colony installation was held in conjunction with Pi Chi Omicron from Valencia Community College whose brothers have also colonized with the Phi. Members from three surrounding Phi chapters at Stetson, Florida Southern and Florida Institute of Technology were in attendance and took part in the ceremonies.

The brothers will be wearing the Pi Kappa Alpha Colony Active pin, which is a small shield with a diamond superimposed over it. The pin is maroon with a gold border and a gold letter "pi" in the center of it. The new members for the coming quarter will carry the traditional canes for two weeks and will be wearing the triangular white pledge pin.

ΔΤΑ

The Xi Iota chapter of Tau Kappa Epsilon is busy preparing for the third annual Tau Kappa Epsilon Invitational Tournament which is now being scheduled for the last of February. All final details will be announced at a later date. This past weekend fraternity members enjoyed themselves at a party at the home of brother Bob Frazier. There was also a great opportunity for the brothers and new neophytes to become better acquainted.

The brothers would like to congratulate Francis Goodwin upon his announcement of engagement to Brenda Dominy.

FROM THE looks of this shot, spring is in the air – and so are the sprinklers, even though it is only January.

Turn your tape deck or cassette recorder into a sleep learning machine. To introduce our full MIND POWER PROGRAM, 10 students will be accepted during January, 1972, only, for training without charge. Also, we need 4 students for Public Relations work for 10 hours a month at $2.50 per hour. Phone after 6:30 p.m. 323-5020, or write AMERICAN SCHOOL OF MENTAVILOLOGY Box 2031, Sanford, Florida 32771.

Florida Tech Netters Have Several New Faces

FTU's Tennis Knights are in the midst of deciding the ranking for the impending season in challenge matches. FTU opens the season in Boca Raton on February 5 against Florida Atlantic University. After playing Florida Institute of Technology, the Knights will open the home season against FAU at 2 p.m. on February 11.

Practice lately has consisted of watching an exhibition match between Smith, the number one Davis Cup player for the United States, and Dick Dell, both of the U. S. Army.

A team which Coach Alexander Wood says "is considerably stronger" will face a grueling schedule, including Cornell University, Illinois University, Florida State University (possibly the best in the state), Rollins College (perhaps Number One in the nation among small colleges), Presbyterian College of South Carolina and Cumberland College of Tennessee.

"We have eight of the 15 men with programs much bigger than ours. We are small-time, small college playing a schedule we have no business playing." Wood was, nonetheless, confident as he looked over the "72 slate.

Returning from last year's varsity team is Jim Keshar, a junior who was number one on the "71 squad. Also back are Charlie Herring (No. 2 in '71), Larry Whitacre (No. 3 in '71), Bruce DeBaard (No. 4), Ralph Stone (No. 5), and Tom Poppell (No. 6) and senior Hugh Tompkins are returning lettermen.

From South Africa FTU greets Michael DeZeeuw as a new addition from the team. He was among the top five juniors in South Africa, and will be a freshman at FTU.

"Freshman Neil Howard comes from Melbourne High School and Bill McCrigh is a junior college transfer from the College of Orlando, where he was in the lead position of their team.

In addition to team tournaments individual players will have an opportunity to play in the Tampa Invitational on February 18 and the MacArthur Invitational in St. Petersburg on April 7. Smith and DeZeeuw are currently competing for the Florida Lambda League's Invitational.

Paul Allard Stars For FTU Wrestlers

By Shelby Strother

Congratulations are due to Paul Allard, a member of FTU's outstanding wrestling team. Wrestling in the 118-pound category, he won recently decisions over the University of Florida's Bobby Roberts and Auburn's Eddie Rue in the same day. Roberts is an old rival of Allard. Last year Roberts beat Allard by one point to win the Florida State High School Championship. Rue was named in the Georgia Tech Invitational Tournament this season and last year went to the NCAA National Championship. That is stiff competition no matter who you are.

Incidently, Allard told teammates after the double victories that he dreamed the night before he beat Roberts and Rue in the same day. Maybe Coach Gerry Gergley should concentrate on teaching his wrestlers to dream.

The FTU grapplers finish this Wednesday with the University of Tampa at Colonial High School at 7:30 p.m. Let's give these guys a little support.

Nobody asked me, but I think John Reeves, Florida's sometimes-gifted quarterback, will make it big in the pro ranks and go on an ego trip like no one has ever seen. Reeves doesn't impress me as a shy, retiring type.

Intramural basketball is upon us. The good teams quickly rose to the top and the bad teams, well, they'll get going next week. In the league, this year is a team called God's Children, the league 'long hails.' While they're not the best or the worst team in the league, they definitely have the most fun. Another thing they're not is bad losers or bad winners. Always smiling, win or lose—that's God's Children.

