Buses Anticipated, State $$ Requested

By Jerry Brooks

FTU may be one of the first areas in Central Florida to get a bicycle path, according to Scott Henderson, parks planner for the Orange County Planning Department.

Henderson said that next year would be the earliest funds could be assigned to FTU. The Orange-Seminole-Osceola Transit Authority has just purchased several new 43-passenger buses, one of which could be assigned to FTU.

According to Henderson, the one major hindrance would be to break even on the new run in order to maintain service. Henderson said half of the $70 per-day operational cost could be paid for by student passengers, and that the remainder must be generated.

"We are requesting assistance from the State Department of Transportation," said Henderson, "and are aware of other municipalities which offer free service to the student body." Universities throughout the country, which presently offer free transportation to the student body include the University of Massachusetts, Kent State, San Diego State, and the University of North Carolina.

"The only catch in the law, according to Henderson, is that the funds can only be used in conjunction with federal highway projects. Since most of the routes which need bicycle paths are served by state roads there is little chance of obtaining much aid for the Central Florida area," Henderson said. Washington legislators are aware that the law was badly written and are in the process of rewriting it.

The State Department of Transportation has long range plans for the widening of FTU Boulevard and Alfayta Trail, according to Potis, who said the most economical way to build the bicycle path would be during the widening of these roads.

Potts added that the state has passed a bill supporting the construction of bicycle paths, but there were no monetary provisions made for the $50,000 per mile asphalt bicycle paths.

Henderson said he is caught in a bind regarding to Henderson, is that the funds can only be used in conjunction with federal highway projects. Since most of the routes which need bicycle paths are served by state roads there is little chance of obtaining much aid for the Central Florida area," Henderson said. Washington legislators are aware that the law was badly written and are in the process of rewriting it.

Askev Discusses Visitation With Students

Student Government President Lee Constantine will meet with Governor Reubin Askew today in an effort to gain his support for extended dorm visitation hours. This informal conference will be the final stage of a four-month campaign by the State Board of Education (BOE) which consists of the governor and his cabinet, before it becomes the official policy of the state university system. The SCSBP regards the personal support of the governor as crucial to the passage of the proposal.

Bus Service Anticipated (cont'd from page 1)

University of California at Irvine, and the University of California at Santa Cruz. These new routes are programmed at the university, and played courses which would be twice a day with a full load we operational.

The University of Iowa has a system of 14 buses which carry 12,000 passengers each quarter, due to expense, causes. Administration said, .. To my they are cautious in dealing with controversial matters. The SCSBP has prepared its strategy with this political consideration in mind.

"We hope to convince the governor that the small increase in hours will appear insignificant in the eyes of the public," said Constantine. "We will also take this opportunity to inform him of the strong student support for the proposal. I personally believe that when he considers the relative political consequences, he will vote for the new policy."

In addition to visitation, Constantine will speak with Askew about several other topics. Among these will be veterans affairs, openness of faculty records and legal aid for students. While in Tallahassee, the SG president will also meet with Jim Dennis, who is the executive assistant to the Florida Speaker of the House. They will discuss plans for a student mock legislative session in March.

The BOE will consider the proposal at its meeting next week. The conference with Askew today is the council's last opportunity to influence the decision of the board.

"We honestly have a good chance to win, but it's imperative that we get the governor to support us," said Constantine.

First SUS Energy Policy Workshop Held

Some faculty members along with the professional staff of the Florida Energy Committee from state universities attended the first workshop on "Florida's Energy Policy" Jan. 22 and 23 in Tampa.

It was the first in a series held by the Florida Interinstitutional Committee, which is coordinated from the BOE office. The committee made its decision to hold these workshops during their final meeting Jan. 6. Each session will be a two-day affair with experts in certain areas of the crisis meeting to "brainstorm" and to assist the Florida Energy Committee in rapidly and thoroughly examining issues on a certain topic.

The Interinstitutional Committee will serve as a liaison between the Energy Committee and state universities, as well as serve in an advisory capacity to the Energy Committee.

