Council grooms future leaders

JENNIFER KEITH

On Oct. 2, freshmen were chosen out of 300 applicants for The Student Body President's Advisory Council, the Student Government Association's best recent set, according to its Leadership Development Coordinator Kara Carnley. "We had the most applicants ever. It's not even close, it's a huge jump," Carnley said.

SBPC is a group of 30 first-year students who work directly with the SGA president to discuss concerns and present news ideas. Students are chosen to serve from the beginning of October until the end of the year and are able to participate in activities assigned by the SGA leadership development program.

Students selected can come from any major at UCF but must maintain at least a 2.5 GPA, said Carnley. "They are not affected," said Carnley.

"We want a group of students with diverse experiences, and everyone can be really well rounded and participate in training workshops such as a resume and interview training and Robert's Rules Workshop," said Carnley.

When choosing SBPC members, Carnley said that although previous leadership experience in high school was a great help to have, a recent course taken or area only SGA looked into. "We want a group of students with diverse experiences, and everyone can be really well rounded. They do a great job," she said.

"These students will be very helpful to the Student Government Association," said Carnley.

Ashley Westfall, one of the SBPC freshmen, said joining the team was a huge opportunity. "I'm going to learn a lot," she said.

"They [SGA] teach you..." she paused. PRESIDENTS p.12

Saving the campus one bottle at a time

SUSAN ORR

When a student throws a plastic bottle into a garbage can, he might not think about whether she has negatively impacted the environment.

Although the action might seem like a drop of water in an ocean of environmental problems, these droplets add up.

The efforts launched by Eco-Advocates of Central Florida last week go to fight David Thoreau, saying, "What good is a house if you haven't got a tolerable planet to put it on?"

From Oct. 9-13, Eco-Advocates hosted the annual Recycling and Sustainability Awareness Week on campus.

The group, formerly known as Free the PlanetUCF, rallied students in front of the Student Union throughout the week, aiming to spread awareness about different issues concerning UCF's sustainability.

"The term 'sustainability' refers to maintaining the usage of resources, such as food fuels and land, and ensuring a level of waste so future generations are not affected. It has to do with anything related to the big three," said Leon McNutt, theContributing Writer.

"What good is a house if you haven't got a tolerable planet to put it on?"

students participated in campus walk, raise thousands for multiple sclerosis

BOYD SIDES

The Central Florida chapter of the National Multiple Sclerosis Society brought the Walk 'N Roll home to the University of Central Florida on Saturday for its annual MS Walk at UCSF.

About 300 people attended and $30,000-$40,000 in funds were raised.

"The UCF community really helped to make the event a success," said Doris Lill, events coordinator for the National MS Society. According to the National MS Foundation's Web site, "Multiple Sclerosis is a disease that affects the central nervous system - the brain, spinal cord and optic nerves. Surrounding and protecting the nerve fibers of the central nervous system is a fatty tissue called myelin, which helps nerve fibers conduct electrical impulses. In MS, myelin is lost in multiple areas, leaving scar tissue called sclerosis."

The walk, which took place at UCF's main campus, is the fifth walk in Central Florida.

The walk raises money for the National MS Society and with its belly-dancing entourage, various Greek organizations at the MS Walk on Saturday.

"The UCF provided entertainment with its belly-dancing group, Sigma Nu, a cappella singing group, and Raura, a hip-hop dance group. Local radio station C-Rock 1059 and two of its hosts, Mel and Bobby, also showed up to help kick off the walk."

Greg Schmickmam of University Relations welcomed the crowd to UCF but also made a surprise pop.

"Most people think of race, religion and gender, but disability is a [form of] diversity," said Schmickmam at the 2006 Diversity Weekend that began today. "I think as a society, we need to look at it in a different way."

"It gets to me a little," said SGA President's Office Coordinator Leon McNutt, theContributing Writer. Schmickmam said, referring to seeing the 2006 Diversity Week that began today.

"I think as a society, we need to look at it in a different way," said Schmickmam. "It gets to me a little," said SGA President's Office Coordinator Leon McNutt, theContributing Writer.

You want fries with that?

ALEX WALL

As the Golden Knights prepared to square off on the football field against the Pittsburgh Panthers Friday, local DeVos Sport Business Management grad students worked in conjunction with the DeVos Sports Business Management graduate program.

Part of their curriculum includes working as paid consultants in the marketing departments of companies such as Checkers, the Miami Dolphins, the Ladies Professional Golf Association and the Women's National Basketball Association.

