UFC police officer's expert drawing ability makes him one of only 15 sketch artists in the state of Florida

Cpl. Carlos Maxwell with the UFC police sat restlessly in front of his office computer working on his latest sketch profile. Sketching had become a second nature to him. Beginning with the basics, he asked questions like 'What race or background is he' and 'What is his height and weight?'

Maxwell, 42, is one of fifteen sketch artists in the state of Florida. He began drawing in grade school, but really started nurturing his talent in college.

Shift his legs, he repositioned his attention on the sketch. After skimming the photo, he grabbed a medium-sized black book off his bookshelf to the left of him. The FBI workbook was full of hundreds of pencil facial features. After flipping through the book for a few minutes, he marred the nose down to a thinner bridge with a fatter tip.

Graduating from UFC with a degree in liberal studies, he soon found himself using his artistic talents in many of his roles. Beginning in the military, moving on to massage therapy and ending up in the police force, he's had a lot of practice.

Working to include everyone

The Student Government Association and the Office of Diversity Initiatives have joined together to instruct all members of the UCF community, "Get Ready. UCF Multicultural Day is coming to you, and we want you to come prepared to learn." The event will be held on Tuesday, February 20, from 10 a.m. to 2 p.m. in the Student Union Ballroom.

Seeking a debate on role of God and science

MATTHEW KUZA
Contributing Writer

On March 29, the Campus Pre-Religious Alliance will sponsor a debate about the existence of God, which will pit Edward Tabash of the Center for Inquiry against Rabbi Joel A. Rif. Both professionals were selected from the First United Church of Christ in Orlando. The debate will be a five-part question-and-answer format, with the speakers fielding questions from each other and audience members.

The CFA is an organization devoted to practicing science, the separation of church and state, and inquiry into all areas of human interest.

Researchers develop way to directly move molecules

JOHANNA BLACKSTONE
Contributing Writer

UCF and University of California Riverside professors are a little closer to having the ability to solve numerous biological and environmental problems after their latest molecular discovery.

Talat Rahman, the chair of the physics department at UCF, worked on the project with Sergei Stolbov, also of UCF, and University of California Riverside professor Ludwig Bartels, as well as others.

About a year ago, the team discovered how to make one molecule move in a specific direction on a surface instead of having it randomly move around. Now they have found they can manipulate a molecule in one direction, as well as pick up a second molecule and take it to a certain place and drop it.
CONFRONTING GENDER STEREOTYPES THROUGH

THE Vagina MONOLOGUES

A play about female empowerment issues challenges audiences

RACHEL LOPEZ-HAZ
Managing Editor

Editor's Note: Due to the language used in the play, The Vagina Monologues, this article has language that may find objectionable and that the future edition will not normally print. However, the future edition will include the language in the article to keep the message of the play intact.

Uncommon Grounds, along with V-Word and the Women Studies Program, put on three performances of The Vagina Monologues this past weekend in the Communications Building.

Vagina Monologues is a one-woman production that takes the stage around the world, to women where the play's proceeds are used to provide health care and protection for women around the world.

The monologues use character reflections, language, and stereotypes to speak out against women's issues. The organization Speaking Out About Rape was the beneficiary of all proceeds of these performances.

"SKIDZ provides counseling to rape survivors and women who are survivors, and also promotes awareness," said Kellie Green, founder and director of SKIDZ, who was there to support and be a part of the performance. She was last year's Vagina Winner, in honor of her work for the local community. This year, Green had a chance to be in the performance and was honored by performing a spotlight monologue, which conclude the 13-play set.

Green herself tremendously with the preparation of the show, said Jenn Miller, president of Uncommon Grounds and organizer of The Vagina Monologues production at UCF.

Fighting crime one drawing at a time

While at UCF, Maxwell also did arrival for the future.

"When I attended UCF, all the pictures in the newspaper were drawn by hand," Maxwell said.