Earlier, the BOE adopted a proposal by Chancellor Robert Mautz that the Board request that the 1974 Florida Legislature establish a fund of at least $5 million for energy research.

"This fund will be used to provide 'seed monies' for forces and join with others in our nation and the world in seeking a permanent solution to our energy problems," he added.

Administration said, "To my knowledge no students who are attending Florida State who returned to school came back in response to the program." Assistant Dean Harry Smith of the College of Humanities and Social Science Foundation or UMTA for funds to support a "learn as you ride" program. The taped program would offer credit for various courses which would be programmed at the university and played to the students through ephorons on their way to and from school.

The new policy will allow for visitation between members of opposite sexes from 2 p.m.-midnight on weekdays and from 2 p.m.-2 a.m. on weekends. The student government president is optimistic about getting the new policy approved, but he acknowledges that the present outlook is not totally favorable. He said he had examined the issue in relation to the BOE and determined that the prevailing sentiment may well be against the proposal.

According to Constantine, the opposition within the board is based on their fear that approval will result in an adverse public reaction. He explained that the cabinet members are all elected officials and in this election year they are cautious in dealing with controversial matters. The SCSBP has prepared its strategy with this political consideration in mind.

"We hope to convince the governor that the small increase in hours will appear insignificant in the eyes of the public," said Constantine. "We will also take this opportunity to inform him of the strong student support for the proposal. I personally believe that when he considers the relative political consequences, he will vote for the new policy."

In addition to visitation, Constantine will speak with Askew about several other topics. Among these will be veterans affairs, openness of faculty records and legal aid for students. While in Tallahassee, the SG president will also meet with Jim Dennis, who is the executive assistant to the Florida Speaker of the House. Second Award Given
Prof Receives Barnett $200

Dr. Randy J. Wodzinicki recently accepted the Gordon J. Barnett Professorship of Environmental Science. Wodzinicki, professor of biological science at FTU since 1970, is the second recipient of the Barnett award.

Wodzinicki will use the award funds to finish a book he is now writing. The book is concerned with the science of microbiology, a subject lacking writing since 1963. His book will be written from the biologist's rather than the engineering point of view employed in the 1953 publication. He is working in coordination with experts from the University of Wisconsin, where he obtained his Ph.D. in microbiology in 1960. He has a minor in Chemical Biology.

Wodzinicki has many years of experience in microbiology of waste and water treatment. He was employed by Squibb Institute in medical research as a research microbiologist and as the manager of animal science for International Minerals and Chemical Corp. Wodzinicki has plans to work in conjunction with state and local agencies to solve some current problems.

A committee composed of persons from outside the College of Natural Sciences chose the recipient of the honor. Hal Scott, the executive secretary for the Florida Chapter of the Audubon Society was a member of the committee.

Seniors And Men Outnumber Others

Twice as many male students apply to FTU this quarter than female students. Enrollment figures released this week by Associate Vice President for Academic Affairs John H. Davis show 4,924 male students and 2,246 female students.

Total enrollment for winter quarter is 7,170 students. This figure includes 1,765 students who have not yet been detected from the official data tapes. Both expects that as many as 1,200 students who registered for classes have not paid fees and will have their registrations cancelled.

The senior class has the largest enrollment, with 1,943 students, followed by the junior class with 1,517, Sophomores number 992 and freshmen 1,307. There are 600 graduate students and 802 post baccalaureate.

USF Fac Splits Over Bargaining

By Matt Baker
Oracle Staff Writer

USF faculty members are differing opinions on collective bargaining with Dr. James Ray, Natural Sciences dean, saying there are "other ways" for family to achieve desired goals.

"My personal feelings are that a university does not need collective bargaining," Ray said.

"There are other ways to achieve desired goals without this type of activity," Dr. Jesse Binford, Faculty Senate chairman, said he favors collective bargaining, but said there is no chance to achieve it this year.

"As a minority group," Binford said, "it doesn't make sense for me to have a chance."

Dr. Harold Melish, Economics professor, said he disapproved of the "automatic wage increases" that occur with collective bargaining. He said automatic increases present a problem in that they remove rewards for merit.

