The 1973 Pegasus arrived on campus Wednesday for free distribution community. As of yesterday, more than 3,500 yearbooks had been given out, but the future of the book appears dim since the Service and Activity Fee Committee has recommended the Pegasus be discontinued. (Photo by Marvin Cogges)

Activity Fee Committee Proposes Discontinuation Of University's Yearbook

By David Foster

In one swift and unanimous move, FTU's Service and Activity Fee Committee recommended this week that the university yearbook, the Pegasus, be discontinued after this year.

According to Jimmie A. Ferrell, coordinator for student organizations, the hand of the committee was forced by what he perceived as "an apparent lack of student interest in the yearbook, and a critical lack of funds for other university organizations and programs."

"I don't know where anyone would have the information that is valid on student attitudes regarding the yearbook, for I don't know of any survey that has been attempted. Conclusions drawn from personal opinions are seldom accurate," countered James E. Couch, director of publications.

Steve Adamick, former Student Government president and student member of the committee, said fewer than 2,000 persons signed up for the yearbook and probably more than half of those who did were faculty or staff members who do not contribute to the Service and Activity Fee.

He pointed out that this indicates there is a lack of student interest in the yearbook. If 5,000 persons came out and signed up for the yearbook, it would be a good idea to continue it. Considering the lack of funds for all university organizations this coming year, I think that FTU can live without a yearbook," Adamick said.

The move to axe the yearbook came despite a voluntary cutback of $7,000 from the Pegasus 1972-73 budget of $21,000. According to Seithel, the cut was definitely voluntary and called for a reduction in both the size and number of books to be printed.

No Figures Available On Salaries Dispute

By By Jose Rodriguez

No figures were available this week regarding a discrepancy that Year-end administrators are the second highest paid in the State University System, while the faculty is eighth highest in salary allocations.

"I do not make a case here on the discrepancy," said Dr. Harry Smith, assistant dean of the College of Humanities and Fine Arts and president of the FTU chapter of the American Association of University Professors. "Many semantic problems are involved. I don't know how the figures (for administration) salaries) were arrived at."

The proposed SG budget now totals more than $84,000 and may still suffer reductions. Therefore, we can afford cuts in those areas," he added.

Constantine said the slashes came about because the financial status of many university programs is far from sound. As a result of the cuts, SG and other student-oriented organizations will have to rely more on voluntary manpower, he added.

In the area of general expenses, Student Government is planning to increase expenditures for printing in order to produce a newsletter. This means cuts in other areas as well as other programs will have to be sacrificed, Constantine said.

The Services and Student Activity Fee Committee meets today in order to resolve further cuts which amount to $65,000.

"Some areas of the budget didn't use all the allocated funds last year," he said. "Therefore, we can afford cuts in those areas," he added.

Constantine said the slashes came about because the financial status of many university programs is far from sound. As a result of the cuts, SG and other student-oriented organizations will have to rely more on voluntary manpower, he added.

In the area of general expenses, Student Government is planning to increase expenditures for printing in order to produce a newsletter. This means cuts in other areas as well as other programs will have to be sacrificed, Constantine said.

The Services and Student Activity Fee Committee meets today in order to resolve further cuts which amount to $65,000. SG's voluntarily lowered budget request could account for the cuts further by the Activity Fee Committee, Constantine said.

Other programs of services obtaining funds from activity fee receipts, such as intramural sports, Village Center and health services, may also have to operate under largely reduced budgets.

FTA Given Funding For First Crime Lab

By Jose Rodriguez

FTA may soon be the only university in the state to offer a full-time degree program in forensic science due to extended government funding of FTU's proposed crime laboratory facilities.

Last week, the Governor's Council on Criminal Justice decided to approve $97,641 to continue funding the program. The money was allocated from approved programs which had not made formal application for funds.

Initial funding for the program came from the Law Enforcement Assistance Agency and was administered by the Governor's Council.

