YOUNG also said there was no administration directive to arrive at any specific recommendation. "We have found general acceptance of the name (FTU)," Young said. After these findings were reported, Millican entertained a motion to officially retain the present name until such time as the State University System decides to implement a uniform naming system.

Millican said after the meeting, "We, as a university, can not pressure the Board of Regents for a change." MILlican added that an attempt was made to change the names of the new universities to a uniform system at a recent BOR meeting. The change was defeated by a vote of five to four. During the discussion of the motion, Dr. Charles N. Macrilli, dean of the College of Humanities and Fine Arts, said, the present name does do some harm to those colleges not associated with technology. The harm is linked to the lack of recognition given to liberal arts sector because of the name, he added. Dr. Bertm Civel, dean of the College of Social Sciences, "cautioned" that "mainformation and lack of knowledge about the uniwersity, exists about the university." There is "a need to get out and do a selling job," Kessel continued.

VOTES FOR a head of state were being counted by the University Television float at the University of Central Florida. University Television had free time to show their float at the University of the World event.

The students said they would use the service for more than one third of the time they would not use the service and 12 per cent had no opinion. A total of 753 students voted in this year's election, 13.7 per cent said they had no opinion.

The election Monday will determine the senior class, the College of General Studies, the College of Social Sciences, the College of Humanities and Fine Arts, and the College of General Studies, senior class. The number of seats was proportioned according to the number of students enrolled in the class. For each 250 students, one seat on the Student Senate is allocated.

More than 900 high school seniors representing 14 area schools added to the crowds on FTU's sidewalks last Wednesday. Oct. 17, when they participated in BCA (extra curricular activities) Day. There were 945 seniors registered, said Dr. C. Bill Brown, assistant vice president for student affairs. Brown estimated there may have been over 1,200 seniors on campus that day, adjusting figures for those who did not register.

Edgewater and Winter Park high schools, had the highest number of students attending a total of 120 students participating.

MORE THAN 50 student organisations participated in the September conventions along the sidewalk between the Knob and the Village Center (VC). FTU Chess Club had a display of equipment and a simultaneous tournament for all comers. The Physics Society showed students a geiger counter, a voice graph and a oscilloscope and the Physics club also had displays of sporting equipment. WBC5, otherwise known as the FTU Amateur Radio Club, set up their equipment on the VC patio and demonstrated the use of the two way telephone and telephone patch when they made a call to Bogota, Colombia, for an FTU transfer student to speak with his parents. During the day the club members spoke with different people in several dozen countries around the world.

University Television had free cakes and doughnuts for all who stopped in. Students, once shown how to operate the audio-visual equipment, actually did the broadcasting themselves. Monitors were in the Library lobby, in front of the mezzanine, by the Administration Building and near the Science Auditorium.

LAMBDA Alpha Epsilon, the criminal justice fraternity of FTU, had an Orange County sheriff's patrol car donated by Orange County Sheriff Mel Colman.

The VC, which coordinated activities for the day, sponsored a band, "Alley Foxes" from Orlando, which played on the Village Green. A ping pong table was also set up by the VC to promote the upcoming table tennis tournament.

Academic open house was the order of the day and seniors visited classes in regular session in addition to talking with department and college heads. Dr. W. Rex Brown, vice president for student affairs, said turnout was more than
The SG initiated program is aimed at getting a larger black enrollment at FTU by going directly into the black community and showing many educational opportunities to the people. FTU’s current black enrollment is less than one percent compared to 25 percent and 35 percent for other institutions in the state.

The program drew only a handful of blacks who were interested in continuing their education at FTU. The rest of the audience, approximately 20 people, was made up of SG members and FTU students and faculty concerned with the project.

"I just can’t understand it," said SG president Lee Constantine. "We advertised on the radio and put posters up in the local stores. There really wasn’t much more we could have done. Maybe everyone was at home watching the World Series."

According to Constantine the program, first of its kind to be held in Washington Shores, met with great approval from the faculty and staff. Representatives from Air Force ROTC and the Colleges of Social Science, Humanities and Fine Arts, Engineering, Natural Science and Business Administration were there to answer any questions the prospective students might have.

Short informative speeches were given by representatives from admissions, veterans administration, financial aid and FTU Co-Op before a general question and answer session began.

Engineer Appointed HFA Building Boss

A contract manager with the authority to direct construction on the Humanities and Fine Arts Building has been chosen by Paul Daisey, director of the Tampa, architectural firm handling the project.

With the completion date already set back by five months, the project has been delayed by the actions of subcontractors, each with separate contracts, and no one central figure to coordinate construction, said Fred Clayton, Physical Planning director.

Penza Associates would not release the coordinator's name but a spokesman indicated that final preparations were being made and the identity would be released sometime this week.

John Young, project manager for the construction supervision section with the Department of General Services (DGS), said the man chosen is an engineer with 20 to 30 years experience.

Pearson said the manager will be the central figure with an authority to direct subcontractors to perform work within their contracts.

Walking Cadaver Intrigues Crowd

The death spectre walked through the audience of the rock-ballad band outside the Village Center. A brown-haired girl's voice was drowned out by a song, an Allman Brothers' song, but her lips could be read without mistake. "That's it" is the reply she asked her friend.

