**Classes To Be Cancelled**

By Kerry Faunce

Classes have been cancelled Jan. 3 for one hour beginning at 11 a.m., for the Homecoming parade and festival.

Other developments include the addition of prizes to be awarded to winners on activities day and a "Secret Spirit" professor who will be giving away $10 bills.

This class cancellation is the second to be declared in FTU's history. The first was in 1989.

**ACTION Initiates Program**

By Vicki Blanchfield

Beginning April 1, FTU hopes to offer a federally funded volunteer program to students, which will enable them to spend one year in full-time assistance to the community's aging poor, while receiving full academic credit.

The new program, University Year for Action (UYA), was developed in 1971 by ACTION, a government agency created by Congress to unite all federal volunteer agencies into a single effort devoted to making life better for people in the world. The Peace Corps, Space, and Vista, are also affiliated with ACTION.

Dr. Ronald Newell, director of Continuing Education, said that FTU is the first school in Florida to receive a planning grant from ACTION.

He explained further, "The primary purpose of UYA is to give service to disadvantaged or poverty-stricken persons."

Our target group is the 16,180 residents of Orange and Seminole Counties who are over 60 years of age and live below county poverty guidelines.

Newell termed the program "experience learning", and expanded on its operation.

"UYA is a government financed poverty-program staffed by volunteers who are receiving full funding for their work toward their studies. Students are assigned to work through outside agencies called "field stations," for one full year."

When classes were canceled for the first time, we observed the dedication of the University.

Winners of the skill games on Pegasus Day will receive a credit (a monetary unit used in "Star Trek") for each game won. Bookstore gift certificates for $25, $50, or $100 will be awarded to the persons with the most Credits.

Door and costume prizes will also be presented at the UYA "Star Trek" dance and to the winners of the Mr. Legs and Ms. Bicep contests.

"Students participate in fulltime Vista-type activities and fit such field service within their overall study programs," said Clifford Pratt of continuing education.

Cooperating agencies will also reap benefits from the UYA program, in the form of increased manpower. Students will assist the agencies to solve the pressing problems facing the elderly poor in our community, thereby increasing the service capacities available from each agency.

FTU will provide a course of study, and although an effort will be made to recruit as many students in the 40-60 age bracket as possible, all interested students are encouraged to apply for consideration, by contacting the office for Continuing Education, extension 3124.

Pratt said that the program is designed to attract older persons who wish to return to school to pursue a degree or certificate in a particular major at FTU, and some will be more easily adapted to a distance learning format.

Dr. John W. Powell, chairman of the physical education department and director of the athletic department, said that the program will be a "real opportunity for our students and for those from other areas of the country, in the autumn of 1971."

The money originally appropriated would have been sufficient for construction in 1971. Since 1971 however, the cost of labor has gone up by 50 per cent. He continued that the only way to get the funds was to stretch the funds. He said, "we will make the best of it." and expressed his confidence that the complex has been cut to some 40 per cent. He continued that the only way to get the educational complex as it is now, is to justify the academic needs to the board of regents in Tallahassee.

Garcia also said that the complex will still have the original facilities planned, but they simply won't be as large as originally planned, in an effort to stretch the funds. He added that there may be an extension of the outside sports facilities now in use.
The exhibit currently on display in the Library lobby shows how far photography has come in less than 150 years. The antique cameras and old photos come from the personal collection of Charles Wedman, associate professor of art and Lorren Meares, coordinator of Instructional Media (IM).

In addition, two collections belonging to IM were contributed by C.H. DeForest of Orlando and Rose Ann Spencer of Tampa.

Both professional and amateur photographers can appreciate the display, Meares said, even though it contains nothing extremely rare.

The presentation shows some of the early common techniques and processes the photographer had to perform for a picture. The exhibit traces the history of photography from the early daguerreotypes, then the only way to draw with perspective.

"The daguerreotype was the first economically feasible process that proved useful," Meares explained.