After having spent approximately $30,000 to lease and remodel a building to house facilities of crime lab, the council decided to suspend funding. The program can now resume with the state's continued financial support.

"The main problem with the funds is that we are due to receive them by July 1, and they must be spent and allocated by Jan. 1, 1974," said Dr. W. McCree, director of the project.

McGee added, "A third legislation for funds would be necessary to insure money for expansion of the program for change were filed July 1, a review would be held in August a petition for funding for the coming year is filed," McGee said.

"We have made tremendous strides (Continued on Page 5)"
It came to pass. Early in the morning toward the last day of the quarter, there arose a great multitude smiting the books and wailing. And there was much weeping and gnashing of teeth for the commandments of the Lord. And they were sore afraid, for they had left undone those things which they ought to have done. And they said, "Why did we not do those things which we ought not to have done? And there was no help for it."

But some were who rose peacefully. For they had prepared themselves the way and made straight paths of knowledge. And there were some who wrote one hour, and went their way quietly, each in his own direction, for some of his teachings had fallen among fertile minds. Others were known as "curse-ragers." And the multitude arose and ate a hearty breakfast. And they came unto the appointed place and their hearts were heavy within them. And they had come to pass, but some of them were who wrote for one hour, Others too; but some turned sorrowfully, and many of these offered up a little bull in hope of satisfying the instructor, And those who were the ones who had not a prayer. And there was no help for it.

And there were many abiding in the dorm who had kept watch over their books by night, but it evaded them naught. For they had prepared themselves the way and made straight hours of the news, with the one keeping her stupid smile the longest scoring points for throwing up at the beginning of the credits and then going into shock. But they had not a prayer. And there was no help for it.

And some there were who wrote for one hour, Others too; but some turned sorrowfully, and many of these offered up a little bull in hope of satisfying the instructor, And those who were the ones who had not a prayer. And there was no help for it.

Good evening, ladies and gentlemen, and welcome to the Miss Plastic America Pageant. We are showing the context so we can bring you the Monday Night Football Game in its entirety. As you know, tonight is the best of the five championship series between the Detroit Skull Crushers and the D.C.-Anacostia Groin Kickers. Those of you who saw last week's semifinals saw the elimination of the police team when an anonymous person on the sidelines suggested that they had not prepared themselves the way and made straight paths of knowledge. And there are many abiding in the dorm who had kept watch over their books by night, but it evaded them naught. For they had prepared themselves the way and made straight hours of the news, with the one keeping her stupid smile the longest scoring points for throwing up at the beginning of the credits and then going into shock. But they had not a prayer. And there was no help for it.

And some there were who wrote for one hour, Others too; but some turned sorrowfully, and many of these offered up a little bull in hope of satisfying the instructor, And those who were the ones who had not a prayer. And there was no help for it.

TO WHOM IT MAY CONCERN.

When we are at the end of our days, to die means to pass away; when we are at the beginning, to go away means to die.

Victor Hugo, "Les Misérables"
**Activity Fund Shortage May Force Drastic Cuts**

University activities funded through the activity and service fee money will have to cut back their budgets for the 1973-74 school year. Varsity athletics, Student Government, the Village Center, Health Services and Student Relations will be faced with the problem of decreasing their budgets.

Financial requests submitted by the various activities have exceeded the available funds by $396,000, according to Dr. W. Rex Brown, vice president for student affairs.

"There just isn't enough money to go around," he said. "Everyone is going to have to cut back."

The Activity and Service Fee Committee is meeting today to discuss which aspects of the programs will have to be deleted.

Ken Renner, director of intramurals, said he has already dropped seven student worker positions from his budget for the upcoming year. Under the current plan, he has determined swimming as an extramural activity. More cutbacks in the recreation area are possible.

