Botanical Art Displayed

By Pat Strange

The present library exhibit is a small part of the work of Studford H. Foster, botanist, naturalist, explorer, artist and writer. Foster, who has lived in the Orlando area many years, has introduced over 200 varieties of plants into the U. S. and introduced many more. The Bromelias, featured in this exhibit, were discovered by Foster in Mexico in 1911 while he was searching for cacti. They became his prime pursuit from then on.

There are many varieties of Bromelias, from Spanish moss to the popular pineapple plant. They are primarily air plants, which do not require much watering, and absorb moisture from the air, storing it for their future use. Another feature of the plants is that they do not attract insects.

The plants range in size from very small to huge, and in color from the very bland to the vivid brights. Besides being pleasant to look at, many are useful also. Some have medicinal properties, some produce food, and some are used for packing material and to stuff upholstery.

The sketches shown in the exhibit were also done by Foster. In addition to being a self-taught botanist, Foster is a self-taught artist.

After becoming interested in sketching new plants for various Botanical Gardens and periodicals, Foster began painting his discoveries in their natural setting. From this hobby, he went to abstraction and impressionistic painting.

Many of the photographs exhibited were shot at Foster's home, Bromelio-a in this area. The Barrens have been developed into a Bromeliada garden.

Dr. E. W. Steyer, of the FTU Student Health Service, explained the FTU Blood Reserve policy: "Our account with the Central Florida Blood Bank allows their agency to handle our credits, but the blood is ours. We have our own account, so if the amount of blood be replaced by the user or family, this action would be beneficial in maintaining the reserve level.

The FTU Blood Reserve policy requires that a minimum of 100 units of blood for 5,000 students be present in the reserve at all times. As the student population increases, the minimum number of units of blood will increase by 25 units for every additional 2,500 students.

"However," he added, "some blood is kept in reserve only at times, in case of a catastrophe. According to Foster, there are not 262 units of blood on hand, and 17% of these units are available for release, simply by asking the health center.

As Mr. Foster stated, 16 units of blood were donated during the last year's campus drive, when the efforts and solicitors contributed substantially to the total. Hopefully, this year's campaign will be equally successful.

A prize will be awarded to the club, organization, fraternity or sorority donating the most blood.
Concert Poll Invalid

The results of the recent Village Center concert poll have been invalidated.

Linda Stevens of the VC said the poll was invalidated because the ballot used did not include small and lesser known groups.

The VC is trying to work with Student Government (SG) now to find a solution.

Hunter Potts, SG President, said he did not think the poll was conducted in the proper manner.

"I understand that Picket Zappa was high upon the poll and

I don't think that our students want Zappa," Potts said.

"Eight out of 10 we are trying to get a commitment from the VC saying that they'll put up some money," said Potts.

"If we get this, I assure you there'll be a bill introduced to the student senate." (For money.)

Potts said he favors a large concert at Lake Chiver.

ALPHA PHI OMEGA

Students on campus are establishing a service organization and are acquainting themselves with the principles and practices of the national service fraternity, Alpha Phi Omega.

The fraternity elected its General Officers at its last organizational meeting, on February 4. Elected were President Bob Kilmari and Recording Secretary Brian Dennis.

DELTA SIGMA PI

The brothers of Delta Sigma Pi are proud of Brother Ed Hook for his tenacity to jump at the Homecoming activities.

Initially, Brother Hook was told by university officials that he could not jump because of the risk and for insurance reasons. But Hook and his skydiving comrades took out a one million dollar insurance policy with Lloyd's of London just for the time covering the event.

On Feb. 6, the Theta Sigma Chapter was honored to have Regional Director George E. Haggard Jr. at our meeting.

Brother Joe Ryder is organizing our annual Golf Tournament to be held in March.

Details on this event will be announced in the PiTitre.

TAU KAPPA EPHRAN

Last Friday, TKE went to see the play "Sugar" and also to see Mark Box, a brother.

Tonight, TKE's Lil Sisters are giving the fraternity a Valentine Party.

TKE is having its Annual Basketball Tournament for the first week of March.

It will have only fraternity competition for first place. All interested fraternities contact Frank Bailey at 254-404.

TKE is in the process of forming soccer teams for Intramurals.

PI KAPPA ALPHA

The brothers and Little Sisters of PIA attended the Sunshine Regional convention last weekend in Tampa.

The eight chapters in attendance participated in a Pike Olympics, in which the PTK Pikes came in second place behind USF. PIA also had a Founder's day banquet and party.

Next weekend is the second anniversary banquet of ETA Phi Chapter. All Pikes, alumni and actives, are urged to attend.

IFC

Greek Week has been voted to be on the weekend of the 3rd and 3rd of May.