Farrell Byrd, a member of FTU's weightlifting team, is the proud holder of a state weightlifting record. Last week he pressed 245 pounds over his head for a new state record for the 132-pound category. But weightlifting is far from the determination that matters. It's not even close. Don't get me wrong. Skydiving is for the very agile, and not for me.

Against Florida, FTU won their first three matches with Allard, Murphy and Wise taking decisions. But then Lechter, Olson, Nickson, Patton and James dropped decisions. Heart lost by default when he suffered a pulled muscle and was unable to continue. In the final match against Florida, Rouse was received a draw. Ron Hearst and Patton dropped their matches, but did not keep the Knights from winning.

Monday night's match against Auburn, 26-9 and 33-12 respectively. It was closer than the score indicates. Against Florida, FTU won their first three matches with Allard, Murphy and Wise taking decisions. But then Lechter, Olson, Nickson, Patton and James dropped decisions. Heard lost by default when he suffered a pulled muscle and was unable to continue. In the final match against Florida, Rouse was received a draw. Ron Hearst and Patton dropped their matches, but did not keep the Knights from winning.

FTU Matmen Split Four Matches, Take On Tampa U. Wednesday

Florida Tech's wrestling team split two triangular meets last week, beating the Florida A&M Rattlers and Florida State Seminoles in Tallahassee and losing to Auburn University and the Florida Gators in Gainesville.

A triangular meet involves three teams, each wrestling the other two. In the meet last Saturday in Tallahassee, Coach Gerry Gergley's matmen hit their season's peak as they demolished Florida A&M 51-3 and Florida State 29-11. Against the Rattlers, FTU scored eight pins out of ten wrestlers, Pinning their opponents for FTU were Joe Gieobbe, Curt Sarcher, Pete Lecia, Dale Olson, Jim Nickson and Charlie Patton. Pat Murphy won by forfeit for FTU as the Rattlers had no contender in the 118-pound class. The highlight of the meet came in the heavyweight class when FTU's John Rouse decisioned Rattler Victor Paxton. Paxton weighs in at a whopping 285 pounds.

Against Florida State, Paul Allard and Bill James were the only men to win their matches, but Murphy, Olson, Nickson, Walter Wise and Rouse won decisions and Pete Lecia lost decisions against Florida State. This Wednesday they will meet the University of Tampa at Colonial High School.

INTRAMURAL DEADLINES DRAW NEAR

There are all sorts of intramural sports deadlines coming up soon. Here are immediate deadlines for the faculty-staff tennis tournament and the men's tennis tournament. Colonial Lanes in Orlando will host a coed bowling tournament February 19 at 2 p.m. The tournament is open to teams and individual bowlers. Trophies will be given for high team series, men's high game and women's high game. In extramural sports, men's extramural swimming is forming during spring quarter. Anyone interested in all phases of competitive swimming should come to UIS 245 11 a.m. Tuesday. This week's basketball action has Regan playing the R. Bombers and FS I versus TKE II at 3:50 p.m. on Monday. At 4:40 p.m., the Disciples take on God's Children and the Outcasts play OCC. On Tuesday, it's TKE versus ATO, in the game of the week at 3:50 p.m. Also playing then, on Court 2 are LXA and SSC. At 4:50 p.m., KS plays TSP and DTD plays PAE. Wednesday action has Gillon against the Mafia and Foos playing PHs at 3:50 p.m. At 4:50 p.m., FS II plays Osco's Raiders, and PAE II takes on "33." Thursday, it's Regan against the Outcasts and FS I playing God's Children at 4:50 p.m. In the early game, the Disciples play OCC and TKE II plays R. Bombers.

Soccer Team Wins First FTU's soccer team won their first game of the season Sunday as they downed Jacksonville University at Colonial High School's football field. This Sunday the FTU boomer will tangle with the Orlando Reds at McCoy Air Force Base. They will play the second game of a doubleheader. In the 1:30 p.m. game the Orlando Crusaders will take on Oakland. The Knights take the field at 3 p.m. Admission is free for the game.

FLORIDA CAGE TEAMS

By Larry McCormick

Arts Gilmore is gone. Gilmore is now playing for the Kentucky Colonels but his presence will long be felt in the Sunshine State. It was the 7-2 Gilmore who almost single-handedly lifted the level of basketball in Florida from utter mediocrity to a state of respectability among the nation's colleges. Gilmore proved to be such great advertisement for his alma mater, Jacksonville University, that this year's freshman team boasts five all-Americans. You don't just go out and recruit five all-Americans, but the JU basketball program, firmly established by Gilmore's presence, essentially recruited them.