"The pool will be the first thing to go," Renner explained. The closing of the pool will be necessary if the intramural program is asked to cut back from Renner's planned budget. Extramural sports of golf, crew, archery, weightlifting and women's athletics (basketball, volleyball, softball and tennis) may be curtailed. The intramural pool would save the intramural programs some money in operational costs, Renner said, adding he expects at least that amount to be cut back.

**Student Dies**

Lois Lee Matthews, an FTU freshman, was killed in a drowning accident in Cocoa on Sunday. She had taken a quarter off from her studies to join a girl friend on a cross-country camping trip. Matthews was shown her picture taken when she slipped off a boulder and fell into Colorado's Big Thompson River. The funeral service was to be held at the First Baptist Church in Panama City.

**FTU Art Film Clips Aired During Emmys**

In the annual television Emmy awards, May 22, film clips from the marathon project were shown, much to the pleasure and surprise of the creators, three FTU art professors.

The closed-captioned film came from a 30-minute documentary film called "Space Cathedral," produced by CBS. The film was about the construction of the cathedral, one of the superfortress hanging at Patrick Air Force Base at Cocoa.

The co-creators of the cathedral, Dr. Walter Gaudnek, Johann Eyfells and Steven Leis, along with students from FTU and seven area high schools built the contemporary "Sacred Labyrinth" in a three-day marathon.

---

**No Room In Town For Grads**

Next Friday 774 FTU students will be graduating and, because no facility in the Orange area is large enough to contain the expected crowd, W. Dan Chapman, university registrar, said the graduation committee had little choice but to recommend that FTU's spring commencement ceremonies be held outside on campus, because of the lack of a large and acceptable place.

He explained the only building large enough to hold the expected crowd is the Orlando Sports Stadium, adding the Sports Stadium was selected for the ceremonies once in the past, but the registration about the facility removed it consideration for future ceremonies.

Chapman continually emphasized the need for a some type of large commencement accommodations in the Orlando area.

---

**Potts Gets Top Senator Prize**

Newly installed Student Government Vice President Hunter Potts received the senator-of-the-year award at the annual Student Government banquet held last Friday at the Sheraton Inn on Lee Road. The banquet included installation ceremonies for Potts as the new president, Lee Constantine, who was 1972-73 vice president.

Potts commented, "This is not the first time this has happened at the beginning of the year, but it is a very nice honor."

He explained the main goal this year was to be elected vice president. The vote, which he won, continued, with the coming term of office, with the progress we have made this year.

Student Government members attending the dinner were retiring president Steve Adamick several personal gifts.

They also recognized the help and cooperation of several school officials, including President Charles N. Millican.

**Residence Group Chooses Officers**

The newly formed Residence Hall Association (RHA) elected its first president and vice president last Friday.

Elmer Seifert won the presidency, receiving 106 of the 172 votes cast, approximately 61 per cent of the votes.

Linda Smith won the vice presidential post, getting 105 votes, roughly 71 per cent of the votes cast.

The RHA election had a turnout of greater than 40 per cent of these students living on campus.

According to Seifert and Smith, a president and vice president are expected to be on campus to carry on limited activities during summer quarters. Both newly elected officers will not be attending FTU until fall quarter.

**5 Editors Leaving Posts**

Five members of the FuTuRe editorial staff will leave their jobs at the end of the upcoming quarter and will be succeeded by a committee of four editors during summer.

Sharone Marx, current editor-in-chief, will take a job as a general assignment reporter with the Orlando Sentinel.

Graduating with bachelor's degrees will be Mary Anna Jackson, editorial assistant; Mark Weisz, news editor; and Gene Krankemeyer, copy editor. Potts and Marx, copy editor, will graduate with a Master of Arts degree in communications.

Students who will form the committee of associate editors in summer quarter will be Marvin Seifert and Smart said they plan on a productive and action year. Seifert summarized expectations for the newly formed organization by stating he hoped "RHA will be a very important force on campus life."

Funding for this organization will be provided by budgeted funds from the Office of Student Affairs.