Len Haushold is the IFC chairman for Greek Weekend '75. The IFC sent a delegate to the IFC-FPSC Convention in Atlanta this weekend. He will gather information concerning Rush, Fraternity involvement and housing while there.

Rush Committee Chairman Carey Hobbs reports plans are underway for the IFC-FPSC combined Fashion Show on April 4. The IFC will utilize this event for Spring Rush '75.

Plans call for a Fashion Show and a Greek Carnival. Fashion models would be selected from the fraternities and sororities. IFC urges all Greeks to support the Lambada Chi Alpha Basketball Marathon this weekend.

Europe Bound in '75?

Would you rather come with us?

You've read about the exciting new student travel to Europe for the spring break. Now, you can make your own plans and be on your way to Europe for the spring break with our low fare air travel today.

The National Poetry Press has announced its annual spring competition for college students. Any student attending a junior or senior college is eligible to submit an entry.

Shorter works are preferred, because of space limitations in the College Student's Poetry Anthology.

A MOUNTING DATE for submission of manuscripts is April 15, 1973. Each poem must be typed or printed on a separate sheet, and must bear the name and home address of the author, if applicable. Manuscripts should be sent to the Office of the Press, National Poetry Press, 3210 Selby Ave., Los Angeles, California, 90004.

Congressman Lou Frey has backed a bill to establish a system of cross-country bicycle trails. Called the National Trails System Act, the measure would direct the Secretaries of Interior, Agriculture and Transportation to study three routes for inclusion in the national trails system. From the popularity of the bike and the energy situation prompted Frey to support the move.

The neutral district representative said: "During this period of increased emphasis on outdoor recreation, general increase in leisure time, and the continuing emphasis on the use of gasoline, we need to consider alternate forms of transportation. The use of bicycles is an excellent alternative.

FTU students will contribute their work to the annual Engineers' Fair, sponsored by the FTU Student Chapter of the Florida Engineering Society, to be held February 23 from 11:00 a.m. to 2:00 p.m. and February 24 from 11:00 a.m. to 5:00 p.m.

Several projects on-display will include a Solar Water Heating System, a Computer Tic-Tac-Toe Game, a Computer Art exhibition, and a display of applications of laser beams in non-destructive testing of concrete beams.

Also scheduled for next weekend's event will be presentations from guest speakers and from local and private organizations, including historical displays, a model of a nuclear power submarine, and various demonstrations.

Friday at 8:45 p.m. Mayor Carl Langford of Orlando will be on hand for a ribbon-cutting ceremony and the signing of a special proclamation.

Dr. Robert D. Kersten, Dean of FTU's College of Engineering, has been named by Governor Robert Mathis to serve as acting director of the Florida Solar Energy Center, following the retirement of Kersten's predecessor, Dr. John Langdon.

Among Kersten's new duties will be the recommendation of a permanent successor to the project and co-ordination of activities of the Solar Center at the main campus and the Cape Canaveral site.

In making the appointment, the Chancellor called upon the FTU Engineering to "expedite plans and other activity associated with the start-up phase of operations at the center."

Chancellor noted that the Florida Solar Energy Center "has already captured the imagination of many Floridians, this is an exciting project which your participation assures that far has helped make possible..."

Mr. George H. Shepard,Program Manager of Operations for the Department of Health, Education, and Welfare spoke to Dr. Charles M. Kovie's class on juvenile delinquency Monday, February 20.

Shepard, a former policeman, is author of several articles on police work with juveniles and other police reports, including briefs on municipal police administration and intake procedures, a directory for law enforcement agencies and juvenile courts.

Shepard is primarily concerned with the funding of community-based delinquency prevention and control programs. In this capacity, he also lectures to groups of key managers in the field of juvenile correction and presentation under the auspices of the International Association of Chiefs of Police.

The Days of Wine and Roses" and Dr. Joyce Brothers will be among the attractions during a four-day program on alcoholism at FTU's Village Center, Feb. 14 21.

Adopting the title, "Alcoholism: The Pleasures and Problems," the program will combine music, films, seminars, panel discussions, and guest speakers, and is jointly sponsored by FTU's Student Government, the Division of Student Affairs, and University Personnel Services.

Along with Dr. Brothers, who will speak at 8 p.m., Feb. 20, the program has a variety of offerings, ranging from the Oscar-winning "Wise and Roser" and Older Poet Richard Sten, to a free appearance by Richard Paul in "W.C. Fields 80 Proof!"

An emergency meeting of the Residence Hall Association has been called for Monday, February 17th, at 8:00 p.m. in the Village Center Assembly Room. Two major topics are planned for discussion: major changes in food service and meal plans, and other proposed changes in the residence halls.

All residents are urged to attend these decisions. Vote at this meeting will affect everyone.

FTU presents a live theater production.

Tickets at the door.

