Air Force ROTC welcomes top-ranking officers, leaders

ROBERT G. GAMARRA
Correspondent

The Air Force ROTC Association will host its 22nd annual Air Warfare Symposium, Feb. 20-22 at the Ritz-Carlton Hotel in Orlando.

"The current Armed Services Symposium," said Col. Greg Summey, the commandant of the university's ROTC program, "is focused on advancing the nation's security. We're excited to be part of the symposium."
Sharon to be brought out of coma

Israeli Prime Minister's stroke has country, peace process in turmoil

ABEER ADDELLA
Staff Writer

Jasenell Prime Minister Ariel Sharon will be brought out of a medically induced coma today after having a massive stroke on Jan. 4. Officials at Hadassah Hospital where Sharon, 77, is currently receiving treatment said that removing him from the coma would allow for a better assessment of the sham's short- and long-range damage to his brain following the stroke.

Hadassah Hospital director Dr. Shlomo Noy-Nevel said that Sunday's scan showed a slight improvement in Sharon's condition:

"Beyond the immediate con­

cerns of his health, many are looking to fill the current polit­

ical void. The Associated Press reported that the Israeli Cabili­

et's regular weekly meeting Sunday, acting Prime Minister Ehud Olmert told ministers that Sharon would want every­

one to return to work on the country's pressing security, social and economic issues."

UCP senator Shasik Yalouk 22 has been first hand the polit­

ical realities of Sharon's death in December 2008 and his plans to return for graduate school to further understand Israel soci­

ety and politics.

As A Middle East studies minor. Udell recognizes the great importance of the absence to the international media. "Sharon's stepping down as prime minister leaves over­

is absence in representation of Israel, Udell said. "Since Yitzhak Rabin has led Israel had such a dynamic leader. Where­

ever steps up to the plate on the podium in the elections in 100 days will have to deal both Sharon's image and strength in continuing with the peace process."

The ongoing conflicts between Palestine and Israel have made even more uncertain by Sharon's death, Udell said. Last week with­

from the Gaza Strip was a bold move that many hoped would begin new peace talks in the region. Long-term peace between Palestine and Israel is even more uncertain now.

Two countries that have known violence for centuries, Palestine and Israel are even more if Sharon dies or is rep­

lated. Sharon was widely viewed in the international media as being the leader most capable of ending the Israeli conflict.

While there is still violence in the Gaza Strip, Palestinian elections in January and Israeli elections in March may create changes in the current government.

Especially with Sharon now appearing to be out of the polit­

ical process for months, if not permanently, the elections could decentralize the region's power more.

Some question Sharon's past while discussing the region's future. Alan Johnson, a BBC reporter, recently looked at the war­

psychological perspective of Sharon. "To people in Palestine, Johnson said. "Mr. Sharon is a war criminal. They remember the massacre car­

ried out in two Palestinian refugee camps by Israeli soldiers in 1982. An Israeli lawyer found Mr. Sharon indi­

rectly responsible. But Pales­

tinians always held him solely responsible for the slaughter."

UCC senior Ameer Zafar said that Sharon's recent stay in intensive care does not make him any form of official.

"Ariel Sharon has led many assassinations of innocent civil­

ians," Zafar said.

"Whether it was in Jenin, Qal'at, Safin, or Shehla I believe he was carrying out orders to the peace process, and we hope that the future leader of Israel do not have such a hor­

rible criminal record."

As the health of Sharon hangs in the balance, the Sharon­

years have. "It has is noted that when there is a niche in Israel, Palestinians get a card," Udell said.

"To many groups such as Hamas, the lack of a hard­

line, such a stepping-stone for gazing around the region's future, replacing the Palestinians along the Israeli side, the body, Udell said.

"Whether Israel's hopped or not, Sharon's death was the most "And his son, the son of a Palestinian minister, said "Sharon will be brought out of intensive care, he will be in intensive care for months if not months," Udell said.

"That's what Sharon is death, he will be in intensive care for months if not months," Udell said. "The international media have has is noted that when there is a niche in Israel, Palestinians get a card," Udell said.

