SG Plans Birth Control Manual

By William Lee Hidden

MEMBERS of the Student Government (SG) began their work in the later part of the summer quarter and completed the first draft of what may be FTU's first birth control pamphlet in early October.

The purpose of the pamphlet is, as stated in the introduction, "to compile, in an easily available pamphlet, information that may not be generally known." The first part of this draft dealt with birth control methods, their advantages and disadvantages and their effectiveness.

The pamphlet also informs people of venereal disease, its symptoms, treatment and where to go for treatment. Pregnancy and how to detect it in its early stages is the next written subject.

THE FINAL part of the pamphlet concentrates on the concepts and methods of abortion from a medical viewpoint. It also mentions self-abortion methods, illegal abortions and the steps to follow in a legal abortion.

The 11-page draft has recently been reviewed by both Dr. Edward W. Stoner, director of Student Health Center, and Dean of Women Carol P. Wilson. Both Stoner and Dean Wilson, although not collaborating on reviewing the pamphlet, brought to attention many of the pamphlet's shortcomings.

THEY both made the suggestion of deleting the self-abortion methods from the text, adding counseling and aid services in the area and clarifying the effectiveness of birth control methods in regard to prevention of venereal disease or pregnancy.

Stoner, in studying the pamphlet said he felt the order of sequence in effectiveness of the birth control methods was not quite accurate.

While the pill, for instance, is considered the most effective as far as preventing unwanted pregnancy, it is not the best means of preventing venereal disease, he said. "I THINK this pamphlet is an essential part of the college learning process," Dr. Stoner added, "and so it should give the most concise and accurate accounting that is possible."

One major addition suggested by Stoner was the new "Day After Pill" which was recently approved by the U.S. Food and Drug Administration (FDA) for marketing.

While Stoner reviewed the pamphlet for medical accuracy, Dean Wilson went over it to see whether it was professionally worded and well presented. Dean Wilson felt that a better presentation was still needed in order to lend credibility to the pamphlet. In addition accuracy and professional wording she said she felt the pamphlet should also be in good taste.

"THE MORE accurate and responsibility worded the pamphlet is, the better it will be," Dean Wilson said. "For instance, the disadvantages of the pill were so vaguely worded that they almost appear as advantages. There are also places where the advantages of various methods are not obvious enough and should be listed separately."

The introductory paragraph on birth control was one example cited by Dean Wilson as needing improvement in presentation.

As it stands now, the birth control pamphlet is being rewritten. The earliest possible publication date is December. The next draft will be reviewed by both Stoner and Dean Wilson and then by Dr. Rex Brown, vice president of Student Affairs or sent back to SG.

Faculty Senate President Wants Uniform Calendar

Faculty Senate president Phil Taylor responded favorably to the semester system because he said he believes it satisfies the need for a synchronization of systems state wide.

"I don't care how we do it, we need a consensus," said Taylor.

"The problem with the system now is we have students graduating from junior college who have to sit out for half a quarter waiting for our classes to end. Students graduating in the middle of the year from high school have to wait until the next quarter begins before they can start classes. We're just out of phase with everyone else," Taylor added.

Taylor said the national trend is toward the semester system. Last year 2,475 institutions in the U.S. responded to a poll. Of these, 860 favored the modified semester plan, 637 favored the traditional semester system and 542 colleges liked the quarter system.

The Faculty Senate voted "(Continued on Page 9)"

Migrant Programs Continue

By William Lee Hidden

For the past three years the Newman Center has been helping migrant workers at the Plymouth and Zellwood camps. The Newman Center, besides being the center for campus ministry, also deals with volunteer programs for migrant families. A migrant worker center has also been set up at the Plymouth camp.

"We didn't have enough volunteers to go around last (Continued on Page 9)"

We Live in the Present, By the Past, but for the...

DEFINITELY NOT CAMERA SHY, these young migrant camp volunteer workers take a break for pictures. One of their next projects is to start a garden. (Photo by Marlene Richmond)
Colombian Group Tours FTU Facilities

The People's Cultural Action Organization (ACOP), of Colombia, South America, will be visiting the FTU campus today to speak on its tour of five state universities in Florida.