If you pay a parking ticket within seven days you will not have to pay the $8 mandatory fine recently enacted by state legislation.

Since the creation of the "Florida uniform disposition of trafficinfractions act" (S-871), a new method of citation has developed that may not apply to you.

With the advent of this dispute, the Board of Regents moved to observe the old traffic fine schedule until the application of the new schedule is determined.

This money is intended to support the University Police. About $700 tickets have been issued in the past two weeks. Only two citations have been appealed; the others have been paid in accordance with the University fine schedule.

The police issued courtesy citations during the first four weeks of classes.

Considering that tuition will almost inevitably rise in the near future, it seems unlikely that students must be burdened with another price increase such as this.

If, indeed, the State finds it necessary to increase traffic fines within the university system, maybe the additional revenue could be used to offset tuition, book, or food service expenses levied by the individual university.

If not, with general expenditures, the additional funds might be used to increase traffic fines.

The writer, if it continues to raise the financial burden to students, does not have a college education beyond the reach of today's high school graduate.

This is something worth considering.

---

The police will not follow the path of the existing dirt road; but will be constructed to conform with the master plan of the Traffic Road.

The police issued courtesy citations during the first four weeks of classes.

Jaycees Honor FTU Students

Two members of the Florida Tech community have been honored by the Orlando and Winter Park Jaycees Club in their annual awards.

Dr. Timothy J. Sullivan, Assistant Professor of Education was selected by the Orlando Jaycees as Outstanding Young Educator at its January 24 Sixteenth Annual Awards Banquet.

Dr. Sullivan works extensively with the student teaching program in the College of Education and co-ordinates public relations with area schools.

Mary Scott Wickham, an FTU student from Winter Park was selected by the Winter Park Jaycees recently as Outstanding Young Student.

Miss Wickham was nominated by Dean Wilson and competed with other students from area colleges.

In addition, Father Pat O’Neill, former Director of the FTU Campus Ministry, was given the Outstanding Religious Leader Award by the Orlando Club.

Father O’Neill moved in January to Washington, D.C., where he is serving as National Director for Campus and Young Adult Ministries for the U.S. Catholic Conference.

O’Neill also served on the Board of Six State Drug Abuse Council, a position appointed by Governor Askew.

The Jaycees, a nationwide service club, focus their citations on those under age 30.

Canoe Trip Offered To College Students

An expense paid, 1,000 mile canoe trip from Macon, Ga., to Miami, Fla., is being offered to qualified college students as a slice endorsed bicentennial project.

During the summer of 1975, the expedition crew will traverse the route taken by Wm. Bartram, colonial explorer and botanist of pre-revolution America.

The information gathered will be published in the publication of a book.

Needed for the trip are a social anthropologist, a geologist, a paleontologist, a historian, two kg keepers, a folk musician (guitarist), a botanist, an ornithologist and two photographers.

Applicants must be qualified in one of the needed fields and will be judged in seven areas.

W.F.T.U. Begin New Program

Of course, this is a broad definition and there are many various interpretations of the word "soul" when applied to a form of music. But this brief description will provide a basis for the contrast offered by "progressive soul".

Progressive soul develops a sound or style that is not just a musical song to dance to. A political statement is usually incorporated around the structure of a song performed by a group of serious musicians.

Wiggin’s show will follow a "progressive" black format with a continuity between black readings, poetry, and musical expression.

The "musical messages" will be delivered in the form of Stevie Wonder, the Temptations, and other serious black artists.

The readings include works by George Jackson, James Baldwin, Angela Davis and other prominent black writers.

The show will be aired Thursday mornings between nine and ten o’clock.
Cagers Welcome Home Win After Continuing Road Jinx

By Pat Murray

"The road" continued to play havoc with the FTU basketball squad last week as the Knights dropped a pair of away tests to Florida A&M, 113-72 and Georgia Southern, 70-64. After defeating the Rattlers on the run all season long, they found the going tough in 37 points between them.

FTU scored 20 points on five starters, four starters having only 20 points between them.

Jerry Prather chipped in 10 more for the Rattlers. Returning "home" to Lake Highland pum the Knights got a measure of revenge as they ruined St. Leo, 85-72. The Monarchs defeated FTU earlier in the month, 86-84. But this time the Knights raced to a 39-25 edge at intermission. The hothand of the game was Holmquist, who had eight points, and two blocked shots.

The second stanza found both FTU men (Belotte and Corso) on the bench in foul trouble. Knight Coach Torchy Clark substituted his three guard offense and went into a semi-stall.

"I know it wasn't exciting basketball," Clark said. "But I'm interested in winning ball games."

"Hey, they're a good, tall club. They beat us earlier and almost beat Rollins. It was a good win to get under our belt," Clark continued.

