By Penny Blanchefield

Beginning April 1, FTU hopes to offer a federally funded volunteer program to students, which will enable them to spend one year in fulltime assistance to the community's aging poor, while receiving full academic credit.

The program, University Year for Action (UYA), was developed in 1971 by ACTION, a government agency created by Congress to utilize all federal volunteer agencies into single efforts devoted to making life better for people in the world.

Dr. Ronald Newell, director of Continuing Education, said that FTU is the first school in Florida to receive a planning grant from ACTION.

Dr. Newell explained, "The primary purpose of UYA is to give service to disadvantaged or poverty-stricken persons."

Our target group is the 16,180 residents of Orange and Seminole Counties who are over 60 years of age and live below county poverty guidelines.

"UYA is a government financed poverty-program staffed by volunteers who are receiving full time salary toward their degrees. Students are assigned to work through outside agencies called "field stations," for one full year."

"Job placement is based on reinforcing the individual student's major."

"Students participate in fulltime Vista-type activities and fit such field service within their overall study programs."

Clifford Pratt, a program coordinator, is coordinating FTU's UYA planning, stated that although there are no definite commitments presently, "we do feel that the programs will be a place that we are hoping will cooperate with us.

UYA will not be limited to any particular major at FTU, but some will be more easily adapted to the program than others.

Newell commented that, "While this is a social service opportunity, it's not exclusively for social workers. We would like to see as many different majors involved as possible."

Students are not asked to take classroom courses during their year of community service, but they are sometimes asked to keep daily logs, attend seminars, read relevant books or articles, write reports, and engage in similar assignments.

Individual job benefits include: $100 monthly pay (most of which is nontaxable), a paid two-week vacation, and complete medical and life insurance.

Pratt cited another benefit received by participating students, "It enables them to test their particular objectives and life-field experience. UYA offers them a chance to discover, in a practical way, what happens out in the world."

Cooperating agencies will also reap benefits from the UYA program, in the form of increased manpower. Students will assist the agencies to solve the pressing problems facing the elderly poor in our community, thereby increasing the service capacities available from each agency.

Pratt said that the program is designed to attract older persons to return to school to pursue a career, many students in the 40-60 age bracket as possible, all interested students are encouraged to apply for consideration, by contacting the office for Continuing Education, extension 212.

A formal UYA drive will begin on February 1, with student recruitment booths located around campus, and radio and television publicity. Interviews will be conducted at the center of individual activities and medical records must be presented.

There are program openings for 20-30 students, and final selections will be administered by Dr. Newell. Mr. Pratt, and the Advisory Committee of UYA in Atlanta and Tallahassee in cooperation with the department of the student's major.

UYA was instituted at ten colleges and universities across the country, in the autumn of 1971. Now there are more than 40 schools extending this educational opportunity.

Newell contended, "This ACTION program is a conscious attempt to team community work with the University. There will be problems, but we're trying to remain optimistic right now."

ACTION Initiates Program

By Bill Squitieri

The sitting capacity of the gymnasium in the new education complex is to be cut from 6,000 seats to 2,600 due to inflation and limited resources.

Formulated and approved in 1971, the original plans called for some 7,000 seats in a theater type with cinder block. Retractable bleacher seats will now be used.

The money originally appropriated would have been sufficient for construction in 1971. Since 1971, however, the cost of materials has skyrocketed and the amount funded for the project has remained the same.

This is a problem familiar to all of us. With the rise in the cost of living and our incomes not rising quite as fast, we have to stretch our dollars as far as we can.

"There is not much we can do about it, we will make the best of it," said Oswaldo Garcia, the campus planner.

Garcia said the total footage of the complex has been cut by some 40 per cent. He confirmed that the only way to get the educational complex as it is now was to justify the academic needs to the board of regents in Tallahassee.

Garcia also said that the complex will still have the original facilities planned, but it simply won't be as large as originally planned, in an effort to stretch the funds. He added that there may be an extension of the outside sports facilities now in use.

Complex Funds Cut

By John W. Powell, chairman of the physical education department and director of the athletic department would have liked to have seen the original large student complex built, and agrees that there is not very much we can do about it.

The complex is to be a functional teaching facility, which will consist of a classroom building, a gymnasium and a multi-purpose gymnasium.

The classroom building, to be used by the college of education, will be primarily for students learning to become teachers. Some of the facilities will include teaching laboratories, listening studios for those interested in music and of course regular classrooms.

