UFC police officer's expert drawing ability makes him one of only 15 sketch artists in the state of Florida

TARA YOUNG
Contributing Writer

Carl Maxwell. Maxwell, 42, is one of fifteen sketch artists in the state of Florida. He began drawing in grade school, but really started nurturing his talent in college.

Shuffling his legs, he focused his attention on the sketch. After prying a fiddle over the proper slope of the nose, he grabbed a medium-sized black book off his bookshelf to the left of him. The FBI workbook was full of hundreds of different facial features. After flipping through the book for a few minutes, he narrowed the nose down to a thinner bridge with a fatter tip.

Graduating from UCF with a degree in liberal studies, he soon found himself using his artistic talents in many of his roles. Beginning in the military, moving on to massage therapy and ending up in the police force, Maxwell took his art seriously.

The Vagina Monologues

A play about female empowerment issues challenges audiences

RACHEL LOPETZ-MAIA
Managing Writer

Editor's Note: Due to the language used in the play, The Vagina Monologues, this arti-
cle has language that may find objectionable and that the Future will not normally print. However, the Future decided to include the language in the article to keep the message of the play intact.

Uncommon Grounds, along with V-
Drew and the Woman's Studies program put
out three performances of The Vagina Monologues this past weekend in the Commu-
nications Building.

One organization that brings two Equal's Vagina Monologues, which has
taken the stage around the world, to ven-
ses where the play's proceeds are used to
fight AIDS in third world countries.

The monologues use character reflec-
tions, language and storytelling to speak out
about women's issues.

The organization Speaking Out About Rape was the beneficiary of all proceeds of these performances.

"The play is powerful, it's powerful in a way that brings Eve
and/or male and female stereotypes," said Kelly Greene, founder and director of Speaking Out About Rape. The group, which has been performing for 16 years, was honored by performing a monologue, "Match the Empowerment," at the University of Florida football game.

The play also challenged audience members with its use of language.

There were 15 acts in the play, all related to the vagina or women's issues. Katie

Fighting crime one drawing at a time

Carlos Maxwell

While at UCF, Maxwell also did artwork for the FBI. "When I attended UCF, all the pictures in the newspaper were drawn by hand," Maxwell said.

Maxwell’s drawing technique involves him sketching the face on its hand and then scanning the image into Photoshop. Then he has the option to change a number of attributes, including the hair and the saturation of the picture.

"Like Photoshop because it prints much clearer than anything you would get from using a pencil and drawing it by hand," Maxwell said.

Now, Maxwell juggles UCF patrols and his sketch work — all to mention his family life. Maxwell, a father of three, currently lives with his girlfriend, Lynne, in St. Cloud, where they share seven acres of land and nine horses.

While not drawing, I usually reading or watching my Holmes and my family," Maxwell said. "It’s peaceful, but it’s not always the way you honestly keep me out of trouble." Maxwell said. From his freshman year at the UCP Police Department has led to more than 30 arrests as a direct result of his sketch work. One of his most memorable cases was in 2011, when he did a sketch of a suspect at a UCF student arrest. When it was released, several women on campus and days later was able to personally arrest the suspect.

Looking to the future, Maxwell still sees his career evolving into something new. He hopes to become a full-time forensic facial imaging specialist.

Maxwell said, "As a result of Fusco’s side work on the current sketch project, Maxwell asked questions of the FBI’s Special Agent, Lynn, in Florida. While at UCF. Maxwell also did artwork for the FBI.

Discovery is the first step

This discovery is significant because it demonstrates that eventually they may develop drugs that deliver pharmaceutical drugs to different regions of the body by targeting certain cells in the bloodstream by attaching those drugs to other drugs.

"We do the same thing and in the long run they would want to think about applications, but right now they are just trying to get the fundamental thing right -- they want to have some systematic way of getting -- make the molecule to do more all the time and not just attach more forces to it around... make it react with the molecule somehow."

This discovery, and other related projects the team is working on, was funded by the National Science Foundation and the Department of Energy. Together, Rahman and Barber's funding is approximately $1 million.

Rahman said the funding allows to support students in addition to the research. Together, the students have trained half a dozen doctoral students.

"Our mission is both research and education, and actually research coming first and then education," Rahman said. "So we employ everybody in the department to be both an excellent teacher and as an excellent researcher and I think I can do it!"

Rahman came to UCF in September from Kansas State where he was a university distinguished professor in physics. Because she is the chair of the department, she isn't acclimated to teach, but she said she's being helpful. Her students don't teach classes and she teaches one lower-level physics course.

