Halloween
You don’t know Jack-o’-lantern
Carved pumpkins only recently became associated with Halloween. It wasn’t until the early 20th century thatJack-o’-lantern face became synonymous with the sanctity of holidays.

BRIEFS
Homecoming kicks off the week with movie event
Homecoming will host Movie Knight tonight featuring Bedknobs and Broomsticks. The film will be followed by possible investigations into the state’s Deceptive Trade Act. The film is rated PG.

Entertainment: M.3 DVD to be released Tuesday
The 2-disc collector’s edition of M.3: Designer will be available in stores Tuesday. The DVD comes with features, deleted scenes, a making of documentary and director’s commentary.

Florida officials investigate claims of fish-switching
Recent cases of restaurants substituting other fish for grouper have prompted investigations into possible violations of the state’s Deceptive Trade Act. The investigations into possible violations of the state’s Deceptive Trade Act. The investigations into possible violations of the state’s Deceptive Trade Act. The event is free for all students. For more information or to register, please contact Stephanie Gaskin at (407) 823-9459.

Movie Knight

Homecoming will host Movie Knight at Fleet Pavilion in the Memory Mall at 8 p.m. on Monday, October 23.

Global Coffee Hour

The International Services Center will host Global Coffee Hour on Tuesday, October 24, from 4 to 5 p.m. in the Student Union Ballroom. Visitors will be able to take part in informal conversations on current events and international issues, which will be repeated in refinements in hopes of providing a setting in which students can talk about world events.

Carnival Knight

Homecoming will host Cost Carnival Knight at Fleet Pavilion in the Memory Mall at 5 p.m. on Wednesday, October 25. Enjoy cotton candy, ice cream, and other carnival foods and get a chance to take a picture with the homecoming float for the Saturday game against Louisville.

For more information, please contact the Student Union at (407) 823-6547.

If you have a club, organization, or event and would like your information to be considered for the Arrivede Campus column, send a fax to (407) 445-6798 or e-mail to edit@ucflnews.com. Deadlines are 4:30 p.m. Monday for the Monday column, 1 p.m. Monday for the Tuesday column, and 3 p.m. Wednesday for the Friday column.

ENROLLMENT REPORT

The fall enrollment at UCF was 40,602 undergraduate and graduate students, 6,646 more than last fall. This increase was due to the addition of 2,700 new students in the freshmen class and 681 new graduate students. The State University System of Florida has experienced a 6% increase in enrollment this fall.

Speaker argues for alliance in dealing with North Korea

Barak argued for an alliance with world powers China and Russia in dealing with North Korea, the weekly's newest nuclear power. "Only the Chinese can block Kim Jong Il, Kim Jong Il must be blocked," Barak said, adding that not only is this a strong and collective effort, led by the U.S., would be successful.

Barak also spoke of his personal experiences, such as a veiled mission he led on an airplane filled with over 100 passengers and several dem-
"It's still hard for a lot of freshmen to come in as a freshman and know exactly what they want to major in and not change their mind."

— NAZIA ALI POISEL, ADJUNCT PROFESSOR OF LIBERAL STUDIES

"It's still hard for a lot of freshmen to come in as a freshman and know exactly what they want to major in and not change their mind," he said.

The junior Jonathan Sutherland, changing his major from music to liberal studies, transferring three times before settling at UCF took him off the four-year track.

"It's hard to know what you want when you're 17 and 18," Sutherland said. "I still don't even know what I want, and I'm 21."

Now settled into a language and humanities focus with a music minor, Sutherland is playing catch-up. He said students had similar experiences early on in college.

"For junior Jonathan Sutherland, changing his major from music to liberal studies, transferring three times before settling at UCF took him off the four-year track.

Experiential learning gets 'A'

National group honors UCF agency for interns, co-ops, service learning

The plug-in that creates interactive animations for Web use, and to design games with the program, Weaver placed the students into groups of three and asked them to produce a game ready for submission. They each were assigned different roles in the project. That way no student could hide from any responsibility, Weaver said.

Students could be the game's producer, artist or programmer. The goal behind the project was to create something immersive.

"We tried to match up students to the best of their abilities," Weaver said.

This was one of students' only choices to experience leadership and interactive animation technology while studying outside the classroom.

The first game accepted was Bugaholic, a puzzle-based game in which the player takes on the role of a spider.

The goal is for the player to build a web and catch a certain amount of bugs before the end of the day.