The gymnasium will have basketball courts and tennis courts with adjacent locker rooms. The gymnasium may be used as a rallying point for basketball games, for dances, concerts, and possibly graduation ceremonies.

In the multi-purpose room will be a wrestling area, first aid station, physical therapy room, and a whirlpool bath. Dance and of course many other activities could also be held here.

All three buildings will be enclosed with concrete and fiber glass.

An architectural firm from Titusville, Lemon & Megson, has designed these buildings.

Garcia and Powell are confident that holding the construction will be in early February. Construction may begin in March or April and may take as long as 12 to 18 months to complete.
Library Photography Exhibit

The exhibit currently on display in the Library lobby shows just how far photography has come in less than 180 years. The antique cameras and old photos come from the personal collections of Charles Weidman, associate professor of art and Lorrene Meares, coordinator of Instructional Media (IM). In addition, two collections belonging to IM were contributed by C.H. DeForest of Orlando and Rose Ann Spencer of Tampa. Both professional and amateur photographers can appreciate the display, Meares said, even though it contains nothing extremely rare. The presentation shows some of the early common techniques and processes the photographer had to perform for a picture. The exhibit traces the history of photography from the early daguerreotype, then the only way to draw with perspective. "The daguerreotype was the first economically feasible process that proved useful," Meares explained. It used a concave reflector of relatively large diameter and short focus, and the image formed was thrown back on a sensitized silver surface. "Daguerreotype was used almost exclusively for portraits. Only one out of a thousand were of something other than that," Meares said. TheFM and daguerreotypes were donated by Rose Ann Spencer. "Some of the pictures were printed from a stack of glass plates I picked up in an antique store in Sanford," Meares continued. "I had no idea what, if any, thing, was on them. The pictures of the fishermen and some scenes of the Lake Monroe and St. Johns River area are uniquely Central Florida and were probably taken in the late 1800's."

The FTU photography collection is growing and tax deductible donations may be made through the University Foundation. Meares said photography is and has been a popular hobby and if people would take a look in the trunks in their attic, they might come up with something of historical significance. Photos of blacks and Civil War soldiers, he said, are particularly rare.

New History Course Offered

By Arla Vilko

One of the most pervasive and decisive conflicts in this century, the second World War, and its origins, operations and aftermath, is the focal point of a new FTU history course. The division of Europe today, the fall of Germany as a world super-power and continued United States involvement in world politics are results of the second World War.

"By now we are thirty years away from the war and can be more objective," said Pauley explaining, "I look behind the fronts at life on the home-fronts, uses of propaganda, how the lives of women were changed and how each country geared up economically for the war."

"There has been an enormous interest in World War II, as evidenced by the tremendous number of books, magazines, movies and recent television series," said Dr. Pauley. "I myself became more and more intrigued in the war."

Dr. Edward Teller, world renowned Physicist, spoke recently at FTU on "Stars and The Universe."

The first factory-authorized Garrard sale, ever!

Garrard Zero 100c: $199.95
Complete with base, cover and cartridge.
You save: $87.85

This is a once-in-a-lifetime opportunity! ZETA TAU ALPHA

After a week of fulfilled activities, Zeta Tau Alpha is planning to initiate 16 pledges. The pledges are now planning a party for the sisters after initiation. The last event of the week will be a banquet in honor of the new initiates.

Saturday, January 18, the pledges participated in a service project at Edgewood Boys Ranch. The boys at the Ranch and the Zetas had a active day of sports, events and games.

LAMBDA CHI ALPHA

The brothers of Beta Eta elected the new High Zeta for the coming year last week: High Alpha (president): Dave Hudick; High Beta (vice-president): Mike Halpin; High Gamma (secretary): Dean Taylor and High Tau (treasurer): Ed Simmons.

Also elected were High Kappa (fraternity educator): Dean Bowman; High Delta (rush chair): Mike Brown and High Rho (alumni relations): Joni Ireland.

Many of the brothers enjoyed a basketball game last Saturday plus a party afterwards with the Florida Regional brothers at the FIT chapter.

Chi Phi

Beta Zeta (FTU) chapter is hosting the Florida Regional Conference on Saturday, January 25 from nine a.m. to five p.m. at the Haystack East Apartments.

Music and refreshments will be provided by the brothers for all to enjoy. All men and women interested in learning about the social aspects of the Greek fraternity system are welcome.