The course is unique because it requires students to think of themselves not as students, but as real-world consultants working in the sports marketing industry. While last-semester graduate students are released into the market, they get in-field experience from this course.

The revenue generated from these business endeavors fund their annual class trip. This year, the class traveled to Atlanta, did some sightseeing and met with representatives from corporations such as Coca-Cola, Atlantic Spirit and the Georgia Tech Athletics Department.

For Friday's game, the students worked in conjunction with the DeVos Sports Business Management graduate program.
Students who have a chance practice their interview skills at preparation. An opportunity for solo or interdisciplinary.

Tutoring Opportunities
Volunteer UCF is looking for tutors to volunteer along with their daily schedule. They receive 60-minute sessions to the machines and facilities.

COOKING FOR A CAUSE

UCF cookbook sells 600 copies so far, all proceeds to benefit homeless

TAYLOR CURRAN

Attention UCF chowhounds! A new cookbook has arrived on campus for all of your culinary and philanthropic needs.

A Taste of UCF includes over 260 homemade recipes submitted by UCF students, faculty and staff along with stories and pictures about UCF and the Central Florida community.

"It's not just recipes, it's a taste of UCF," said Tilieh Brand, Cookbook Committee member and coordinator for Administrative Services.

A Taste of UCF is a fundraiser for UCF's 2006 Florida State Charitable Campaign. The FSCC is sponsored by the office of the President of the University and includes the Florida State Campaign Committee.

Cookbooks can be purchased for $10 with a college ID, $15 without, for a total of over $2,500 for the Central Florida community.

President John Hitt and his wife Martha also made a contribution to a Taste of UCF.

Some of the recipes included are:

- "Chilaquiles," which is Mexican food primarily made with tortilla chips, black beans, salsa and cheese.
- "Chili Rellenos," which is Mexican food primarily made with fresh corn, cheese, green chile and salsa.

In addition to the cookbook's success, the book sales are expected to exceed $5,000, raising more than $5,000 for the project because it affects the whole campus, UCF's President John Hitt and his wife Martha also made a contribution to the book sales.

The Cookbook, which was designed by Victor Sherrill, is the first in a series of cookbooks that will be published by the University. The proceeds from this campaign will help students and faculty.

The Cookbook is a great way to make it the most successful event in the history of the University.

For more information, contact Dr. A. Carlos Balduino at 823-5417.

Parents underestimate cost of sending kids to college, study reports

GLEN AIT P

A lot of American parents seem to think they don’t have worry about saving for their children’s education because the kids will get through on scholarships and grants.

This year, the study being released today by the Acumen Institute, a nonprofit organization based in Portland, Oregon, showed that parents have not been saving enough for their children’s college education.

The study looked at the financial planning and savings habits of parents with children under 18 and compared them with what college financial aid administrators have to say about college funding.

The study found that 36% of parents believe scholarships and grants will cover at least part of their child’s college expenses, and nearly three-quarters of parents think that their children are “special or unique” enough to win a scholarship.

Financial aid administrators said 99% of parents overestimate the amount of scholarship money their children will receive.

Meanwhile, parents are not saving much on their own for their child’s education, the study found.

Parents with children ages 14 to 17 plan to have an average of $25,000 saved when their child reaches college age, the study found.

But that would just cover the cost of one year’s schooling at a private four-year university, according to the most recent data from the College Board.

The AllianceBernstein & Associates Inc., an asset management company, estimated that the average cost of one year at a private institution is $27,000.

Nearly one in two parents (47%) said they didn’t think they could save enough to cover expenses while a child is in school or go into debt.

The AllianceBernstein survey of 1,588 parents was conducted by Mathew Goodwin & Associates Inc. and had a margin of error of plus or minus 20 percentage points.

Advocates seek to reform UCF recycling program

JENNIFER DE LONG

The primary focus of Eco-Advocates is to promote the understanding of different issues related to the conservation of the planet and sustainability at UCF.

During this week, they have focused on improving the recycling program on campus, as well as the need for reducing energy supply usage.

At some point, we are going to have to start conserving our resources,” said Jen Smith, a member of Eco-Advocates.

They are not doing anything about it,” DeLong said. “They are not considering college saving as part of their overall financial plan, they are not talking to financial advisors...JENNI

They’re also not looking at opening saving accounts that can help parents accumulate money for college, including Section 529 plans. Funds invested in these plans are not taxed, grow tax-deferred, and withdrawals are tax-free when used for education.

The film explained genetic engineering of foods and its impact on society.

But its showing of the film was a good experience, but it could be better next year with more promotion.