Both girls just shook their heads. They weren't sure.

No one in the DCA day crowd could be sure why the figure dressed in white-face, a hooded black robe with a chain around his neck turned to look at, nodded at anyone who caught his eye.

Heads turned when the specter walked by, some people laughed, some just looked bewildered.

One girl walked by and patted the figure on the shoulder. Maybe she understood and felt sorry for him. More than one person avoided meeting him on the face, showing what ever-it was to "stay away from me!"

The death figure was even asked by one male student if he were a member of the Ku Klux Klan. Dick said looked him in the eye, then turned and went into another song, a recorded one.

This Shakespearean "moral coil" was in flesh and blood but the voices of the people with FTU's Theatre Department distributing a scheduled of this year's stage productions.

Richard Goodwin, Oviedo junior, was named in the part of Death in the 1971 Shakespearean production of "Legacy of Cain."

Goodwin explained his preparedness of whatever his part: "I simply give a person a nod and if they stop me I give them a warning." He said.

The walking cadaver won reaction from almost everyone at the carnival, but Goodwin said he could not get any reaction from the cheer club booth, where several matches were in play, although he passed by seven or eight times.

The original completion date was set for the spring semester, but Clayton said the earliest date the building can be completed is November.

"NOBODY can put the construction back on schedule," Clayton said.

The delay will probably run up the cost on the $3.1 million construction job, Clayton said, but "nobody is quite sure to determine this amount now."

The most expensive loss is the use of the building, Clayton said, because the university needed the building this year.

 THIS experimental construction was a "total balloon" tried by the DGS. The Humanities and Fine Arts Building was the first job the state to use this type of individual subcontracting.

The People's Cultural Action Organization from South America recently toured FTU. From left to right are Dr. Hernandez Bernal, Noroh Gutierrez, Mag. Jose Joaquin, and Marta Restrepo. (Photo by LEWIS)

SG Refutes Pamphlet Critics

By Jose Rodriguez

According to student Government President, Lee Constantine, the proposed birth control pamphlet is 'accurate' and in the final stages of editing and printing.

Constantine said, "Poor sociology, an abortion clinic and a social planner will check the proposed pamphlet for accuracy."

"The story in the last week was very negative and misleading about the pamphlet," said Constantine, "but Dr. Stoner saw no objections to the pamphlet (Dr. Edward W. Stoner is the director of PTU's Student Health Center). In fact, he was quite favorable to the idea and 'operative with the pamphlet.'"

CONSTANCE ANSWERED questions raised by Deans of Women Carol P. Wilson, and Dean of Men Richard Goodwin. Constantine said, "Dean Wilson's comments are based on professional wording and was in poor taste. According to Constantine, the doctors and the executive board are responsible for offering recommendations to the students and the university."

DEAN WILSON felt the pamphlet lacked accuracy, professional wording and was in poor taste. According to Constantine, the doctors and the executive board are responsible for offering recommendations to the students and the university."

As to the reference concerning professional wording and good taste, Constantine said, "Dean Wilson's comments are based on professional wording and was in poor taste. According to Constantine, the doctors and the executive board are responsible for offering recommendations to the students and the university."

A MEMORANDUM from Dean Wilson to Constantine recommends the pamphlet be rewritten because its basic underlying assumption is that sexual intercourse is a common part of every college students' everyday life.

The executive board of the Residents' Housing Association (RHA) Sunday appointed eight students to the RHA Judicial Board for one year term.

The judicial board is responsible for offering recommendations to the residents and the university. The board is charged with the job of being responsible for offering recommendations to the students and the university."

Newly appointed members are chairman Bruce Newell, Chuck Cranston, Dave McHale, Randy Garrett, Ruth Lippincott, Rhonda Hunter, Virginia Bewalter, and Dorothy Glazewski and alternate Steve Wilson.

When a student elects to have his case appealed before the judicial board, the appropriate dean makes the decision after reviewing the board's recommendation. The student can appeal.

If the student chooses an administrative hearing, all right of appeal is forfeited and the decision regarding the student's innocence and possible punishment rests solely with the judge.

This year the first in which the RHA Judicial Board is in operation. Previously the judicial board was composed of male and female student representatives.

Five new members were elected this week to positions on the Resident's Housing Association executive council.

Kathy Donaldson was elected vice president, and Dwight Dayker was elected chairman of the constitutional committee. Monde McLeod will be working with the social committee and Dean Brantly is assigned looking into possibilities for an ice machine in the dorms' store. Vickie Blakensfield was also elected in the council.

ACPO BROADCASTS to farmers in rural Colombia beginning at 4 a.m. Classes start at 6:00 a.m., 1 p.m. and 6 p.m. Each class is repeated twice during the day on regular AM waves and six times per day on shortwave. The program for the entire week is rebroadcast on Saturdays. Every year each student is tested to show his progress.

After the luncheon the group went to a teaching session where Hernandez and Serna gave a demonstration of how to find amino acids through a microscope, which was video taped by the Colombians.

Two sections of Payas's Spanish literature classes browsed in Oviedo to learn more about the Colombian culture. All sections of ACPO's courses faces in Colombia.