"It's based on seniority," he said.

Melish said he favors cost of living increases. He said State University System wages have increased nominally when compared to the 45 per cent cost of living increases during the past 10 years.

FTU POW On Camera

An NBC film crew shot news footage on the FTU campus Jan. 29.

The crew, based in Atlanta, was working on a feature story about the readmission of former POWS to American life and society.

The interview was taped at the Orlando P.O. on the campus, as well as at the Library and the "forget about the war" syndrome.

The film will be broadcast as part of the regular NBC news Feb. 12, one year from when most POWS returned from Vietnam and Cambodia.

B OR Appoints Fac Hearings Committee

During a recent meeting of the Board of Regents, Judge John T. Wigginton was appointed to head a special Blue Ribbon Committee to investigate and standard and system-wide policies of the FTU faculty member.

Marshall M. Otis, who appointed Wigginton, charged the committee with constructing two general areas: (1) those for hearing appeals of decisions concerning tenure, promotion or non-renewal of appointment; and (2) guidelines for hearing faculty grievances pertaining to job-related problems such as salaries, tenure and academic assignments.

The committee has also been urged to make its proposals in accordance with the governing board and with the existing employment matten.

Criser asserted "this is not a job that can be done in 30 days, but I sincerely hope that they can report within 5 or 6 months - sometime prior to the close of the legislature." The committee's work will be delivered to the BOE Personnel Committee prior to action by the full board. Otis stated, "I'm counting on this Blue Ribbon Committee to create a set of procedures that will make it unnecessary for the legislature to act on a matter that is more appropriately dealt with by the Board of Regents."

Chairman of the Briarstone Committee is John F. Senor, professor of mechanical engineering.

Speaking of Wigginton, Otis said, "I'm sure there are no other persons who have as much knowledge of the FTU faculty member." Wigginton was the primary architect of the new faculty member and is the second recipient of the Barnett award.

Wigginton recently retired from the First District Court of Appeals.

Faculty involvement in the establishment of the procedures was intended by the appointment of Prof. Steve Edwards, immediate past chairman of the Florida State University Faculty's Professional Relations Committee. Another faculty member will be appointed later by Prof. Dorothy Blakely of Florida International University, head of the IIFS Faculty Senate Council.
KEEPI THE GOOD SPIRIT

The final score of last Saturday's FTU - Rollins basketball game was disappointing after a close struggle but the enthusiasm shown by FTU fans was enough to keep spirits high even then.

Dr. W.A. Gresham, Assistant Director John Powell in praising the "Basketball Band" made up of FTU musicians which plays at home games. Originally formed by Dr. Gresham, it has been directed by students, directed by fellow student Elizabeth Eyles add a little zest to games most major universities lack.

After Saturday's game, Sentinel Assistant Sports Editor Bill Buchalter commented that there was indeed great spirit, but wondered why only for this game.

We wonder also, FTU's Knights have two more home games this season with tonight's Florida A and M game at the Oviedo High Gym at 8 p.m. Why not show up and do your part to make FTU more than a 5-3 football week institution and turn into a college campus with some life?

KEEP THOSE LETTERS COMING

While it's hard to accurately measure the effect two FTU sports' columns have on program handling, enrollment, on the basis of figures and administrator's comments it certainly seems worthwhile to continue the practice over the years.

Started as a personal project by Dr. Knight and Rob Shenkopf, the coordination of the six college's efforts was done largely on personal time. Although a small budget was set up for postage, etc., nothing formal has been implemented to deal with the program on a permanent basis.

We would like to see these letters sent out at least yearly - quarterly if experience proves it to be possible. The major rule should be no anonymity. Student Affairs might well consider adopting this procedure. The university would be regressing if it didn't at least give this incentive for individual contact ideas a place in its overall program.

By Mike Hall

My two previous columns have been concerned with gripes that have appeared against the present visitation policy. The purpose, however, I feel is a workable solution to the problem.

Visitation restrictions and those which have no visitation at all.

Phone calls and written comments it certainly seems worthwhile to continue the aspect of the building which the RA's would not have to patrol for visits.