The ACPO, an organization begun in 1974 by Father Jose Ignacio Salado, broadcast from Bogota, Colombia, will begin its tour of five universities in Florida with a visit to FTU on Oct. 18. The group will continue on to the University of South Florida, the University of Central Florida, the University of Florida, and the University of Miami.

FTU Student Runs For Commission Seat

An AFROTC student will be on the ballot in next month's city commission race in Winter Park. John Brooks, a 19-year-old political science major who qualified as a candidate for commissions.

City clerk Gene Davis said a primary election is slated for Nov. 6 since three candidates are seeking the position. The general election will be held Dec. 4.

Brooks, who was defeated in the primary last year, said this year he plans to concentrate on a walking, door-to-door campaign. His intention is to bring the issues to the people, and the people's ideas and opinions to City Hall.

"And if I am elected I intend to continue walking door to door to achieve the same goals," he said, adding it was his contention that the city commission is not "as sensitive and alert as it should be.

Brooks made an unsuccessful bid for the Student Government presidency last spring at FTU, losing the election to Lee Constantine.

Scholarships

Grants for graduate and post-graduate study abroad are offered under the Fulbright-Hays Act. The 1974-75 competition for these grants will soon be closing. Only a few weeks are left in which qualified graduates may apply for one of the 500 awards which are available. The grants are limited to current or former FTU students.

And if I am elected I intend to...[rest of the sentence was not visible in the image].

Victoria College Sponsors "Pegasus Pub Set"

The first "Pegasus Pub" will be tonight at 8:30 in the snack bar following the "VC mods" Butterflies Are Free.

Dick Brunning, coordinator of the pub, said the atmosphere will be of the "mascular" type with spotlights, great entertainment and munchies. Beer, soda and sandwiches, standard snack bar fare, can be purchased.

Tonight's entertainment is to be a surprise and Debby Wheatly, Village Center program director.

Other "Pegasus Pubs" will be Nov. 3 and Dec. 7.

GENERAL STUDIES

"This is a two-way communication," said Dr. David E. Hernandez, who is assisting Gambrell in coordinating the visit.

Strike Ends By Plumbers

A strike coming to a halt because of last week's plumber's strike, construction has resumed on FTU's Biology Building, according to John Phillip Goree, vice president for Business Affairs.

Union plumbers struck the subcontractor, the Harper Heating and Plumbing Company, a non-union organization, in order to force it to pay union wages. Goree said to the best of his knowledge negotiations between the union and the contractor have either been successfully concluded or are still going on. The Biology Building is scheduled for completion in the fall of 1975.

Grant Aids Computer Plan

With a $40,000 grant from the National Science Foundation, Dr. Benjamin W. Patz is in the final stages of developing a program of study which would give students a good understanding in computer programming and the integration of a computer with other mechanical systems.

Patz has purchased a programmable logic system or mini-computer. The mini-computer is the heart of the program.

The program is designed in trying to understand electrical signals used to communicate with the computer and the programming involved to get the computer to follow a set of instructions.

Students will learn assembly language programming, methods of communicating with the computer and programming in conjunction with other information gathering machines.

The computer, about the size of a suitcase and valued at $6,000, is designated to monitor and/or control other machines. The computer can be used with traffic lights to detect and control rush hour traffic or monitor several scientific experiments at once. It can also work with other computers and coordinate and up date records.

Patz also suggests that pieces of machinery have been bought in addition to the mini-computer.

These include:

• A disc memory system which allows facts for the computer in much the same way a library stores facts.

• A teletype unit which communicates with the computer.

• A high speed paper tape reader that can be asked to feed information to the computer.

• Two Cathode-Ray Tubes that display information from the computer on a television screen.

Patz said the use of the computer is becoming popular in industry.

Master Of Arts Approved

The Florida Board of Regents has approved the 12th and 13th master's degree programs for FTU in English and economics, according to the Public Relations Information department.

The English master's will be inaugurated with a prose course and two optional courses for a total of 22 quarter hours. No master's thesis will be required.