The GROUP also toured FTU's broadcast facilities, university television and WFTU radio, and met with Dick Cornell, director of instructional media.

A last stop of the tour of FTU was a meeting with Governor Helton in which the group gave farewell speeches.

The group consisted of President Charles N. Millington, presented as president of ACPO to the University and Gallego of the FTU seal and a university pennant.

The trip visited Walt Disney World and Kennedy Space Center and a cruise on the St. Johns River before touring the University of South Florida in Tampa.

EDITORIAL
Campus Media Needs Recognition

THE FOLLOWING is the content of a memorandum to Student Government President Lee Constantine:

The Future received a copy of a memorandum to university President Charles N. Millican about the name change...

If you provide a brief background on the circumstances which led to the specific name change recommendations on behalf of the students...

THE DETAILS on the student referendum on the name change are being made in a response to your Future letter.

We believe ample prior coverage was given. Two weeks prior to the elections and referendum, we began to print articles concerning the candidacy deadline for student elections (see Oct. 5, 1973 issue p.5).

The day prior to the week prior to the election, we again printed a story on the elections in all but one of the names of the candidates for office (see Oct. 12, 1973 issue p.2).

WE ARE a part of the Student Government memorandum which is inaccurate reads as follows:

"... it is interesting to note that the campus newspaper, the media of the university, did not even mention one word concerning voting in their election day issue..."

We feel that an oversight may have occurred. However, publication of articles prior to the election along with advertising made the student body aware and informed of the upcoming elections.

We would like to correct the assumption that the Future is the sole medium on campus for the dissemination of news.

WE BELIEVE why KWTU radio and FTU "Prospectus" television reach only a limited audience. They also are part of the campus media and should be given their deserved recognition.

These two media show great future growth potential and should not be taken lightly. We would caution any future blanket statement referring to any of news medium as the sole spoke "spokesmen" for the university.

The Future recommends on behalf of all the media that there be support by Student Government to manage or withdraw information.

WE CAN ALL better serve the student body by promoting an atmosphere of student activity and growth. We believe that these student activities are not mutually exclusive.

It is evident that news priorities are viewed differently by different individuals.

Copies of the memorandum are being sent to President Millican, WFTU radio and "Prospectus" News.

HIDDEN THOUGHTS

By William Lee Hidden

The Administration of FTU likes to view the university's increasing student enrollment as a sign of its overall fantastic job. If it is not true, any thought of a name change would be absurd.

Some members of the faculty feel the current name should have no adverse affect on enrollment if a good recruitment program is initiated. The current recruitment program does nothing to enhance student interest.

The recruiters are unaware of what students look for in a university today and more often than not confuse them. If they would initiate more involved recruitment, reminding students that FTU is more than an engineering college, more interest might result. The Orlando area would become apparent.

The administration has heard complaints from student faculty members who show favoritism in grading if it expects to gain any reputation. One such professor is no longer here, and from talking with other students and drawing from my own experience, there are still some to go.

The faculty and administration have shown their complete lack of concern for student interests on various occasions. The name change itself, when it first began, was a perfect example of the administration failing to consider student AND faculty opinion.

When the ten year halt on dorm building is lifted, I hope this administration wastes no time in building more adequate facilities. Unless, of course, the administration prefers an apathetic and docile student body.

The faculty and administration have abused their complete lack of concern for student interests on various occasions. The name change itself, when it first began, was a perfect example of the administration failing to consider student AND faculty opinion.

When the ten year halt on dorm building is lifted, I hope this administration wastes no time in building more adequate facilities. Unless, of course, the administration prefers an apathetic and docile student body.

The Future reserves the right to refuse to print letters which are submitted. Letters must bear the full name and address of the person or persons submitting them. Nouns will be withheld upon request. Address letters to:

The Future, P.O. Box 25,000, Orlando, Fla. 32816.

 Corona, the most infaillible symptom of constitutional liberty.
 Edward Gibbon

Dorm Coeds Beware!

Editor:

Last Saturday, at approximately 11 p.m., an intelligent young lady living in the dorms opened for the first time a dorm room and found, to her horror, a stranger supposedly selling magazines.

After she refused to allow him to talk in her room, she closed and locked the door. She called and reported the incident to the campus police. Officer Jordan arrived within two minutes and picked the man up in the dorm.

The amazing part of this story is that she had been in several of the girls' room and had even sold a subscription.

The only problem was that she did not have any authorization to do any kind of selling on campus.

There is a problem at Florida State, the University of Florida, the University of South Florida, etc. We must we have this at FTU too?

Darn it, women! I'm talking to YOU. Must we have a rape here so you look before you open the door? Ask who it is before you turn the lock.

Elmer Stiefel, President - Residence Hall Association

Energy Crisis Light Brought

Editor:

Many articles have appeared in all of the college newspapers in the last few years which have presented concepts concerning man's beneficial relationship to his environment.

There is no question that many of the developmental activities in which man has been engaged need improvement, without realistic balance of restraints, our country and its people face destruction in the near future.

