Committee Proposes Image Change

By Jose Rodriguez

The search for a new name for FTU has been set aside in favor of a different approach to correct the misnomer associated with a "technological" university.

A special committee on the name change reported to President Charles N. Millican Tuesday that surveys and opinion polls indicate the university community's desire to keep the present name.

Dr. W. W. Young, chairman of the special committee on the name change, began his opening remarks by saying the committee's findings had been objective and unbiased.

Young also said there was no administrative directive to arrive at any specific recommendation. "We have found general acceptance of the name (FTU)," Young said.

After these findings were reported, Millican entertained a motion to officially retain the present name until such time as the State University System decides to implement a uniform naming system.

Millican said after the meeting, "We, as a university, can not pressure the Board of Regents for a change."

Millican added that an attempt was made to change the names of the new universities to a uniform system at a recent BOR meeting. The change was defeated by a vote of five to four.

During the discussion of the motion, Dr. Charles N. Messerell, dean of the College of Humanities and Fine Arts, said the present name does some harm to those colleges not associated with technology. The harm is linked to the lack of recognition given to liberal arts sector because of the name, he added.

Dr. Bertand Kiesel, dean of the College of Social Sciences, "cautioned" that "mainfamation and lack of knowledge in the community exists about the university."

There is "need to get out and do a selling job," Kiesel continued.

A STUDENT referendum on the name changes showed 72 per cent of 717 students voting favored keeping the present name.

Academic Senate Chairman, K. Phillip Taylor, said the majority of the faculty polled favored keeping the present name.

Members of the special committee applauded Millican for allowing all different sections of FTU to have a voice in the formulation of policy.

Recommendations were made to improve FTU's image by providing more information on the purposes of the university. Millican said adoptions as to how to improve FTU's image outside the university would be welcomed.

SG Seats Filled; Turnout Small

By Steve Paulson

Student Government will hold a runoff election Monday to decide names for the Student Senate which ended in ties last week.

Elections Commissioner Thom costa said four of the races were tied by write-in votes. Before the special election, Costa will make an eligibility check to determine which write-in candidates will be on the ballot.

In order to qualify, the student must be in the class and college for which he is a candidate. He must be on academic probation.

In a referendum held in conjunction with Senate elections, three quarters of the voting student body last week favored keeping the name Florida Technological University. Of 717 persons voting on the resolution, 518 voted yes, 176 voted no and 22 had no opinion.

Those voting no were asked to submit their own suggestions provided they meet the following criteria: any name must contain "Florida" there are legal problems concerning variations of Central Florida; and the name must not be confused with the University of Florida or Florida State University. Suggested names have not been released by the Student Government.

In another referendum for transportation, one third of the voters said they would use a bus if it made more frequent runs to FTU. Half said they would not use the service and 12 per cent and they had no opinion.

A total of 753 students voted in this year's elections, 11.7 per cent of eligible voters. This was an increase of 5.6 per cent over last year but "far below," according to Costa, the expected number of voters.

The election Monday will use runoffs for Senate seats in the College of Social Sciences.

Somophmore class, the College of Natural Sciences, senior class, the College of Humanities and Fine Arts, junior class and the College of Education, graduate class, and the College of General Studies, senior class.

The number of seats for each class was proportioned according to the number of students enrolled in the class. For each 350 students, one seat on the Student Senate is allocated.

SG ELECTION RUNOFFS are scheduled for Monday, Oct. 29. Above, Sue Martin and Tom Garreau look on as Mary Anne Rudloff votes in the Oct. 25 - 26 election. (Photo by Alan Geselin)

Extra Curricular Activities Day Attracts High School Seniors

By Heather Henry

More than 900 high school seniors representing 14 area schools added to the crowds on FTU's sidewalks last Wednesday, Oct. 17, when they participated in ECA (extra curricular activities) Day.