It used a concave reflector of relatively large diameter and short focus and the image formed was thrown back on a sensitized silver surface.

"Daguerreotype was used almost exclusively for portraits. Only one out of a thousand were of something other than that," Meares said.

The daguerreotypes and daguerreotypes were donated by Rose Ann Spencer.

"Some of the pictures were printed from a stack of glass plates I picked up in an antique store in Sanford," Meares continued.

"I had no idea what, if anything, was on them. The pictures of the fishermen and some scenes of the Lake Monroe and St. Johns River areas are uniquely Central Florida and were probably taken in the late 1860s."

The FTU photography collection is growing and tax deductible donations may be made through the University Foundation.

Meares said photography is has been a popular hobby and if people would take a look in the trunks in their attics, they might come up with something of historical significance.

Photos of blacks and Civil War soldiers, he said, are particularly rare.

New History Course Offered

By Arla Vilko

One of the most pervasive and decisive conflicts in this century, the second World War, and its origins, operations and aftermath, is the focal point of a FTU history course.

History, 447, part of a four-part series of courses dealing with the history of the Twentieth Century, is offered this winter by Dr. Bruce E. Pauley.

Dr. Pauley, a widely traveled historian, has made a half dozen trips to Europe over the past twenty years to gather material for research and publication on the rise and fall of fascism.

"We will dwell on all aspects of the war, from combat to the economic, social, political and diplomatic activities that marked the triumphs and defeats on both sides," said Pauley.

"I try to give students a thorough account of the war," said Pauley, which he described as "fantastic in scope. World War II involved Africa, Germany, Great Britain and the Atlantic and raised greater social and political questions."

The division of Europe today, the fall of Germany as a world super-power and continued United States involvement in world politics are results of the Second World War.

"By now we are thirty years away from the war and can be more objective," said Pauley, explaining, "I look behind the scenes at life on the home-fronts, use of propaganda, how the lives of women were changed and how each country geared up economically for the war."

"There has been an enormous interest in World War II, as evidenced by the tremendous number of books, magazines, movies and recent television series," said Dr. Pauley, "I myself became more and more intrigued in the war."

Realizing that a number of FTU students have parents who are veterans of World War II, and a number of retired veterans live in the Central Florida area, Dr. Pauley responded to interest in the history course.

"I found so many students who knew so much about the second World War and wanted to know more."

"The class spurs interesting dialogue and is not just a monologue from me," said Pauley adding that this course should give students a "better understanding of what their parents lived through."

Dr. Edward Teller, world renowned Physicist, spoke recently at FTU on "Stars and The Universe."

Garrard Zero 100c: $199.95

Complete with base, cover and cartridge.

You save: $87.85

This is a once-in-a-lifetime opportunity! The Garrard Zero 100c automatic turntable, top of the Garrard line, with the exclusive Zero Tracking Error Tonearm that eliminates an important cause of distortion.

Plus a top-quality magnetic cartridge with elliptical diamond stylus. Plus a deluxe base. Plus a dust cover. All for $199.95, less than the regular price of the turntable alone.
ZETA TAU ALPHA

The brothers of Beta Eta elected the new High Zeta for the coming year last week: High Alpha (president): Dave Hudick; High Beta (vice-president): Mike Halpin; High Gamma (secretary): Dean Taylor and High Tau (treasurer): Ed Simmons.

Also elected were High Kappa (fraternity educator): Dean Bowman; High Delta (rush chairman): Mike Brown and High Rho (alumni relations): Steve Hartman.

Many of the brothers enjoyed a basketball game and the FIT basketball game last Saturday plus a party afterwards with the brothers at the FIT chapter.

CHI PHI

Beta Zeta (FTU) chapter is hosting the Florida Regional Conference on Saturday, January 31 from nine a.m. to five p.m. on the FTU campus. There will be approximately 120 delegates from Chi Phi chapters throughout Florida.

A social is planned for Saturday evening at the Chi Phi House.