Today, our country faces the greatest crisis in its history. Few people appear to have a realistic appreciation of the situation that exists. Even federal legislators, by their actions, have demonstrated a lack of comprehension. They are not alone in this regard, for few of the people on the college campus here have any better understanding. This is unfortunate because it is on the college and university campuses that the sentiments of our people are molded and the greatest store of information is found.

Our organization, which represents a small group of professional people, has prepared a newsletter for distribution to the college and university campuses in the far west. The information which is contained in the newsletter is timely and of the utmost importance. It answers many questions which must be answered at this time both with respect to the exigencies of the emergency crisis and the propitiations of the United States over the last quarter century.

The question posed is the most important of our time.

WB4TCW

FTU Radio

Editor:

There was no mention of it in the ECA day article. No pictures were printed of it. So most students were probably unaware that FTU's "other" radio station, WB4TCW, was operated on the FTU Amateur Radio Club from the Village Center during ECA day from 10 a.m. to 4 p.m., which it more than can be said for most of the other organizations that threw in the towel when it rained around 2 p.m. and did not come back.

About the rain: we located an interesting story behind the return of the sidewalk in the VC just in case, and we were glad we did. The next time any such activity it planned, it would be a good idea to utilize more of the sidewalk area.

Dr. F. E. Juge

Juge Returns Home After BOR Stint

Dr. F. E. Juge returned to FTU this year after serving two years with the Board of Regents in Tallahassee. Juge was on leave from FTU, acting as the university's first representative to Tallahassee. Juge has been an original staff member at FTU since 1968.

Juge served in many positions during his two years in Tallahassee. He was director of science and engineering, handling new programs in this field. He also evaluated existing programs and acted as chairman of the Council of Engineering Deans. Juge had a seat on the Instructional Technology System Committee and became a registered legislative lobbyist.

The staff system at Tallahassee is similar to FTU's with Dr. Robert Mautz heading the staff as chancellor. Juge worked under Vice Chancellor Allen Tucker.

Juge and all in all it was an eye-opening experience. He learned how the university and legislative systems operate.

Juge contends FTU has real potential and is the only state Four-year university that will continue to grow and develop new programs.

Even though the legislature is pressuring Tallahassee to cut down on new programs, FTU is still able to start them. Judge said these new programs are essential for serving this area and helping the university grow.

Juge is now serving as associate dean of the College of Natural Sciences and is associate professor of chemistry. Judge said he is glad to be back in Orlando and enjoys teaching more than anything else.

Juge has been replaced in Tallahassee by another representative from FTU, Dr. Lawrence Tapuli, associate professor of Humanities and Fine Arts, who will return in two years.

ACM Meeting Set

FTU's local chapter of the Association for Computing Machinery (ACM) will have its first general meeting of the year Thursday in the Science Auditorium. A social from 10 a.m. to 10:30 a.m. will be followed by a business meeting from 10:30 a.m. to 11:30 a.m. All members and prospective members are invited.

Bill Branch, assistant director of FTU computer services, will speak on the services provided by the computer center. A tour of the center will be provided for all those interested.

The ACM is an organization open to all computer science and business majors. It seeks to provide interaction between the two groups so that they will be better able to cooperate in their various fields after graduation.

**Military VIP Visits FTU**
Col. Peter D. Summer, commander of the southeast area Air Force ROTC detachments, will visit FTU today.

**Engineering Group Flies To Regional**

Members and advisors of the FTU Florida Engineering Society (FES) Student Chapter left by private aircraft recently to attend the Southeastern Regional Student Chapter meeting of the National Society of Professional Engineers.

"How to Improve Professionalism in Engineering" was the subject of the conference which is held annually and was attended this year by 100 colleges from the states of Tennessee, North and South Carolina, Alabama, Georgia and Florida. The public is invited to hear Mr. Lent who spoke at the conference and will be speaking at this week's chapter meeting of FES on Tuesday at 11 a.m. in EN 560 on the subject of professional engineering.
SG: Vary Teacher Evals

The Faculty Senate Instruction Committee recommended each faculty member select his own method of obtaining the required student evaluation of his teaching effectiveness, said Student Government (SG) President Lee Constable.

Statting the faculty is worried about obtaining a standardized form, Constable said SG members favor a form serving according to the course involved.

"Students want the right to evaluate teachers on a student basis... we are their customers," Constable said.

One evaluation method considered by SG would have 10 questions, their nature depending upon the type of course and what college it is offered.

One open ended question concerning the instructor's possibility for improvement would be answered by students and this information would be retained by the instructor.

The play will be the first production this year by the FTU University Theater.

William Gibson's play tells of Helen Keller's breakthrough from her crippling handicap to her initial contact with the outside world.

In achieving this she is aided by one of history's greatest women, Annie Sullivan. From these unlikely elements Gibson has fashioned a play of deep compassion, unselfish pathos and human humor. "It could have been so sticky," wrote English critic Kenneth Tynan, "but William Gibson ever allowed himself or his subjects the slightest attempts at sentimenality. Fortunately he avoided this, and the theatergoer is the richer for it. Instead, what we have is "The Miracle Worker" a dramatization of Helen Keller's life, will open Nov. 1 in the University Theater (SGAUD).