This Friday, there will be a social at the ATO house. The brothers will play host to the sisters of Tri-Delta sorority, as well as rushers.

The brothers are anticipating a good turn out, and are looking forward to renewing an old friendship.

Kappa Sigma

Last Sunday Kappa Sigma brothers initiated 18 pledges, and are anticipating the initiation of several more pledges as well as Little Sisters this week.

They are now planning a “Battle of the Bands” tentatively scheduled for the end of February.

Upcoming events include a keg of Music and refreshments will be provided by the brothers for all to enjoy. All men and women interested in learning about the social aspects of the Greek fraternity system are welcome.

This Friday, there will be a social at the ATO house. The brothers will play host to the sisters of Tri-Delta sorority, as well as rushers.

The brothers are anticipating a good turn out, and are looking forward to renewing an old friendship.

ZETA TAU ALUMNI

The brothers of Alpha Tau Omega cordially invite everyone to attend their Winter Quarter Rush Party, to be held at 8:00 p.m., Saturday, January 25, at the FTU Alumni House.

Music and refreshments will be provided by the brothers for all to enjoy. All men and women interested in learning about the social aspects of the Greek fraternity system are welcome.

This Friday, there will be a social at the ATO house. The brothers will play host to the sisters of Tri-Delta sorority, as well as rushers.

The brothers are anticipating a good turn out, and are looking forward to renewing an old friendship.

ATomega would like to thank Dave Johnson of the Atlanta Braves for attending their first Rush Party on January 10. Also, they would like to invite all rushers to an informal rush party each Friday at four p.m.

The house is located at 7351 Aloina Avenue in Goldenrod.

CONGRATULATIONS to Little Sister, Terri Hinten, on her nomination at ATO representative to the Homecoming Court at FTU. Terri, having been a Homecoming Queen at Bishop Moore, is looking forward to the upcoming event!

DELTA DELTA DELTA

Tri-Delta won the Panhellenic Scholarship trophy for having the best overall GPA, 3.80, of all the sororities for last year. Fifteen sisters and pledge-sisters were on the Dean’s List.

This month the chapter will initiate 17 pledges at the end of Delta Week. This is a week of fun, anticipation and a growing awareness of the meaningful rituals of Delta Delta Delta.

On January 24, the Tri-Deltas will hold a car wash from nine a.m. until three p.m. to raise money for the scholarship fund. The fund provides a $50 scholarship to a woman on campus who is selected on the basis of need, scholastic achievement and contributions to campus life.

On January 30, Chris Greathouse, the Tri-Delta Field Secretary for the southeastern area will come to FTU for a few days. She will meet with all the officers of the chapter and help them with their duties. Chrys will also check the functioning of the chapter and give new ideas from other Tri-Delta chapters.

A week ago, tragedy struck the cafeteria. The student who entered the cafeteria at the time was given the broken dishes on the floor, milk spilled on the floor, and a broken milk machine in the milk machines, paper cups and plastic forks. Upon seeing this, students were overheard criticizing the cafeteria, the cafeteria help and the cafeteria manager.

If one looked into the incident, it was soon apparent that the problem was not the fault of the cafeteria at all, but rather the fault of the Physical Plant.

The Physical Plant is responsible for the water heaters that are located in the kitchen. The water heater broke last Friday, which is by no means the first time it has happened, and unfortunately the Physical Plant did not think that the hot water heater was broken during the noon hour in the kitchen was top priority. However, the cafeteria personnel realized the seriousness of the situation because as long as there was no water, no dishes could be washed. This was going to be offered, however, will probably be akin to water, no dishes could be washed.

The Norway sweater co. had to stop the conveyer belt, loaded to capacity, when they turned it back on to get the plastic utensils in operation that were so busy trying to get the plastic utensils in operation that it could not even fix it itself.

In all fairness, I attempted to contact the Physical Plant but as usually, everyday, the FTU-Wire called Physical Plant. "You're not available for anything," I was told. It is understandable that there are a multitude of things to be done in the new buildings, this nevertheless does not explain why several other times in the Fall Quarter it was virtually impossible to get anyone on the phone with anyone who was high enough up the conveyer belt. Sharon Espinoza, president of the Fall Association, felt that the cafeteria's problem should have been of number one priority. She added that "Morrison's has enough problems without a fire head," and is working an effort. They don't have a whole hell of a lot to work

Because the process is time consuming and the hot water heater broke at night, the manager often attempts to repair it himself if it is a minor repair. The lock had been changed on the cafeteria, however, had he not been given a key. Thus the problem was even more difficult and in fact he could not even fix it himself.