ALPHA TAU OMEGA

The brothers of Alpha Tau Omega cordially invite everyone to attend their Winter Quarter Rush Party, to be held at 8:00 p.m. Saturday, January 25, at the Baystreak East Apartments.

Music and refreshments will be provided by the brothers for all to enjoy. All men and women interested in learning about the social aspects of the Greek fraternity system are welcome. Girls are welcome.

This Friday, there will be a social at the ATO house. The brothers will play host to the sisters of Tri-Delta sorority, as well as rushes.

The brothers are anticipating a good turn out, and are looking forward to renewing an old friendship.

ATO would like to thank Dave Johnson of the Atlanta Braves for attending their first Rush Party on January 10. Also, they would like to invite all rushes to an informal rush party each Friday at four p.m.

The house is located at 7351 Aloina Avenue in Goldenrod.

CONGRATULATIONS to Little Sister, Terri Hinton, on her nomination at ATO representative to the Homecoming Court at FTU. Terri, having been a Homecoming Queen at Bishop Moore, is looking forward to the upcoming event!

DELTA DELTA DELTA

Delta Tau Delta is seeking to be chartered as a chapter. This action should hopefully take place in the spring quarter. Meanwhile, the Delta hopes all Greeks will support Homecoming 75. Delta Tau Delta can make this an annual event.

After pledging, 12 men this spring, we anticipate new totals of 16. Any interested men are invited to contact Delta Tau Delta at 273-6260.

TAU KAPPA EPSILON

First off, the brothers of TKE would like to extend a very special welcome to their new faculty advisor, Dr. Chris Clausen.

TKE I Basketball team remains unbeaten at this time. Dave Thompson on FTU basketball team member, is coaching TKE I. Tau Kappa Epsilon has three teams on the court this season.

TKE I is captained by Jay Ferguson, TKE II has Gary Rudolph for captain and Byers P. Levy is captain of TKE III.

Tau Kappa Epsilon wants to extend congratulations to their “Little Sisters” and Tri-Delta security for one of the best powder puff football games in FTU history.

The TKE brothers and their dates went to the beach last Saturday, taking along their music and beer. Fantastic! Saturday evening TKE took a bus to watch FTU beat FIT. The whole day was most enjoyable.

Homecoming Week is nearing and TKE has appointed Bob Herman to do the planning. Frank Bailey is in charge of planning for the upcoming annual TKE Basketball Tournament.
A week ago, tragedy struck the cafeteria. The student who entered the cafeteria at the time was aware that the hot water heater on the floor, milk spilled on the table, and a broken machine, in the milk machines, paper cups and plastic forks. Upon seeing this, students overheard criticizing the cafeteria, the cafeteria staff and the cafeteria manager.

If one looked into the incident, it was soon apparent that the problem was not the fault of the cafeteria staff at all, but rather the fault of the Physical Plant.

The Physical Plant is responsible for the hot water heaterbreaks that are located in the kitchen. These water heater breaks last Friday, which is by no fault of the Physical Plant. However, the cafeteria personnel realized the seriousness of the situation because as long as there was no water, no dishes could be washed. The problems were not easily solved; the dishwashers were costly, and plastic knives and forks were not as quickly ridiculed.

The dishwashers soon had to stop the dishwasher, and the water could no longer be allowing the dishwashers to operate. Someone spilled milk all over the place, but the employees were so busy trying to get the plastic utensils in operation that there was no time to clean up. The sneakers of the cafeteria manager were wet, and the cafeteria was not available for consumption.

Normally when the hot water heater breaks, there is red tape to follow. The manager often attempts to repair it, but in this situation, it is a minor repair. The break had been changed on the room that held the water heater, however, he had not been given a key. Thus the problem was even further complicated by the fact that he could not even fix it himself.