DEVELOPMENTAL CENTER
The Developmental Center provides individualized counseling services to students to assist them in career choice and/or personal concerns. These services include being able to confidentially discuss your concerns with a professional counselor, taking tests and discussing their meaning to you, reviewing career information and discussing how to overcome personal problems. If you have questions regarding the Developmental Center, call 2951.

Heather Paulson, technical assistant (costumes) for the University Theater, came to FTU from Brevard Community College where she was involved with theatrical costumeing.

"I'm excited by "The Miracle Worker," she said. "The costumes can make such a contribution to the realism of the situation."

"THE MIRACLE WORKER" will have three 8:30 p.m. performances on Nov. 1, 2 and 3. Performances are free to all FTU students upon presentation of ID cards. Other students will be charged $1 and general admission is $1.10. No reservations are necessary, but the public is encouraged to arrive at the theater by 8 p.m. for the 8:30 curtain.

BARBARELLA BENN AS ANNE SULLIVAN

SG Studies
Diplomas

Currently looking into the diploma policy change, Student Government (SG) is in the process of contacting other universities to determine their diploma policies, said SG President Lee Constantin."It appears that most universities do not list majors on their diplomas. However, Constantin asked, "Since money is not the problem and since 'Acclaim on the Individual' is our motto, why don't they change the diploma policy?"

Constantine said he feels the overall student body does not want the elimination of majors on diplomas and added he certainly felt double and triple majors deserved more recognition.
FTU Faces Florida Southern Saturday, Stetson Tuesday

Knights Fall To Eckerd In 2nd Half 3-1

By Larry McCarthy

In probably FTU's most important game of the year and to the school's history, two quick second half goals by Eckerd kept the Knights from knocking off the Florida Southern College over a youthful FTU squad, 3-1, last Saturday afternoon.

A crowd of about 200 people watched Eckerd, formerly Florida Presbyterian, jump out to a 3-0 lead midway through the first half, on a shot by Martin Lonner, a foreign exchange student from Germany. Lonner, who had scored all three goals in Eckerd's 3-2 win over Rollins the game before, thought he could handle FTU.

THE "ADJUSTMENT" was the oldest in the book, according to Rudy. Brunner, the man being guarded by Arn, was moved to halfback thus taking Arn with him. This left the middle somewhat more open, and ultimately probably led to the scoring opportunities.

The loss for FTU was a bitter blow, especially for a team so loaded with young freshman and sophomores. Many of these players had hoped to beat Eckerd because they had beaten Rollins. And according to Rudy, the soccer players, desperately striving for public acceptance, wanted badly to be considered with the Rollins and the Florida Southern.

After the game it was harder to decide if Rudy was more disappointed or confused. "Overall, I thought we played a better game," said Rudy. "We did things today, though, that we have never done before," said the befuddled coach.

"We were ready for it, but I don't think we prepared for it properly. The FTU game didn't help either," Rudy added.

FTU played FIT last Saturday in very wet conditions. In what was supposed to be a rather easy win, FTU had to scramble to win 1-0. Freshman Rob McDonough tallied the goal midway through the second half.

FTU Goalie Dave Brick handled 15 saves en route to recording his first shutout of the season.

As disappointed as Rudy was after the game, the upsets former Rollins soccer star rebounded in the typical, enthusiastic Rudy fashion. "But we shall rise again," he added as he pointed to this Saturday's away game with Florida Southern.

Southern is 3-4-1. Alan Grossman, a forward for the Lakeford school, is the state's leading scorer with 21 goals. Grossman scored 13 of those 12 games. "This is another crucial game," said Rudy. The game is slated for 2 p.m. in Lakeland.

NEXT SATURDAY, FTU will host Stetson. Game time is 3:30 p.m.

TKE Comeback opples ATO, 19-14

By Fred Coy

What had seemed to be a comical ending for Smith's flag football came to an apparent end in Monday afternoon's classic struggle between the two old-time flag rivals on campus.

Overcoming a 14-0 deficit, No.1 Kappa Imitation stunned old nemesis Alpha Omega 19-14. It had been three years since anybody had stopped ATO in football, and for TKE it was a first after four straight losses to the fact which had been pegged as this year's team to beat in the prestigious league.

An upset? Not really. True, TKE had been down 14-0, but about even before the battle and would if played again. No one accused TKE of not trying hard to make it doubly satisfying for TKE while blowing a sizable lead made it particularly tough for ATO to swallow.

IT would be premature to write off ATO just yet, though. One of the big games still remains, the TKE-Lambda Chi Alpha contest on Monday, and the possibility of a three-way tie in the league still exists. LKA has only lost two ATO's and ATO would have to lose two in order to win the three-way playoff.

To the surprise of most, ATO jumped out in high gear in Monday's game and threatened to make this much anticipated clash as early as missionary. ATO Rice picked up unstoppable, completing his first six passes leading his team to the early 14-0 lead.

TKE SCORED once before the half but a missed extra point put TKE in the next too easy spot of needing two scores, while shutting off ATO, to win the game.

And yet that's just what TKE proceeded to do. Mark Denno, in his finest hour of four years as TKE quarterback, ran for one score and threw to Mike Murdock for the clincher. Denno completed 14 of 21 passes, including 31 of his last 13.