Maxwell's drawing techniques involve sketching the face out by hand and then scanning the image into Photoshop. Then he has the option to change a number of attributes, including the hair and the saturation of the picture.

"I like Photoshop because it prints much cleaner than any other software," Maxwell said.

Now, Maxwell juggles UCF patrols and his sketch work - an addition to his art career. Maxwell said he is currently involved in a forensics course and continues sketching for the FBI.

In anticipation of Maxwell's paintings, Maxwell's sketch art is characterized by a keen attention to detail, a patient, quiet approach, and a genuine interest in helping others.

Case solved, stalking

The suspect pictured above was an UF alumnus who graduated in May of 1997. The man was known for his campus presence and was described as between 5 foot 8 and 5 foot 10, weighing between 130 and 160 pounds.

Wanted, active case

The subject of this sketch is wanted in connection with an aggravated battery case. Two witnesses were able to describe the assailant, who is described as between 5 feet 6 and 6 feet 2 inches, weighing between 130 and 160 pounds.

How Information Fluent are YOU?
In the debate to force them [students] to think about things that aren't happening or a pseudoscience, there is a need for public debates on other crucial issues of society.

Miller says there are a lot of different people on campus, who, like many students, are not a group of atheists who are only trying to reclaim it for 'real' science. He likes to see a group that is more than simply atheist, it's not necessary to be an骥ists who are only trying to reclaim it for 'real' science. He likes to see a group that is more than simply atheist, it's not necessary to be an

Swan said that when there was initially chosen to perform the monologue, she had been consumed with the notion of the word millions of times, but overall, she overcame it and felt confident.

''I have no problem with any of the plays being performed, because I've never written the story of violence against women,' Palumbo was named by Miller as the chair of the department, she said. 'We're afraid to talk about and get women talking about women's issues.'

The fourth opportunity is the debate in March on the entrance of God. 'I don't think we are going to solve the issue', Effthimiou said. 'There is an issue that has been open for hundreds of years if not thousands, if not millions, since the first human beings. The debate will be a debate to force them [students] to think about the role of God on campus.

Swan said that the change came when Underhill was named department chair. She also felt that we weren't thrilled about the language in the play. Underhill said, 'We are not a group of atheists who are only trying to promote ourselves. We are a group who wants to discuss everything, and we are always willing to discuss any viewpoint that is brought to the table. We are open-minded toward other religions, but we do not allow faith to be a cornerstone experience.'

The CFA and the adviser to the group, believes there is a need on campus for debate, but their methods are not a group of atheists who are only trying to reclaim it for 'real' science.
The workshop led to a bill, sponsored by Stephen Patel, assistant at the Office of Diversity Initiatives at UCF, SGA, and an increased understanding and an increased awareness of my biggest issue, because they aren't marginalized?" he said.

"People aren't aware of issues that have to do with discrimination," said Charity Kamara, chair of the Student Government Association. "They don't have diverse friends. In our global society, that's not going to cut it."
Knights go 1-2 over the weekend with 4-3 victory over Maryland

BRIAN MURPHY Staff Writer

Something about Sundays bring out the best in the UCF Baseball team. UCF's pitching and defense straightened up after forgettable outings on Friday and Saturday to defeat Maryland in Sunday's series finale.

Much like their win last Sunday, the Knights (4-5) were forced to come from behind after Maryland (4-2) went up in the second inning. Freshman outfielder Alex Castro lined a single to right field that scored junior designated hitter Chad Donalik.

The Knights struck back in the bottom of the inning with one swing from sophomore first baseman Kilo Vazquez. He sent a pitch from ACC Pitcher of the Week Kevin Bergman over the wall in left-center field to tie the game at one.

Something like their win last Sunday, the Knights (4-5) were forced to come from behind after Maryland (4-2) went up in the second inning. Freshman outfielder Alex Castro lined a single to right field that scored junior designated hitter Chad Donalik.

The Knights struck back in the bottom of the inning with one swing from sophomore first baseman Kilo Vazquez. He sent a pitch from ACC Pitcher of the Week Kevin Bergman over the wall in left-center field to tie the game at one.

