We Live in the Present
By the Past, But

FTU.
Orlando, Florida
September 5, 1972
Welcome to the land of higher education. "Higher than what?" you might ask. A perfectly legitimate question. The answer is simple. When you leave here you’re either higher or go on relief.

This university is designed for the sole purpose of educating those who wish to be educated. If it is not your particular desire to be further educated at this institution, get out now. Don’t get stuck into a college situation because you feel you should, or you feel that your parents want you to.

IF YOU WERE SHOPPING COMPARATIVELY, you would discover that this particular school offers a great deal for the individual student. There are counselors, advisors and professors willing to be friends. There is a Development Center, free transportation to statewide theaters, live plays, restaurants and quick-service restaurants. SG will also be subsidizing clubs and organizations, and if a club or organization puts on a program, benefiting the entire university, SG has funds available for this purpose.

Later in the year SG will provide free transportation to statewide activities. The "Frosh For Fall" tours are sponsored by SG and will add to the entertainment schedule set by the Village Center.

Throughout the quarter the SG subsidy program will provide student discounts on even more activities than last year—movie theaters, live plays, restaurants and quick-service restaurants. SG will also be subsidizing clubs and organizations, and if a club or organization puts on a program benefiting the entire university, SG has funds available for this purpose.

There are no disgrace to not attending college. There is nothing wrong with delaying your formal education for a while. Those high school graduates who tour Europe or bum around this country, working odd jobs and living off the land for a year or so before going on to college, come in with a fresh approach. They know what they want out of life and understand themselves better. Perhaps that type of program would interest you.

If we haven’t talked you out of staying, we’re pleased. Our intention is simply to warn incoming students that college professors will flunk you as quickly as they will look at you. Obtaining A’s from most profs is like picking your nose.

It’s a thrilling schedule. For the Florida School of the Arts in particular there are two commencement,” President Steve Adamick said to Lynch, there are a number of executive elections. Adamick is also looking for about 40 full-time students for committee work, "from campus to commencement," he said, and for many appointed executive positions. Experience is necessary, he added.

Dear Mom, I’m Here. I’m Fine. I

Dear Mom,

Well, here I am, buried deep in a sea of books. It’s really not as bad as I expected, though; I have been well-advised and got my tentative schedule. I will have to add, however, that the only person who would actually advise me was the lady in the Student Services room at the Classroom Building.

I am taking 17 hours of Inflammation Therapy (she said she thought that’s where they teach you how to breathe) and three hours of Neither is Transportation. I have found that FTU is one of the major feeder schools for the Florida School for the Blind. It seems the university is under some clever magnifying lens which magnifies the sun’s rays, and the university has thoughtfully provided highly reflective buildings and sidewalks, so within four months of walking around campus most students are in the early stages of cataracts. The Sands lady provided me with a box with slide in it to put over my head, though, and the assures me that I won’t go blind if I stay inside.

I am really getting the hang of parking. The trick is to park where there is no designated lot. That way security thinks you’re lost, and won’t ticket you. It has already worked three days in a row. Getting

Welcome From SG

Dear Students,

I extend to you a warm welcome from the members of Student Government at Florida Technological University. During your stay at FTU you will have the opportunity to participate in this organization by lending us your ideas and support.

The 1909 Student Apartment was announced for fall quarter. Beginning September 19, eight such courses will be offered from freshman to senior levels. The course is called "Freshman Composition, Current Literature, Survey of English Literature, Professional Report Writing (two levels), Creative Writers’ Workshop, Women In Literature and Minstrosity Literature."
**Kreskin, Kennedy Highlight VC Plans**

A visit from Kreskin and an "Evening with John F. Kennedy" are two of many of the grand opening of the new complex. The complex will house many student organizations and contain a cabinet, game room area, and an assembly room which will hold about 1,000 persons. Kreskin is the widely known ESP thought projector who has fascinated television audiences on late night talk programs with public demonstrations of his thought control. The "Evening with JFK" is a presentation by Jeremiah Collins of a character portrayal of the late president.

"Little Big Man" is the first movie of the quarter. Most of the movies run about three days of the week, and they are shown in the Assembly Room of the College Center.

Other movies are "Shat'" and "Charly" in September; "Rosemary's Baby", "Zardoz", "Visual Literacy Series" and "An All Night Long" in October. The Halloween special, October 28, includes "Masque of the Red Death" and "Dr. Jekyll and Mr. Hyde". Among Us, "Mole People", "House of Dracula", "Phantom of the Opera" and "Mr. Robot".

A George Orwell double feature showing "Animal Farm" and "1984" is scheduled for November, as is a tentative 1970s film festival. Movies this month are "Brewer McCloud" and "Catch 22". Live entertainment includes a picnic September 27 and a game night September 30, both at the College Center. The Municipal Council of the Islands will be present. Future events are "Rosemary's Baby".

"Charlie Brown" and his friends come to FTU via the Village Center in its production of the Charles Schulz classic. The performance is October 26, 27, 28 and November 4 and 5. The Village Center will give its attention for the next few days to its new complex. The general public will be open by the time the classes begin, the grand opening will not take place until Wednesday, Sept. 27.