Gilmore may be gone, but this year's Jacksonville squad still boasts a seven-footer in sophomore David Brent. Brent, a superb athlete who was an all-American from Casper, Wyo., 6-7 Ernie Fleming, and 6-5 Leon Leonowich round out the Jan starting five. Fleming was drafted by the Atlanta Hawks, but chose to finish his college career there.

Olympic meetings this past summer, Harold Fox, junior ' college all-American from Brevard CT, was named to virtually all the pre-season

KALEIDOSCOPE THE FIRST ELECTRIC POET EDMUND SKELLINGS FRI. FEB. 4 8 P.M. M.P. ROOM KALEIDOSCOPE
College Transfers
To Be Facilitated
By Numbering Plan

A common course numbering plan has been adopted by the Council of Presidents for implementation in the State Universities and junior colleges in Florida. According to John R. Bolte, assistant vice president for academic affairs, the main purpose of the numbering plan is "to make it easier to transfer courses from one university to another." A major emphasis of the system will be on introductory courses in all fields.

Bolte said that the implementation will occur over the next few years. FTU will make changes in the numbering as new courses are added to the class schedule and in future university catalogues. The common numbering plan will also be used in graduate and post-doctoral courses. Also there is now a national move in the direction of a common course numbering plan for universities throughout the United States.

Engineering Club To Enter Vehicle Design Competition

The Mechanical Engineering and Aerospace Science (MEAS) Club has accepted an invitation to construct and to enter a prototype urban vehicle in the Urban Vehicle Design Competition at Massachusetts Institute of Technology in August. The club, with the support of the student body, will design, develop and construct a prototype urban vehicle that will meet and/or exceed the safety and emission standards set by the government for 1976 motor vehicles.

The club's entry, one of the two from Florida, will be competing in 14 categories against more than 50 other vehicles entered by groups across the country. The categories range from emissions, safety, production cost, handling and size to a 5 m.p.h. crash test.

The event will be similar to last year's "clean air race," except that this year all testing will be performed on the MIT campus. The purpose of the competition is to educate and stimulate the general public's interest in innovative concepts of vehicle technology for urban area transportation. The competition also is designed to stimulate a project-oriented approach in engineering education which will be socially relevant. The approach is an effort to encourage students to confront a real world situation and provide a valuable supplement to their academic activities.

From the people who brought you no radiator
No clutch
As part of VW's continuing policy of doing away with the unnecessary, we've done away with the clutch pedal. It's unnecessary because our Fastback and Squareback Sedans now have an optional fully automatic transmission. With 3 forward speeds, And fewer moving parts than any 3-speed automatic anywhere. No carburetor and no radiator, of course, are still standard on both models.

LOUIS VOLKSWAGEN
6363 E. Colonial
277-7220

MAJOR JOHN A. Shiver spoke with FTU students Tuesday, Jan. 18, about the new volunteer Army. He talked of such innovations as a five-day work week, beer and snack bars in the mess hall, and no KP duty. He also discussed the new policy at Ft. Jackson, S.C., where recruits may try the Army for three days, then decide to leave or stay.
The Aqua Knights Driving Club will hold a general meeting 11 a.m. Tuesday in LR 289. Patches will be on sale during the meeting.

AQUA KNIGHTS CHESS CLUB

CHESS CLUB

Last Monday's Chess Club meeting went very well, with about 15 members attending. The chess clocks which were ordered last quarter are expected to arrive this week. They will be available for practice for a five-minute tournament planned for the end of the quarter.

The next club meeting will be 7 p.m. in the vans. PEGASUS PR CLUB

The Pegasus Chapter of the Public Relations Student Society of America will hold a meeting 11 a.m. Tuesday in AD 147. All members and interested persons are invited.

ACCOUNTING CLUB

John J. O'Rourke, placement coordinator, spoke to the Tuesday meeting of the Accounting Club on job opportunities in accounting. A business meeting followed O'Rourke's talk, during which committee assignments were made and future programs planned. The next Accounting Club meeting will be held February 6 at 11 a.m. The room has not been announced.

INTERNATIONAL CLUB

The International Club is now sponsoring a search for FTU students who speak Spanish. The club is planning upon working with migrant children who speak very little or no English and who, as a result, are having a hard time in school. Interested students would be able to work with these children about two hours a week. Any students wishing to volunteer for the project may contact Beth Reinhardt in the foreign language department in AD 385.

BIOLOGY CLUB

The Biology Club wishes to thank Student Government for helping to complete the lounge area in the Natural Science Building. Now that the lounge is here, the club hopes everyone using it will keep it clean.

Much credit goes to cooperation between Michael Ranuja, Chemistry Club president, and Bob Pohlad, Biology Club president. Pohlad is trying to start an interclub council to foster more communication between clubs. Anyone interested may contact a Biology Club member.