The degree is geared to serve high school teachers and community college instructors and can be used in preparation for further graduate study.

Although originally scheduled to begin next quarter, the Master Of Arts Program in Economics has been delayed until fall 1974 to allow for adequate planning, said Economics and Finance Department Chairman, Dr. Robert Rebs.

The economics degree program will require a master's thesis and will feature 24 hours of required courses and 18 hours of optional courses. The general program will adapt itself to projected future needs for particular skills.

Any interested area resident should be called in to the Admissions Office for more information. (Phone 908-375-2311)

Campus Glances

Christian Fellowship

The PTU Christian Fellowship, totaling its second school year, meets on Tuesday and Thursday at 5 p.m. in LB 239.

The fellowship welcomes believers and nonbelievers alike and offers friendship, Bible study, prayer groups, opportunities to share faith and recreational activities.

Cops' Topics

On Monday, October 8, at 10:00 a.m. there were 4:400 cars parked on Campus, 35% more than the temporary lots were during the summer. Parking outside or beyond three poles narrows the roadway (and costs $1.00).

Student/Staff Motorcycle parking areas are located east of Lot No. 3 and west of Lot No. 6. Faculty motorcycle parking areas are designated on the islands in Lots No. 3 and No. 5.

Library Work Stolen

One of the paintings of the West Indies collection which was on display in the Library lobby was reported stolen Oct. 4.

Investigating PTU security officer Jim Jordan said the painting was last seen Oct. 3 and was noticed missing at 2:30 p.m. the next day.

The painting was hanging on one of the portable walls in the center of the lobby.

Jordan said Tuesday, if the painting is returned, no questions will be asked and there will be no repercussions.

The original oil painting was included in the series of the William Bryan Foundation West Indies exhibition.

The painting was done by Haitian artist J. Chervy and titled "Children Carring Pear." Library director Lynn Walker said the painting is only valuable as part of the collection. The 15 x 17 inch painting is insured by the Library for $75.

Debaters Win At Stetson

"It takes these things for a good debate team and these youths are good in all areas," said Butler.

"They are talented debaters, they are willing to spend time in research, and they can produce a joint effort when it comes time to compete," he added.

Butler said he hopes to send the team to the Southeast Regional Elimination.

If the team is selected one of the top four there, they can proceed to the national tournament next spring.

Elliot Pool, a graduate assistant with the debate team, accompanied them to Stetson where he served as one of the three critic judges. The competing teams voted Pool best critic judge for the tournament.

Veteran's Holiday Date Changed

FTU students and faculty will not have Veteran's Day Holiday on Oct. 22 as stated in the PTU catalog.

Monday, Nov. 12, is the correct date according to the Student Affairs Office and the Thanksgiving holiday will fall on Nov. 22, 23 and 24, as originally planned.

Deadlines

The FTU news deadline is noon every Monday. Although many news sources are acceptable to last year's Tuesday cutoff, the earlier deadline has been set to meet this year's printing deadlines. News of interest to the FTU community should be called in to 275-2865.

 Classified advertising must be received by noon Thursday. Classified advertising deadline is Wednesday noon. All ads should be brought by LB 215, in called in to 275-2865.

Corrections

In last week's FTU we incorrectly reported on a story on page two a "Meet the Candidates" forum in connection with the Student Government Elections. No such meeting was planned or held.

Last week the FTU incorrectly labeled Dr. John J. Brennan as an engineering professor. It has been brought to our attention that Dr. Brennan is in the physics department in the College of Natural Sciences.
Hidden Thoughts

By William Lee Hidden

IF YOU want to compare the student body of PTU to a bunch of little borrows in a kickball game, everyone else and hates the intruding stranger-well, that sounds like a perfect analogy to me.

A few years ago a social-psychological study concerning this same situation was done at Bennington College in Vermont. The results showed that students’ attitudes changed because the study observed, the university became more a part of the community itself and the educational process opened up beyond the classroom. BENNINGTON College, however, had only 600 students in a town of 3,000 people. Everyone knows everyone else and hates the intruding stranger-well, that sounds like a perfect analogy to me.