But unquestionably it was the TKE defense which came up with the big plays to turn things around. The big turning point, both sides agreed later, occurred early in the second half when ATO was on its own 19, one yard shy of the goal line. Pickettiewicz lobbed one over the cornering Dale Wise into the waiting arms of TKE cornerback Howard Vanderwater.

It was the first of three crucial interceptions with Vanderwater, who returned it to the 12. From there Denno dropped back to pass, spotted an open lane down the left side and sprinted for the score. The extra point throw to Murdock followed it made an 18-14, 14-13.

On the second play after the kickoff, Pickettiewicz was again picked off by Vanderwater at midfield.

Penalties moved the ball back to the TKE 23, but then a leaping grab of Denno's pass by Mack McClendon in front of the ATO staining set up a first down at the ATO 28. After two incomplete passes to Vanderwater and McClendon, Denno found Murdock wide open at the goal for the winning TD.

A final Pickettiewicz desperation was picked off by Vanderwater as the horn sounded ending the dramatic comeback effort.

Netters Face Jax

FTU's tennis squad will face Jacksonville in a rematch on campus Thursday afternoon at 4:30 p.m. It is the only home match scheduled for the fall portion of the Knights' schedule.

Jacksonville trimmed FTU, 6-4, in Jacksonville Oct. 31. The Knight's no. 1 player, Octavio Pivi easily won his match 6-0 and 6-2, while no. 2 Mike DeZeeuw and no. 3 Trevor Graham vs. Smith also won their matches in straight sets.

Lee double winners for FTU were the no. 2 team of Piva and Nolan Smith.

Wednesday the Knights faced Piva and Luke battles Salmin.

Horvath's Hitting Faces Fall League

Jim Horvath ranks in the latest hitting chart and Mike Pulling the top pitcher after three weeks of FTU's fall league baseball.

The team stands 4-5 as of round three. Monday it will be DeZeeuw vs. Smith and Trevor Graham vs. Walker.

Tuesday evening FTU plays versus Salmin.

Weekly boxes are published Wednesdays in the campus newspaper and TKE and ATO

Wednesday, the day before the Jax match it will be DeZeeuw vs. Walker and Graham vs. Piva.

TKE QUARTERBACK Mark Denno flips a quick pass to receiver breaking downfield against ATO Monday. Denno, used the short pass effectively to lead his team to a 19-14 triumph. (Photo by Jim Matthews)
"Big Interception Turns Tide For TKE"

ATO 4th Down Pass Proves Costly

By Fred Gey

Hours after the big game had ended, one pivotal play was still fresh in the minds of participants from both sides in TKE's 19-14 win over ATO.

"That play early in the second half when we had 42nd-and-one at our own 19 and threw an interception was the turning point," recalled ATO coach Mark Stockwell. "I knew if I sent (Bob) Matosuek in to punt that Jim (Piekiewicz) would return that back 80 yards and get a first down anyway."

PIETKIEWICZ-NODDING agreement at Stockwell's urging, "I knew I would have gone for the first even if Mark had sent Bob in. It was a mistake and probably cost us the game. If we had made him punt they would have had to go a bit further for the TD instead of being inside our 20." After Howie Vandewater picked off the short gut pass, quarterback Mark Denno ran 12 yards for the score which cut the margin to a bare one point — 14-13 — and sent TKE on its way into the championship.

"We were a good blocking team," he added. "Their rush didn't get me very much, though.

VANDewater, POSSIBLY the league's best backfield and undoubtedly TKE's no. 1 hero on a big day, wouldn't accept all the credit for his three interceptions.

"They were caused by a good rush," he stated. "I'm sure that first one was the turning point. Dale Wise put a good rush on him (Piekiewicz) and he had to get over 20 yards on defense. It gave me a chance to pick it off." Vandewater now has five interceptions in a little over one season, plus running backs Art Denno and Rubin Dwarfed now has five and a strong defense led by Tony Cristiani and Rubin Darkwater. Their win over TKE, plus running backs Art and Eric Pinkus, Odessa's most recognizable names, may prove too much for the Conway Techs to handle.

"I'm sure that that one was the turning point," Mark Stockwell commented. "That was a great defensive play and it definitely gave us a chance to score a touchdown."

"We had a good blocking team," he added. "Their rush didn't get me very much, though."

LXA Tackles TKE; Tyes Win V-Ball

One more big game remains in the flag football fraternity league—Monday's battle of front-runner Tau Kappa Epsilon and contender Lambda Chi Alpha. An LXA win would throw things into a three-way tie among TKE, ATO and LXA. A TKE win would send the Grid into the Nov. 6 campus championship.

"That's their strong point and we just couldn't get to them."

LXA's fine corps of receivers, led by Randy Blakenship, league scoring leader, and Lewis Jones and Joe Delugini were the main threat to TKE's stalwart defense.

LXA WARMED up with a 34-13 win over Kappa Sigma Monday. Also Monday, Sigma Sigma Chi beat Pi Kappa Alpha 26-0 and Sigma Alpha Epsilon blanked Chi Phi 27-0.

On the independent side, the Bowden brothers continued to roll undefeated to the Nov. 5 playoff game, which will be previewed next week.