There were 945 seniors registered, said Dr. G. Bill Brown, assistant vice president for student affairs. Brown estimated there may have been over 1,200 seniors on campus that day, adjusting figures for those who did not register.

Edgewater and Winter Park high schools had the highest number of students attending an event, each having more than 120 students participating.

MORE THAN 50 student organizations participated in displays along the sidewalks between the Kiosk and the Village Center (VC). FTU Chess Club had a display of equipment and a simultaneous tournament for all comers.

The Physics Society showed students a geiger counter, a voice graph and an oscilloscope and the carbon dating team on campus had displays of sporting equipment.

WORTH, otherwise known as the FTU Amateur Radio Club, set up their equipment on the VC patio and demonstrated the use of the two way telephone and telephone patch when they made a call to Bogota, Colombia, for an FTU transfer student to speak with his parents. During the day the club members spoke with different people in several dozen countries around the world.

University Television had free cokes and doughnuts for all who stopped in. Students, once shown how to operate the audio-visual equipment, actually did the broadcasting themselves.

Monitors were in the Library lobby, in front of the snack bar, by the Administration Building and near the Science Auditorium.

LAMDA Alpha Epsilon, the criminal justice Internity of FTU, had an Orange County sheriff's耐心 patrolled the event by Orange County Sheriff Mel Goldman.

The VC, which coordinated activities for the day, sponsored a band, "Alien Force," from Orlando, which played on the Village Green. A ping pong table was also set up by the VC to promote the upcoming table tennis tournament.

Academic open house was the order of the day and seniors visited classes in regular session in addition to talking with department and college heads.

Dr. W. Rex Brown, vice president for student affairs, said turnout was more than
Black Community Program Lacks Response

FTU organizations attempted to acquaint the Orlando black community with the educational opportunities available at FTU last Sunday, but poor attendance cut the program’s effectiveness.

Representatives from Student Government (SG), faculty and staff met with the local group, the Society Band.

The SG initiated program is aimed at getting a larger black enrollment at FTU by going directly into the black community and showing many educational opportunities to the people. FTU’s current black enrollment is less than one percent compared to 25 percent and 35 percent for other institutions in the state.

The program drew only a handful of blacks who were interested in continuing their education at FTU. The rest of the audience, approximately 20 people, was made up of SG members and FTU students and faculty concerned with the project.

“I just can’t understand it,” said SG president Lee Constantine. “We advertised on the radio and put posters up in the local stores. There really wasn’t much more we could have done. Maybe everyone was watching the World Series.”

According to Constantine the program, first of its kind to be held in Washington Shores, met with great approval from the faculty and staff. Representatives from Air Force ROTC and the Colleges of Education, Social Science, Humanities and Fine Arts, Engineering, Natural Science and Business Administration were there to answer any questions the prospective students might have.

Short informal speeches were given by representatives from admissions, veterans administration, financial aid and FTU Co-Op before a general question and answer session began.

Ward Interns In Washington

PRE-LAW major Ginny Ward became the first FTU student to intern at the federal government level this summer when she joined Congressman Frey’s staff for college credit.

According to Dr. William Hufnagel, chairman of the political science department, FTU usually averages about six to seven interns per quarter at state and local level.

Miss Ward, president of the College Republicans, had worked with Congressman Frey on several occasions and communicated with his office through the campus club of College Republicans.

MISS WARD mer weitered many prominent congressmen, senation and dignitaries.

Miss Ward’s job started June 20 and her work day began at 8 a.m. Although a regular day was scheduled until 5 p.m., it was not uncommon for her to work as late as 7:30 p.m. when Congress was in session, she said.

The intern’s role in Washington was widespread and flexible to be able to make the most out of the time spent there.