The newly elected officers of RHA view their responsibilities mainly as coordinating and originating programs and activities for the benefit of resident students.

The RHA Executive Board elected six of its ten members Wednesday night. The newly elected were Marvin Clegg, Kevin Milton and Mike Turrietta. The women chosen were Donella Devane, Kathy Johnson and Maryanne Reiser.

---

**Pageant Applications**

FTU women interested in entering the Miss Maitland pageant, July 8-4, may obtain applications by calling James Richardson at 830-4666 between 9 a.m. and 5 p.m. Deadline for applications is 5 p.m. on June 11.

In order to qualify, young women must be single and a high school graduate between 17 and 27.

The eventual winner of the Miss Maitland pageant will be able to enter the Miss Florida pageant and, possibly, the Miss America pageant.

Each contestant will be judged in an evening gown, in a swimsuit and in the presentation of her talent. Poise, talent and beauty are the pageant requirements.

The committee chair, president of the North Orange County Exchange Club, and will be noted: "We believe it provides a valuable contribution to the community and to the young ladies who enter the competition."
Drama Frat To Initiate 6

An FTU chapter of Alpha Psi Omega national honorary dramatic fraternity will initiate six charter members during its initiation ceremonies next Thursday.

The Chi Xi "cast" of the fraternity will be comprised of Lila Clasey, Darcy Davis, Connie Evans, Fran Kaufman, Nancy Petersen and Laurie Ward. Fran Johnson, chapter adviser, said Alpha Psi Omega is one of the largest honorary dramatic fraternities in the nation, with almost 500 chapters.

Initiates are chosen by a committee of three faculty members for overall excellence in FTU theatre productions, Mrs. Johnson explained. The Thursday night initiation will be accompanied by an awards banquet, and Mrs. Johnson invited all persons interested in any phase of FTU theatre to contact her if they wish to attend the dinner.

Conference Coordinator's Job Includes Program Development

Kenneth B. Paschall, newly appointed coordinator for educational conferences at FTU, is responsible for the creation, development, marketing and coordination of all fee-assessing, noncredit conferences and seminars sponsored by the university.

Paschall said he finds the diversified activities of the conferences the most interesting aspect of his work. He has worked on wrestling workshops, youth environmental conferences, human enrichment courses geared toward retirees, the first annual National Transportation Conference held last fall and short courses taught by FTU faculty members.

Through Paschall, courses developed on campus can be taken by residents or members offered on a noncredit basis.

BREVARD GRADUATES

Fifteen Brevard students who graduate next Friday will be the first group to receive degrees in elementary education, after fulfilling all of their course work at FTU's Brevard Resident Center, located at Brevard Community College.

Nancy Petersen and Laurie Ward, Fran Johnson, chapter adviser, said Alpha Psi Omega is one of the largest honorary dramatic fraternities in the nation, with almost 500 chapters.

SG Pres. Constantine Enlarges Cabinet

A larger cabinet will one of the changes in this coming year's handling of Student Government by President Lee Constantine. Constantine has a total of 13 cabinet positions he said he intends to fill by the beginning of the summer quarter. As of Tuesday, five of those positions had been filled by appointees. Hunter Potts, SG vice president, said he and Constantine are still reviewing applications. They are looking for persons who are interested in SG and are willing to work.

Potts added he and Constantine are not necessarily seeking persons who have been active in the university but who are willing to become active. Potts explained the new cabinet position is comparable to the handling of SG by President Lee Constantine. He said he hopes to have a suggestion table set up on campus so that cabinet members may accept questions, become aware of student complaints and accept any suggestions students may have.

These tables will be manned by cabinet members and are scheduled to be on campus this summer.

Jim Van Horn, who served this quarter as junior senator from the College of Business Administration and is president of Kappa Sigma fraternity, will be the leading judicial officer of SG.