Another injury has happened on the field. This time it’s a serious one. The U.S. referee has slipped on a gigantic puddle of Arabian oil. Well, the battle is on! The sad part about it is that no matter what the first sondern incident takes place, the same attitude will prevail. Those who intervene will be condemned for doing so. Those who don’t will be condemned for not caring.

Degree Major Easy Enough

Editor:

In regard to the recent degree policy change, I feel this decision is both repugnant and irrational. The majority of students was not consulted in the making of this decision. It is not in the best interest of the student to require that they major in a field that they are not interested in.

On the student’s interest to graduate form the university, and with the knowledge that the time required to add to the diploma of the major is not recognized by the administration.

Having had much experience with the workings of the registrar, I know from first-hand information that the time required to add to the diploma of the major is extremely long. The majority of students is not consulted in the making of this decision. It is not in the best interest of the student to require that they major in a field that they are not interested in.

On the student’s interest to graduate form the university, and with the knowledge that the time required to add to the diploma of the major is not recognized by the administration.

The colleges then send back a list of the students who have met the degree requirements and are entitled to receive their diplomas. The registrar then types up a revised list of each college and the students who have been confirmed by that college, placing the major area beneath each person’s name.

It takes more of a push on a paper weight than to turn the cylinder one line below the name and then just a few seconds to type in the student’s major area.

After the lists are compiled, they are checked for spelling accuracy. One of the timesaving problems is the registrar’s reminder to request the correct spelling. A form is given to each student who brings to it his advisor, who fills in all classes the student has taken and signs it, and sends it to the dean of the student’s college and the registrar, both of whom usually check it very carefully.

The registrar then types the names on a list which reads, for example, “College of Business, Business Administration” and all the students whose majors or business administration are put on this list. A different list for each major in each college is typed out.

Now the registrar would like to type a list which reads, for example, “College of Business” and then list all the students who are graduating from the College of Business. This new way of doing it does not even require a few months time to warrant all the long and hard years we students have put into get our diploma with our major on it.

These lists are sent away to a private firm which prints out the diplomas and mails them back to the university. It is the printer who prints the major area on the diploma.

There are very few double majors and even fewer triple majors (almost non-existent) and this does not create a problem when the student writes down on his intent to graduate form what his college is and what his major is.

To repeat again, the time to include the major on the diplomas is very minimal. I feel, after studying out here and working hard for a diploma, the students are entitled to have their area of specialization on the diploma. “Recent on the Individual” looks good on paper, too bad it is only there.

A Concerned Student

Change Fever Hits Quarters

Editor:

All my life people have subjected me to change. First from old math to new math, then from English to new English. Now the “top bananas” are at it again. First, with the name change, then the diplomas, now with the quarter to semester system change. Well I’ve had it!

(Continued on Page 5)
LETTERS
(Continued from Page 2)

All my life my father has pounded it into my head: "get an education, go to college, absorb from the educated ones." Well, I can tell you this, all I have absorbed is confusion and frustration.

The "top banana" of this campus are "bananas." Don't get me wrong, I am all for change but this is getting ridiculous.

The diploma things is really ridiculous. It just proves how ignorant the administration is about the graduating students. Well after all they're leaving the school can't seek their blood anymore.

Now about the semesters. What a mess it will be. Talk about total chaos! Will a change such as this really be helpful?

I mean we don't really understand the system now, what a hassle the change will be.

I don't want semesters, I want to get out of this place—and fast. I don't want a change in the system such as this really be helpful?

Big deal, we'll get out a week earlier. Will it make up for the extra five weeks in the enrollment studies you took? All I hear is "It will help the school." Well the hell with the school, what about us?

Well, I'm tired and I think that THE STUDENTS OF FTU SHOULD UNITE, CRUSH THOSE EGOISTIC ($B$) MONEY GRABBERS, MAKE THIS YOUR COLLEGE, YOU PAY ENOUGH FOR IT.

Don't get me wrong—I love FTU. I'm just a "Grouch."

Physical Plant Faces Manpower Shortage

A manpower shortage has hit FTU's Physical Plant, bringing employment down to 60 per cent in some departments.

