MEMBERS of the Student Government (SG) began their work in the later part of the summer quarter and completed the first draft of what may be FTU's first birth control pamphlet in early October.

The purpose of the pamphlet is, as stated in the introduction, "to compile, in an easily available pamphlet, information that may not be generally known." The first part of this draft dealt with birth control methods, their advantages and disadvantages and their effectiveness.

The pamphlet informs people of venereal disease, its symptoms, treatment and where to go for treatment. Pregnancy and how to detect it in its early stages is the next written subject.

THE FINAL part of the pamphlet concentrates on the concepts and methods of abortion from a medical viewpoint. It also mentions self-abortion methods, illegal abortions and the steps to follow in a legal abortion.

The 11-page draft has recently been reviewed by both Dr. Edward W. Stoner, director of Student Health Center, and Dean of Women Carol P. Wilson. Both Stoner and Dean Wilson, although not collaborating on reviewing the pamphlet, brought to attention many of the pamphlet's shortcomings.

They both made the suggestion of deleting the self-abortion methods from the text, adding counseling and aid services in the area and clarifying symptoms, treatment and where to detect it in its early stages.

Dean Wilson felt that a better wording and presentation was still needed in the pamphlet for medical accuracy, and should be listed separately.

The introductory paragraph on birth control was one example cited by Dean Wilson as needing improvement in presentation.

As it stands now, the birth control pamphlet is being rewritten. The earliest possible publication date is December. The next draft will be reviewed by both Stoner and Dean Wilson and then by Dr. Rex Brown, vice president of Student Affairs or sent back to SG.

Faculty Senate President Wants Uniform Calendar

Faculty Senate president Phil Taylor responded favorably to the semester system because he said he believes it satisfies the need for a synchronization of systems state wide.

"I don't care how we do it, we need a consensus," said Taylor.

"The problem with the system now is we have students graduating from junior college who have to sit out for half a quarter waiting for our classes to end. Students graduating in the middle of the year from high school have to wait until the next quarter begins before they can start classes. We've just out of phase with everyone else," Taylor added.

Taylor said the national trend is toward the semester system. Last year 5,475 institutions in the U.S. responded to a poll. Of these, 4,605 favored the modified semester plan, 637 favored the traditional semester system and 542 colleges liked the quarter system.

The Faculty Senate voted (Continued on Page 9).

Colombian Group Tours FTU Facilities

The People's Cultural Action Agency (ACPO), of Colombia, South America, will be visiting the FTU campus today. This is one stop on their tour of five state universities in Florida.

The ACPO, an organization begun in 1974 by Father Jose Ignacio Jaldeño, broadcasts to the Engineering Building to learn how to more effectively broadcast their cultural control information.

After a luncheon with President Charles N. Millerman the group will tour the math self-help center, the computer center and the WFTU radio-TEO station.

A seminar with Dr. C. B. Gambrell, vice president of Academic Affairs, is the final item on the agenda.

Gambrell visited the ACPO broadcast point in Saltatana, Colombia, last January as part of the exchange program between Florida universities and the ACPO.

FTU Student Runs For Commission Seat

An FTU senior will be on the ballot in next month's city commission race in Winter Park, John Brooks, 21, a three-year-old political science major who has qualified as a candidate for commissions.

City clerk Gene Davis said a primary election is slated for Nov. 6 since three candidates are seeking the position. The general election will be held Dec. 4.

Brooks, who was defeated in the primary last year, said this year he plans to "concentrate on a walking, door-to-door campaign. My intention is to bring the issues to the people, and the people's ideas and opinions to City Hall."

"And if I am elected I intend to continue walking door to door to achieve the same goals," he said, adding it was his contention that the city commission is not "as sensitive an area as election." Brooks made an unsuccessful bid for the Student Government presidency last spring at FTU, losing the election to Lee Constantine.

AFROT C Students Get Flight Training

Three FTU seniors in the Air Force ROTC program will soon begin their flight training under the ROTC pilot training program. These cadets, Tommy Denton, Jerry Walker and Lawrence Manfredi, will be receiving 360 hours of flying time and instruction from a private flight training school.

Upon completion of this program, the cadets involved can be eligible for their private pilot's licenses.

There are actually five senior cadets in the pilot category but two are ineligible for the flight training since they already have their private pilot's licenses.