Van Horn said his responsibilities currently pose a question because, at present, there is a new bill on Vice President for Student Affairs W. Rex Brown's desk that will to a great extent determine his duties.

Beer

(Continued from Page 2)

would make it mid-October before the change would be effective, Mrs. Stewart said. As an example of the waiting period, and Mahaffey would have to present his petition to the board of zoning adjustments instead of the county zoning board. In this case, there would be no review, just a public hearing, she said.

Mahaffey said the present zoning of the university is an anomaly because of the bookstore and cafeteria on campus, despite its classification as a multiple-unit dwelling. Mahaffey said having a cafeteria and bookstore on campus were inherent powers of the university, and a restaurant on campus would come under the same classification.

Steve Adamick, former Student Government president, said he hoped the rathskeller could go into business by mid-September. He also indicated the university would probably have to go through the zoning commission.

"This is a time-consuming process -- it is as much a problem getting the permit as getting through the paperwork," Adamick said.

SG President Lee Constantine said if they hope to get the permit to sell beer on campus by next fall, he does care when the petition is filed with the zoning board.

"We will have beer sales on campus by next fall," said Constantine confidently, "because if we don't, I'll sure raise somervolbing."

CONSTANTINE SAID the new majority rights law should help the petition get passed because only one per cent of the student body would be under age, eliminating possible objections to the sale of beer on campus.

Hunter Potts, SG vice president and student member of a committee set up by FTU President Charles Millikan to study the beer sales problems, said the committee had already been taken into account the new majority rights law.

The committee estimated beer sales on campus would just about break even with over 21 patrons, and sales would increase 30 per cent if students between 18 and 21 years old were allowed to drink.

CONSTANTINE SAID the new majority rights law should help the petition get passed because only one per cent of the student body would be under age, eliminating possible objections to the sale of beer on campus.

Hunter Potts, SG vice president and student member of a committee set up by FTU President Charles Millikan to study the beer sales problems, said the committee had already been taken into account the new majority rights law.

The committee estimated beer sales on campus would just about break even with over 21 patrons, and sales would increase 30 per cent if students between 18 and 21 years old were allowed to drink.

Beer

(Continued from Page 2)

would make it mid-October before the change would be effective, Mrs. Stewart said. As an example of the waiting period, and Mahaffey would have to present his petition to the board of zoning adjustments instead of the county zoning board. In this case, there would be no review, just a public hearing, she said.

Mahaffey said the present zoning of the university is an anomaly because of the bookstore and cafeteria on campus, despite its classification as a multiple-unit dwelling. Mahaffey said having a cafeteria and bookstore on campus were inherent powers of the university, and a restaurant on campus would come under the same classification.

Steve Adamick, former Student Government president, said he hoped the rathskeller could go into business by mid-September. He also indicated the university would probably have to go through the zoning commission.

"This is a time-consuming process -- it is as much a problem getting the permit as getting through the paperwork," Adamick said.

SG President Lee Constantine said if they hope to get the permit to sell beer on campus by next fall, he does care when the petition is filed with the zoning board.

"We will have beer sales on campus by next fall," said Constantine confidently, "because if we don't, I'll sure raise somervolbing."

CONSTANTINE SAID the new majority rights law should help the petition get passed because only one per cent of the student body would be under age, eliminating possible objections to the sale of beer on campus.

Hunter Potts, SG vice president and student member of a committee set up by FTU President Charles Millikan to study the beer sales problems, said the committee had already been taken into account the new majority rights law.

Ancient, Modern Blend In Art Show

By Weber Ivy

The art of the present and the artifacts of the past stand side by side in the two current exhibits in the library lobby. The first includes the paintings, photography and sculpture of M. Alexander, an artist who proves his imagination and skill in a wide variety of works. I especially like his paintings with their arrangements of imbalances, the darkly vivid predomination of blues, reds, purples and greens, the subtle progression from light, ethereal shapes to shadowy, compressed ones, and the dramatic emergence of human features from a deceptive chaos of colors. The tricycle sculptures with their animal-skelton handles look like something you would get for Christmas from the Addams Family, and I concur with the immortal reaction of Archie Bunker: "I never thought of that!"