Quiet, or go somewhere else to study

The room and they're giggling and rolling around and obviously not studying. What could you do? Tell them your situation for and get involved.

2. privacy; and 3. morality. The first and second are, I think, valid comments it certainly seems worthwhile to continue the investigation must touch upon the following points, at least:

1) Picking proper food service for comparison, including, but not limited to thecafeterias at FSU, USF, U of F, Stetson, Rollins and food catering services run by 3rd parties.

2) Include quality, quantity, seat and facility.

3) Allow comparisons for pay scales of employees, overhead and operating expense. (How can we validly compare a Lunn's or Shotwell to Krouse's in their low overhead for rent or mortgage?)

Former Staffer

Editor:

I am quite disappointed with the quality of the research conducted by the Food Pricing Committee on behalf of the students as regards the performance of the FTU cafeterias and snack bar.

As pointed out in the Jan. 25 edition of the Future, the committee considered only price, not quantity or quality.

At an institution of higher learning, students owe it to themselves to be more thorough and methodical in conducting an investigation.Obviously, the Project is not limited to the cafeterias at

The committee included only price, not quantity or quality.

At an institution of higher learning, students owe it to themselves to be more thorough and methodical in conducting an investigation. Obviously, the Project is not limited to the cafeterias at

Such a proposal raises several questions from those who are inclined to frown upon giving dorm students too much freedom.

Guest Columnists Asked To Contribute

Do you have an opinion, idea or topic you feel the university community should be made aware of? Then share it in the FuTUre "Guest Column." The FuTUre invites contributions from students, faculty, career personnel, staff - all are welcome. The topic may be of your choosing but preference will be given those subjects which are deemed to have the most interest to FuTUre readers.

The FuTUre reserves the right to edit, revise or reject any copy. Material that is libelous, guilt or harassment, half-truth or poor taste will not be accepted.

Deadline for contributions for the "Guest Column" for the FuTUre issue is MONDAY NOON.

Student Finds Food Pricing Research Lacking

The FuTUre is a public document for the purpose of informing the members of the university community of related news, announcements and activities. Growing approximately $9,065 from advertising annually, the FuTUre is circulated for an annual net cost to the state of approximately $2,500 or 8.5 cents per copy. Total annual gross cost of publication is approximately $49,726.

Editor.

Comment on FuTUre Practices

With the printing of "Dylan, Band Concert" and other recent columns, the university paper has shown incredible mediocrity. I hope to see a substantial retreat in the next issue of the FuTUre. Michael Odlin

'Sexy' Subject Attracts 200 To Class

Is sex a naughty word? Not in Psychology 492, a recently initiated course in human sexuality at FTU. The course is coordinated by Dr. Randy D. Fisher, assistant professor of psychology, and taught by Fisher, Dr. Margaret Thomas and Dr. Ron S. Darrow, and attended by about 200 students.

The three-part course, which typically attract 200 to class, is "Human Sexuality," by Dr. James L. Sech of the University of Houston.

According to Fisher, a course like this has never been taught at FTU before.

"We have some 20 people in the class that has regularly enrolled in the university and come and take the course alone," said Fisher. "We're attracting some people from the community at large.

Class enrollment is approximately 210, and the course will be offered in spring quarter.

Courses similar to PSY 492 are also taught at Florida State University in Tallahassee and at the University of South Florida in Tampa.

- Vampire Myth

By Alan Crowe

Count Dracula was real, according to Greg Jarvie, an FTU student active in the study of vampires.

Speaking to students in his "Death and Dying" class, Jarvie explained how he came across Wyatt's "Death and Dying" text in the bookstore.

"We have some 20 people in the class that has regularly enrolled in the university and come and take the course alone," said Fisher. "We're attracting some people from the community at large.

Class enrollment is approximately 210, and the course will be offered in spring quarter.

Courses similar to PSY 492 are also taught at Florida State University in Tallahassee and at the University of South Florida in Tampa.

Jarvie, a senior studying psychology, was quick to point out that, at least in the subject matter, the classical vampire was not a vampire, as he was not a product of the sensibilities of his time, but a product of the sensibilities of our time.