The undefeated Tyes clinched the women's volleyball championship, unbeaten 15-4, 15-6 sweep of Crew Team. On Monday Tri-Delta edged the Borderline 15-2, 15-17, 15-12 to nail down second position with a 5-1 mark.

In THE WOMEN'S basketball tourney, Tri-Delta's team of Claudia McGee and Jo McLeone beat the Independents' J. J. Ellison and Megan Thayer in a contest play Tyes' Liza Young and Linda Stout for the title Monday at 4 p.m.

Good tennis doubles' entry dominated the event with beginning Wednesday. Good volleyball play also starts Monday.

Lifters Need More Men

PFITs Weightlifting team, which will host the Florida Open Weightlifting Championships Nov. 2, is still looking for new members in all weight classes and weights. The weightlifting team, second in the 1973 Nationals, will host the meet in the Village Center Assembly Room. To competition, sanctioned by the Florida Associated of Athletic Clubs, will consist of two Olympic lifts, the snatch and the clean and jerk.

Interested students should contact John Drugan, 671-500 or Harvey Newton at P. O. Box 1101, Winter Park, Fl.

Follow the continuing adventures of Jack Flanders as he travels through North Africa in search of the good life.

Midway through the collegiate football season, the normal football elite, meaning, the Southern Cafes, the Nahans in the Notre Dame's, at all, are still among the nation's big winners.

In Florida, the Gators had been picked by a predominant gillie magazine to go 13-0, but as usual in Gainesville, where people are rocking out to the new hit "Goodbye Dickey," the Gators have been trying their damnedest to keep up with the Jonases, meaning, of course, Coach Larry Jones of Florida State whose Seminoles have played between mediocre and sickening football all year.

Thank God for the Miami Hurricanes, their win over Tulane and 24-20 loss to Oklahoma bag left the state with some respectability.

This week Florida has an open date, so they probably will not lose. We predict a nip and tuck battle, though.

Florida State has its hands full with San Diego State this weekend. Ironically, both these teams have deep rooted traditions with the forward pass, but both are now having trouble putting points on the board this year. San Diego State has thrown less this year and has run more from the Veer.

Florida State looks to Hodges Mitchell and a sophomore from Lake Worth named Bobby McKinnon. McKinnon broke loose for a 4-yard TD run against Memphis State. Mark Orlando now quarterbacks the FSU offense. Our picks (Fred's first) 17-10, 17-13, both in favor of San Diego State.

MIAMI had played outstanding football until it ran into the Houston Vee offense. Running back Woody Thompson and a strong defense led by Tony Cristiani and Robin Carter (6,3,255, 4.7 in 40) are the Hurricane strong points. Our picks, Miami over Syracuse 34-13.

The big game of the week is of course the Notre Dame - Southern California game. The tradition at South Bend, plus running backs Art Best and Eric Pinkus, and quarterback Tom Clements, may prove too much for the mighty Trojans to handle.

ON THE other hand, Southern Cal has a strong defense anchored by linebacker Richard Wotherspoon and safety Jerry Parker, and a fairly good running back named Anthony Davis. Fred says Southern Cal and the Gipper by 17-14.

And other predictions (Fred picking first) Missouri at Colorado (24-22), Colorado (7-25), Tulane at Texas (17-10), Georgia Tech at Tulane (20-16) and 24-20), Vanderbilt at Ole Miss (Ole Miss by 4-47); Vandy by 20-16); Navy at Pittsburgh (by 14); Texas Tech at Texas A&M (by 16); Texas A&M by 10-7; Penn State by 13-10.

Follow the continuing adventures of Jack Flanders as he travels through North Africa in search of the good life.

"Moon over Morocco" is heard every day at 4:00 on WFTU radio, 640 AM. Could this be a winner? And somewhere over the rainbow...
**Placements**

The Student Placement Center has announced this November the Recruiting Schedule. Seniors who have not registered with the Center should do so now to take advantage of the on-campus recruiting program. Those who are registered may sign up for interviews in ADM 225.

**FTU Ranks Fifth In Enrollment**

Preliminary enrollment figures released Oct. 5 by the Florida Board of Regents rank FTU fifth in student enrollment after University of Florida, Florida State University, University of South Florida and Florida Institute University.

The headcount represents fee-paying, non-fee-paying and continuing education students. The BOU enrollment figure for FTU is really an estimate, said Dr. John E. Doyle, associate vice president for academic affairs. The BOU figures were determined by combining BOU prediction of 7,200 fall 1973 with winter 1974 and a number of continuing education students.

According to the Office of Academic Affairs, the actual on-campus enrollment is 7,410, not including continuing education students. When their number is derived and added, FTU's total enrollment may exceed the BOU's 7,700 estimate.

Although FTU's BOU enrollment figures increased by 300 students in 1973, FTU still dropped in BOU ranking from fourth in 1972 to fifth this fall, having been overtaken by Miami based FTU.

The State Universit System has increased its population by 0.26 percent, an increase of nearly 6,000 students. The preliminary figures show approximately 99,000 students enrolled this fall quarter. Of that number, 33 percent are expected to be fee-paying students.