The photography intrigues the viewer with its symmetric double images, superimposed shadows and textures on faces and bodies.

The artifacts made by the people of pre-Columbian Ecuador testify to the great skill of those who worked with simple tools and the raw materials they gleaned from the earth: stone, clay, bone, horn and metal.

Often overshadowed by the Inca's, their more powerful southern neighbors who eventually conquered them, the Ecuadorians people possessed a distinctively rich and complex culture in their own right. Their pottery, jewelry, necklaces, human figures, tools, weapons and artifacts from the viewer with its symmetric double images, superimposed shadows and textures on faces and bodies. The pottery and clay figures particularly recall the Indians' sense of humor and proportion.

One of the books displayed advances the provocative theory that Japanese fishermen may have crossed the Pacific around 350 B.C., and transmitted their culture to the Egyptians. The book cites similarities between the pottery of the two cultures separated by the world's greatest ocean.

These are both worthwhile exhibits which should interest anyone with a hiking for the contemporary comments of the artist contrasted with the messages of another age and culture.

FREE BUS SERVICE!
The First Baptist Church, Goldenrod, on 15-A will have a bus here at the Village Center each Sunday morning, at 9:15 A.M. starting Sunday, October 1st, to transport any students wishing to attend services. The bus will return by 12:30 P.M.

Wherever the future takes you we will follow in spirit.

Summer's a drag in a stuffy, old classroom ... so take Donald's advice and cut to an all-new scene ... a summer job at WALT DISNEY WORLD. Exciting vacation employment opportunities are available in many areas including roles as Monorail Pilots, Butlers in a Haunted Mansion, Submarine Captains, Custodians, Merchandising, Food Service, Riverboat Skippers ... the list goes on and on. Casting for summer jobs is now in progress, so make the scene! Call, write or visit the WALT DISNEY WORLD Employment Center at the intersection of Interstate-4 and SR 535 southwest of Orlando, (305) 820-9418. Work where it's happening this summer! ...
All administrations come to an end and any student Administration or Student Government president reached its conclusion last week when the leadership of Student Government passed into the hands of a new president.

Adamick will graduate next Friday and he will undoubtedly take with him the memories of his term in office. However, the Executive Committee struck the funding of the service from the FTU budget because it was a student service that was doomed in the near future.

Chairman Adamick said, "They felt it wasn't a legitimate service and that it would be an illegitimate service." It began to be difficult as students are usually financially strapped to seek counsel from attorneys.

Adamick retired the office of the student president last spring with great success upon taking office, but during summer 1972, Adamick took a job in the Executive Committee giving him a feeling of legal authority over students in civil cases on an advisory basis.

During summer 1972, Adamick approached the Student Service and Activity Fee Committee about funding a legal counseling service for students, and the committee approved it.

However, the Executive Committee struck the funding of the service from the FTU budget because it was a student service that was doomed in the near future.

Chairman Adamick said, "They felt it wasn't a legitimate service and that it would be an illegitimate service." It began to be difficult as students are usually financially strapped to seek counsel from attorneys.

Yanni Letter Blasted, Termined Hypocritical

Editor:

I read the letter of Ann Bittner
printed in the May issue of the Future with great interest, and
enthusiastically applauded the sentiments expressed. She is one of
the few students who has had the courage to speak out against the
harmage of letters and editorial condemning students for their
"apathy." I fully expected the ever-vigilant
nameless of so-called apathy (apathy, like beauty, is in the eye of the beholder) to reply, outlining her position and reinforcing her own. I did not expect a letter of the type written by Gabriel Yanni, printed in the May 25 issue. I was surprised and offended by said letter, as were a number of other students I talked with. After the specifying the letter to which he is referring as that of Miss Bittner, Mr. Yanni begins his tirade against her with, "In Miss Bittner's words, we who do care, should not." But there are not Miss Bittner's words! I was unable to find these words, or any synonymous phrase, anywhere in her letter. I was unable to find anywhere in this letter that this particular sentiment was even implied.