Every Day You Spend in College is Worth $295 to You.
If you are thinking of dropping out, don't. Not just for all the emotional reasons, but for a simple dollars-and-cents reason.
During a lifetime, the average high school graduate earns $371,000.
The average college graduate earns $584,000.
It takes about 720 school days to finish college. And it doesn't take a math major to divide 720 into the $213,000 difference and come up with $295,83 a day. Which should be enough to convince you to study hard and finish college.
And, if you've got financial problems, come see us. Maybe we can help. You can be sure we will try.
We really want you to stay in school.

Campus Glances
There are three new campus signs located at the entrance to FTU to announce upcoming events.
Activities to which all FTU personnel are invited will be given first priority for posting. Activities sponsored by an officially recognized organization or FTU department will be given second priority. Interested parties should contact Jimmie Ferrell in ADMI 268, one week prior to desired posting date.

Are You in Love?

News In Brief

DORM IMPROVEMENTS

Hall phones have been ordered for A and B Domes which will permit only on-campus calls. Other items ordered include 100 new shower curtains and new lights for B Dome Lounge, which will be installed in the wall to prevent theft.

Lights inside and outside the domes have been rewired to operate on timers, but lights in the stairwells can be turned on and off manually.

NEW COURSE

A new course in Environmental Studies (Advanced Program), is being offered by the College of Education. The course will emphasize the use of the library, basic reference materials, library services and research methods.

EDLS 380- Library Resources and Materials - now fulfills the requirement in the Advanced Program for Education. For further information, call Ms. Gorst Schnellings at 272-2319.

NEW EXHIBITS

"Iron Horse" and "What Energy Crisis?" are now showing at the John Young Museum and Planetarium in Lock Haven Park. Florida Power Company's Departments of Display and Research have loaned "What Energy Crisis?" to the museum. The film shows the transformation of energy in its newest forms to available electricity. Tips for conservation of energy are also on display.

These exhibits are on view at no charge from 10 a.m. to 5 p.m. any day, and on Thursday and Friday from 7:30 to 9:30 p.m.

VOLUNTEER SERVICE

The establishment of a university volunteer cleaning center was discussed at the last meeting of the Sociology Club. The purpose of the center is to provide a central agency to coordinate the needs of persons who wish to donate their time for volunteer work and agencies who need volunteers.

The Sociology Club is also considering the donation of a bulletin board for personal messages to be placed in the Engineering Building.

'Beaux' Auditions Slated Next Week

On Feb. 4 and 5, the FTU Theatre will hold auditions for the Bicentennial Production of Farquhar's "The Beaux' Stratagem." The auditions will be held in the Science Auditorium (SCAUD) from 4:00 p.m. until 5:30 p.m. and in EN 109 from 7:30 p.m. until 10:00 p.m. both days.

"The Beaux' Stratagem" is one of the classics of English comedy, first produced in London in 1706. It has the distinction of being the first English play produced in Florida, done as a benefit by British officers stationed in St. Augustine in 1784. For this reason the FTU Theatre has been commissioned by the Florida Bicentennial Commission to reproduce this historic production.

"There are a variety of parts in "Beaux,"" Director David Maya annotated, "ranging from two dashing seducers to the elderly Lady Bountiful. I need eleven men and six women.

Dr. William Allen, Dr. David Dees, and other faculty members of FTU's sociology department will attend the Florida Conference of Sociologists Feb. 8 and 9 in Gainesville.

The meeting is an annual affair, to which all sociology instructors from Florida schools are invited to attend. They will discuss problems that arise with transfer students, graduate programs, minority students and other sociological academic affairs.

Dr. Dees will give a speech on the future sociology graduate program at FTU, and Dr. Allen will speak on the problems students encounter transferring from junior colleges to four-year universities.

The instruction will meet with students from colleges and universities throughout the state. Around 15 students from FTU are expected to attend.

Sigma Chi Receives Charter

The former FTU colony of Sigma Sigma Chi received its charter from Sigma Chi Fraternity last Saturday night and became the 161st chapter of that organization.