All in fairness, I attempted to contact the Physical Plant but as usual, every time the Future calls the Physical Plant, they tell me that it was the no one was available for contacting them. It is undeniably that there are so many problems. I am of course the only one in the new buildings, this nevertheless doesn't explain why several other times in the Fall Quarter it was virtually impossible to contact the Physical Plant with anyone who was high enough up the cory-archy ladder and broke all over the floor. Someone spilled milk all over the place, but the employees didn't even have a bell or a lot to work with. Miss Esposito has personally proposed a plan that will look into the possibility of replacing the hot water heater before continuing time and again to pay the repair bill.

The contest begins. The contests begin on Monday, the contests begin.
FSU Offers Alternate Newspaper

Students and faculty at Florida State University founded copies of a student newspaper on their own, without university approval, called "The Seminole," a two-color logo with names, addresses, phone numbers, and lines offering the campus "an alternative newspaper." It was founded due to "the long-established "Florida Flambeau," the new tabloid says its objectives are "to bring back the dormant tradition of college spirit, enthusiasm and pride in student university affairs."

Editor Paskewich set the criteria of "objective and professional journalism" for "The Seminole's" news coverage of the campus, and noted that its future success "depends on support from many segments of the University and community."

The recreation center is compiling a list of all students who play tennis and need partners. The list is available at the main desk, and shows names, addresses, phone numbers, available playing times and levels of ability of interested players.

The service is available for sign-up and inspection from eight a.m. to four p.m.

C & C Madsen

Charles and Clifford Madsen of Florida State University, co-authors of The Parent's Children, Discipline: A Positive Approach, will be featured as leaders of a behavior modification workshop, Saturday, January 25, at First Unitarian Church, 1015 E. Robinson St., from nine a.m. to four p.m. Emphasis will be on improving inter-family communication and relationships. Cost for the day long seminar is $12.50 in advance, $15 at the door.

The new system records transactions on magnetic tape instead of cards as the present machine does.

Walter said the machine is much faster as well as quieter. It has only one motor and makes it possible to record much more information.

If you happen to be without your ID card, for example, and need a book from the library, it is a much easier transaction with the new machine.

"Hopefully, it will be here next week," Walter said Friday. "Whenever it arrives there will be no lengthy wait for installation. It only requires a plug in to a electrical outlet."

The cost is approximately the same as the system being used at present, as they are leased for a period of one year.

Both systems are expensive and frequently have big design changes which makes it necessary to change models every few years.

If the library purchased the machine they would have to use it until it wore out.

The new system comes none too soon, since the present machine has not been working for several days now.

Walker also said that the second floor, which is almost bare since the Humanities building opened, will be used as a reading and study area.

The reference service and probably government documents (now on the third floor) will also move to the second floor, by the fall quarter.

Some classrooms may be retained because of the high student enrollment.

---

**Faculty Senate Meets**

Members of the Faculty Senate passed a resolution January 16, calling for the secretary to prepare a summary of actions taken to be distributed to members of the Faculty Senate.

In other action, the Senate unanimously voted to send the instructor evaluation issue back to a committee for further study.

The steering committee introduced the bill concerning the summary of minutes as a means each meeting and so more members might read it.

The minutes of each meeting will be distributed only to members of the Faculty Senate, Deans and the President.

The evaluation issue was debated by those who thought each instructor should be evaluated by each of his classes every quarter and those who thought the frequency should be left up to the instructor.

The Board of Regents presently requires that each instructor be evaluated in at least three courses per year.

A motion was passed to include the phrase "any class by which an instructor wishes to be evaluated" before the issue was finally sent to the committee.

---

**Library Initiates New Checkout System**

By Pat Strange

According to L.W. Walker, Director of Libraries, the FTU library is leasing a noiseless checkout system and the second floor of the library will be converted into a reading and study area.

The new check out machine is manufactured by the Mohawk Data Science Corp. It is called a C deck and is used for data collection.