In her letter, Miss Bittner puts forth her opinions and objections in a logical and concise manner, but instead of

Or maybe there is a toddler up north somewhere who was not able
to finish grade school and who has had a 3.85 dream of seeing his son
do well in high school and graduate with a diploma in hand. To these
people a 45-minute ceremony can constitute a dream come true.

Sorry, Bill, you're a hack of a guy and I wish you well, but I feel that if
you are a little shortsighted this time.

Harry Chibot

The ceremonies may represent the "ceremonial hassles"
couples that has spent the last few years just getting by with the mere
necessities that a salary paycheck will allow.

Although many feel that they can take or leave these ceremonies there
are some of us who pay a debt through these procedures.

This debt may be in the form of a
grandson paying back his
grandparents for all the monetary
help they have given him.

This ceremonies may represent the long struggle for a young married
couple that has spent the last few years just getting by with the mere
necessities that a salary paycheck will allow. Or maybe there is a toddler up

Living In The Past Applicable To FTU

Editor:

Letter I'll release an album last
year entitled "Living in the Past." Frankly, I'm not sure why he
didn't dedicate it to FTU.

After all, the title, "Living in the Past," is a clear cut description of the
situation that prevails on this campus. To speak it out in black and
white, why are facts on the upstage
floor at FTU what everywhere else are they dying off? And why do
what is happening on other campuses never happen here?

Possibly, it could be that at FTU we are "Living in the Past." Indeed, it's a reflection of "where your head is at." Because the entire social climate is more like 1968 and high school rather than 1973 and college, it will be as exciting to graduate from FTU as if it would have to graduate a second time from high school. Can you dig it?

Grad To Get Double Degree

By Michael Lochridge

The first student in FTU's history to graduate magna cum laude with a double degree will participate in the June commencement exercises.

Steve Rajtar (singing "I," silent "F.") will receive a B.B. in mathematics and a B.A. in anthropology. Rajtar has a 3.85 grade point average.

A total of 225 hours are needed to graduate with a double degree, but Rajtar will leave with 226.

"It's really not hard to get two degrees," Rajtar said, "I switched in taking 24 hours this quarter.

He does recommend, however, that anyone planning to get a double degree start out in their freshman year. His first year in college was spent at Florida Institute of Technology, where he was an engineering major. He decided there was not much future in that field and he transferred to FTU.

During the first quarter of his sophomore year, Rajtar was a computer science major and the next quarter he changed to mathematics.

"Math was my worst subject in high school," he said. "I took a course in college as a challenge and got interested in it."

Anthropology has always been a hobby to Rajtar, so he figured to go ahead and get a degree in it, also.

Rajtar has been accepted at the University of Florida's law school and will start in September.

Rajtar is a member of the University Circle, Delta Tau Kappa, Sigma Lambda Omega, Lambda Chi Alpha, the National Honor Society, the Commencement Committee, FTU Chess Club and the Student Government Association.

He is also the recipient of a $1,500 Lambda Chi Alpha graduate scholaraship.

All-Around Athlete Judy Stars For Rebels

By Fred Cay

Judy is now in her second season as the Rebels' right fielder. The tall, slender physical education major, who claims she has "always liked athletics," first came to the attention of Rebels manager Marge Ricker when she was playing for a Tampa-based semi-pro team. When regular Rebels right-fielder Darlene May was injured last season, Judy became a more than capable fill-in.

JUDY HAS seen the Rebels from the viewpoint of an opponent. "When I played in Tampa we faced the Rebels a few times," she explained. "And how did the Rebels do against her former team? "They usually smeared me," she giggled.