Tom Smith, president of the new Eta Pi chapter, accepted the charter during a celebration held at the Howard Johnson’s on Kirkman Road and I-4.

The 333 participants included several representatives of other fraternities; Dr. W. Rex Brown, vice president for student affairs; Dr. Paul McQuillan, dean of men; and parents and guests of the Sigma Chi brothers.

M. Craig Nason Jr., Grand Consul of Sigma Chi, presented special awards to FTU brothers Tom Blanton and Hugh King for outstanding service to the frataternity.

Members and invited guests of the FTU colony of Sigma Sigma Chi listen to President Charles N. Millican’s welcoming speech during the Saturday night celebration.

Also honored were Dr. Henry Kennedy, the new chapter’s faculty advisor, and Harry Witke of the Central Florida Sigma Chi Alumni Association.

John Wayne and other notable “Sigs” sent telegrams and letters of congratulations.

Claus Magie, representing the Little Sisters, presented the brotherhood with a full size Sigma Chi flag.

Knights Run Out Of Gas
Hofstra Takes 24-15 Win

By Jon DeSallvo

"It's like the energy crisis - we just can't seem to catch a break." FTU's wrestling Coach Gerry Gergley couldn't have put it in better words describing the recent hard luck the Knights had had.

Last Friday, FTU saw a 15-6 advantage over Eastern powerhouse, Hofstra University of Hempstead, N.Y. disappear in the last four matches. When it was all over, the Knights had evaded their second record in a row, losing to the Flying Dutchmen, 24-15.

Coach Gergley is not upset about the way his men have been wrestling. Gergley said, "It's very disappointing to lose when you're ahead, but we are facing great competition. We need national exposure; and the competition is giving it to us."

In three of their four defeats this season, the Knights have had marginal leads erased late in the match by Florida, Nebraska- Omaha and now Hofstra.

From watching the Knights wrestle in the early stages of the match, spectators would have thought that FTU didn't know that Hofstra was 1-0; their lone defeat given to them by Florida, 24-15, the previous night.

FTU received fine performances by Scott Sherman, Elio Junco, Mike Wareing and Tom Hammons.

Sherman, wrestling for the first time in the 118-pound class, pinned Bill Johns at 6:10 in the third period. The move from his usual 126-pound class, according to Gergley, will give Sherman a better chance for honors in state and possible regional competition.

In his 142-pound match, FTU's Elio Junco decisioned Joe Garellano, 5-3, in a very conservatively fought match. Junco received four of his five points in the first period with the fifth point awarded for riding time.

Garallano received all his points by Copenhagen.

The most exciting match was the 150-pound bout between Mike Wareing and Jeff Dena. After a scoreless first period and a 6-4 Dena lead at the end of two, Wareing took charge in the last period with some good moves, including a near fall, to win easily, 12-8.

For Wareing, it was a much needed victory. He was stunned in his previous outing against John Carroll, when he pinned at 58 seconds of the first period.

Tom Hammons in the 185-pound class, came from a 0-2 deficit to take a 1-3 win. The one point awarded to Hammons after a long time turned out to be the winning margin in the match. His three points would turn out to be FTU's last for the entire match.

Jeff Sherman, usually in the

FTU Faces FIU; SW Louisiana in Miami

FTU's wrestling squad looks to return to the winner's circle tonight in Miami when it battles in a double dual meet against Florida International and the National Southwestern Louisiana.

Coach Gergley hopes his grapplers can continue their momentum, which has shown definite improvement over last year's 0-11 squad which the Knights easily subdued 58-0 at Miami a year ago.

FTU's progress can be explained to a great extent by the arrival there of high-powered Head Coach Sid Huliena. As coach of Muckege (Mich.) Community College for five years, Huliena led his team to the national junior college championships in 1970 and coached two-time NCAA champion heavyweight and Olympic medalist Chris Taylor.

Southwestern Louisiana has two common opponents with FTU, losing to both Hofstra and UT-Chattanooga. The Knights, of course, lost to Hofstra 24-15 last week and defeated Chattanooga 25-14 earlier in the season.