A welcome social will be held in the Assembly Room, and the game rooms will have chairs, cards, billiards, table tennis and other games. The Satin Lady Dress Shop will sponsor a fashion show, and live bands will perform. During the grand opening, the community will set up "Activities Day" displays to provide information about themselves and to encourage new students to join. The statistics laboratory will have its official opening on October 26.

**FTU Sports: Something for Everyone**

FTU's four varsity sports have recently joined the National Collegiate Athletic Association (NCAA) the step necessary for more athletic financial aid, better schedules and regular participation in athletic programs.

Basketball teams, in its fourth year of competition, will play such national powers as Jacksonville and Memphis State. In tennis, FTU will battle NCAA College Division ex-champions from across town, and in track and field.

Wrestling will begin its third year as a varsity sport, while the school's newest varsity sport, baseball, will compete against such teams as NCAAs and other local teams such as Florida Southern. All of the teams and team members are looking forward to the coming season. The increase student attendance will lead to an increase in intramural participation and more exciting action.

**Registration Steps**

The following is the station-by-station guide through the maze of registration. (A similar outline is given to each student when he registers.)

**STATION NO. 1 (Snack Bar):** New and readmitted students must present their admission acceptance letters which include appointment times and trial schedules. Returning students must present their appointment notices and trial schedules.

**STATION NO. 2 (Multi Purpose Room):** Check schedule screens to confirm classes on trial schedule have been closed. If a class has closed, satisfy another section which does not conflict with your schedule. Advisor's approval is NOT needed for section changes.

**Record complete course registration, including correct registration code, on your schedule.** (See fall quarter 1972 schedule.)

If you must change courses rather than sections, and if the course you wish to take is not listed on your trial schedule as an alternate, you must have advisor approval. This help will be located in the center of the Multi Purpose Room.

**STATION NO. 3 (Multi Purpose Room):** Turn in registrant's copy (yellow slip) of trial schedule of one of the keyteam machines. You will then open, satisfy another section which has been processed and will receive a yellow slip of paper, or you will be told if you have a conflict and receive a green sheet of paper telling you where to go to correct it.

When you have corrected your conflict, return to the "trouble" keyteam machine. Do not go to the two regular terminals.

**STATION NO. 4 (Multi Purpose Room):** Veteran, Vocational Rehabilitation and Selective Service students must stop at this station.

**STATION NO. 5 (Multi Purpose Room):** All students must pick up identification cards.

**STATION NO. 6 (Administration Building, Room 198):** Resident students must purchase meal tickets.

**STATION NO. 7 (AD 108):** Sign up for Pegasus yearbook.

**STATION NO. 8 (AD 109):** All students must obtain automobile decals. Student decals will cost $10.

**PAYMENT FOR PEBB: Must be paid no later than Friday, Sept. 22. Payment is not made by that time, registration will be voided.

**ALTERNATE PLAN - ONLY if you are 18 years of age:** Falls at Station No. 3. Obtain lead and class cards at on-line machine and take it to Computer Center to have card loaded and obtain machine printed class schedule. Registration will be voided. **Continue registration in Administration Building.**

---

**Campus Clances**

**BUS SCHEDULE**

The Grayline bus schedule to FTU from the city bus terminal is as follows: Downtown departure: 7:15 a.m. and 4:15 p.m.; FTU departure: 7:55 a.m. and 4:55 p.m. The bus stops at Colonial Plaza by Jordan Marsh on route to campus at 7:35 a.m. and 4:35 p.m.

**FLU Student Registration: 'Alone (3) Again Naturally**

Registration for students who wish to keep pre-registration or who need a change in their class schedule of some other registration problem this fall, try to derive some of the comfort from the knowledge that you won't be alone.

In fact, due to the cancellation of advance registration, you will have a lot more direction this fall than you've had in more than a year, if you're a returning student. If you're a first year student, you'll need to worry about something; you'll never know what it is to worry about a thing; you'll never know what your first year is like. This year registration will be held in the Village Center Multi Purpose Room from 9 a.m. to 4 p.m. first registration in September 1968. But, unlike 1968, the process will not be confined solely to the VC. A short walk from the Multi Purpose Room to the Administration Building will provide a pleasant, if not a warm, break from the frustration and confusion of late registration.

One of the advantages of FTU, if you're a religious person, pray the computer hookups to Gainesville don't break down as they did two years ago. September is too hot a month to stomach the heat by ordering shade of the VC patio waiting for the flow of students to register.

Take heart, though, if there's a severe computer problem, you'll be able to practice baseball in the park when you leave the VC and go by the Computer Center to get your class schedule. The VC is scheduled for November, the end of the quarter. Most of the movies rooms will have chess, cards, pool tables and an assembly room which Schultz play. The production is contained a new cafeteria, a room of the Village Center Multi Purpose Room of the Village Center Multi Purpose Room of the Village Center Multi Purpose Room.

"What you know is what you know. You'll never know what you don't know. You'll never know what you haven't done." (Alton Brown)