The Arnold Air Society is a professional honorary service organization of Air Force ROTC cadets, both male and female. It supports the social functions of the cadet corps, and is of service to the community, state and nation.

The AAS, through its various programs, including social activities, provides an opportunity with an opportunity to talk informally with other cadets and regular Air Force officers.

Grants for graduate and postgraduate study abroad are offered under the Fulbright-Hays Act. The 1974-75 competition for these grants will soon be closing.

Only a few weeks are left in which qualified graduates may apply for one of the 500 awards which are available. The grants are not limited to one field but are open to all areas of study.

Applicants must hold a bachelor's degree or its equivalent by the beginning date of the grant, be a U.S. citizen at the time of application, have language proficiency sufficient to carry out the proposed project and be in good health.

Full grants which provide round-trip transportation, tuition and maintenance are available in 33 countries.

Application forms and further information may be obtained from campus Fulbright Program Advisor, Dr. Anthony V. Cervone in the Administration Building 329-4, ext. 2104. Application deadline for the European programs is Nov. 1, and the deadline for the other programs is extended to November 15.

Gambrell said he urges all juniors to participate in this program and begin planning for next year's application.

GENERAL STUDIES
Grant Aids Computer Plan

With a $40,000 grant from the National Science Foundation, Dr. Benjamin W. Patz is in the final stages of developing a program of study which would give students a good understanding in computer programming and the integration of a computer with other mechanical systems.

Patz has purchased a programmable logic system or mini-computer. The mini-computer is the heart of the program. The project is designed in trying to understand electrical signals used to communicate with the computer and the programming involved to get the computer to follow a set of instructions.

Students will learn assembly language programming, methods of communicating with the computer in conjunction with other information gathering machines.

The computer, about the size of a suitcase and valued at $6,000, is designated to monitor and control other machines. The computer can be used with traffic lights to detect and control run on traffic or monitor several scientific experiments at once. It can also work with other computers and coordinate and up date records.

Patz also believes that pieces of machinery have been bought in addition to the mini-computer.

These include:

* A data memory system which allows facts for the computer to mean the same way a library stores facts.
* A teleprint type which communicates with the computer.
* A high speed paper tape reader that can be asked to feed information and communicate.
* Two Cathode-Ray Tube displays that show information from a computer with a television screen.

Patz said the use of the computer is becoming popular in industry.

Master Of Arts Approved

The Florida Board of Regents has approved the 12th and 13th master's degree programs for FTU in English and economics, according to Ray Claude, public information department.

The English master's will be inaugurated winter quarter with a core of required courses and two optional courses for a total of 45 quarter hours. No master's thesis will be required.

The degree is geared to serve high school teachers and community college instructors and can be used in preparation for further graduate study.

Although originally scheduled to begin next quarter, the new master's degree may be available the first week in February.

Crisis Organization

Dr. Patz shows the new mini-computer purchased as part of a study to give students an understanding into computer control systems.

Topics

On Monday, October 8, at 10:00 a.m. there were four CLEP exams held on Campus. The exams were:

1. Spanish
2. Psychology
3. Credit by Exam
4. English

These exams are given on the campus and are given at no cost to the students.

Library Work Stolen

One of the paintings of the West Indies collection which was on display in the Library was reported stolen Oct. 4.

Investigating FTU security officer Jim Jordan said the painting was last seen Oct. 3 and was noticed missing at 2:30 p.m. the next day.

The painting was hanging on one of the portable walls in the center of the library.

Jordan said Tuesday, if the painting is returned, no questions will be asked and there will be no repercussions.

The original oil painting was included in the series of the William Byram Foundation West Indies collection.

The painting was done by Haitian artist J. Chevry and titled "Children Carrying Pear." Library director Lynn Walker said the painting is only valuable as part of the collection. The $1 x 17-inch painting is insured by the Library for $75.

STUDENT LIFE

Debaters Win At Stetson

"It takes these things for a good debate team and these youths are good in all areas," said Butler.

"They are talented debaters, they are willing to spend time in research, and they can produce a joint effort when it counts time to compete," he added.

Butler said he hopes to send the team to the Southeast Regional Elimination.