UCF graduate student Jennifer Grisot served on the group behind Bugaholic. She said that the hardest thing about making the game was getting it down to the appropriate file size for submission, as well as placing strict file-size requirements on the games to make them cohesive for the online play.

The game had to be modified from its large size for better playability.

And even though the game concept had the spider trying to catch bugs in one "day", the game lasts only a couple of minutes, Grisot said.

There was excited to learn that the game was accepted into the showcase because the Web site where that features games gets a lot of traffic.

"It was a chance to show off our skills," Grisot said.

To play the games made by interns, co-ops, service learning, visit: www.mtvu.com/games.

To design a game created by FIEA students, as well as additional games visit: www.mtvu.com/games.

"The whole program was helpful because it was an easy way to gain experience," Grisot said.

They did everything for you and it was convenient and fun," Grisot said.

Experiential Learning also helps the process to help better prepare people for job searches.

For example, helpful Web sites for internships and tips on building a stronger resume were provided through Experiential Learning.

The program works with departments such as financial aid and international to place students in working environments where they can apply what they learn in the classrooms.

Students can look internships with companies and get school credit by doing these internships, and it can be part of their co-op, and they can automatically choose that to work per day and get paid.

Experiential Learning also partnered with the Washington Center, which is an educational nonprofit organization that provides enrolled students with the opportunity to work in Washington, D.C. for academic credit. The Washington Center is open in all majors.

There are full-time and part-time internships available in which students have worked with Congress, the State Department, and even the White House.

Games include insect-eating spiders, warring Scottish armies, snakes on jets and more.

A split-screen video game as many bugs as possible in one day in Bugaholic, a game created by FIEA students.

Going, Going ... GONE!

Houston scores 20 straight points in win over UCF

BRIAN MURPHY
Staff Writer

On Saturday, UCF's offense held up their end of the deal against the Houston Cougars.

They put up a season-high 300 yards. They ran the ball for 248 yards.

They controlled the clock and scored seven of nine possessions, which helped to keep Houston quarterback Kevin Kolb on the shelf.

But in the end, none of these statistics really mattered. It was just another loss. It was another week of moral victories of "what if's." Here is how it happened ...

UCF lost because ...

Again, it was the poor play from the defense. Kolb did throw for over 300 yards, but most of that came after the clock hit zero.

Even though the Knights lost comeback hopes on fourth down against UH, the defense never gave up. It was just another loss. It was just another week of moral victories of "what if's." Here is how it happened ...

But the offense deserves some blame as well. Even with all those...

It's the governor's race to replace Gov. Jeb Bush in the Sunshine State. With the governor's seat up for grabs, the political mind games are ramping up.

Republican Charlie Crist and Democrat Bill Nelson are vying for the seat, and Crist is the wild card. He's an outsider. He's the one who is the most likely to lose the race, but also the one who has the most to gain.

Crist has a proven track record of political success. He's won two US Senate races and one US House race, and he's been a strong advocate for solar energy and pollution control.

Nelson, on the other hand, is a veteran politician who has spent most of his career in Congress. He's a moderate Democrat who's been praised for his fiscal responsibility and bipartisanship.

But their differences over the most important contests this Nov. 7 is their individual political philosophies. Crist backs the FCAT, and he wants to cut back on the number of students who get a failing grade. Nelson says the FCAT should be used to evaluate teachers, not students.

The reason for this is simple: People in Alaska have already proven that they can live without oil. Putting a double fence 2,000 miles from the coast is not the answer. And he thinks that this would be enough to win the election.

Florida, on the other hand, is a different story. The state has been hit hard by the oil crisis, and the people are tired of the political bickering.

But their differences over the most important contest this Nov. 7 is their individual political philosophies. Crist backs the FCAT, and he wants to cut back on the number of students who get a failing grade. Nelson says the FCAT should be used to evaluate teachers, not students.

The reason for this is simple: People in Alaska have already proven that they can live without oil. Putting a double fence 2,000 miles from the coast is not the answer. And he thinks that this would be enough to win the election.

Florida, on the other hand, is a different story. The state has been hit hard by the oil crisis, and the people are tired of the political bickering.

But their differences over the most important contest this Nov. 7 is their individual political philosophies. Crist backs the FCAT, and he wants to cut back on the number of students who get a failing grade. Nelson says the FCAT should be used to evaluate teachers, not students.