Dr. Charles Unkovic and Dr. Burton Wright present a copy of their new book "Perspective: An Introduction to Sociology" to Mr. L. W. Walkes, Director of Libraries. (Photo by Geeslin)
Tennis

We've arrived," No, that's not an advertisement for a new economy car, it's Frank Wood's evaluation of his 1975 version of the FTU tennis team.

Coach Wood, going into his fourth year as the Knights mentor, is very high on this season's squad as it prepares to start a 29 game schedule next Friday at home against Samford.

"We've got a lot of depth," Wood said. "Our best singles player is Mark Lucci and our best doubles team is Lucci and Nate Smith, both of whom had a remarkable season last year." Wood feels "they will have the benefit of good tournament competition they faced in the fall." Returning also from last year's team is sophomore Trevor Graham, who in his first season compiled a 6-7 and 6-9 record at the No. 4 position. Along with Graham, seniors Gail Graban and Gary Timlin are competing for playing positions. Wood said, "Graham is playing very well while Timlin has improved his game." Wood believes that the Knights will face a tough challenge in the No. 2 singles and 11-4 doubles record. Smith and Lucci were both successful in singles and doubles, with an identical 11-5 singles and doubles record. Smith accumulated an 11-6 singles mark and a 6-9 doubles record last year. Commenting on the top three players, Wood feels "they have the benefit of good tournament competition they faced in the fall."

The tentative doubles teams are DeZeuew and Lucie at No. 1 with Graban and Graham at No. 2 and Graban and Hull rounding out the third position. A touch schedule will determine just how strong the Knights will be in 1975. Of the 29 matches, 23 of them will be played at home. Wood said, "Without a doubt it's the (schedule) that's being getting better every year."

The Knights will face their toughest matches, however, on the road. Florida, Florida State, Miami, and cross-town rival Rollins will be hosting the Knights. Wood said, "They're the cream of the crop. We'll have a chance to beat them but I believe in miracles."

Wood added, "If a schedule is any indication how strong a team is, we've got a real fine team."

Some of the top teams invading the FTU campus in the coming season will be Samford, Furman, Presbyterian College, Maryland, South Florida and Jacksonville. According to Wood, "The samford match will be tough. Then a few teams but they do have a liberal intersquad program which helps them acquire good talent from other colleges in which players have been dismissed."

Lexwood

In evaluating his team on a whole, Wood remarked, "We have eight or nine real good players who are capable of giving anybody a good match." Depending on how the challenge matches go next week, Wood said he would go with the same lineup he posted in the Jacksonville match of last quarter. FTU and the hosting Dolphins played to a 4-4 draw when darkness prevented the completion of the match. The Knights were leading in the final and decisive match.

Mike DeZeuew follows through on his powerful forehand shot during a match. DeZeuew will be at No. 2 for the Knights. (Photo by Alan Geeslin)

By Joe DeSalvo
Prather: 'FTU Find'

Possibly the most pleasant surprise for the Knights who had a highly successful FTU basketball season has been the play of a spindly, in its 15 years old freshman who admitted he didn't expect to start before the season.

Jerry Prather

Not only did Mississippi-bred Jerry Prather earn a starting spot but also the respect of 11 opposing teams in helping the Knights to a 7-4 record through Saturday's FTU game. The remarkably poised first-year man stood second on the team in scoring (14.3) and first in rebounding (11.3) and according to Coach Torchy Clark, "has played practically every game."

"Jerry has really improved," he's playing like a veteran," Clark emphasized. "He is a real find, one of the best we've ever recruited."

Clark then reflected on the Prather known to teammates and close friends: "He is just a really fine human being with a great attitude. He has that good combination of humility and ability.

When talking with the friendly wide-eyed youngster it becomes obvious what Clark means Prather has an easy-going, affable manner that makes friends easily. And when discussing on court achievements he is quick to credit team unity for any success the Knights enjoy.

"I like this team," stated the 6-3 leaper. "Everybody is really together. Nobody is mad at anybody and there is no lack of determination - they don't give up. A team can win that way even if they're not that big."