The visiting Monarchs had difficulty penetrating the Knights sticky zone defense evidenced by a cost 31.2% shooting percentage from the floor.

Conversely, FTU shot a healthy 52.7% from the floor with Shaw leading the scoring parade with 25 points. Belotte added 20 marks while Corso who accepting to Clark, "was a big factor in the first half" had eight points, and two blocked shots.

The second act left the Knights season ledger at 11-8. Tonight they entertain the Engineers from FTT at Winter Park High. Monday they hit "the road" again traveling to Tampa to face South Florida. Buses to the Tampa game are available through Student Government.

Football At FTU In Fall

By Pat Murray

Football at FTU will become a reality next fall thanks to the diligent efforts of senior John Bridges.

Although not of the NCAA variety, the newly formed football club will participate in the newly formed Tackle Football League.

Bridges laying the groundwork by attending league meetings, campaigning on campus for the organization, and selecting prospective players, the club was officially sanctioned by student government, on February 1.

Bridges, who is acting president of the organization, stated that in addition to needing more players to fill the 40-man roster the club also needs funds.

"Because we're raising our own money, players that came out last month and those who work on the fund raising drives will be given first crack at making the team - when tryouts begin," Bridges related.

"We can't have players thinking that they don't have to work raising money but will still have a place on the roster," he continued. "The fund raising has to be a team effort also. We need to raise $700 by March 1."

Bridges doesn't see the intermediate possibility of rivaling the Florida-FTU game in atmosphere "although we certainly would like it if the student body became involved with the team."

Prospective gridders are urged to contact John Bridges through the FTU office.

Goldsox Unleash Promising Year

By Walt Morris

With FTU's baseball team opening their 1975 campaign tomorrow on the road against Bethune-Cookman, coach Doug Holmgquist believes this is the year his team will make it to the national championship tournaments.

Holmgquist said good fielding, strong batting and added speed will be the secrets to success. Holmgquist has 12 men returning from last year's team.

Craig Butler, Mel Gattis and Jim Horvath will be the three mainstays that Holmgquist will try to build his team around.

Holmgquist described Gattis as the best defensive catcher in the State.

Horvath was the leading hitter last year with a .335 average. He is tops in the upcoming batting order.

This year's schedule has been boosted up FTU will play the University of Pennsylvania, the University of Tennessee, Stetson, Eckerd and Rollins.

"We've got a lot of tough schools this year," said Holmgquist. "Last year we had a lot of breathers but not this year. Where you're thinking about the tournament you have to have a schedule to match your record," the personnel coach continued.

"The team speed is better than last year," Holmgquist said. "I'm going to put a couple of guys on their own running a little." Holmgquist is waiting for one return man to report for practice. However, he has to wait until basketball season is over. The man in Calvin Lingenfiedt.

"Lingenfiedt did a super job last year," Holmgquist boasted. "He's a tough kid and a fine athlete. I've got a uniform in the cabinet for him."

Home games will be played at The Field.
Murphy, Shives Cop State Champs Honor

By Joe Deolve

The FTU wrestling team took time out from their tough dual match schedule to acquire two new state champs in addition to two performance awards in last weekend's state championships in Miami.

Senior Pat Murphy, competing in the usual 134-pound class, took his second state title in three years as he defeated Florida State University's Batchlor 8-3 in the finals.

"I wanted to win it badly probably because it's my last year," said the soft-spoken Murphy. "I was more aggressive than usual in the matches."

Coach Gerald Gergley, pointing to Murphy's scores of 11-3 and the 8-3 in the first-round and finals, respectively, added, "He really opened up in doing a fine job out there."

For Mike Shivers, whose seem limited action this season due to injuries, it was a big thrill. "It's really opened up in doing a fine job out there."

Shivers won the 155-pound class title defeating Dennis McClure 15-3 in the finals. It was quite a feat for Shivers who normally wrestled at 150 and only weighed 158 going into the championships.

Shivers was also honored as the "Most Outstanding Wrestler" for the two-day meet held at Miami-Dade Junior College.

FTU also gained tribute as heavyweight Randy Jesse won the "Most Falls Award" which is given to the grappler who achieves the most falls in the least aggregate time.

Mike Warren at 190, picked a very nice time to lose his first match of the year, losing to FTU's strong-man Dave Kitchen, 14-4 in the finals. Tom Hammons fell three points short of a repeated state championship as he dropped a 6-4 decision to Tampa's Dave Hauser in the final round at 182.

Gergley was impressed with Greg McCoy's performance in the 177-pound division. The freshmen after being paced on the first round, came back to pin Brevard's Wilson in the consolation finals. 8-4.

The 6-4 Knights will be at home tonight for their last home match of their current campaign as they host Washington and Lee University from Virginia. The match begins at 7:30 at the Multi-