"This area of Florida is a laborer's market," said Richard Neuhaus, Physical Plant administrative assistant.

Although state agencies invariably run with less than full staffs, FTU is feeling more of a pinch because of this market.

"Why should they (laborers) work for state wages when they can work construction?" asked Physical Plant director R.N. Purif.

Employment figures for the Physical Plant are set by the state. Employees are hired through the university's personnel department and the Physical Plant itself tries to recruit men. The optimum number of persons needed to maintain the university is determined by a formula based on population and campus size.

Eighty per cent of this optimum number of persons needed to maintain the universe is determined by a formula based on population and campus size. Eighty per cent of this optimum number is feeling more of a manpower shortage unit in the Florida Health Department and has no admission charge.

Room transfers for dormitory students were authorized Oct. 10 to allow residents a chance to find their "ideal" roommates. Housing Director Leo Goff said 26 free room transfers were authorized and 12 men and 16 women took advantage of this opportunity.

Some residents were too busy making their rooms "homey" to worry about changing suites, however. The women's dorms show the most imagination and effort toward this end, but some otherwise sparsely-decorated men's rooms show an occasional decorative touch with equally-sparsely clad Playgirl strategically placed.

The 18-year-old majority rights law caused many students problems when "no visitation" areas were given visitation privileges and roommate preferences were no longer the first consideration.

Goff said this mix-up shouldn't happen again and plans to have confirmation notices sent to residents who have specified roommate preferences during late Spring quarter for Fall 1974.
Student Orchestra 2 Strings Strong: Looking For More

For the first time since FTU opened its doors, an all-student orchestra has been organized by the department of music. The new ensemble group is open to students from all colleges on the campus.

Two string players have elected membership in the orchestra, Jerome Davis, sophomore in music education, and Charles Flore, junior in music education, are playing violin and double bass respectively.

The university orchestra, as are all of the department of music's student groups, is organized so an academic course (MUS 203-01) carrying one quarter hour credit. These groups are basic to the curriculum for music and music education majors.

FTU does not have orchestra just because the department of music announces a course by that name, even though 24 students registered for the course. Unless the proper number of strings, woodwinds, brasses and percussion instruments are manned by the proper number of student performers, the orchestra simply does not exist. The problem of meeting these special instrumentation requirements it greater in the newer institutions, according to FTU's department of music.

“The situation may be compared to that associated with building top FTU athletic teams. It would be unthinkable to send the FTU basketball team out for a game without a forward. Just putting five players on the court, no matter how capable, will hardly win games or offer proper training to those students who are members of the basketball team,” said Director Gale Spery.

Casual Comfort with a Western Flavor...

The day begins as area high school students sign in. Education has its share of paperwork.

\[\text{"The first mistake in public business is the going into it." -- Benjamin Franklin}\]

FTU's wide sidewalks were packed Wednesday with over 800 area high school seniors participating for the first time in ECA (extra-curricular activities) Day.

This senior, who represented 14 area high schools and FTU students enjoyed themselves despite the short shower in the late afternoon which dampened an otherwise bright and sunny day.

Delta Sigma Pi and Phi Chi Theta, the men's and women's business fraternities sponsored a carnival where students could take aim and win prizes ranging from small plastic toys to large stuffed animals.

FTU's own radio station, WFTU, broadcasted from the front lawn of the library and had on-the-spot interviews with the seniors.

A mini-fraternity now was on the sidewalk between the dorms and the Village Center and many students took time out to throw eggs at various Kappa Sigma members.

Local television stations also got in on the act, and all three had crews covering the occasion. Everyone involved would probably agree with Brenda Williams, an Edgewater senior, who said she would go to all Activities Days if every college in the area had them.

The evening draws closer as hundreds of new faces depart, and thousands of familiar faces resign themselves to another day of classes at FTU.
**Quarter**

1) The system allows students to take a variety of classes.
2) The quarter system supposedly reduces the amount of yearly time spent in classes. 
3) The quarter system allows students to take a break during any time of the year.
4) The quarter system allows the university to educate more students yearly because students are spread out over four quarters, and courses are grouped into two semesters.