"Using our heads - that's the fundamental expression of the team Everybody's just using his head."

If such is the case, then Prather must be one of the "heady" members of the club with a 50 percent field goal average, by far the team's best. He actually went through 10 intercollegiate contests before experiencing a sub-50 performance. Leading right against FIT Saturday in FTU's easy 100-69 win.

Prather, All-North State from New Albany, Miss. last year when he averaged 18 points and 18 rebounds per game, first came into the FTU cagie picture when a friend of Clark's, Don Ross who is now coaching basketball in Aberdeen, Miss., spotted, the prepster dominating the local high school scene and informed FTU's coach about the prospect.

After early touch of homesickness, Prather has become accustomed to the college life. "I heard it was an academically oriented school and I believe it now," grinned the physical education major while taking a respite from a nightly training session.

Nobody is more pleased than Clark who has adapted to the FTU life. "He's a great asset," said Clark, "with a really good future. I can say enough about him."

Wrestlers Scare Foes, Take 3 For Fit Wins

By Joe De Salvo

Word has gotten out that the FTU wrestling team is for real. It took only three phone calls for the 7-4 Knights to sky rocket to a 3-3 mark at Florida State, Bradley and Southern Tech all forfeited to FTU.

Coach Gerald Gorgley said that the most recent forfeit, Southern Tech suffered the team's first loss of the season Saturday. The Knights traveled to Tampa to play the host Spartans in hopes of gaining win no. 6. The Knights next home match is on Sunday, February 4th when they host a tough Kentucky squad.

The Knights meanwhile suffered a big blow when 187-pound freshman, Ray Barker, injured his knee forcing him to sit out the rest of the season. Earlier this season Barker, 177-pound Dave Alberts quit the squad in exchange for the Lord.

Prather: 'FTU Find'

Possibly the most pleasant surprise for the Knights who had a highly successful FTU basketball season has been the play of a spindly, in its 15 years old freshman who admitted he didn't expect to start before the season.

Jerry Prather

Not only did Mississippi-bred Jerry Prather earn a starting spot but also the respect of 11 opposing teams in helping the Knights to a 7-4 record through Saturday's FTU game. The remarkably poised first-year man stood second on the team in scoring (14.3) and first in rebounding (11.3) and according to Coach Torchy Clark, "has played practically every game."

"Jerry has really improved," he's playing like a veteran," Clark emphasized. "He is a real find, one of the best we've ever recruited."

Clark then reflected on the Prather known to teammates and close friends: "He is just a really fine human being with a great attitude. He has that good combination of humility and ability.

When talking with the friendly wide-eyed youngster it becomes obvious what Clark means Prather has an easy-going, affable manner that makes friends easily. And when discussing on court achievements he is quick to credit team unity for any success the Knights enjoy.

"I like this team," stated the 6-3 leaper. "Everybody is really together. Nobody is mad at anybody and there is no lack of determination - they don't give up. A team can win that way even if they're not that big."

"Using our heads - that's the fundamental expression of the team Everybody's just using his head."

Most successful groups attract followers by a combination of their musical ability and the image they project. Any band can be categorized by the type of music they play, the way they deliver their act and the region of the country they represent.

This regional discrepancy is both a curse and a blessing. Take for instance the epidemic of southern rock bands that are constantly emerging. Any group that wears cowboy hats and has a vocalist that can produce a hearty southern drawl can attract the fanatical followers of the South. The problem is that these somewhat less than sensational "southern" bands are seriously hurting the true masters of the Dixie beat. You see, not everyone likes southern music.

There is one way to separate the cowboys from the cowboy musicians. That's to make it up North.

The North is the biggest center of southern rock, so when bands like Lynyrd Skynyrd and ZZ Top "make it" in northern tours, they know their popularity is based on more than plain southern hysteria.