The winners are:

- College of Social Sciences
  - Freshman Class: Carol Rudy, Wood Wilson
  - Sophomore Class: Mary Ann Caldwell, Brian Harris
  - Junior Class: Larry Cook, Jim Davis
  - Senior Class: Dawn Colborn, Bill Powers
  - Graduate Class: Woody Story

- College of Business Administration
  - Freshman Class: Gene Racet, Rick Walker
  - Sophomore Class: Mary Ann Vicker
  - Junior Class: Tim Carroll
  - Senior Class: Jack Stranti

- College of Natural Science
  - Freshman Class: John Kelley, Krista Storczy
  - Sophomore Class: Michael J. Tortorrella
  - Junior Class: Iva L. Brehm
  - Senior: Todd S. Turner, Shirley Body, runoff election

- College of Humanities and Fine Arts
  - Freshman Class: Nancy Beagoun
  - Sophomore Class: Christine Hufnagle
  - Junior Class: Steve Matz
  - Terry Crisp, runoff election
  - Senior Class: Dan Grower

- College of Engineering
  - Freshman Class: Dean Brandy

The Air Force ROTC College Program has 3 things to offer that other college programs don’t.

Walking Cadaver

The death spectre walked through the audience of the rock-and-roll band outside the Village Center. A brown-haired singer's voice was drowned out by an Allman Brothers' song, but her lips could be read without mistake. "That's it," she asked her boyfriend.

Both girls just shook their heads. They weren't sure.

No one in the DEA day crowd could be sure why the figure dressed in white face, a hooded robe with a chain around his neck, was walking among the mob, nodding at anyone who caught his eye.

Heads turned when the singer walked by, some paused to ask, some just looked bewildered.

The last girl walked, and patted the figure on the shoulder. Maybe the dead girl understood better than the living, what it was to "stay away from me!"

The death figure was even asked by one male student if he were a member of the Ku Klux Klan. Death just looked him in the eye, then turned and went into a scheduled of this year's stage productions.

Richard Goodwin, Oviedo junior, was dressed in the black robe with a chain around his waist-was stalking through the mob, nodding at anyone who caught his eye.

Heads turned when the killer walked by, some paused to ask, some just looked bewildered.

The walking cadaver won reaction from almost everyone at the carnival, but Goodwin said he could not get any response from the dead man booth, where several matches were in play, although he passed by seven or eight times.

**DEATH**

One student probably summed the reaction for quite a few people, when the Corps walked by, the student looked him up and down, shook his head, smiled and said, "That's pretty weird, man."

SFG Refutes Pamphlet Critics

BY JOSE RODRIGUEZ

According to student Government President, Lee Constantine, the proposed birth control pamphlet is "accurate and in the final stages of editing and approval." Constantine said, "Poor gynecologists, an abortion clinic and the students' health center have checked the proposed pamphlet for accuracy."

"The story in the last week was very negative and misleading about the pamphlet," said Constantine, "but Dr. Stoner saw no objections to the pamphlet (Dr. Edward W. Stoner is the director of PTU's Student Health Center). In fact, he was quite favorable to the idea and 'operative with the pamphlet.'"
Dorm Coeds Beware!

Editor: Last Saturday, at approximately 11 p.m., an intelligent young lady living in the dorms opened for the door and found herself looking at six foot stranger supposedly selling magazines.

After she refused to allow him to talk his way into her room, she closed and locked the door. She called and reported the incident to the campus police. Officer Jordan arrived within two minutes and picked the man up in the dorm.

The amazing part of this story is that MM was in several of the girls' rooms and had even sold a subscription.

The only problem was that he did not have any authorization to do any kind of selling on campus.

Home is a problem at Florida State, the University of Florida, the University of South Florida, etc. Must we have this at FTU too?

Darn it, women! I'm talking to YOU. Must we have a rape here so you look before you open the door? Ask who it is before you turn the lock.

Elmer Stiefert, President - Residence Hall Association

Energy Crisis Light Brought

Many articles have appeared in all of the college newspapers in the last few years which have presented concepts concerning man's beneficial relationship to his environment.