In all fairness, I attempted to contact the Physical Plant but as usually, everyday, the FTU-Wire called Physical Plant. "You're not available for anything," I was told. It is understandable that there are a multitude of things to be done in the new buildings, this nevertheless does not explain why several other times in the Fall Quarter it was virtually impossible to get anyone on the phone with anyone who was high enough up the conveyer belt.

Sharon Espinoza, president of the Fall Association, felt that the cafeteria's problem should have been of number one priority. She added that "Morrison's has enough problems without a fire head," and is working an effort. They don't have a whole hell of a lot to work.

Library Initiates New Checkout System

By Pat Strange

According to L.W. Walker, Director of Libraries, the FTU library is leasing a noiseless check out system and the second floor of the library will be converted into a reading and study area. The new check out machine is manufactured by the Mohawk Data Science Corp. It is called a C deck and is used for data collection.

The new system records transactions on magnetic tape instead of cards as the present machine does.

Walker said the machine is much faster as well as quieter. It has only one motor and makes it possible to record much more information.

If you happen to be without your ID card, for example, and need a book from the library, it is a much easier transaction with the new machine.

"Hopefully, it will be here next week," Walker said Friday. Whatever arrives there will be no lengthy wait for installation. "It only requires a plug in to a electrical outlet."

The cost is approximately the same as the system being used at present, as they are leased for a period of one year.

Both systems are expensive and frequently have design changes which makes it necessary to change models every few years. If the library purchased the machine they would have to use it until it wore out.

The new system comes none too soon, since the present machine has not been working for several days now.

Walker also said that the second floor, which is almost bare since the Humanities building opened, will be used as a reading and study area.

The reference service and probably government documents now on the third floor will also move to the second floor, by the Fall quarter.

Some classrooms may be retained because of the high student enrollment.

GASLIGHT Apartments

For active young adults. A cozy comfortable apartment in spacious appased surroundings. Convenient to school, shopping and entertainment.

EUROPE BOUND IN '75?

wouldn't you rather come with us?

Last year over 500 students selected the New World Flight, and the transatlantic flights on shorters because it costs about KP22 per mile. We fly direct to London, Paris, and New York. (That's what the airlines say now, last year there were no scheduled services.)

But only if you fly with us at half, but you can not have your choice of dates for 1, 2, 3, or 6 months during the summer, and all you have to do is qualify for a full payment sixty days before each flight. If you take the 6-month flight to London for example, and return from your visit and April 15, you will need the $199. (Unfortunatly, no one can fly for any amount of the flight since the money is all paid in or we could not qualify.)

So ask for our complete schedule, or if you have your own vacation plans, then write in June in order to purchase your tickets.

(Now $75, call 872-1400)

Faculty Senate Meets

Members of the Faculty Senate passed a resolution January 16, calling on the university to prepare a summary of actions taken to be distributed to members of the Faculty Assembly.

In other action, the Senate unanimously voted to send the instructor evaluation issue back to a committee for further study.

The steering committee introduced the bill concerning the summary of minutes as a means of saving money and so more members might read it.

The minutes of each meeting will be distributed only to members of the Faculty Senate, Deans and the President.

The evaluation issue was debated by those who thought each instructor should be evaluated by each of his classes every quarter and those who thought the frequency should be left up to the instructor.

The Board of Regents presently requires that each instructor be evaluated in at least three courses per year.

A motion was passed to include the phrase "any class by which an instructor wishes to be evaluated" before the issue was finally sent to the committee.
By Joe DeSalvo

"We've arrived," No, that's not an advertisement for a new economy car, it's Dr. Lex Wood's evaluation of his 1975 version of the FTU tennis team.

Coach Wood, going into his fourth year as the Knights' mentor, is very high on this year's squad as it prepares to start a 26-game schedule next Friday at home against Samford.

Mike DeZeeuw follows through on his powerful forehand shot during a match. DeZeeuw will be at No. 1 for the Knights. (Photo by Alan Geeslin).