Although ZZ Top is a familiar name that can sell out most southern arenas, the same cannot be said for the North. "Making it up North" has become somewhat of an obsession with them. "We just think it's a matter of exposure," explains guitarist Billy Gibbons. "People go to hear us before we can hope to sell them our records!"

Their manager explains that their southern success was due to saturation exposure in Texas and surrounding areas. They played so much that word-of-mouth started carrying their reputation. That's their plan for the North.

ZZ Top has its musical roots planted deep in the Texas blues tradition. Their third album "Tres Hombres" met with above average success.

The album also contained a hit single, "La Grange." This is our big chance," claims bassist Dusty Hill. "We're gonna play so well that they'll forget glitter ever happened."

Hill and drummer Frank "PINK" Beard played in other Texas bands before ZZ Top was born.

The group realizes that breaking the northern market won't be easy, but that isn't going to stop them from trying. Lynyrd Skynyrd is another southern band which has recently invaded the North.

The hand brought with them the honor of being the second southern band to have their first two albums go gold. Their first LP was titled simply "Lynyrd Skynyrd," followed up six months later with "Second Helping."

The band opens its shows with a large Confederate flag drooping down to form a background as the PA blasts a big band version of "Dixie."

Lynyrd Skynyrd is a mixture of the three lead guitar of Gary Rossington, Ed King and Allen Collins, Billy Powell on keyboards, Leon Wilkeson on bass and Bob Burns on drums.

The differences in southern and northern feelings is typified as Lynyrd Skynyrd and Neil Young openly challenge each other in their musical dialogues.

Young stars off by coming down on the south in "Southern Man." The Jacksonville group came back with "Sweet Home Alabama!"

Well, I've heard Mistubh Young sing about us. Well I've heard old Neil put it down.

Well, I hope Neil Young will remember. A southern man don't need him around anymore! Some speculate that "Walk On," a cut from Young's "On The Beach" album keeps the valley going. Ronnie Van Zant, co-author of "Sweet Home Alabama" says he doesn't intend to pursue a lyrical battle and considers Neil a "superstar."

Lynyrd Skynyrd left their Confederate flag and "Dixie" album at home as they began their northern tour.

"We want to get away from the South," says Van Zant. "Not musically - we're proud that we're southern, but we've got to play where we're weak. We are tired of all that "southern scene crap that follows us in new-papers; it's gotten so a great band from New York has less of a chance now than an average band from the South. That ain't good and it ain't fair."

The southern group has done extremely well in the North. Much credit is due to the national success of their single "Alabama."

Although the group is fighting a single image, "Gimmie Three Steps," a cut from their first album and "Sweet Home Alabama" have both skyrocketed on the Top 40 charts, with no deliberate attempt.

Road manager Russ Emerick credits their northern success to what he calls a "Return to reality" in rock music, "way from the fantasy of the drug period. That's universal; it's not southern."

Enrollment Moratorium In Effect

Effective Monday, January 13, Florida Technological University will not be permitted to accept new student applicants for a period of approximately two weeks.

The moratorium on enrollment was ordered by the University Board of Regents for all nine state universities.

C. Barth Engert, FTU Director of Public Information, explained that the temporary moratorium was imposed to give the Board of Regents an opportunity to assess the financial demands and needs of the university system for the new fiscal year.

Budget cuts ordered by the governor will trim an additional three million dollars from the university system's 1975 budget.

"We have not received any further instructions concerning the directive issued before Christmas by President Millikan," said Engert, in reference to the three million dollar budget cut.

"One aspect of the whole situation is the anticipated increase in enrollment and reduced state revenue," remarked Engert, agreeing that the moratorium is very definitely related to the present economic situation of the country.

"People have reduced spending in all fields that impact the university system, and this is our big chance," Engert explained.

Despite this novel situation, applicants are still being encouraged by the University.

"The only change in any procedure is that final acceptance letters from the University are being held, pending approval from the Board of Regents to put them in the mail."

The moratorium on enrollment is applied to all FTU students, whether they are new students or continuing students.