There is no question that many of the developmental activities in which man has been engaged need improvement. Without realistic balance of restraints, our country and its people face destruction in the near future.

The energy crisis which exists today is in its history. Few people appear to have a realistic appreciation of the situation that exists. Even federal legislators, by their actions, have demonstrated a lack of comprehension. They are not alone in this regard, for few of the people on the college scene have any better understanding. This is unfortunate because it is on the college and university campuses that the sentiments of our people are molded and the greatest store of information is to be found.

Our organization, which represents a small group of professionals, people here in California, has prepared a newsletter for distribution here to the college and university campuses in the far west. The information which is contained in the newsletter is timely and of the utmost importance. It answers many questions which must be answered at this time both with respect to the exigencies of the energy crisis and the procedures of the United States over the last quarter century.

The question posed is the most important of our time.

James B. Anderson
Executive Director
California Professional Society P.O. Box 12396 Sacramento, Calif., 95814

WB4TCW

FTU Radio

Editor: There was mention of it in the ECA day article. No pictures were printed of it. So most students were probably unaware that FTU's "oddly" radio station, WB4TCW, was operating on the FTU Amateur Radio Club from the Village Center during ECA day from 10 a.m. to 4 p.m., which it more than can be said for most of the other organizations that threw in the towel when it rained around 2 p.m. and did not come back.

About the rain: we located our equipment on the sidewalk in the VC just in case, and we were glad we did. The next time any such activity is planned, we would be a good idea to utilize more of the sidewalk area.
Juge Returns Home After BOR Stint

Dr. F. E. Juge returned to FTU this year after serving two years with the Board of Regents in Tallahassee. Juge was once leave from FTU, acting as the university’s first representative to Tallahassee. Juge has been an original staff member at FTU since 1968.

Juge served in many positions during his two years in Tallahassee. He was director of science and engineering, handling new programs in this field. He also evaluated existing programs and acted as chairman of the Council of Engineering Deans. Juge had a seat on the Instructional Technology System Committee and became a registered legislative lobbyist.

The staff system at Tallahassee is similar to FTU’s with Dr. Robert Maier heading the staff as chancellor. Juge worked under Vice Chancellor Allen Tucker.

Juge said all in all it was an eye-opening experience. He learned how the university and legislative systems operate.

Juge contended FTU has real potential and is the only state four-year university that will continue to grow and develop new programs.

Even though the legislature is pressuring Tallahassee to cut down on new programs, FTU is still able to start them. Judge said these new programs are essential for serving this area and helping the university grow.

Juge is now serving as associate dean of the College of Natural Sciences and is associate professor of chemistry. Juge said he is glad to be back in Orlando and enjoys teaching more than anything else.

Juge has been replaced in Tallahassee by another representative from FTU, Dr. Lawrence Tanzi, associate professor of Humanities and Fine Arts, who will return in two years.

ACM Meeting Set

FTU’s local chapter of the Association for Computing Machinery (ACM) will have its first general meeting of the year Thursday in the Science Auditorium. A social from 10 a.m. to 10:30 a.m. will be followed by a business meeting from 10:30 a.m. to 11:30 a.m. All members and prospective members are invited.

Bill Branch, assistant director of FTU computer services, will speak on the services provided by the computer center. A tour of the center will be provided for all those interested.

The ACM is an organization open to all computer science and business majors. It seeks to provide interaction between the two groups so they will be better able to cooperate in their various fields after graduation.

The ACM, with a membership of nearly 80 members, is headed by the executive council. The newly elected officers are Ralph Macon, chairman; Chris Mercer, vice chairman; Olivia Mathieu, secretary, and Dave Wolling, treasurer.

To ensure equal representation between both computer science and business majors, each member of the executive council must appoint an assistant from the opposite major.

The ACM strives to present their members with an overall view of the career they have chosen.

Paul McCartney: Dead or Alive?