VETERAN'S HOLIDAY

Veteran's Holiday Date Changed

FTU students and faculty will not have Veteran's Day Holiday on Oct. 22 as stated in the FTU catalog.

Monday, Nov. 12, is the correct date, according to the Student Affairs Office and the Thanksgiving holiday will fall on Nov. 22, and 23, as originally planned.

CLEP Test Dates Set

FTU has been established as a limited test center for administering the CLEP (College-Level Examination Program) exams.

Students interested in taking the CLEP examinations should come to the Developmental Center (Dorm C, Suite 110).

The following are the test dates and registration deadline dates for the test:

EDITORIAL

Hidden Thoughts

By William Lee Hadden

IF YOU want to compare the student body of FTU to a bunch of little-lionhearts in a free world, everyone else and the intrepid stranger-well, that sounds like a perfect analogy to me.

A few years ago a social-psychological study concerning this same situation was done at Bennington College in Vermont. The study observed student behaviors and the effects of the campus environment on the students. It concluded that the students who were most satisfied with their college experience were those who felt they were working for themselves. Certainly the administration of FTU should consider this study when formulating policies that affect the students.

Those who intervene will be condemned for doing so. Those who do not will be condemned for not caring.

Degree Major Easy Enough

Editor:

In regard to the recent degree policy change, I feel this decision is both repugnant and unwise. The majority of students was not consulted in the least, nor was Student Government and the news media even aware of this "sight-of-hand" by the administration.

Having had much experience with the workings of the regular, I know from first-hand information that the time required to add to the diploma the major of the student is very minimal. On the student's interest to graduate form the institution, I feel this does not create a problem when the student writes down his major is what he is major is. Then the registrar compiles a list of these students and sends it to the various colleges, asking for the confirmation of these students and their majors.

Colleges then send back a list of all the students who have meet the degree requirements and are entitled to receive their diplomas. The registrar then types up a revised list of each college and the students who have been confirmed by that college, placing the major area beneath each person's name. It takes one more push of a typewriter button to turn the cylinder one line below the name and then just a few seconds to type in the student's major area.

After the lists are compiled, they are checked for spelling accuracy. One of the time-consuming problems is the registrar rechecks and again reconciles these lists for spelling. A form is given to each student who brings it to his dean of the college and the student's name will be removed from the preliminary list which reads, for example, "College of Business, Business Administration" and all the students whose majors are business administration are put on this list. A different list for each major in college is typed out.

Now the registrar would like to type a list which reads, for example, "College of Business" and then list all majors and even fewer triple majors (almost non-existent) and this does not create a problem when the student writes down his major is what his college is and what his major is.

To repeat again, the time to include the major on the diplomas is very minimal. I feel, after studying out here and working hard for a diploma, the students are entitled to have their area of specialization on the diploma. "Accent on the Individual" are looks good on paper, too bad it is only there.

A Concerned Student

Change Fever Hits Quarters

Editor:

All my life people have subjected me to change. First from old math to new math, then from English to Spanish. This year from English to Spanish and now from Junior to Senior. Now the "top bananas" are at it again. First, with the change, then the diplomas, now with the wuarter to winter system change the Hell out of me.

The registrar types the names on a list which reads, for example, "College of Business, Business Administration" and all the students whose majors are business administration are put on this list. A different list for each major in college is typed out.

The majority of students was not consulted in the least, nor was Student Government and the news media even aware of this "sight-of-hand" by the administration.

Having had much experience with the workings of the regular, I know from first-hand information that the time required to add to the diploma the major of the student is very minimal. "In war, whichever side may call itself the victor, there are no winners, but all are losers." - Neville Chamberlain
LETTERS
(Continued from Page 4)

All my life my father has pounded it into my head: “get an education, go to college, absorb from the educated race.” Well, I can tell you this, all I have absorbed is confusion and frustration!
The “top banana” of this campus are “bananas.” Don’t get me wrong, I am all for change but this is getting ridiculous.
The diploma things is really ridiculous. It just proves how unequipped the administration is about the graduating students. Well after all they’re leaving the school can’t they think their blood anymore.

Now about the semesters. What a mess it will be. Talk about total chaos! Will a change such as this really be helpful?

I mean we don’t really understand the system now, what a hassle the change will be. I don’t want semesters, I want to get out of this place and fast. I don’t want semesters, I want to get out of this place and fast.