But Judy is presently one of four starting seniors on the Rebels squad and has moved up to the sixth spot in the batting order. "I hit sixth all the time last year," she added, "so I guess I've come up a little bit."

One contributing factor may have been her hitting in last year's national tournament. The Rebels finished 11th in the tourney, a comedown considering they generally wind up no worse than third or fourth. However, Judy was the second-hitting hitter among all the teams entered—possibly a determinant in this year's "promotion," along with her good start this season.

And she's no slouch in right field either, possibly claiming a league record for throwing out runners at first base.

"THAT'S MY biggest kick," she admits, grinning. "Somebody will hit one out and think they have a sure hit, but they have a sure out, so they just jog to first. Then when I throw them out they can't believe it."

"I'm not really sure if I set a record last year but Marge thinks I did. I did it quite a lot," she agreed.

Senior Tennis Players Leave FTU Winners

By Bill McGrath

It is always best to finish on a winning note, and following that tune, four graduating seniors wrap up their collegiate tennis careers at FTU.

For Craig Linton, Bill McGrath, Charlie Herring and Craig Fleming, the сезон is not yet over. Their leaving will create a gap to be filled for next year, because there will be only five men remaining on the squad.

Three years ago, Kelaber and Herring were the first players to be named All-Florida by the Tennis Coaches Association of Florida. They hold down the No. 1 and No. 2 positions and helped establish what has become a winning tradition at FTU. Last season, McGrath and Linton transferred to FTU and bolstered the racket squad.

All four have shown great improvement in play, as shown in this season's records. Linton went 8-3, McGrath 7-2, Herring 6-0 and Kelaber 2-1.

JUDY WAS drafted last summer and Collins went instead to Western Michigan.

The only drawback concerning Collins is that he will be able to compete this coming year because of the one-year wait required when an athlete switches schools in the NCAA.

But as Gergley himself admitted, the year after next is "THAT'S MY biggest kick," she admits, grinning. "Somebody will hit one out and think they have a sure hit, but they have a sure out, so they just jog to first. Then when I throw them out they can't believe it."

"I'm not really sure if I set a record last year but Marge thinks I did. I did it quite a lot," she agreed.

**Torchy Still Plugging For More**

By Larry McCorkle

ALTHOUGH THE school year is ending, Torchy Clark's job is far from finished. Indeed, Clark is still hot after basketball talent for next year's team. And if it seems a little late to be still recruiting basketball players, Clark will try any skeptic in the eye and remind him that "I didn't get Arnett Hall until late August last year!" So the job continues.

Clark has already signed a 6-10 freshman and a 6-9 freshman forward. A local boy, 6-2 Ben Sanford from Winter Park, is also among Clark's signees.

In the next few weeks, Clark will sign two other notable standouts—both athletes made most of the area and all-state teams.

Another junior college standout, a sky-leaping forward, will join the team. He is the only names are being withheld

our peak year," Gergley stated confidently. "We'll have Allard and (Dale) Olson coming back from the Army and all the young guys we have now will mature," Gergley concluded.

Other new recruits Gergley looks for big things from are the following:

**CALDWELL (MAC)** COOPER, a 180-pounder from Chesapeake, Va., was 14-1 last year and was Virginia Southeastern District champion. He is from Chesapeake's Oscar F. Smith High School, the same school that produced FTU's super frosh a year ago, Mike Shivers. TIM FENNIBBAN was fourth in the state of Ohio in the 175-pound category. Thomasville, Ga., was 27-5 last year and first in his district. He had a 64-13-3 three-year record at Sandusky's St. Mary's High School. Gergley also expects great things from DAVE ALBERTS, a 150-pounder from Aspen, Ariz., who was 19-3-2 in '73 and CARL HOLMSTRÖM, a 215-pounder from Merritt Island product. Holmstrom was third in the Cape Coast Conference and third in his district this past season.