**DISADVANTAGES**

1) The student must take 20 more hours of instruction under the quarter system than under the semester system.
2) Under the quarter system, the student spends a week more in class (two groups of 15 weeks of class and one final week each is 32 weeks for the semester system while three quarters of 16 weeks each is 33 weeks for the quarter system.)
3) Students can only take a break when the quarter is over.
4) Student enrollment has statistically never been spread out over four quarters.
5) The quarter system is out of synchrony with high schools and junior colleges and transfer students must wait until a new quarter begins.

Semester

(Continued from Page 1)

last week to send delegates to the Florida State Council of the Future Senate meeting in November, which in turn will make its recommendation to the Florida Board of Regents and Chancellor.

The Board of Regents will ultimately decide whether state colleges and universities will be on the semester or quarter system, Dr. Taylor said.

Lee Constantine, Student Government president, replied to Taylor's comments by saying he favors the quarter system because he believes most students find it more convenient.

"I ran surveys and held a referendum last year and found 86 per cent of the students wanted to keep the quarter system for one reason or another," said Constantine. "They find it convenient for their schedules, they have a multitude of available courses, and if they get a course they don't like, it's not that long."

Constantine said the mistake behind synchronizing the system was wrong.

"The Board of Regents can only determine the system for the state university system. It is the Florida State Board of Education which can help them synchronize their courses. Doing it this way I don't think they'll ever get everyone together. Besides, a lot of schools are adopting the trimester which will again put schools out of phase," Constantine added.

Migrant Camp

(Continued from Page 1)

year," said migrant program director, Marilyn Richmond, "therefore we are putting our emphasis on one camp center at Plymouth.

The recreational program will be held only one Sunday and will consist of large field day activities in an attempt to encourage the parents to participate.

One of the houses on the camp is being rented to serve as an information and tutoring center and is in the process of being painted and repaired.

What is really needed, said Richmond, is volunteer time to help keep the center open two nights a week to inform camp residents nearby health facilities and where to go for food stamps.

**Planetarium Exhibits Free**

The John Young Museum and Planetarium has announced its plans to show three exhibits during October.

The first exhibit on Egypt features a mummy. The second exhibit, titled "From the Earth to the Stars," and "Archaeology in Central Florida," shows tools used by archaeologists and a cross section of a dig (area being excavated). It also explains methods of classifying and cataloging artifacts.

A new planetarium show "Journey Beyond the Stars," explores deep space in the region of pulsars, super galaxies and black holes.

The museum and planetarium are located at 810 E. Rollins St. in Orlando. The museum is open to the public from 10 a.m. to 5 p.m. daily.

Planetarium shows are held Saturday and Sunday at 2 p.m., Tuesday at 3:30 p.m., Friday at 8 p.m. and Wednesday and Thursday at 3-30 p.m.

Miss Orlando Attends FTU
Joy Jones, a student at FTU since September, also goes by another name, Miss Orlando. The brown haired, brown eyed beauty won a $5,000 scholarship in the 1973 Miss Orlando pageant.

Joy, age 24, has won seven beauty pageants, ranging from Miss Family Fever of Green Cove Springs to Miss Greater Jacksonville Fair, which she had to forfeit in order to be crowned Miss Orlando.

She was also victorious in the Miss Florida Rural Electrification Pageant and won a trip to Dallas, Texas, where she met President Johnson.

Born and raised in Jacksonville, Joy attended Florida Junior College where she received an associates degree in nursing. She moved to Orlando a year ago and worked in the nursery at Holiday Hospital until she started school this fall. She now works part-time at a local modeling agency.

Joy is currently taking courses in theater and music and has a small part in the upcoming FTU theatre presentation of "The Miracle Worker." Joy said she wants to take an active part in local stage and theatre productions.

Active in student government at Jacksonville Junior College, Joy was a senator and a member of the Student Services Committee. Her name also appears in "Who's Who In American Junior Colleges."