If You Were Born Today:

An imaginary world waits: Build three mails in lake water, slowly stirring in a half pound of cat hair and one quart of ox blood. After holding at furious boil for 13 minutes, take off fire and let cool to paste, then supply in small amounts to affected area to keep it reeling and keeping on peace. (See Note.)

This column has had numerous requests from readers to offer cures for the ill spelled on due. To that group of these requests, as are most, were given careful consideration, and then systematically ignored. Threats of bodily harm, however, have influenced this column to ignore you to recant and change his thinking. This column is dedicated to those who will try the cures listed herein, with the hope that the stinging subsides soon.

Aquarius:

Sure cure for gallbladder: First, it is good to start practising. Don’t believe anything you see, hear, read or smell. If you touch it, believe it in loving. Whenever someone tells you anything, say, “I don’t believe it.” Say it over and over, until they hit you. If you are not cured in two days and two hours, at least people will stop telling you things.

Pisces:

Help for neuritic insomnia: This is one of the simplest cures known to man due to large iron crucified three pounds of Georgia red clay and as much wine facet matter immediately available as possible. With the first light of dawn on any February morning, stand outside and chant, “Out of crap and deep red clay, I stand over the pot and chant: me all times.)

Placebo Director's Notes

John O'Roouere, director of the student placement office, spoke to a group with their original plans.

SPSCIS:

Sure cure for being overly passionate: (You’ve got to be a little disturbed to want to be cured from that.) Take your grandmother to see good skin flick, and catch dinner at Morrison’s for nine nights in a row.

Sagittarius:

As far as I know, there is no cure for being a jerk.

Capricorn:

Without a doubt, two sure-fire cures for gnomeliness: (1) Dance with a friend. (2) Get a date with a Scorpio immediately following the nine - night binge.

Taurus:

Quick relief from stubbornness: Walk into the middle of a busy highway and tell yourself that you simply refuse to know. When you are moved, either by force or frizz, you will realise the folly of your stubbornness.

Gemini:

To the best of my knowledge, there are no ill Gemini’s, short of a short term of the school’s touch possible conceit, which must overcome easily.

Cancer:

Possible cure for being moody: Try to see that the truth is simply that others, with whom you live, are better at things, than you are.

Leo:

Cure for being hoopy: Eye of toad, toe of toad, and knuckle of game hen fried in Southern accent as possible. This is the cure for the futility of your student placement, spoke to a group with their original plans.

Virgo:

Inexpensive cure for being stinky: Steal things.

Libra:

Cure for witches: The best thing would be

For Friday, January 28, 1972

7th of March

(Continued from Page 1)

beyond your campus and is soliciting support not only from all student body, but citizens of the state of Florida, I’ll be better read. I find it difficult to accept your apprehensions concerning the project,” she said.

The other leader came from Bill Castellano, the state wide coordinator and one of the originators of “Project 7th of March.” One of Castellano’s main points was the repeated cost of sponsoring the ball on the U of F campus. “...Our student body numbers more than 6,000, which is about 25 per cent of your enrolment. Yet we spend less than $50 per election as compared to $1,200 per year for you. Our percentage of voter participation is consistently the highest in the state,” he said.

According to Castellano, the U of F student government pays all their poll workers $20 a day for manning the polls during a student election, while FTU's polls are manned by volunteers. He also said that the U of F student government rolls voting machines for all elections, and would have probably rented them for this voting, but all the other colleges are complaining on using paper ballots to vote.

Castellano was upset chiefly because he discovered through speaking the Alligator, rather than receiving any communications from the members of the campus leaders, that the student government at U of F had decided not to follow through with their original plans. “To this date,” reads Castellano’s letter, “there has been no communications from your office concerning any doubts about U of F participation.”

According to Santry, the U of F student government may still endorse the project, but as of this date, the government does not plan to undertake the sponsorship itself.

Lake Claire

(Continued from Page 1)

Santry said. One of the final additions to the area before the February opening will be a seven-foot high arch which will receive a final estimate of $2,800 for a 200-foot deep well to be sunk on the site, which “at this figure could be slightly higher or lower,” said Santry, “depending on the final depth of well.”

Money for the project has been donated from the 535,500 Lake Claire fund, which is the largest single item designated in SG's 1971-72 fiscal budget.

Interested organizations may contact Santry at the SG offices in the Library building.

Miss FTU

(Continued from Page 1)

be eligible for the state pageant.

Should the senate decide to present the Miss FTU Pageant, Santry has pledged to see that the contest is handled properly. An initial endorsement, however, would not insure the program, since more legislation concerning appropriating funds must be passed.

The fate of the Miss FTU contest will not interfere with the spring formal, according to Wanda Russell, Village Center program director. The dance, May 20, is scheduled to be in the Landgoard Hotel, and “Bits and Pieces” is the selected band.