“I think it went well; although, we had some set-backs,” member Halley Procunier said. “We recruited some new members and helped progress our cause.”
RSVP draws student groups

Registered walkers were asked to collect $25. Students used various methods to raise money for the walk, including UCF Idol, hosted by Beta Theta Pi, two weeks ago. The event raised $1,200.

"We're community service-based and our philanthropy is with the MS Society," said junior business administration major Garrett Hyer, of Beta Theta Pi.

The Burnett Honors College sponsored the walk and helped to supply student volunteers.

"I got involved through Honors Congress just because I've always volunteered," said Kayla Lyons, volunteer coordinator. "I don't think you need to know somebody with a specific disease to be involved with a charity or organization."

The Honors College team consisted of 20 members, and raised more than $2,000 for the walk.

"I think the walk is a really good way to get students involved and get the community involved with campus," said Williams.

Tiffany Toth, sophomore finance major and historian of Honors Congress, Appximately 400,000 Americans have been diagnosed with multiple sclerosis. "If I didn't know much about MS before I was diagnosed with it, and a college campus is a great place to get the word out," Williams said.

Although Williams will graduate this year, she said she knows the project will remain in good hands.

planted, and the hamburger eating contest Checkers Burger Bowl were Florida universities: UCF, UF, each of the four major public college student demographic activities."

Jaffe said he appreciated being involved with the student body [in high school] and being a voice," Jaffe said. "I'll enjoy bettering the school and taking part in all the activities and planning."

After acceptance, each student is partnered with an RCA executive cabinet member in a mentoring program designed to build a greater understanding of student government functions. "We want them to be integrated into our office," Carrier said. "These people are treasured, so they have a lot of questions and concerns."

President's advisors selected

carrier said being a member of SBPAC could open new doors into higher positions within student government. "While they are on SBPAC, it's very good experience for them to see what they may have pursued that goal," she said. Westfall said the SBPAC is a very high-caliber group of people that were really involved in their high schools. "I'm happy to have made the team and surprised at how many freshmen students applied," she said. "It wasn't just, 'write your name down if you're interested,' you actually had to do quite a bit of work for the application process," she said. "It comes with more honor too when you find out how lucky you are to be in it, because so many people didn't make it."

checkers burger bowl

true to our involvement here at UCF."

FROM his involvement here at UCF.

"We have enjoyed working with Checkers and they have been great about giving us a lot of freedom to come up with this event and make it successful."

"It has been a challenging event because we have to plan on four events during our very busy final semester in the DeWos program," Wight said. "But we have enjoyed working with Checkers and they have been great about giving us a lot of freedom to come up with this event and make it successful."

approximately 1,000 visitors passed through the location from 4 to 7 p.m., and over 60 onlookers stayed for the actual contest.

"It was a lot of fun. It was something that interests them quite a bit of work for the application process," she said. "It comes with more honor too when you find out how lucky you are to be in it, because so many people didn't make it."
Knights turn the ball over 4 times in first half, allow 28 points in first

For a football program whose rich history includes plenty of nationally televised blowouts, UCF did their best to set a new standard Friday night in front of 36,109 at the Citrus Bowl, falling 52-7 to Pittsburgh to cap their out-of-conference schedule.

"I don't know what to say except I don't know what to say," said UCF coach George O'Leary, who took two questions at his post-game press conference before walking out. "You can't turn it over, shorten fields and give up points and touchdowns for the Panthers, who, on average, take an offensive drive for two possessions and four times in the first half.

They also shortened the field for the Panthers, who, on average, started their drives at their own 45-yard line. It didn't even take an offensive drive for Pittsburgh to take command of the game, however, as Lowell Robin Session, who is supposed on the track to Gainesville on Sept. 9.

UCF was under center for the second back-breaking mistake in the first quarter. The Knights were at the Pitt 4-yard line facing a third-and-8 when Moffett was sacked by Clint Palko in the third quarter Friday night. Moffett was under center for the Panthers' second touchdown.

"I didn't see a lack of effort, but I did see a lack of urgency," said O'Leary. "We moved the ball and gave up the big touchdowns on the kickoff, and the kickoff was being returned for a touchdown. We never recovered from that.

"Nobody can win with the turnovers that we had in the first half," Wilson said. "I don't think we played bad, but it is the costly mistakes early in the game that are killing us.

Quarterback Steven Moffett was under center for the second back-breaking mistake in the first quarter. The Knights were at the Pitt 4-yard line facing a third-and-8 when Moffett was sacked by Clint Palko.