It is feeling more of a pinch because of this market. Eighty percent of this optimum number of persons needed to maintain the university is determined by a formula based on population and campus size. Eighty per cent of this optimum number is allocated for actual employment.

One reason the Physical Plant is having a hard time keeping up, said Nauhaus is it is called upon to perform both “support and maintenance” and “improvement and alteration” work.

Eleven men, including the supervisor, now man the grounds department instead of the usual 19 men. This may be one reason spiraling is done during the day instead of at night. Other departments combatting thinning ranks are the utilities, maintenance and custodial divisions.

A manpower shortage has hit FTU’s Physical Plant, bringing employment down to 60 per cent in some departments.

“This area of Florida is a laborer’s market,” said Richard Nauhaus, Physical Plant administrative assistant.

Although state agencies invariably run with less than full staffs, FTU is feeling more of a pinch because of this market.

“Why should they (laborers) work for state wages when they can work construction?” asked Physical Plant director R.N. Parm.

Employment figures for the Physical Plant are set by the state. Employees are hired through the university’s Occupational Medicine Service.

Room transfers for dormitory students were authorized Oct. 10 to allow residents a chance to find their "ideal" roommates. Housing Director Leo Goff said 26 free room transfers were authorized and 12 men and 16 women took advantage of this opportunity.

Some residents were too busy making their rooms "homey" to worry about changing suites, however. The women's dorms show the most imagination and effort toward this end, but some otherwise sparsely-decorated men's rooms show an occasional decorative touch with equally-sparingly clad Playgirl strategically placed.

The 18-year-old majority rights law caused many students problems when "no visitation" areas were given visitation privileges and roommate preferences were no longer the first consideration.

Goff said this mix-up shouldn't happen again and plans to have confirmation notices sent to residents who have specified roommate preferences during late Spring quarter for Fall 1974.

**Student Orchestra 2 Strings Strong: Looking For More**

For the first time since FTU opened its doors, an all-student orchestra has been organized by the department of music. The new student group is open to students from all colleges on the campus.

The entire student body is invited to attend the tryouts for the FTU University Band's second production, "Journey's End." Casting for this World War I comedy-melodrama calls for 11 men, ranging in age from 50 to 18. "We're looking for a few good men," Director David Mays said Thursday. The tryouts, to be held for the FTU University Band's second production, "Journey's End," are scheduled for May 3, 4, and 5 at 8 p.m. in the University Theatre offices, L300, for examination.

**Library Shows Circle**

By Weber Ivy

Not everyone believes that the mandala can help him attain cosmic bliss, but few would deny its prime element, the circle, lends itself to endless variation and symmetrically by man and nature. It is difficult to tell whether human or divine hands have embellished this geometric form so skillfully in the exhibit of "Mantras and Mandalas" now gracing the library lobby.

The earth, mandala-like itself, is a treasure house of spherical improvisations with its snowflakes, microscopic crystals, full moons, mushrooms and moring gnomes. It is no wonder man soon discovered the exciting possibilities of symmetry.

It was in the ancient East, particularly India, where this simple natural form became invested with psycho religious significance and arrayed in clever, mind bending designs. The exhibit includes some exquisite examples of the consciously used mandala. They swarm with visual activity. These frames harmonize with rich mazes, their stylized beings a maze of red, yellow, green, and blues. This fierce optical overload somehow submits to the discipline of perfect symmetry and the relentless repetition of patterns.

At the same time in the West came unconscious echoes of the mandala in the haloes of Christ and the rose windows of Chartres Cathedral. It submits to the discipline of perfect symmetry and the relentless repetition of patterns.

**The WEASTERN SEAT**

"Your LEVI'S Headquarters"

119 E. Morse Blvd., Winter Park Ph. 645-1199
Open: 10-6 Mon.- Sat.; Fr. 'til 8 P.M.
The day begins as area high school students sign in. Education has its share of paperwork.

"The first mistake in public business is the going into it." — Benjamin Franklin

Delta Sigma Pi and Phi Chi Theta, the men's and women's business fraternities sponsored a carnival where students could take aim and win prizes ranging from small plastic toys to large stuffed animals.

FTU's own radio station, WFTU, broadcasted from the front lawn of the library and had on-the-spot interviews with the seniors.