The home run was Vazquez's third in the last two games. He finished the series with seven RBIs.

"Coach (Jay Bergman) said all week that we've got to have somebody in the middle of the lineup to step up and get clutch hits," Vazquez said. "I've got a lot more confidence at the plate and I'm just doing a lot better.

Sophomore first baseman Gerry Spenard put the Terrapins back in the lead with a solo home run of his own in the fourth inning.
Thursday, February 22nd, 2 PM

The UCF Men's Golf team rebounded valiantly Monday after an abysmal start to their second tournament of the season.

The Knights came back to shoot a 4-under-par 284 in the second round of the John Hayt College Golf Invitational, posting three golfers shooting 1-under-par for the second round.

The title of original Preston Brown, Greg Forest and Giron Suh helped the team close the leader board 12 positions into a tie for third with Vandy and the chance to be in a fighting distance of the first-place University of Alabama.

The strong second round for the Knights could secure a springboard for the team. After a disappointing start to the season at the Sun Trust Shootout Intercollegiate, where they placed 14th out of 14 teams and posted their highest score over the entire season, this weekend the Knights needed a victory for their mental health. The Knights finished up second at their final tournament, with results not available at press time.

FROM ZACH MOORE

Super Sunday:

The Knights climbed from 16th place into a tie for third with Vandy and into fourth after their home tournament at the University of Alabama.

Top Knights:

Sophomore Greg Forest shot a 1-under-par 69 Sunday and is tied for third overall with UCF's Kevin Chappell. He is tied for four strokes behind Coastal Carolina's Davis Johnson, in first place.

Junior Giron Suh is tied for sixth at 4-over-par 148 and sophomore Preston Brown is tied for 10th at 6-over-par 150.

Team Quick Take

The Knights look for 2nd straight win

CBS on the morning of March 6

Exposure like that could be the difference between a post-season tournament berth and a season ending in Memphis.

But before the Knights start looking ahead, they will need to take care of Southern Miss. The Golden Eagles are 15-6 overall and fifth place in C-USA at 34 after their home win over Houston on Monday.

Coach Larry Eustachy's team has won its last three games and is led by guard Jeremy West, who leads the team with 10 points per game.

West is the only freshman in the conference to lead his team in scoring, and he hasn't even been close, as second-leading scorer and fellow freshman Donald Smith is trailing him by more than five points, averaging 9.0 points per game this season. Last year's leading scorer, sophomore Courtney Beasley, is third on the team at 9.4 points per game.

Those three are indicative of the entire Golden Eagles roster, which is led by its center, Mikey Henneman. The team lost just two forwards and two centers on the roster, and one of them, sophomore Donald Smith, has not played this season.

That will leave the burden of defense on Mikey O'Donnell, senior Taylor and Drew Noel. Noel is coming off another strong effort on both sides of the court. Hises' work on his Mo'ne's Alley at the Invitational came into Southern's game averaging more than 27 points per game but just saw OU win 54-10 in the UCF win, was more important and impressive than the 16 board on the other side.

The guards will also need to pull together a good defensive effort against C-USA's second best scoring defense statistically. Southern Miss has allowed 65.0 points per game this season, and their depth in guards allows them to start one and key rotation to stay fresh throughout the game.

The key will be stopping the Eagles to watch towards Lowell Porter and Josh Poppens.

Tough game will be televised by CTV and will be a special home start time of 8 p.m. The game will also be covered locally on the radio by WQTM 940 AM.

From GREG FOREST

...and the Knights look for their second straight win.

Honda and Houston come into this contest with almost identical scoring statistics. Honda has played 27 games, but Houston has played 28 games. Houston averages more Donatas Vadas, has not played this season.

Both Ishola and Houston come into this game. Ishola is the most accurate shooter in the C-USA. His 112 and 165 offensive rebounds and 165 defensive rebounds are second and third in the conference respectively.