Experience and depth are the two key pluses Wood believes will be in the Knights' favor. "The real secret for this season is depth," said Wood. In looking back on last year, Wood pointed out that the No. 4 through No. 6 positions were the "weakest, in which they couldn't get the key points." To help alleviate the problem, three new players in Doug Hall, Mark Gunderson and Bill Stettner have joined the squad.

Hall comes to FTU with the most impressive credentials. The freshman from New Jersey was 54-1 in high school competition and was co-ranked No. 1 in the state with his twin brother who is now playing for South Carolina. "This is a big plus for us this season," said Wood.

Gunderson, who Wood is very high on, is a first-year man from Boca Raton. "Mark is a good, tough freshman who likes to hit the ball hard," said Wood.

Stettner is the newest addition since he recently transferred from New York Tech. "He's a fine scramper and competitor," said Wood on the sophomore.

Along with depth, experience will be the name of the game for FTU. Returning for the Knights from last year's No. 10 ranked school in the college division, will be seniors Mike DeZeeue, Joe Lucci and Gary Timlin.

The tentatively doubles team are DeZeeue and Lucci at No. 1 with Wood and Graham at No. 2. Graham and Hall are in the lineup for playing positions. Wood said, "If Graham is playing very well, then Timlin has improved every year."

Returning also from last year's No. 7 team is sophomore Trevor Graham, who in his first season compiled a 7-7 and 9-9 record at the No. 6 position. Along with Graham, seniors Gail Graham and Gary Timlin are competing for playing positions.

"We've got the key players back. Wood feels the courts will make a difference in the Knights' attack, while Timlin has improved last year with an identical 11-5 singles and doubles record. Smith accumulated a 6-6 singles mark and a 10-5 doubles record last year. Commenting on the top three players, Wood feels "They have the benefit of good tournament competition they faced in the fall."

The tentative doubles teams are DeZeeue and Lucci at No. 1 with Wood and Graham at No. 2. Graham and Hall are in the lineup for playing positions.

A 29 match schedule will determine just how strong the Knights will be in 1975. Of the 29 matches, 22 of them will be played at home. Wood said, "Without a doubt it's a schedule they've been getting better every year."

The Knights will face their toughest matches, however, on the road. Florida, Florida State, Miami, and cross-town rival Rollins will be hosting the Knights. "They are the cream of the crop. It'll be a challenge if we beat them but I believe in miracles," Wood said.

"If a schedule is any indication how strong a team is, we'll have a real fine team."

Some of the top teams invading the FTU campus in the coming season will be Samford, Furman, Presbyterian College, Maryland, South Florida and Jacksonville.

According to Wood, "The first two teams are capable of giving the Samford match will be tough. There are a fine team but they have a liberal interscholastic program which helps them acqure good talent from other colleges in which players have been dismissed."

Lexwood

"In evaluating his team on a whole, Wood remarked, "We have eight or nine real good players who are capable of giving anybody a good match."

"Depending on how the challenge matches go next week, Wood said he would go with the same lineup he faced in the Jacksonville match of last quarter. FTU and the hosting Dolphins played to a 4-4 draw when darkness prevented the completion of the match. The Knights were leading in the final and decisive match.

Lexwood came."

The FTU Track Club will hold a meeting Monday, January 27 in VC 390 at noon. Dr. Kennedy, the club advisor, stated that the purpose of the meeting was to announce meets schedules and arrange for training and participation in this coming track season.

For the first time in its history, the FTU tennis team will be playing at home on "genuine" tennis courts. This is courts were re surfaced early last fall. Wood feels the courts will make a difference in the Knights attack. "It'll be a slower game and will be a more interesting game to watch."

Wood offered much appreciation to the many people who worked hard to get the re surfaced courts. Among them, Wood noted the efforts of Vice-President of Business Affairs John Gere, Dr. John Powell, FTU's athletic director and Dean Miller of the College of Education.

The Men's Intramural Basketball season was christened Tuesday afternoon when ATO squared Kansas and SX nudged Sigma Chi into the PKA 41-23 and HX humiliated DTD 109-20.

The ATO contest featured 10 points from Fabian of KS and Kurt Wolf of SX.

Peter Heath was the high point man as he paced his team to a 79-33 win, while TKE crushed PKA 41-23 and LHX humiliated DTD 109-20.

Wrestlers Scare Foes, Take 3 For Fit Wins
By Joe De Salvo

Word has gotten out that the FTU wrestling team is for real. It took only three phone calls for the 7-4 Knights to spook a host that was 2-3 at Maryland State, Bradley and Southern Tech all fell forfeit to FTU.