A mini-fraternity now was on the sidewalk between the dorms and the Village Center and many students took time out to throw eggs at various Kappa Sigma members.

Local television stations also got in on the act, and all three had crews covering the occasion. Everyone involved would probably agree with Brenda Williams, an Edgewater senior, who said she would go to all Activities Days if every college in the area had them.

The evening draws closer as hundreds of new faces depart, and thousands of familiar faces resign themselves to another day of classes at FTU.
Semester (Continued from Page 1)

The Board of Regents will ultimately decide whether state colleges and universities will be on the semester or quarter system, Dr. Taylor said.

Lee Constantine, Student Government president, replied to Taylor's comments by saying he favors the quarter system because he believes most students find it more convenient.

"We ran surveys and held a referendum last year and found 86 per cent of the students wanted to keep the quarter system for one reason or another," said Constantine. "They find it convenient for their schedules, they have a multitude of available courses, and if they get a course they don't like, it's not that long."

Constantine said the mistake behind synchronizing the system was wrong.

"The Board of Regents can only determine the system for the state university system. It is the Florida State Board of Education which can help them synchronize their courses. Doing it this way I don't think they'll ever get everyone together. Besides, a lot of schools are doing the trimester which will again pull schools out of phase," Constantine added.

Migrant Camp

(Continued from Page 1)

year," said migrant program director, Marilyn Richmond, "therefore we are putting our emphasis on one camp center at Plymouth.

The recreational program will be held only one Sunday and will consist of large field day activities in an attempt to encourage the parents to participate.

One of the houses on the camp is being rented to serve as an information and tutoring center and is in the process of being painted and repaired.

What is really needed, said Richmond, is volunteers to help keep the center open two nights a week to inform camp residents on nearby health facilities and where to go for food stamps.

Flu Vaccines Here

Flu vaccine is now available at the Student Health Service afternoons until 11 p.m. Monday through Friday and 9 a.m. to 5 p.m. on Saturday and Sunday.

These will be given free of charge to full-time students and will consist of two injections, the major, Biostar vaccine, and two weeks later the Monovac or Hong Kong as a supplement.

We need volunteers to spend some time with the migrant workers rather than just leaving material donations with us," Richmond added. So many of the black migrant workers feel we just have them what we don't really need and don't really care. We hope by spending more time with them we can prove to them we do care.

At present the Newman Center is out of funds and is in need for money for rent and other expenses.

The center has started a "Sponsor of the Month" hope in getting Greek organizations and other college and community organizations to help on a monthly basis. It takes only $70 a month to keep the center and Project Care going.

The Newman Center is located at 40 E. Lyman Ave., Winter Park.

The John Young Museum and Planetarium has announced its plans to show three exhibits during October.

The first exhibit on Egypt features a mummy. The second exhibit, titled "From the Earth with Love," explores the wonder of gems and minerals. The third exhibit, "Archaeology in Central Florida," shows tools used by archaeologists and a cross section of a dig (area being excavated). It also explains methods of classifying and cataloging artifacts.

A new planetarium show "Journey Beyond the Stars," explores deep space in the region of pulsars, super galaxies and black holes.

The museum and planetarium are located at 810 E. Rollins St. in Orlando. The museum is open free to the public from 10 a.m. to 5 p.m. daily.

Planetarium shows are held Saturday and Sunday at 2 p.m., Tuesday at 3:30 p.m., Friday at 8 p.m. and Wednesday and Thursday at 3:30 p.m.

The John Young Museum and Planetarium has 3 things to offer that other college programs don't.

1. 1,650 scholarships.
2. ‘400 monthly allowance.
3. Free flying lessons.