"To many groups such as Hamas, the lack of a hard­

Energy drinks carry high caffeine payoff, health risks

Students turning to Red Bull to pull through the night

ASHLEY GREEN
Photo Editor

It’s the beginning of the semester and students are gearing up for weeks of work, study and play. How will everything get done? For some students, the solution is found in a can of Red Bull.

Many students opt for energy drinks like Red Bull, Amp or Rockstar to help them get through long days and even longer nights.

Renee Forde, 20, a double major in psychology and social work, said that sometimes there just aren’t enough hours in the day for her to get all of her work done.

“I can be so stressed,” she said, “I get to school full-time and work two part-time jobs. And my professors act like their class is the only one I’m taking.”

Forde prefers extra shots of energy drinks, but she says she drinks them on occasion when she needs it to extra boost.

Still, energy drinks have a following. In a study, Bob Phillips, editor-in-chief of Decoyage Aside magazine, described energy drinks as the facial of Generation Y.

Since the late ’90s, energy drinks have hit the market hard. In 1997, energy drinks only brought in $827 billion of the $5 billion U.S. soft-drink market. Red Bull was on top of the market. The Austria-native company dominates nearly 70 percent of the energy drink market, according to Biz/Ed, a United Kingdom-based education and research used for business, economics, accounting and nutrient purposes.

Despite the popular energy drinks among college students trying to make the grade and some money, there are some health concerns that activities may not recognize.

Until the Food and Drug Association issued a ban on the use of ephedrine in April of 2004, many energy-enhancing products contained dangerous stimulants of the drug. Also known as Ma Huang, a natural supplement, ephedrine was marketed to young adults ages 18-31 as a natural stimulant for weight loss, according to Biz/Ed, a United Kingdom-based educational resource. Red Bull seems to be here to stay.

Red Bull is the most popular energy drink in the market, according to Biz/Ed, a United Kingdom-based educational resource. Red Bull brings in $5.2 billion in worldwide sales.

“Most of my friends don’t like the way (energy drinks) taste and only use them when they really have to,” she said. “I usually see college students use them in combination with alcohol.”

Energy drinks are dangerous when combined with alcohol because their stimulating effects make people feel less intoxicated than they really are, according to Shoham.

Red Bull, the most popular energy drink on the market according to Biz/Ed, has been banned in some countries despite its global popularity, which produces $2.5 billion in sales worldwide. The drink has been banned in France and Denmark, some restaurants in Sweden and is only sold in pharmacies in Norway because of its high caffeine content.

Some experts believe that the drinks are not really as effective as they claim to be. In an article in The Digital College, Kristine Clark, sports nutrition director and assistant professor of nutrition at Pennsylvania State University said “The word ‘energy’ means different things. (The drinks) are not dangerous, but you’re paying for the marketing.”

Shoham cautions that energy drinks could interact with prescription drugs, aggravate heart conditions or cause dehydration.

Still, for many students, a caffeine overdose — genuine or not — is just what they need to get them through a long night of studying. Despite health concerns and expenses, a can of Red Bull, Amp or Rockstar costs about $2, energy drinks appear to be here to stay.

The Digital College, "The word ‘energy’ means different things. (The drinks) are not dangerous, but you’re paying for the marketing.”

"Kids [should be] exposed to all thoughts of life," Thompson said.

A survey conducted nationwide by the Harris Poll in June 2005 reports that 74 percent of people believe God created humans or that they are too complex and a "force" must have intervened. Only 22 percent believe humans evolved from earlier species. This "force" was never identified but seems to have a connection to a "god-like" entity.

Reports show that 11 percent of people believe only evolution should be taught in schools, 27 percent believe creationism and intelligent design, and 35 percent believe that all three concepts should be taught. Creationism is the belief that the biblical God created man, as opposed to intelligent design's "all-powerful force."

Another theory that has emerged from the debate on intelligent design is Flying Spaghetti Monsterism, a satirical parody religion created by Bobby Henderson, has become in Internet phenomenon.