Coach Gerald Gergley said that the most recent forfeit, Southern Tech scheduled for this af­ternoon, was due to injuries and lack of personnel. Last week, Bradley and the Seminoles bowed out in a scheduled triple match at FTU at the last moment. Gergley pointed out however that the Seminoles were able to play

Bennie Shaw (22) drives for two of his 35 points in loss-sided win over FIT (Photo by John Becker).

Prather: 'FTU Find'

Not only did Mississippi-bred Jerry Prather earn a starting spot but also the respect of 11 opposing teams in helping the Knights to a 7-4 record through Saturday's FTU game. The remarkably poised first-year man stood second on the team in

Guard Cali Lingenfeld put it a different way.
"It's been so long since we've ran that I nearly forgot how," he joked.

If any of the Knights fought how a last break freedom operated, it was difficult to detect as they raced to a 40-25 lead in the opening quarter. Scoring leader Bennie Shaw poured in 21 of a season high 35 points in the initial stanza.

The Knights "came out smokin,'" again in the second half and blurred the hosts from 11 points after the break. FTU guard Tom Brown and Bernard Wigley led the Engineers offensive charge with 17 and 16 points, respectively.

The Knights played Florida Memorial College on Wednesday night and will face the Mavericks of St. Leo in Dade City tomorrow afternoon.

After an early touch of homesickness, Prather has become accustomed to the college life.
"I heard it was an academically oriented school and I believe it now," grinned the physical education major while taking a respite from a nightly load of studies.

Nobody is more pleased than Clark who has adapted to FTU life. "He's a great asset," said Clark, "with a really good future. I can't say enough about him."
There is one way to separate the cowboys from the cowboy musicians. That's to make it up North. The North is the biggest critic of southern rock, so when bands like Lynyrd Skynyrd and ZZ Top "make it" in northern tours, you know their popularity is based on more than just that regional hysteria.

Although ZZ Top is a familiar name that can sell out most southern arenas, the same doesn't remain true in the North. "Making it up North" has become somewhat of an obsession with them. "We just think it's a matter of exposure," explains guitarist Billy Gibbons. "People got to hear us before we can hope to sell them our records."

Their manager explains that their southern success was due to its saturation exposure in Texas and surrounding areas. They played so much that word-of-mouth started carrying them beyond the southern scene. They got my job trimmed an additional three million dollars from the university system's 1976 budget.

"We've not received any further instructions concerning the directive issued before Christmas by President Millican," said Engert, in reference to the three million dollar budget cut. "One aspect of the whole situation is the anticipated increase in enrollment and reduced state revenue," remarked Engert, agreeing that the moratorium is very definitely related to the present economic situation of the country. "People have reduced spending, a reduction in sales tax revenue, one of the prime sources of funds for the state of Florida."

Despite this novel situation, applicants are still being encouraged by the University. "The only change in any procedure is that final acceptance letters from the University are being held, pending approval from the Board of Regents to put them in the mail."

The hand brought with them the honor of being the second southern band to have their first two albums go gold. Their first LP was titled simply "Lynyrd Skynyrd," followed up six months later with "Second Helping."

The band opens its shows with a large Confederate flag draped down to form a background as the P A blasts a big band version of " Dixie."

Lynyrd Skynyrd is a mixture of the three lead guitarists of Gary Rossington, Ed King and Allen Collins, Billy Powell on keyboards, Leon Wilkeson on bass and Bob Burns on drums. The differences in southern and northern audiences are typical as Lynyrd Skynyrd and Neil Young openly challenge each other in their musical dialogues.

Young stars off by coming down on the south in "Southern Man." The Jacksonville group came back with "Sweet Home Alabama."

Well, I've heard Mithuh Young sing about us, well I've heard Neil put it down.

Well, I hope Neil Young will remember. A southern man don't need his name around anything. Some speculate that "Walk On," a cut from Young's "On The Beach" album keeps the valley going.

Ronnie Van Zant, co-author of "Sweet Home Alabama" says he doesn't intend to pursue a lyrical battle and considers Neil a "superstar."

Lynyrd Skynyrd left their Confederate flag and "Dixie" album at home as they began their northern tour. "We want to get away from the South," says Van Zant. "Not

"I got my job through the State Department of Vocational Rehabilitation"