Miss Orlando Attends FTU
Joy Jones, a student at FTU since September, also goes by another name, Miss Orlando. The brown haired, brown eyed beauty won a $5,000 scholarship in the 1973 Miss Orlando pageant.
Joy, age 24, has won seven beauty pageants, ranging from Miss Family Feud of Green Cove Springs to Miss Greater Jacksonville Fair, which she had to forfeit in order to be crowned Miss Orlando.
She was also victorious in the Miss Florida Rural Electrification Pageant and won a trip to Dallas, Texas, where she met President Johnson.
Born and raised in Jacksonville, Joy attended Florida Junior College where she received an associates degree in nursing. She moved to Orlando a year ago and worked in the nursery at Holiday Hospital until she started school this fall. She now works part-time at a local modeling agency.
Joy is currently taking courses in theater and music and has a small part in the upcoming FTU theatre presentation of "The Miracle Worker." Joy said she wants to take an active part in local stage and theatre productions.
Active in student government at Jacksonville Junior College, Joy was a senator and a member of the Student Services Committee. Her name also appears in "Who's Who in American Junior Colleges."
She arranged a medley of Disney tunes which she played in the Miss Orlando Pageant while dressed in a self designed costume resembling Minnie Mouse.

LAURA ELIZABETH APPLEBY
FTU Coed To Try Winning "Jeanie" Title
Laura Elizabeth Appleby, a sophomore at FTU, will be representing Orange County in the 23rd annual statewide "Jeanie With The Light Brown Hair." The competition is open to Florida women between the ages of 18 and 21 who are advanced in musical performance, vocalists, capable of giving creditable radio, television and concert performances.
Entrants compete for the title as well as a top scholarship award of $2,000. The event is sponsored by the Florida Federation of Music Clubs and the Stephen Foster Memorial board of trustees.
Four scholarships of $500 are also awarded to non-scholarship designated as "Jeanie Maids." Winners are selected by a panel of three judges.

The Up's - gave all persons 18 years old or older the rights and responsibilities of adults. This has been permanent residents became effective last July 1.

Persons 18 years of age or older may now hold the office of notary public provided that they are eligible, have been permanent residents of the state for one year. The Adult Rights Law which became effective last July 1, gives all persons 18 years old or older the rights and responsibilities of adults. This law provides that:

"The disablement of minors is hereby removed for all persons in this state who are 18 years of age or older and they shall enjoy and suffer the rights, privileges and obligations of all persons 21 years of age or older except as otherwise excluded by the Constitution of the State of Florida. I immediately providing the effective date of this law."
“The perfection of art is to conceal art.”
--Quintilian, 68 A.D.

“Abstract art is a product of the untalented, sold by the unprincipled to the utterly bewildered.”
--Al Capp, 1963 A.D.

For the benefit of readers who might have wondered at some time or another what the concrete and metal objects are between the VC and the Music Practice Trailers, FuTUre photographers were asked to capture some of them on film.

Steve Lotz, chairman of FTU’s Art Department explained this sandy section of the campus is the only area approved by the Physical Plant for student’s sculptures.

Dubbing it the Campus Outdoor Sculpture Area, Lotz said perhaps some of the pieces have been in the area too long and is anticipating newer works being added.

New Grapplers Boost FTU Program

By Larry McCorkle

Six new grapplers joined forces with returning veteran Mike Andreadis at FTU. The team practice begins last Monday at Oviedo High, but a lot of tradition was missing.

The missing tradition is Mike Clark, son of Coach Torchy Clark. After starting four years for his father and scoring over 2,000 points, young Clark has graduated.

But during his tenure at FTU, Mike Clark was able to see the team rise from club status, to varsity status and even further to its present level as a respectable intercollegiate team.

Mike has been replaced by promising freshmen Torrey Clark and Ralph Waddell, who are coming back to wrestling after a year off from the sport.

The new grapplers, who played football at Ferrum Junior College, are freshmen.

Haas and Willy Beletto return from last year's team with experience. Also back are Bob Jones and guards Angelo Callins, Jeff Kema and David Wayer of North Carolina.

Basketball Schedule 1973-1974

By Larry McCorkle

The 1973-1974 FTU cheerleaders were chosen last Monday. The 18 selected were all former members of the state high school championships.

One of the state's outstanding teams was the 1973-1974 FTU cheerleaders. They placed second in the state.

About the selection, one of the Virginia men, "This year I think the team is just going to be great."}

OOPS! FTU soccer players are not noted for their underhanded tactics, but accidents do happen. Bob Steadman (left) seems to let nothing get in his way of the ball. (Photo by Edward C. Burton)
ATO Surges Past LXA; Faces Rival TKE Monday

By Fred Cay

ATO vs. TKE is traditionally the game on campus—especially in flag football. This year’s clash is no exception.