The alleged death of Paul McCartney and its effect upon our society was the subject of an article written by communications professor Kenneth G. Sheinkopf and FTU graduate Mark H. Weinst. To be eligible for the federal tutorial assistance funds, assistance may be obtained by newly appointed veterans under a new nationwide policy being adopted at the veteran is experiencing tutoring fee must be set and approved by the college dean. The review was impressed by the article, but felt it was more suited to popular culture. Sheinkopf said he and Weinst contributed equally to the article. He said he feels the success of the article shows that students should not feel cooperation in areas of common interest. Sheinkopf added that he hopes to see more of this.

Campus Glance

Veterans requiring tutorial assistance may obtain $50 per month to pay for the service under a new nationwide policy being adopted at FTU. According to Kent Kennedy, newly appointed veterans counselor, as much as $440 in federal tutorial assistance funds may be utilized by each veteran.

To be eligible for the assistance, four conditions must be met. The veteran and his college must together find a suitable tutor, personnel in the veteran’s college department must certify the tutor’s competency, and the tutoring fee must be set and approved by the college dean.

FTU Health Services

Cut Working Hours

Working within a budget cut by $16,917 from last year, the Student Health Center has discontinued its 24-hour service. This is the first year the Center has been unable to retain the around-the-clock schedule.

Dr. Edward Stoner, director of Health Services, blamed the 1973-74 fiscal year budget cuts for the loss of the 24-hour service. The center is now open from 7 a.m. to 11 p.m.

The approved budget provides $106,387 for Health Services operations, according to FTU’s comptroller, Joseph Gomez. Last year the Health Service’s budget was $123,204. Neither figure includes money being generated at the center by the sale of medicines.

FTU’s Health Service has the lowest medical service budget among Florida’s state universities, said Stoner. From the $34,690 Student Activity and Service Fee, the Health Service receives $6,50 per student. This is the biggest “piece of pie” allotted to any service or organization on campus according to Gomez.

Free Rock Concert

Sponsored by SG

A concert featuring “Miami,” a band from Sanford, will be sponsored by Student Government (SG) at the Lake Claire recreation area Sunday, from 1 p.m. to 5 p.m. Students are to bring their own beverages and food to this free concert. Weather permitting, students may go swimming and canoeing in Lake Claire. In case of rain, the concert will be held in the Multi Purpose Room.

During the summer, SG sponsored a similar concert with more than 500 attending. Hunter Potts, SG vice president said, he hopes there will be concerts like these every quarter as long as participation continues.

Murdock Stays Busy

Mike Murdock is a busy man. He is the coordinator of Men’s Intramural Sports, president of the FTU Engineering Society, and an officer in the Marine’s Platoon Leader Corps (PLC) and an FTU senior majoring in physical education.

Murdock distinguished himself in the PLC last summer by attaining the highest average in his senior class of 857 candidates. The PLC is the Marine’s version of ROTC.

Two summer classes, taught a year apart, are comparable to book camp for a Marine enlistee. The rugged training whittled Murdock’s senior platoon from 40 to 18 candidates. Fifty per cent of PLC grading stresses academics and physical fitness while the other 50 per cent stresses leadership alone.

A three-year commission with the Marine Corps is a 2nd Lt. Murdock after graduation. While in the service he hopes to earn his Master’s Degree and to join the Physical Fitness Academy, where exercises are developed and physical training programs are formulated for the Marine Corps.

Military VIP Visits FTU

Col. Peter D. Sumner, commandant of the Southeastern Regional Student Chapter of the National Society of Professional Engineers.

"How to Improve Professionalism in Engineering" was the subject of the conference which is held annually and was attended this year by 10 colleges from the states of Tennessee, North and South Carolina, Alabama, Georgia and Florida.

The public is invited to hear Mr. Lent, who spoke at the conference and will be speaking at this week’s chapter meeting of the NSPE on Tuesday at 11 a.m. in the Engineering Center (VC) room 9-10, EN 50.