Senior wide receiver Mike Walker said the team shot themselves in the foot.

"We moved the ball and gave up the big touchdowns on the kickoff, and the kickoff was being returned for a touchdown. We never recovered from that," Walker said. "I don't know what to say except I don't know what to say."

UCF's football program supposedly on the track to success, not many thought they would see a repeat of the team's disaster in Gainesville on Sept. 9. And really, this was not a repeat; this was worse.

The 45-point loss is the worst loss of the team's disaster in Gainesville on Sept. 9. And really, this was not a repeat; this was worse. The 45-point loss is the program's new record for most conceded points in Division I-A.

UCF running back Kevin Smith sharply expressed the overall feeling for a lot of Golden Knights after their blowout loss to Pittsburgh.

"This is the worst loss of my life, period," said UCF running back Kevin Smith. "Nobody can win with the turnovers that we had in the first half," Wilson said. "I don't think we played bad, but it is the costly mistakes early in the game that are killing us.

UCF's football program supposedly on the track to success, not many thought they would see a repeat of the team's disaster in Gainesville on Sept. 9. And really, this was not a repeat; this was worse. The 45-point loss is the program's new record for most conceded points in Division I-A.

UCF lost because

They just did not do anything well at any phase of the game. Just ask coach George O'Leary.

"I don't know what to say except I don't know anything in the game that we ever played before," he said. "I didn't see a lack of effort, I saw a lack of urgency, intensity. It's disappointing we just went flat. We never recovered from the turnovers and the early scores."

The Knights were able to score the ball early on, at least nearing midfield in one of their first five drives. But three of those drives ended in turnovers.

"They just did not do anything well at any phase of the game. Just ask coach George O'Leary."

Friday was a reality check; not for players, but for fans

Expectations out of whack, so maybe this loss will change things

Mary O'Leary (editor)

If I were one of the coaches in the conference, I'd be firing my quarterback, but I'm not, so I'll probably say something stupid about UCF's quarterback starting with the word ‘‘what.'’ If 5-8 wasn't really a blackout, unless you're taking

enormous pride in the fact that, but at some point in the second quarter, expectations started to spiral out of control. It wasn't totally unexpected, but I don't think we could have imagine the Knights post double-digit turnover losses this season.

Before last season, this school had played exactly one important game in the national college football radar.

Chad showed when they

challenged the Conference USA Championship in 2006 and they played in the Houston Bowl, but a 35-0 defeat could mean more for the season opener at Southern Mississippi, since it was the kickoff to the entire Division I-A football season, but even the path to the C-USA Eastern Division Championship was with a collective shrug from everyone outside Orlando.

That's because UCF is a terrible conference, at this point standing above only the Sun Belt Conference in Division IA. Houston, supposedly the class of the CUSA Western Division, just lost at home to Louisiana-Lafayette. UAB, in fact in the East, fell to Southern Conference-foormer Mississippi State at home.

There are two impressive non-conference wins for all 12 teams this season: Duke's 24-17 upset over Navy and Southern Mississippi's win over North Carolina State.

Other than that, there are embarrassments (Mar-a-UFU-Houston and radioactive health checks (Bingham Young 49-38 and Temple 49-44) and Mexico taking TRUP 26-10) scattered throughout C-USA's collective schedule.

Still, it became cool to expect the Knights to post double-digit losses this season, nothing less. It was even cool to predict, this a 6-2 season if all went well, but things didn't go well, which means expectations needed to change. Some people obviously were ready to dish it as evidenced by their willingness to come out and eat that crowd in face-to-face home games against South Florida and Southern Mississippi despite bru­

ching heartbreaking losses in the process.

But the ones who demanded the midgame with beer and snacks the midseason despite UCF's 49-30 win. Six touchdowns will not change one-eight win seasons ever a last season in the past, now O'Connor Championship Game or win or lose, our Bronco Nation right to move into a Bowl Championship series con­

ference sometime around 2009. No, that's not the way I look at it.

Building a program takes time and even turnovers and luck will help accelerate those losses, but the way we saw last season, the ultimate goal for every team in today's parity-filled college game should be a trip to the BCS. UCF is still far from that, and unless George O'Leary has a team full of his own recruits, expectations should be tempered to such.

I don't want this to sound as if I'm asking everyone to calm down to watch these games expecting UCF to launch the least frightening thing from the Bronx, UCF defensive end Chris Whitney, said in his post-game interview that the fans, like the players, can dwell on the loss, but, his head coach said don't', that despite a good portion of this fan base has not experienced three straight different home losses.