The BOU also announced that Marshall G. Critt of Palm Beach will leave the vice chancellorship to become chairman of the Regents. The new vice chairman will be James J. Gardner of Port Lauderdale. Both men assumed their respective positions this fall and will be elected to one year terms in January.

---

**News In Brief**

More than 2,000 American students took summer jobs in Europe and earned most of the trip cost, as well as money for traveling once they were there. All of the jobs paid standard wages, and provided free room and board.

Jobs, working permits, and living accommodations issued on a first come, first serve basis, are arranged in advance by Student Overseas Services (SOS), a non-profit student-run organization which has been in operation for 15 years. The SOS also provides a job orientation in Europe.

Any student interested in a winter or summer job in Europe should obtain a copy of the SOS Handbook on earning your way in Europe. The handbook contains a job application form, job listings and descriptions. To obtain more information, contact SOS-Student Overseas Services, Box 127, Santa Barbara, Calif., 93108.

---

**News In Brief**

**Brig. Gen. Robert M. White**

Wayne Mender was selected as pledge captain, Mark Manship as pledge secretary and Susan Dewey as pledge historian.

The other pledges include Linda Bronson, Jeffery Coppan, Michael Dickson, Christopher Everton, Gary Furhick, Dennis Gillispie, Steve Helleweg, Whitfield Hone, Leslie Johnson, Calibree Jones, David Kurmire, Russell Lewey, George Nekton, Laurie Richardson, Dan Snyder, Earl Taylor and David Tynick.

The pledge period will last four and a half weeks, during which time the new pledges will be required to construct a suggestion box, a set of mail boxes for the ROTC cadet staff, a scrapbook and an Arnold Air Society souvenir booklet for each pledge.

In addition to these projects, the pledge class will plan and arrange for their own induction ceremony.

**News In Brief**

A series of non-profit real estate courses are being planned for the spring quarter, according to Dr. Donald Newell, community services coordinator.

These courses are designed primarily for professional practitioners in the real estate field, although Newell said they are available to full-time students.

The real estate program is intended to fill special needs for professionals in this field. It is designed to upgrade the professional practitioners, Newell said.

He said condominium management, finance programming and shopping center management are among the subjects to be covered.

Newell is meeting with real estate personnel to survey the market and design courses for the program.

Doyle, associate vice president for academic affairs. The BOU figures were determined by combining BOU prediction of 7,200 fall 1973 with winter 1974 and a number of continuing education students.

According to the Office of Academic Affairs, the actual on-campus enrollment is 7,410, not including continuing education students. When their number is derived and added, FTU's total enrollment may exceed the BOU's 7,700 estimate.

Although FTU's BOU enrollment figures increased by 300 students in 1973, FTU still dropped in BOU ranking from fourth in 1972 to fifth this fall, having been overtaken by Miami based FTU.

The State Universit System has increased its population by 0.26 percent, an increase of nearly 6,000 students. The preliminary figures show approximately 99,000 students enrolled this fall quarter. Of that number, 33 percent are expected to be fee-paying students.

The BOU also announced that Marshall G. Critt of Palm Beach will leave the vice chancellorship to become chairman of the Regents. The new vice chairman will be James J. Gardner of Port Lauderdale. Both men assumed their respective positions this fall and will be elected to one year terms in January.

**News In Brief**

More than 2,000 American students took summer jobs in Europe and earned most of the trip cost, as well as money for traveling once they were there. All of the jobs paid standard wages, and provided free room and board.

Jobs, working permits, and living accommodations issued on a first come, first serve basis, are arranged in advance by Student Overseas Services (SOS), a non-profit student-run organization which has been in operation for 15 years. The SOS also provides a job orientation in Europe.

Any student interested in a winter or summer job in Europe should obtain a copy of the SOS Handbook on earning your way in Europe. The handbook contains a job application form, job listings and descriptions. To obtain more information, contact SOS-Student Overseas Services, Box 127, Santa Barbara, Calif., 93108.

**News In Brief**

Wayne Mender was selected as pledge captain, Mark Manship as pledge secretary and Susan Dewey as pledge historian.

The other pledges include Linda Bronson, Jeffery Coppan, Michael Dickson, Christopher Everton, Gary Furhick, Dennis Gillispie, Steve Helleweg, Whitfield Hone, Leslie Johnson, Calibree Jones, David Kurmire, Russell Lewey, George Nekton, Laurie Richardson, Dan Snyder, Earl Taylor and David Tynick.

The pledge period will last four and a half weeks, during which time the new pledges will be required to construct a suggestion box, a set of mail boxes for the ROTC cadet staff, a scrapbook and an Arnold Air Society souvenir booklet for each pledge.

In addition to these projects, the pledge class will plan and arrange for their own induction ceremony.

**News In Brief**

A series of non-profit real estate courses are being planned for the spring quarter, according to Dr. Donald Newell, community services coordinator.

These courses are designed primarily for professional practitioners in the real estate field, although Newell said they are available to full-time students.

The real estate program is intended to fill special needs for professionals in this field. It is designed to upgrade the professional practitioners, Newell said.

He said condominium management, finance programming and shopping center management are among the subjects to be covered.

Newell is meeting with real estate personnel to survey the market and design courses for the program.
