FTU-FAU Offer Doctorate

By Jose Rodriguez

FTU and Florida Atlantic University (FAU) at Boca Raton will be the first state universities in Florida to offer an upper level degree program jointly.

The purpose of this cooperative arrangement is to enable Southeast area educators to complete course work and research leading to a degree program jointly at FAU and FTU.

BECAUSE of a statewide memorandum placed by the Board of Regents (BOR) on the development of new graduate programs, this cooperative agreement will make available to qualified students a course of study at the graduate level at FTU at the earliest possible date.

FAU will carry most of the burden in administering the program as the courses being offered at FTU will be extensions of already approved BOR programs.

The program originates at FAU, the degree will be conferred by that university and not FTU.

THE REQUIREMENTS for admission are: (1) A master's degree from an accredited university; (2) A grade point average of 3.25 or better on all post-baccalaureate work; (3) Combined verbal and quantitative scores of 1000 on the Graduate Record Examination (G.R.E.) and a score of 50th percentile or above on the appropriate advanced section of the G.R.E. (4) Three years teaching experience.

Dr. Kenneth M. Michals, vice president for academic affairs at Florida Atlantic said, "The new joint doctoral degree program marks a milestone in the history of the State University System."

"The concept of shared resources among the sister institutions has long been a goal of the Board of Regents," he added.

Dr. Leslie L. Ellis, dean of research and graduate studies at FTU said, "The students' program in the cooperative arrangement will be the same as in the regular FAU campus degree."

Dr. Nannette McClain, coordinator for advanced studies for the College of Education said, "This is the first step in the right direction."

Gas Crisis Hits FTU

By Michael Lochridge

Their bid response contained provisions stating the supplier would be able to change prices with five days notice and would allow the buyers to have the right to terminate the contract if the price change is not acceptable.

The supplier would provide a minimum and maximum amount of gasoline and diesel fuel purchased. The minimum for FTU would be 11,000 gallons.

The total amount of gas offered by Standard Oil Co. for the SUS is 45,000 gallons below the annual needs established by the International Committe.

Cross issued a memorandum on June 26 to departments on campus in charge of vehicles which suggested the use of lock-type gas caps, fewer trips to town, reduced motor patrols and the use of scooters instead of four wheel vehicles.

C. Barth Engert, FTU director of public information, said, "President Millican didn't know anything about it" prior to the time he was informed by Channel 6 sources.

Engert also said the reports about President Millican were only speculation and any decision about a replacement for Dr. O'Connell would ultimately have to come from the Board of Regents.

Engert added, "President Millican is happy where he is." There were no further comments as to whether Millican would accept a formal offer to return to the presidency of the University of Miami.

President Hunter Potts called attention to the increased prices and James Eller said, as soon as the freeze is over, increases in prices can be expected, as corroborations for present speculations.

FTU'S SINGLE gas pump will be pumping fewer gallons for campus vehicles this year due to the fuel rationing from Standard Oil Co. Hoax or not, the current gas crisis will affect FTU. Allowing only 74 per cent of the requested fuel amount to be purchased. (Photo by Alan Geeslin)
This public document is promulgated at an annual gross cost of approximately $29,770 to inform members of the university community of related news, announcements and activities. Less an approximate annual revenue of $9,065, this document is circulated for an annual net cost to the state of approximately $17,660, or 8.5 cents per copy.
Let the good times fling about with cheerful July

Wightman as the Rev. Canon Chasuble and Doug Emerson as the too, too bored and snobbish butler Merriman.

William Griffith plays Earnest Worthing. His performance lends humor to the comedy without being too cute.

Randy Fountain's performance as Worthing's onetime friend and brother becomes more believable as the production progresses.

Designer Rich Belcher does an extraordinary job of converting the auditorium into two period sets. The play is produced by Dr. Shays.

THE IMPORTANCE OF BEING EARNEST will play today and tomorrow at 8:30 p.m. in the Science Auditorium. Admission is 25 cents.