She arranged a medley of Disney tunes which she played in the Miss Orlando Pageant while dressed in a self designed costume resembling Minnie Mouse.

LAURA ELIZABETH APPLEBY
FTU Coed To Try Winning "Jeanie" Title
Laura Elizabeth Appleby, a sophomore at FTU, will be representing Orange County in the 23rd annual statewide "Jeanie With The Light Brown Hair." The competition is open to Florida women between the ages of 18 and 23 who are advanced vocalists, capable of giving creditable radio, television and concert performances.

Entrants compete for the title as well as a top scholarship award of $2,000. The event is sponsored by the Florida Federation of Music Clubs and the Stephen Foster Memorial board of trustees.

Four schools, Stetson and Rollins in front of The BeeFY King, are free of charge as a public service to all.

Financial Aid Used More

A record number of PTU students will be utilizing financial aid funds during the 1973-74 academic year, according to Don M. Baldwin, director of student financial aid.

He predicts approximately 2,600 students, or over 40% of the student body, will be receiving financial assistance during the coming year.

Loans, grants, scholarships and on-campus part-time employment are available through this office.

Students who do not qualify for financial assistance may take federally insured loans, which provide up to $2,000 per year at an interest rate of 7 per cent. If a student is qualified for financial assistance, the federal government will pay the interest.

Financial aid applications for those who desire aid prior to the 1974 fall quarter are available in the Student Affairs Suite in the Administration Building room 282.

Applications for the 1974-75 academic year will be available in November. The official application period is November through April for the following fall quarter.

Campus Outdoor Sculpture Area

"The perfection of art is to conceal art."
--Quintilian, 68 A.D.

"Abstract art is a product of the untalented, sold by the unprincipled to the utterly bewildered."
--Al Capp, 1963 A.D.

Steve Lotz, chairman of FTU's Art Department explained this sandy section of the campus is the only area approved by the Physical Plant for students' sculptures. For the benefit of readers who might have wondered at some time or another what the concrete and metal objects are between the VC and the Music Practice Trailers, FutUre photographers were asked to capture some of them on film. Dubbing it the Campus Outdoor Sculpture Area, Lotz said perhaps some of the pieces have been in the area too long and is anticipating newer works being added.

Auxiliary Services gives special passes allowing those persons on the campus food plan, unable to get to the cafeteria during its regular hours to eat their daily meals in the smoke-free area of the bookstore. These passes can be made out ahead of time for the entire quarter or after a person accidentally missed a meal. Passes may be picked up in the Auxiliary Services Office on the first floor of the Administration Building.

FUND RAISING INFORMATION

The Student Organizations office has on file a list of companies who will supply materials for fund raising. Any organizations desiring this list are welcome to use the file at any time.
WINSTON DUBOSE (left) and Mark Johnston (right) are two freshmen that have been key performers for Jim Rudy's 1973 soccer squad. Dubose, a goalkeeper from Trinity Prep, has notched two shutouts in four games, Johnson, from Naples, has earned the praise of Rudy for his overall play and hustle. (Photos by Mike Johnston and Edward C. Burton)

**Tech Drops Carolina**

By Larry McCorkle

"We outmanned them, we outtested them. They were running around like chickens with their heads cut off."

South Carolina offense were second shutout of the season. Brey Arnn, Dennis Jessen and responsible for stopping the second half again st the Gamecocks. The scoring went Dubose, from Trinity freshman Winston Dubose saved to defeat the University of day with four second half goals knew they had been in a cheer.

"The first goal came unusually. Tim Hartnett, time it's happened this season. It was his his total output for last years cannot be overlooked ."

**But Drops 2-1 Decision To The Citadel**

By Larry McCorkle

The first goal came after a corner kick by Ron McDuffie. Bob Steadman, charging the goal, just missed the ball, but intimidated the goalie, causing him to drop the ball. Don Brown kicked the rebound through for a goal.

MARK Johnston, who hurt his knee the day before, squared the ball across the field to Andrzejdas who pushed it through for the second goal.

The third goal came on an individual effort by Bob Steadman.

After Steadman received the ball at midfield, he immediately faked out the first defender and then outpaced two others to the goal and beat the goalie.