Today's match will be a round robin affair in which each wrestler will face both opponents in his weight class. There will also be an exhibition five-style match prior to the event involving FTU assistant coach and 142-pounder John Jones, playing perhaps his finest match this season.

The scoring match at 135 pounds will be the 142-pounder point fight. FTU's wearing number nine points (four of six from FTU's Elio Junco) will give the Knights a big advantage over Eastern as had been expected.

Garetano, 5-3, in a very conservative bout. Junco, playing possibly his finest match of the season, was awarded seven points at 142 pounds and the Knights held the advantage over Eastern due to Junco's decisioning Joe Garetano in 142-pound match won by Junco 5-3. (Photo by Jim Matthews)

WINNING NIGHT AT OVIEDO

By Larry McCarline

"It was the same game as last year," said Torchy Clark, "It was like seeing 'My Fair Lady' for the second time." These were the remarks of the FTU men's basketball coach made Tuesday morning following last Saturday's 71-69 overtime loss to Hofstra University, a game that saw the Knights fall to 4-4, losing their first match since their 22-19 upset of the Columbia Lions.

"An excellent Fighting Knight effort," said Coach Clark, "It's the best fighting Knight effort we've seen in a long time."

About the way his men have been wrestling. Gergley said, "When you're ahead, but we are facing very tough competition. This season, the Knights have had no easy victories.

Hofstra Takes 24-15 Win

Knights Run Out Of Gas

Hofstra Takes 24-15 Win

Tri-Meet Set For Wrestlers Today

Richard Guerra; 126-Pat Murphy, again back down to his best weight of 134-Elio Junco, first time at the weight after compiling a 4-1 record last week against Rollins. FAMU defeated South Florida, 38-29; Rollins, 71-69; FIU, 39-33; and Hofstra, 5-4. Junco grabbed a rebound and hit his favorite time mover during a brief stint against Rollins.

Coach Ed Jucker's remarks on his program are: "It's working. That move seems justified since McDaniel's 142-pound points are 23 per cent (13 for 20) from the field-mostly on outside jumper. But his free throw was off to the left of the rim."

With 12 seconds left in the fifth period, Rollins' Mike Wareing grabbed a rebound and hit his favorite time mover during a brief stint against Rollins.

FIU host the Florida State University teams in Bogota, Cali, and Bogota, N.Y. in collegiate weightlifting on Monday at 7:30 p.m. The meet will involve making plans to help FTU host the Florida State Colleage Weightlifting Championships at the Naval Training Center Feb. 8-9.

P.E. Majors

Meeting Set
**By Joe DeSalvo**

The FTU baseball team will be coming into its second varsity season with a strong defense and a tough schedule to test it, according to Coach Doug Holquist. Holquist, beginning his second season as team mentor, is very pleased about the Goldsox defense.

"Our defense is our number one strength," said coach.

"The team is definitely better than last year. We have a solid infield and a good outfield.

One member of the team that Holquist that is proud of is former Colombian Pan-American player Luis Escobar. The second baseman, according to Holquist, "is the best player in the state. He should be picked for All-American honors."

Along with Escobar in the infield are shortstop Jim Matthews, first baseman George Royal and third baseman Tim Smith, who impressed the coach during the fall league.

---

**FTU Girls Place 3rd In Tourney**

By Larry McCookie

After losing three games last week, the women's basketball team rallied to win two straight games in a double elimination tournament.

With a minimum amount of practice available, the women's team was easily defeated by Flager 63-24. In that game, FTU and Flager were tied at 5-5 after one period, but in the second quarter, the women's team lost 22-22. The Flager loss was followed by a 54-30 loss to Rollins. FTU had its moments in this game, but still it was evident that FTU was in need of more practice.

This past Saturday, the girls' squad went on to victory by playing 72-70 in the South Florida Invitational held at Miami Beach and Ft. Lauderdale. FTU, other teams entered were Flager, Rollins and St. Leo. FTU lost the opener to South Florida, a narrow 43-41 loss, but the team seemingly gave the FTU girls more confidence to continue the winning experience. Judy Hall led FTU with 19 points, mostly on shots outside the key and from the corner.