Ishola信心满满地喊出信心，他坚信自己的团队会取得这一场比赛的胜利。
The Knights improve to 3-1 at home with easy victory over the Utes

MELISSA HEYBOER
Sports Editor

The UCF Men’s Tennis team improved its overall record to 4-3 and 3-1 at home with a victory over Utah on Sunday morning. The Golden Knights defeated the Utes 5-2 and the UCF Tennis Complex.

The Knights are currently ranked 7th in the nation while Utah is ranked 30th.

UCF sophomore Brock Saxby and Norman Alcantara defeated Utah’s Aamir Masih and Ryan Schlechter 6-2 to record the first win of the day. The win improved the pair’s record to 6-1 on the season.

Alcantra in doubles competition, sophomore Derek Bell, Saxby and Jimmy Ronch earned the second win of the afternoon for the Knights when they defeated Wes Hancock and Timothy Alfin 8-4 in the No. 1 spot.

UCF continued its dominance into singles play winning four of six contests against the Utes. Ben Soltane was victorious against Utah’s Wasimwik, winning 6-2, 6-4.

The second win in singles play was provided by Ronch who defeated Allison 6-4, 6-3 at the No. 6 spot.

The Knights next win, which secured them a victory came from freshman Johan Beigart who defeated Miron Mann 6-1, 6-1 in the third spot for his first win of the season.

Alcantara’s Atlantic also won, defeating Ohanaini, 6-4, 6-4, 6-4, 6-0 at the No. 5 spot.

This was the second win for the Knights against a ranked opponent.

No matter what you say, I'm still a nerd

I was the lonely, quiet, asthmatic kid that I was, and even if you say, I'm still a nerd, you're entitled to live out your lingo and go on road trips to our respective countries. When seeking housing, the price you pay for it may not be too high, but the planning necessary to make it worthwhile is crucial.

In the massive conference hall dedicated to the science fiction and fantasy fandom, I stood by the booth and watched the crowd flow in and out. I noticed a woman wearing a black dress and a black hat walking towards the entrance. Her hair was black and her nails were painted black. I decided to follow her and see where she was going.

As I approached her, I noticed that she was wearing a black scarf and a black cardigan. Her hair was curly and her eyes were red. I asked her if she was attending the science fiction and fantasy conference. She nodded and said yes. I introduced myself and asked her what she was doing there.

She told me that she was there to take part in the science fiction and fantasy conference. She explained that she was interested in science fiction and fantasy literature, and that she had attended many conferences before. She said that she was excited to be there and that she was looking forward to meeting new people and learning about the latest developments in the field.

I asked her if she had any recommendations for books or events at the conference. She said that she had heard about a panel discussion on the future of science fiction and fantasy literature, and that it sounded interesting. She said that she was planning to attend that panel discussion, and that she was also looking forward to attending the book signing event.

I asked her if she had any favorite authors or books. She said that she was a fan of both science fiction and fantasy, and that she enjoyed reading books by authors such as J.K. Rowling, George R.R. Martin, and Ursula K. Le Guin. She said that she also enjoyed reading books by authors such as Dune, Star Wars, and Star Trek.

I asked her if she had any hobbies or interests outside of science fiction and fantasy. She said that she was a fan of hiking and camping, and that she enjoyed exploring the outdoors. She said that she also enjoyed reading books about nature and the environment.

I asked her if she had any advice for someone who was interested in attending the conference. She said that she would recommend attending as many events as possible, and that she would recommend trying to meet new people and making connections. She said that she would also recommend taking notes and reading about the latest developments in the field.

I asked her if she had any questions for me. She said that she was interested in hearing about the conference, and that she wanted to know more about the science fiction and fantasy field. I told her that I was excited to be there, and that I was looking forward to learning about the latest developments in the field.

We talked for a while longer, and then she had to go. I wished her well, and she wished me well. I left the conference hall, and I continued on my way. I continued to be impressed by the conference, and I continued to be impressed by the people I met.