SG: Vary Teacher Evals

The Faculty Senate Instruction Committee recommended each faculty member select his own method of obtaining the required student evaluation of his teaching effectiveness, said Student Government (SG) President Lee Constantine. Stating the faculty is worried about obtaining a standardized form, Constantine said SG members favor a form serving according to the course involved.

"Students want the right to evaluate teachers on a student basis...we are their customers," Constantine said.

One evaluation method considered by SG would have 10 questions, their nature depending upon the type of course and what college it is offered.

One open ended question concerning the instructor's possibility for improvement would be answered by students and this information would be retained by the instructor.

"The Miracle Worker" is set in the early 1900's, when Helen Keller was a child. The play will focus on the events in Helen's life that lead to her eventual graduation from university, and will be staged in the University Theater on November 1st. The play will feature a cast of actors who will bring to life the characters of Helen Keller and her teacher, Anne Sullivan. The play is directed by Frances Johnson, who has been working closely with the cast to ensure a faithful representation of the story. The play will run for three performances: November 1st, 2nd, and 3rd. Tickets for the play are available at the University Theater box office, and are priced at $10.00 for general admission and $5.00 for students. The play is rated PG, and is recommended for audiences aged 12 and up. The play is produced by the Student Union and is part of the university's ongoing commitment to outstanding theatre productions.
In Home Match

Wednesday, the day before the Jax match it will be DeZeeuw vs. Walker and Graham vs. Penn.

Horvath's Hitting Paces Fall League

Jim Horvath ranks in the league batting and Mike Polling the top pitcher after three weeks of FTU's fall league baseball. The team stands 4-5 as of Tuesday. Games are played Mondays, Wednesdays and Saturdays with most at Tinker Field.

Shortstop Horvath, who "has come a long way since last year," according to Coach Doug Holmquist, is batting .400 with six runs scored and seven RBIs. Pulling his big inning in most need, Mike Polling, the top pitcher, is 3-1 with a 2.03 ERA while Steve Hargest is 2.1.

TKE Comeback opples ATO, 19-14

By Fred Cay

What had seemed to be a convincing FTU's fall football team for the first half. A TKE comeback in the game's conclusion, FTU was ahead of Eckerd in score on goal by a 14-10 margin. Excellent midfield play by Bob Steadman was also responsible for the first half. Steadman was all over the field-shotting, passing, head-foot flying through the air. But his Douglas Fairbanks maneuvers were stopped by the TKE defense.

In the second half, Eckerd controlled the play with two goals by FTU goals Winston Dibou to wind up the scoring. Perhaps it was the wind. Perhaps FTU simply lost its

Knights Fall To Eckerd In 2nd Half 3-1

By Larry MacKinley

In probably FTU's most important game of the school's history, two quick second half goals by Eckerd killed a Fighting Knights collapse over a youthful FTU squad, 3-1, last Tuesday afternoon.

A crowd of about 200 people watched Eckerd, formerly Florida Presbyterian, jump out to a 3-0 lead midway through the first half, on a shot by Mark Bremer, a foreign exchange student from Germany. Bremer, who had scored all three goals in Eckerd's 5-2 win over Rollins the day before, comes into the game with such a respected reputation that Coach Jim Rudy virtually had to stay with him.

Then Arnn was picked as the man for the job, and indeed, Arnn did quite a job. Time and time again Eckerd tried to lead their big gun the ball but Arnn and Bremer did not want the damage was done and Eckerd led 1-0.