Henderson, an Oregon State University physics graduate, created the parody to mock the Kansas controversy. The idea depicts a giant spaghetti and meatball creature covering the universe with a touch from "his noodly appendage." The Flying Spaghetti Monster also attributes natural disasters to the wrath of a deity in 17 plates since the Big Bang, Henderson wrote to the Kansas School Board and asked them to include his theory of origin. Henderson describes how there are multiple written accounts of the "spaghetti-ism" and mentions "there are over 10 million [followers]."

The Kansas School Board replied to Henderson's letter, rejecting his plan for the letter's amusement.

Moving in? Secure your deposit!

Losing your security deposit or being overcharged for damages at rentals around UCF is quite common. Here are 5 steps to help you secure your chance of getting your money back or all of your deposit back and not being overcharged when you move out:

READ THE LEASE!

Look at your lease carefully. Most states that you must inspect the unit at the time you move in. If there is a list of problems back to the landlord, make sure you get it back to the landlord by the deadline.

INSPECT EVERYTHING!

The landlord may require you with a move-in inspection sheet. If not, make your own list, stating existing problems within each room of the unit. Be very specific - note everything major and minor, such as carpet stains or tears, condition of mattress, furniture, walls, blinds, countertops, EVERYTHING!

MAKE A COPY!

Be sure to make a copy of the completed inspection sheet.

If you have any questions or problems with your lease, call 407-823-2538 to set upon appointment, or visit Student Resource Center room 155 Monday - Friday 8am-5pm.

We assist with selected areas of law, including landlord/tenant, consumer credit/collection, traffic, & more. Qualified students can receive free consultation & representation.

in two of the six All-Star games last month. If so, Marshall will go back to his alma mater, the University of Hawaii, to coach the Rainbow Warriors this season.

The Knights kick off their final game of the regular season on Wednesday against Memphis. The game will be the last of the year for the Knights and will be played in the UCF Arena at 7:30 p.m.

"We're looking forward to this game," said Coach Kirk Spencer. "It's an opportunity for our players to continue their development and for our fans to support our team in the final game of the season."
**Hopes burn bright for future 2006 team to be a better version**

**FOOTBALL LOOKING AHEAD**

The Golden Knights will return all but five of last year's starters as they hope to improve on a surprisingly good 8-4 season in 2005.

Seniors Brandon Marshall and Darcy Johnson may have played their last games at UCF, but both will play in postseason senior bowls.

Freshman sensation cornerback Joe Burnett became the first-ever Golden Knight to be named a freshman All-American by the FWAA.

Seven balls for 106 yards in the Conference USA championship game. He eclipsed that total with a single tackle Saturday night as he dazzled fashion, dazzling the sellout crowd of 21,000 on UCF's turf and at the University of Hawaii, including playing clock-watching fans.

UO's fast and effective pass rush could have returned to Texas - Vince Young is headed to the NFL.

The junior quarterback announced Sunday he would leave school early. and also concern after being tossed during the season. Not only would his departure mean a year of development.

"I believe I am ready for this opportunity to prove I am ready for the NFL," Young said in a statement.

Though he's leaving a year early, Young emphasized his top college football player, NCAA history to pass for 2,000 yards in his career with

GET SOLD ON THE BLACK AND GOLD!

The UCF Black and Gold Line provides transportation services for everyone to travel throughout the campus. There is no per-ride fare. The service provides safe, convenient, and timely travel to the many destinations on our campus.

For more information, please visit our website, www.parking.ucf.edu/shuttle.html or call us at (407) 823-6767.

The operating hours are Monday thru Friday 7 A.M. until 7 P.M. These maps may be used for handy reference.
Injuries could hurt inside play

Turnovers in abundance hurt Knights side

Injuries could hurt inside play

On the stat sheet, the Cougars did not dominate the game. Both teams shot below 40 percent, and the Knights held the advantage on rebounds 30-20, 36-30, as what feels like a slightly bigger presence for the Knights this year, turnovers stood out like a black eye.

The Cougars outscored the Knights 36-26 in points off turnovers. With 22 turnovers on the season, the Cougars averaged 12.6 points per game. For the Knights, the only time they have had their only nine turnovers seven times in the last three games, but the strength of the conference has kept the teams the league have averaged just over 10 turnovers per game.