Monday at 5:30 p.m. Alpha Tau Omega and Tau Kappa Epsilon will match their spindles 4-0 records in the league, which probably will decide the fraternity title. It could be billed as the classic struggle between the league’s top offense (ATO) and stingiest defense (TKE) but both squads are quite well-balanced. A last year when ATO won 23-12, mistakes could decide the outcome.

ATO already has one obstacle behind it, Tuesday’s homecoming being a cross-town wish that saw ATO emerge winners over Lambda Chi Alpha by a closer-than-scored 19-18.

The halftime count was 19-18 and matters still stood that way at the second-half two-minute warning. At that point, ATO was 12-10 in the lead. One play later quarterback Jim Tschiewicki fired over the middle to Fred Maust for what proved to be the warning.

Well-balanced.

ATO’s forte is pass defense. Mike Thomas fired six touchdown passes and ran for an additional score. Herb Washington caught two of the scores.

FS&S Bombed, 41-12.

Buck’s Bombers jumped into the frontrunner position in independent Black League football with a lop-sided 41-12 win Tuesday over Faculty, Staff and Residents.

On offense, Mark Denno and Steve Jackson have split the quarterbacking chores, throwing to Mike Murdock, McCordie and Dale Wise.

FS&S trailed only 14-6 at the half as John Conderer and Washington took in Thomas passes and FS&S’ Jim Brown grabbed a TD from John Davis.

However, in the second half ATO’s offense simply blew it open as Thomas marched his team down the field with a startlingly accurate passing display.

Also on Tuesday Mafia improved to 2-0 with a 33-13 romp over the Cavaliers with Jay Anderson in two TD and two extra-point passes.

But’s and Mafia were tied for the Gold league lead after Tuesday’s action.

The Dukes toppled TKE II, 20-6.

The Wine Lead Volleyball

Tyes continue to pace "72's volleyball. They dumped TEP Leftovers Monday to up their record to 3-0. LXA, who also faced TEP Tuesday, stand 1-1. Their only setback was a season-opening three-set loss to Tys, Tri-Delta, also losses to Tys last week, were 2-1 and 2-4 after Tuesday’s games.

Pool Hours Change

New swimming pool hours begin Monday. On week days the pool will be open from 12-2 p.m. Saturdays and Sundays from 1-4 p.m.

FTUS KAMMY Monday (right) returns a volley over the net to the Flagler team in last Wednesday’s match at Rollins. FTUS won 21-12, mistakes could decide the outcome.

Despite mistakes could decide the outcome.

TYS Women Defeat ‘72 State Champs

The women’s volleyball team got a good idea where they stand among state volleyball teams when they defeated Flagler, last year’s state’s champs, last Wednesday, at Rollins East Gym. Alumni fieldhouse.

"It was a good team effort," Coach Pam Murdock said after the match. FTUS lost the first game 15-11; FTU took the final two, 15-12 and 15-9.

Flagler had three of six starters returning from last year’s team, including their best defensive players.

With their win FTUS, with two key transfers in their present lineup, has greatly improved over last year.

The two transfers are Kammy Morsley and Shalha Khonani. Morsley, from Rollins, and Khonani, a member of the Tehran and Iranstorm National Volleyball teams, make up what Murdock calls "the two best setters in the state."

These two with the addition of starters Judy Hall, Sandy Biler, June Fortney and Anne Kennedy, all spikers, form the starting team. This is Kennedy’s third year as a starter.

In addition, Kitty Leg, a transfer from Stetson, and Maia More, another outstanding setter, have already provided invaluable relief for the starters.

It was Mora, according to Burton, who got in going against Flagler in the final game. Khonani then finished off the St. Augustine school with four straight service points for the win.

The win over Flagler was a big one for FTUS. It assured FTUS that it can compete with the best in the state.

Florida State which beat FTUS in a match last year (the first game went 16-11) returns their entire team. Burke rates them as the team to beat although as she added, ”We’re not sure of the caliber of junior college ball.”

A good example is Miami-Dade South which has won the state tournament two of the last four years. FTU will not play in junior colleges until the state tournament.

This weekend FTU will play in the Jacksonville Bladoff Tournament in Jacksonville, Stetson, Rollins, Miami, Florida State and Jacksonville will participate also.