FTU retaliated later in the first half. A chip shot by Don Brown was headed in by (Boom Boom) Campbell vs. Chi

MIDFIELDER BOB STEADMAN, FTU's all-time scoring assist leader, out of enemy territory and headed downfield closely pursued by an Eckerd defender in Tuesday's 3-1 loss as Don Brown, left, and Dennis Jessen stay alert on defense. (Photo by Jim Matthews)

FTU Places Face Jax

FTU's tennis squad will face Jacksonville in a rematch on campus Thursday afternoon at 2:30 p.m. It is the only home match scheduled for the fall portion of the Knights' schedule. Jacksonville trimmed FTU, 6-4, in Jacksonville Oct. 31. The Knights' no. 1 player, Octavio Pina easily won his match 6-0 and 6-2, while no. 2 Mike DeZeeuw and no. 3 Dennis Jessen also won their matches in straight sets.

Lose doubles winners for FTU were the no. 2 team of Pina and Neil Sherman.

The eight players on this year's team are currently involved in round-robin matches to determine final starting positions. Two of the seven rounds have been completed.

Today's matches will be Pina vs. Mike Walter and Emilio Salim vs. Smith to wind up round three Monday it will be DeZeeuw vs. Smith and Trevor Graham vs. Walker.

Tuesday hosted Faces Jax and Luce battles Salim.

The team captain Dave String is hitting .350 with six RBIs.

KTE QUARTERBACK Mark Denno flips a quick pass out to receiver breaking downfield against ATO Monday. Denno, used the short pass effectively to lead his team to a 19-14 triumph. (Photo by Jim Matthews)

Big Interception Turns Tide For TKE

ATO 4th Down Pass Proves Costly

By Fred Guy

Hours after the big game had ended, one pivotal play was still fresh in the minds of participants from both sides in TKE’s 39-14 win over ATO.

"That play early in the second half when we had 42- and one at our own 19 and threw an interception was the turning point," recalled ATO coach Mark Stockwell. "I knew if I sent (Bob) Matousek in to punt that Jim (Piekiewicz) would send him back out and go for the first down anyway."

PERTHWOOD’S NO MORDER agreement at Stockwell’s remark. "I would have gone for the first down even if Mark had sent Bob in. It was a mistake and probably cost us the game. If we punted they would have had to go a lot further for the TD instead of being inside our 20."

After Howie Vanderwater picked off the short lob pass, quarterback Mark Denno ran 12 yards for the score which cut the margin to a bare one point -- 10-9.

"We had good blocking, too," he added. "Their rush didn’t get me off balance.

VANDERWATER, POSSIBLY the league’s best cornerback and undoubtedly TKE’s no. 1 hero on a big day, wouldn’t accept all the credit for his three interceptions.

"They were caused by a good rush," he stated. "I’m sure that first one was the turning point. Dale Wise put a good rush on him (Piekiewicz) and he had to roll over and throw it. I just happened to be in (Greg Gavel’s) zone, too."

LXA Tackles TKE; Tyes Win V-Ball

One more big game remains in the flag football fraternity league—Monday’s battle of front-runner Tuska Episcopal and contender Lambda Chi Alpha. An LXA win would throw things into a three-way tie among TKE, ATO and LXA. A TKE win would send the Friars into the Nov. 6 campus championship.

LXA’s fine corps of receivers, led by Randy Blakeship, league scoring leader, and Lewis Jones and Joe Delvigo pose the main threat to TKE’s stalwart defense.

LXA WARMED up with a 34-13 win over Kappa Sigma Monday. Also Monday, Sigma Chi beat Chi Omega Alpha 26-0 and Sigma Alpha Epsilon blanked Chi Phi 27-0.

On the independent side, the Bowden brothers continued to roll undefeated to the Nov. 5 playoff game, which will be previewed next week.

The undefeated Tyes clinched the women’s volleyball championship Monday with a convincing 15-6, 15-6 sweep of Crew Team. On Monday Tri-Delta edged the Buddies 15-2, 15-17, 15-12 to nail down second with a 5-3 mark.

In THE WOMEN’S racquetball tourney, Tri-Delta’s team of Claudia McGee and Jo McMenem beat the Independents’ J. J. Eiller and Morgan Waits. Texas Tech team play Tye’s Linda Young and Linda Shurt for the title Monday at 4 p.m.