The fourth goal came when right wing Dave Ikika, usually a reserve goalie, centered the ball to Tom Barber who pushed it through.

BRENNER Dubose, Rudy had glowing accolades for several of his athletes after the games

The scoring went

"The FTU's advantage was a forceful entry from its state title contender's in three

Certainly the play of Florida is a big concern for high school athletes in the North, but Gerry Gerlsey's building of FTU's program from a club sport into collegiate play in the rapidly growing state champs (including two each from Florida and New York) is certainly the lure of Florida...

**Cheerleading Squad Picked**

**New Grapplers Boost FTU Program**

By Larry McCorkle

Six new grappers joined forces with returning veteran of FTU wrestling practice begin last Monday at Oviedo High, but a lot of tradition was missed.

The missing tradition is Mike Clark, son of Coach Torchy Clark. After starting four years for his father and scoring over 2,000 points, young Clark has graduated.

But during his tenure at FTU, Mike Clark was able to see the team rise from club status, to varsity status and even further to its present level as a respectable intercollegiate team.

Bens helped placements still leave Torchy Clark optimistically smiling for the upcoming year.

High scoring netball, pole-vaulter John Smith, pole would be rough not being able to wrestle but all I can do is try my best and hope.

Mike Wasing has a special problem from the rest in that he is coming back to wrestling after a year off from the sport.

"I really missed it last year," explained the friendly youngster who played football at Ferrum Junior College as a freshman. Wasing was ‘72 Virginia state champion as a 150-pounder and had a 23-3 record in each of his last two years in high school.

"It's going to be tough, Joe Grobbe has more experience than I do. Sure, it would be rough not being able to wrestle but all I can do is try my best and hope."

ATOSurgesPastLXA; 
FacesRival'TKEMonday

By FredCay

ATOv.TKEis traditionally thegame on campus especially in flag football. This year's class is no exception.

Monday at 5 p.m. Alpha Tau Omega and Tau Kappa Epsilon will match their spoilless 4-0 records in the game which probably will decide the freshman title. It could be billed as the classic struggle between the league's top offense (ATO) and stingiest defense (TKE) but both squads are quite well-balanced.

As last year when ATO won 21-12, mistakes could decide the outcome.

ATO already has one obstacle behind it. Tuesday's game against Phi Delta Theta, upset conflag which saw ATO emerge winners over Lambda Chi Alpha by a closer-than-it-should-be 3-0 score.

The halftime count was 18-18 and matters still stood that way at the second-half two-minute warning. At that point, ATO was at the LXA one. Two plays later quarterback Jim Woldowicz fired over the middle to Fred Benan for a 65-yard touchdown, boosting the score to 30-12.

In the final 18-point margin.

Two seasons, starting with Randy Blankenhorn's 60-yard kick-off return and concluding with a Phi Delta Theta-Kevin Powers scoring bomb with five seconds to go.

It produced the best and closest contest in memory.

In between, Blankenhorn caught a 6-yarder from Jim Pietkiewicz to Fred Benan for a 24-12 lead. Two plays later ATO's Mike Batchelor scored, set up by a lifting block from McCordie and Dale Wise. More.

ATO's Bombers, 41-12.

Final Pick of the Week

A momentum switch-in 

But the officials, who had

With cornerbacks Howie Vandewater and Rod Rodriguez

The Dudes topped TKE II, 20-6.

Penalties slowed the game-it

The win over Flagler was a big one for FTU. It assured FTU that it can compete with the best in the state.

It was a good team effort.

It is a good example of returning starters Judy Hall, Andy Biler, June Fortney and Anne Kennedy, all spikers, form the starting team. This is Kennedy's third year as a starter.

The win over Flagler was a big one for FTU. It assured FTU that it can compete with the best in the state.

A good example is Miami-Dade South which has won the state tournament two of the last four years. FTU will not play in junior colleges until the state tournament.

This weekend FTU will play in the Jacksonville Blueoff Tournament in Jacksonville, St. Johns, Rollins, Miami, Florida State and Jacksonville will participate also.