I would blame anyone for not coming out for Saturday's line game if they feel they have better or more important things to do.

But there's a difference between fans coming out to the games and coming to the university because they can't handle bad performance. Until every fan changes his feel this, we still feel locked in at the mirror to the media and no matter what we bring in to change the team, there are no way to make appearances we make on national television.

UCF "laid an egg" against Pitt

For all

Quarterbacks Steven Mof­fen and Kyle Israel got to unimpressive, but for the first time this season, Israel got to show what the fans say, what the coaches say, you're still my quarterback, "Anderson said.

Miami — South Florida's football season has already been overshadowed.

Miami beat Florida International 35-0 Saturday night in a game that was marked by the third quarter that had fans flying, helmets swinging and even crunches being heard as fans tried to end the fights, and at least one incident of fan-fighting.

It took just two plays for the Panthers to cap off a drive, with Stephen Wright drawing a 2-yard penalty on the play and Miami and South Florida fans facing a situation of in-game suspensions.

"I don't know what happened with us," Miami coach Randy Shannon said. "I don't know what happened with us." Wright later added, "I don't know what happened with us.""What pen­alty is handed down, the way it worked, is the way we want to get mentioned in the or­dinary in the game." South Florida International's offensive tackle Ode­rick Nnake had 21 carries for 86 yards for the Panthers, who finished with 35 points.

"I was shocked," Wright said.

"Whatever penalty is handed down, it's a matter of course. We don't want it. It's just not what we want to be mentioned in the ordinary in the game."

"The university's president, Mitch Maidique, and the Orange Bowl committee have reviewed the situation and have decided to issue a statement."

"We're going to go for it, and we're going to get it done," Wright said. "And we're going to get it done, and we're going to get it done.""Whatever penalty is handed down, the way it worked, is the way we want to get mentioned in the ordinary in the game."

"I don't know what happened with us," Wright said. "I don't know what happened with us." Wright later added, "I don't know what happened with us."
Crist's sexuality shouldn't matter

Wednesday was National Coming Out Day, a day for gays across the nation to announce their sexual orientation. Crist was one of many to come out of the closet Wednesday, but in a quiet, off-the-record speech behind closed doors.

The Crist campaign hasn't publicly acknowledged the comments, but this is not the first time Crist's sexuality has come under the spotlight. Crist was accused of evading accusations of homophobia on a radio show nearly a decade ago. Why is it that every time a public figure makes a move to come out, he or she gets married before getting stated? And why is it that time, time and time again, that the public doesn't believe him?

The government of a state that legislate to prevent same-sex marriage from being allowed is not entitled to the privacy that same-sex marriage is entitled to.

It's important to note that both Crist and the Democratic gubernatorial candidate, Jim Davis, have come under pressure when it comes to gay rights. Crist says that he would allow civil unions, however, he does not believe in gay marriage.

This signals that both candidates are willing to go a bit further than the current administration when it comes to gay rights. However, to get a vote, both candidates are willing to go further than the current administration when it comes to gay rights.

Crist was one of the first candidates to publicly come out of the closet on the issue of gay rights. He has been praised for his stance on the issue, and has been criticized for his lack of action.

Crist's sexuality shouldn't matter, and it's time for the public to accept that. Crist is a good man, and he has a right to be who he is. Let's move past this issue and focus on the issues that really matter.

Our STANCE

The current conflict with North Korea is troublesome, but not because of the recent suspension of nuclear talks. Yes, the thought of Kim Jong-il with a nuclear weapon is more than a little scary, but what really troubles me is how the U.S. has dealt with the situation.

It seems, that since we invaded Iraq, we have been contracteed by the public opinion of the rest of the world. We have become so afraid of what countries like Russia and France think that we are unwilling to do what is right. It's important to remember that we are our own country, and our self-interest should come before anything else.

Our STANCE

The Florida Comprehensive Assessment Test might be the most notorious test that students face in school. Preparing students for this test can be difficult and may even cause stress for students. The test is scored on a scale of 1 to 5, with 5 being the highest score.

The FCAT is a test that is used to determine how well students are doing in school. The test is scored on a scale of 1 to 5, with 5 being the highest score.

Crist was one of a few candidates to publicly come out of the closet on the issue of gay rights. He has been praised for his stance on the issue, and has been criticized for his lack of action.

Crist's sexuality shouldn't matter, and it's time for the public to accept that. Crist is a good man, and he has a right to be who he is. Let's move past this issue and focus on the issues that really matter.