The Knights opened their first-ever season in Conference USA with an 87-76 victory over UAB, and 22 turnovers, 15 points and 12 rebounds.

The result was on display against No. 20 George Washington University on Sunday. After Wednesday's game, the Knights led the Huskies 23-20 in the first half, 33-29 at halftime. The result was on display against No. 20 George Washington University on Sunday. After Wednesday's game, the Knights led the Huskies 23-20 in the first half, 33-29 at halftime. Movie of meaning lacks caricatures

Boboshack Mountain is not as inferior as an award-winning film. The movie, which is already being lauded as the star performer for Best of the Oscars, provides the clearest insight yet into determining how society accepts large folk of its own community.

"The word "true" in emphasis distinguishes the sincerity and honesty that the movie strives to exhibit in the home-like (Will and Grace, Queer Eye for the Straight Guy) categories currently on the screen.

Many have been made of the progress in accepting gay culture, but this is a silly, primarily perpetrated by those who wish to feel better about those lower level of discernment.

Most of the issues of gay life are in the media being straightforwardly and simple for the masses. Gay men are shown as flawed, but their flaws can be put on paper with their flawed character and same-attraction. Gay women are, for the most part, ignored, Hollywood — narrow attention on gay life, and gay men are away from stereotyping — has yet to find a niche for the flamboyant and simple individuals.

Gay men have become the modern-day Chryslers of our generation. They are surpassed as dull, although we are a generation as secondary characters, dispensed by the views of people of our view with their unutteringly shadowy concepts of disposable identities — fashion, pop culture.

In the aforementioned keystones of gay television, Will and Grace and Queer for the Straight Guy, are the biggest keys to our gender confusion.

Jack, the flamboyantly gay character, is the体现 that the opportunity for Will and Grace comes straight out on the board. "We should write them a type of textbook. He provides all the outstanding gay behavior that straight America wants to see, and this character is curiously retracted in the upper front.

This policy extends to the show's game, as Will's sex has been feebly swept under the sheets during the show's right moves. No need to say, highly successful primetime show featuring straight characters don't even make a glimpse of the idea.

But that's nothing compared to Queer for the Straight Guy, which provides five "true-life" gay men to see worse-straight men from their different viewpoints.

"Within our lives, we're not being socialized to the idea of me not just the facts that features that not the just the facts.

Let's hope the movie encourages more of us to provide answers and guidance (see The Straight Guy)." The Gaywood Vagabond Grooves for members of our generation are not progress or acceptance.

Our stance

Alito hearings serious business

The circus is in town, and while Ringside Republicans town the line in Center Florida, a much larger number of people saw what was going on today in Washington, D.C., and moved on. A spectacle sure to affect every man amongst us, yet the whole in child that comes with it. That's right! It's time for the sentiment closest to the hearts of Samos, Alito.

Alito's been said about Alito in the past few months, Alito has moved into the position of the spotlight following Harold "Toasted" Bush's announcement of his retirement to the Supreme Court.

Press, editors, and sound bytes have soared across the Internet and landed on front pages, discussing every move Alito made as his long career as a jurist and interpreting each decision six ways to Sunday.

Readers are told that Alito is a man with an appetite for the law, respect for the law and no private opinion on abortion. It is said that he is a right-wing extremist who will overturn Roe v. Wade, before breakfast and afirmically, over and over Bush's judicial philosophy.

The fact is America is a country of people. Who can know exactly what the future holds for those to choose. No one can know exactly what his or her future will be, because they don't have the same political and social issues of the day except Alito.

He's record, however, does appear to make a few things clear. One of those being his expansionist position on presidential appointments.

After the revelation that President George W. Bush has been withholding certain judges, the fact that Alito has stood in documents his belief that officials who order wiretaps without warrant should be immune from prosecution is unsettling.

In 1979, then-Assistant General John Mitchell gave the FBI permission to wiretap a group of Vietnamese permanent residents without the approval of a judge.

Two years later, a jury cleared the president, and about the same time has his in an entirely different position. The country has ruled that the government placement of its own priorities without warrant is unconstitutional, and in 1982, in yet another case, the court found that top presidential aides can be liable.