"By teaching courses that enable me to think about such processes, by training students in research in these areas, you are basically preparing future scientists who will be able to address this in even bigger ways that we have been able to do so far," Rahman said. "To me, I get a lot of research work. To talk to students and I'm able to get my ideas across to them, that's why I'm in academia."

---

Group asks students to test beliefs

However, some students believe the CPA goes a bit too far with the way they act on campus. Joseph Allison, a 20-year-old engineering student, said that he feels it is their role to fight and discuss these differences.

"I don't think we should just another performance to add to the research. Together they make the molecule to do more all the time and not just attach more forces to it around... make it react with the molecule somehow."

Eagles fly in on winning streak

Men's Basketball to face USM at home

It's all about numbers for the UCF Men's Basketball team, which returns home tonight for a nationally-televised contest against Rice on ESPN.

When the Golden Eagles come to town, it will kick off the final four-game stretch of the regular season for the Gold- en Knights. Three of those games will be played at the UCF Arena, where UCF is 1-2 this season.

That is the second-best home record in Conference USA, trailing only Memphis. The Knights will be in first place as they finish the regular season.

The win is the prohibitive favorite to win the conference tournament, it is imperative that UCF even either the No. 2 or No. 3 seed by finishing strong.

The No. 4 seed in the conference tournament still earns a first-round bye, and UCF will all but clinch a spot in the top four with a win tonight. The Knights (8-19 overall, 2-11 C-USA) currently sit in a tie with Houston (8-19 overall, 8-9 C-USA) for second, and if they beat the Golden Eagles they will be at the top of the heap. Two games ahead of the fifth place team, either Southern Miss, Tulane or Tulsa.

However, the No. 4 team in the conference tournament would be lined-up to play Memphis in the semifinals of the tournament.

The game is 7:00 p.m. and will be televised nationally by ESPN.

Maryland: 4

UCF Women's Basketball prepares to host Marshall

ATHAN CURTIS

The UCF Women's Basketball team has returned home to finish its regular season with a couple of home games.

First up for the Golden Eagles is a match-up against the Marshall Thundering Herd on Thursday night at the UCF Arena.

Marshall is 0-13 overall and 5-13 in Conference USA. UCF (9-13 overall, 5-7 in C-USA) sits three spots behind Marshall.

The game is special to UCF because it will be televised nationally by CSTV, on tape delay.

"We're excited to have this opportunity to showcase our players against one of the top teams in Conference USA on our home court," UCF head coach Gill Brietzke said.

Marshall hasn't done anything spectacular in conference games as far as the statistics are concerned. The Thundering Herd averages 64 points a game (seventh in the conference) and gives up 64.2 points per game (also seventh.

The one thing that Marshall has done consistently well is rebounding, pulling down 34
The Golden Knights tied for 3rd at John Hayt tourney

ZACH MOORE
california

The UCF Men’s Golf team rebounded valiantly Monday after an abysmal start to their second tournament of the season. The Knights started the fall season charged with the lead but were unable to close out their strong play with a victory in the Friday Frenzy. They entered Monday’s John Hayt Collegiate with one of the most difficult courses in the nation, the Sabal Trace at University of Florida. The strong second round was vital for the Knights after they opened the tournament on Sunday posting the highest score of any team in the field. Florida positioned themselves for the opportunity to win the individual portion of the tournament moving into a tie for third after the second round. South was able to crack into the top 10 after beating their second round score by 10 strokes and Brown is tied for third after improving 12 strokes from his first round of 81.

The strong second round for the Knights could save a disappointing start to the season. In the San Juan Grant International, where they placed 14th out of 14 teams and posted an overall score that was the most accurate shooter in C-USA and leads the team with 17 points per game.

Ishola is trailing him by more than 27 points per game. But before the Knights can start looking ahead, they will need to take care of Southern Miss. The Golden Eagles are 15-6 overall and fifth place in C-USA at 3/4 after their home win over Marshall on Sunday.

Couch Larry Euston’s team has won its last three games and is led by Jeremy Wise, who leads the team with 3 points per game. Wise is the only freshman in the conference to lead his team in scoring, and it hasn’t even close, as second-leading scorer and fellow freshman Brandon Smith is trailing him by more than five points, averaging 2 points per game this season. Last year’s leading scorer, sophomore Courtney Beasley, is third on the team at 4 points per game.

Those three are indicative of the entire Golden Eagles roster, which has a deep and talented group. The team lost just two forwards and two centers on the roster, and one of them, sophomore Donatas Vosickis, has not played this season.