The added confidence and added experience were put to good use in the second game as FTU scored its initial victory of the season against St. Leo, 70-38.

Judy Hall was again the leading scorer with 16 points. Judy Hall led the team in rebounds, a key factor for FTU.

In the consolation game, FTU came back to defeat South Florida 34-28. For third place, Judy Hall was again the leading scorer with 15 points.

Phagler defeated Rollins by one point to win the tournament championship.

"The team is steadily improving," said Coach Hallighombink. "We've had a lot of scrimmages lately and the girls are working harder than ever, as well as a family, so we hope to continue to improve."

FTU goes for its third straight win (86 more to catch UCA) Feb. 10. The Buccaneers return an Invitational in St. Augustine. Phagler, Rollins and last year's state champions, Miami-Dade North, are the teams to beat.

---

**Wrestling**

118-pound class, wasn't as fortunate as Sherman moving to a new weight class. The 112-pound weight class was pulled in the second round by his opponent, Nick Casco, losing 11-2. Pat Murphy dropped a hard-fought battle to 134-pounder John Minnelbo, 5-2. FTU's lead begins to disappear in the 167-pound bout, as Dave Alberts, wrestling with a hernia, was only able to make four escape points, in losing to the other half of the Gorlitz brothers' team, Dennis 10-1.

In a close match, 177-pounder Tim Finneran dropped a 3-2 decision to Rudy Fiorvanti. Randy Jeffrey and Sam Muldrow started their 196-pound match exchanging head-hug holds, but Muldrow had the last hold, pinning Jeffrey.

The six points gave Gorlitz the lead for the first time and eventually the win.

Gorlitz's heavyweight, Don Meyers, got FTU's Pete Berkley his tenth pinfall victim in 15 victories at 7:25 of the final period. The 6-2 Meyers is up for All-American honors.

---

**FTU Baseball: Stronger Defense**

The top five positions have been determined for FTU's extramural golf team which began its season yesterday against Flagler and plays again this afternoon against Embry-Riddle at 1:30 at the Winter Springs Country Club, home-course for FTU matches.

In the opening round against Winter Springs, Roger Amick was the only player with 76 while Mark Medrichte, Tony Kiraly, Doug Perry and John Tanner also shot under 80. Seven more golfers are vying for the next five spots with the final cut scheduled for Tuesday.

These 12 are the survivor of an original group of 26 which greeted new coach Marc Bocanegra at the ALGA's weeks up at a reorganizational meeting.

The Grass Roots will be featured at Walt Disney World’s first Valentine Party, February 8 in the Magic Kingdom. (Copyright WALT DISNEY PRODUCTIONS)

WDW Valentine Party Headlines ‘Grass Roots’

The Grass Roots, Tony Orlando, Dawn, Harold Melvin and the Blue Notes, and other recording groups will play at Walt Disney World’s first Valentine Party on Feb. 8.

Scheduled to run from 8:30 p.m. until 1 a.m., the event offers a one-price admission which provides unlimited use of the Magic Kingdom’s attractions, adventures, and musical entertainment.

Tickets will cost $6.95 at Walt Disney World the day of the party. They may be bought in advance for $5.95 at Sears, Mass Brothers, Bill Baer’s, and Streep’s, in Orlando; Britches South in Lakeland; Music Unlimited, Medco Discount Drugs, Touchstone Drugs in Sanford; and the Music Center in Daytona Beach.

State Co-Op Directors Meet Here Today

The FTU Cooperative Education Office is hosting a meeting today with the directors of cooperative education programs in the State University System.

The purpose of the meeting, according to Thaddeus P. Rajchel, FTU Co-Op Project Director, is to ‘put finishing touches to the policy statement on Co-Op to be submitted to the Board of Regents Ad Hoc Committee.’

Student Government President Lee Constantine presents Executive Director Clark Powers with over $400 worth of unclaimed books for the Orange County Residential Center. (Photo by David Varnadoe)