In 1984, President Ronald Reagan had to decide whether to side with Mitchell, who was in charge of the situation, or to face the wrath of the public. Reagan talked with one of the protesters, but in his words, "his top executive officials can't be used in court even when their actions are unconstitutional.

Alito, who was working in the Justice Department at the time, wrote a memo supporting Mitchell's actions. But Alito's memo simply doesn't apply to top aides.

The actions of the Bush administration suggest that it has a fundamental problem with the rule of its own power, and as we all learn in history class, the Supreme Court is the most important check on any type of power. In some of Alito's rulings, however, reflect a distorted trend towards giving the president even more power.

He has argued that the court interpreting statutes should consider the view of the president and that in signing the law to be an important reason Congress's intent in passing and passing the law. This view can turn a bad idea into a presidential idea.

An honest leader, however, would never sign such a bill, and the principle of a bill because it has been signed by such a leader.

In fact, the notion that signing legal scholars also seem to agree on about the president's power. A very clear record in his marked preference for government authority, most especially presidential power, and a clear indication of a judicial's moment.

Bush needs to examine these issues before offering Alito on the Supreme Court bench and possibly lifting the precious balance of the whole affair.
For the love of sweet, fancy Pete, someone find my beloved Jeep

We live in a city and a world that is unforgiving.
There isn’t much we can live for in this world that isn’t about other human beings. We’re supposed to respect each other as people. The feeling isn’t great.

But obviously the world of trust breaks down at some point. When it breaks down, we may realize that certain people can use our cake-holes.

My Jeep was stolen Friday night.

The only object in the world I have ever loved now belongs to another person because of an ignorant way of life I espoused by common society.

I used to believe that it’s just things in my life that have meanings and memories, but last night I realized I was wrong. It was basically priced from my cold, dead hands. I learned, if ever I find in a similar situation, I would kill until I had my way.

My Brother’s name was Lil Joe. I had this desire to say goodbye to him. Never had the chance to say goodbye to the only person I’ve ever really loved. I used to think my name was the Mighty Kong. When Kong is missing, New Missing and borderline declared dead.

If you were ever in a stolen, there you might know how I felt. When I can never see what happened, I could see how I would want to kill my friend. I told her I was fine. I told her I’dChicago. I knew I sound like the biggest damn queen on earth, but I feel if someone kidnapped my child – my brother, my son, or if their matter.

Someone is driving around in my black and gold love machine. Someone is sitting in my driver’s seat and abusing the machine that I purchased pride into. I wanted my tail to afford a Jeep and when someone else is driving her, someone else is not in the steering wheel that belonged only to him.

I’m destroyed. I have no faith in humanity at this point.

That’s the part what all I can do is sit back and wait for them to move me into heavy traffic or something, but don’t mess with my Jeep.

People have tried to help and offer me sympathy. They tell me that at least I get to see my car out of it, or the best-case scenario would be that someone just took it on a little joyride. Maybe someone really needed a long-time slice of pizza and was in the mood for a nice leap ride. Or maybe someone needed a late-night snack and the Jeep was what they wanted.

Here’s my favorite part: The police department made it clear how important that bald girl to me. I pray for the man who took my Jeep and defiled my bald girl.

I miss my favorite part.

Back to the hospital for a second, it took some patience and deep thought when I showed out my hair girl. When filled out my police report, I made sure the lady at the police department made it clear when I asked for my bald girl. When filled out my police report, I made sure the lady at the police department made it clear how important that bald girl to me.

I pray for the man who took my Jeep and defiled my bald girl.

If you're planning a career in medicine, consider the field of podiatry. You could manage your own podiatric practice, work in a hospital or clinic, or attend to an athletic team. As a podiatric physician, you diagnose, treat, and prevent disorders and injuries to the foot and ankle.

One of only two podiatry programs in the nation affiliated with a comprehensive university, Barry University's program in podiatric medicine offers you extensive research facilities, distinguished hospital and medical center affiliations, and excellent opportunities for residency programs and externships across the United States.

As a student at Barry University, you join a caring, Catholic community on a graceful, green campus in Miami Shores, Florida.

Find out if Barry is where you belong. Visit us at www.barry.edu/podiatry.