That will leave the burden of defense on Mike O’Donnell, Brett Taylor and Durell Noel. Noel is coming off another strong effort on both sides of the court. His strong work on the Georgia’s Alabama floor led into Saturday’s game averaging more than 27 points per game but just scored this in the 43-42 UCwin, was more impactful and impressive than the 16 points he scored in the first round of the season.

The guards will also need to put together a good showing defensively to prevent Southern Miss from carving away their lead. The guards are an experienced group of seniors and will be looking to lead their respective conference opener on a high note.

The regular season finale is against a streaking East Carolina team (8-3, 6-2 C-USA). They have won five straight contests in C-USA. The Knights will host the ECU Pirates Saturday at the UCF Arena at 2 p.m.

NEXT GAME: THURSDAY, FEB. 22, AT 7 P.M.

Knights improve to 3-1 at home with easy victory over the Utes

MELISSA HINKLEY

The UCF Men's Tennis team improved its overall record to 4-3 and 3-1 at home with a victory over Utah on Sunday morning. The Golden Knights defeated the Utes 5-2 at the UCF Tennis Complex.

The Knights are currently ranked 70th in the nation while Utah is ranked 100th.

Sophomore Brooke Salky and Norman Alcantara defeated Utah's Annette Mahou and Ryan Schelbach 6-4 to record the Knights first win of the day. The win improved the pair's record to 6-0 on the season.

Alim in doubles competition, sophomores Derek Ben Solante and Jimmy Rorsch earned the second win of the afternoon for the Knights when they defeated Wes Hannah and Thierry Alain 6-4 in the No. 3 spot.

UCF continued its dominance into singles play winning four out of six contests against the Utes. Ben Solante was victorious against Utah's Uchenna, winning 6-4, 6-4.

Good leads Knights to victory

JOHN BEIGHT

The second win in singles play was provided by Boisch who defeated Alain 6-4, 6-3 at the No. 6 spot. The Knights next win, which secured them a victory came from freshman Johan Beigert who defeated Micah Mintz 6-4, 6-3 in the No. 5 spot for his first win of the season.

UCF's Alcantara also won, defeating Olhaman Ouali, 6-4, 6-0, 6-3 at the No. 9 spot. This was the second win for the Knights against a ranked opponent.

The Knights return to action Thursday when they host U-A-S with Florida Atlantic.

• Trouble Eating or Sleeping
• No Motivation
• Difficulty Concentrating
• Feeling Downhearted or Blue

If you are experiencing any of these symptoms, you might be interested in a model for women and adults who experience symptoms of depression. If you qualify, ask a study coordinator on campus for more information. You will be compensated up to $540.00 for time and travel. As always, there is never an overnight stay and health insurance is not required. Time is limited, so call today.

No matter what you say, I'm still a nerd

I was the lonely, quirky, asthmatic kid with the brown shoes, an imaginary cat, and a large owl stuffed in my pockets. I had a notebook filled with math problems and a passion for science fiction and fantasy. I was always reading comic books and fantasy novels, and my favorite characters were the ones who were different from everyone else.

When I was asked to cover the annual Magica

I was the only one who knew the secrets behind the characters, the magic, and the magic. I was the only one who could see the hidden dangers and the hidden truths.

When I was asked to cover the annual Magazine

In the massive conference hall dedicated to the comic book world, I was excited to be there. I was able to visit with other fans and get a glimpse of the inside world of comic book writing and art. I was able to see the work of my favorite artists and writers.

My arms were weak with too many purchases to carry, and my wallet was empty. I was happy to be there, and I was able to meet other fans who shared my passion for comic books.
Tired of having too much month at the end of the Money?

We are your solution!

For rent in a 3 bedroom 2 bath apartment in The Village at Alafaya Club. This apartment is located in the heart of Orlando, close to both University of Central Florida and State College of Florida. The apartment is available for immediate move in and includes all utilities and basic cable. Contact Jennifer at 407-337-9618 for more information.

The apartment is fully furnished, including a full kitchen with all appliances, a washer and dryer, and a large master bedroom with an en-suite bathroom. The other two bedrooms share a second bathroom. The living room features a flat-screen TV and comfortable seating. The apartment is located in a gated community and includes tennis courts, a pool, and a gym.

The apartment is ideal for students or professionals looking for a cozy and comfortable living space. The community offers a variety of amenities, including a fitness center, a playground, and a community garden. The location is also convenient for shopping, dining, and entertainment.

Interested parties are encouraged to contact Jennifer at 407-337-9618 to schedule a showing or for more information.