Good tennis doubles’ entry dimension I rolled out, with play beginning Wednesday. Good volleyball play also starts Monday.

Lifters Need More Men

FTITS Weightlifting team, which will host the Florida Open Weightlifting Championships Nov. 2, is still looking for new members in all weight classes.

The Ftfts team, second in the 1973 Nationals, will host the meet in the Village Center Assembly Room. To competition, sanctioned by the Florida Weightlifting Association, will consist of two Olympic lifts, the snatch and the clean and jerk.

Interested students should contact John Bittinger at 671-500 or Harvey Newton at P. O. Box 1101, Winter Park, Fl.

More than 2,000 Americans took summer jobs in Europe and earned most of the trip cost, as well as money for traveling once they were there. All of the jobs paid standard wages, and provided free room and board. Jobs, working permits, and living accommodations issued on a first come, first serve basis, are arranged in advance by Student Overseas Services (SOS), a non-profit student-run organization which has been in operation for 14 years. The SOS also provides a job orientation in Europe.

Any student interested in a winter or summer job in Europe should obtain a copy of the SOS Handbook on earning your way in Europe. The handbook contains a job application form, job listings and descriptions. To obtain more information, contact SOS-Student Overseas Services, Box 5217, Santa Barbara, Calif. 93109.

### FTU Ranks Fifth in Enrollment

Preliminary enrollment figures released Oct. 5 by the Florida Board of Regents rank FTU fifth in student enrollment after University of Florida, Florida State University, University of South Florida and Florida Institute of Technology.

The headcount represents fee-paying, non-fee-paying and continuing education students. The BOR enrollment figure for FTU is really an estimate, said John B. Boone, associate vice president for academic affairs. The BOR figures were determined by combining FTU prediction of 7,200 fall enrollment with last year's number of continuing education students.

According to the Office of Academic Affairs, the actual on-campus enrollment is 7,410, not including continuing education students. When their number is derived and added, FTU's total enrollment may exceed the BOR's 7,700 estimate.

Although FTU's BOR enrollment figures increased by 300 students in 1973, FTU still dropped in BOR ranking from fourth in 1972 to fifth this fall, having been overtaken by Miami based FIU.

The State University System has increased its population by 6,25% per year, an increase of nearly 6,000 students. The preliminary figures show approximately 99,000 students enrolled this fall quarter. Of that number, 30,000 are expected to be fee-paying students.

The BOR also announced that Marshall S. Crier of Palm Beach will leave the vice chairman to become chairman of the Regents. The new vice chairman will be James J. Gardner of Fort Lauderdale. Both men assumed their respective positions this month and will be elected to one year terms in January.

### News In Brief

More than 2,000 Amercians took summer jobs in Europe and earned most of the trip cost, as well as money for traveling once they were there. All of the jobs paid standard wages, and provided free room and board.

Jobs, working permits, and living accommodations issued on a first come, first serve basis, are arranged in advance by Student Overseas Services (SOS), a non-profit student-run organization which has been in operation for 14 years. The SOS also provides a job orientation in Europe.

Any student interested in a winter or summer job in Europe should obtain a copy of the SOS Handbook on earning your way

In addition to these projects, the pledge class will also plan and arrange for their own bond issue and dedication ceremonies.

The Arnold Air Society is the professional society of the Air Force ROTC program.

### A Series of non-credit real estate courses are being planned by the Board of Regents for a new quarter, according to Dr. Ronald Newell, community services coordinator.

These courses are designed primarily for professional practitioners in the real estate field, although Newell said they are available to full-time students.

"The real estate program is intended to fill special needs for professionals in this field. It is designed to upgrade the professional practitioners," Newell said.

He said condominium management, finance programming and shopping center management are among the subjects to be covered.

Newell is meeting with real estate personnel to survey the market and design courses for the program.
