INVENTIONS
TWINs INVENT REMEDY FOR WEDGIES

JENNY ANDREWS

Black strips of cloth wrapped the arms of students at the Homecoming game in honor of a UCF student who died Friday night.

Michael Forehand, 18, was a freshman business major and recently inducted member of the UCF chapter of the Theta Chi Fraternity.

Around 1:39 p.m., Forehand was cut loose from North Albury Trail near Pep- perdine Place when his Jeep struck another car, according to a Florida Highway Patrol news release.

The impact caused the Jeep to veer right, partial­ly ejecting Forehand, who was not wearing his seatbelt.

He was pronounced dead at the scene.

About 15 of Forehand's Theta Chi brothers and other friends were black arm bands on Saturday's game in remem­brance of his friend.

"The guys who wore them seemed very sure to remember his name," Theta Chi Chapter Leader Michael Forehand said.

"When the person who is killed goes — like the ball or the person goes to ya­ou you wedgie — they put it on," said Forehand.

Nature
PECANS MAY BE THE NEW PEACH

George's was the first of many national chains to open this fall. The food retail giant announced plans last month to expand its chain of Wal­greens stores.

Students watching the chains operate in other states say the opening of a George's store is an indicator that the chain may be planning to expand into the area.

Twelve UCF students were among the first to try George's.

"It's a great thing for the area," said Student President Christopher Miller. "It will bring more jobs and improve the economy.

The first George's store opened in Florida in 2007 and has since expanded to include several other states.

Students are optimistic about the potential for employment in the future.

"I hope there will be more stores in the area," said Student President Christopher Miller.

LOCAL ARTS & MUSIC
SURGERY A COMPLETE SUCCESS: ASTRONAUTS FIX SOLAR PANEL

Astronauts successfully installed a new solar power system on the International Space Station.

"It was a huge success," said Commander Scott Parazynski.

"The system will greatly improve the performance of the station's electrical systems.

"This mission has been a great step forward in our efforts to enhance the capabilities of the station.

"We are pleased with the results of this mission and look forward to future missions with similar objectives.

NEDER & WILSON
PILEUP ALONG FOGGY HIGHWAY KILLS 2, INJURES DOZENS

More than 100 cars and trucks crashed into a dense fog on Wednesday afternoon, according to the California Highway Patrol.

Several people were injured, including a child who was trapped in a car after the accident.

The accident occurred on Highway 395 in the San Bernardino County area.

The California Highway Patrol said the accident was the result of a "fatigue accident.

"We believe that the driver was overworked and was unable to maintain control of the vehicle," said CHP Officer Mike McLaughlin.

"The driver said he was working more than 12 hours a day and was feeling very tired.

The accident is being investigated by the CHP.

"We are working to determine the cause of the accident and ensure that the driver is held accountable for his actions," said CHP Officer Mike McLaughlin.

Skiing is an area that is seeing increased interest among students.

"We have seen a lot of interest in skiing among students," said Ski Instructor Liz Wilson.

"The weather is great and the prices are reasonable.

"I believe that skiing is an activity that can be enjoyed by everyone.

"We are happy to be able to offer this activity to our students.

"We are working to ensure that everyone has a safe and enjoyable experience.

UFC women depict 2008 with beauty

UCF women depict 2008 with beauty

LEAH GRICE

Twelve UCF cows in bikini's are showcased in the 2008 Campus Girls USA Orlando edition calen­dar.

Celebrating its one-year anniversary, the Campus Girls USA calendar spans 16 months and features the images of women from around the world.

This is the first year the UCF has been a part of the Campus Girls USA calendar.

The calendar was initially launched in 2007 by the University of Iowa. Fifteen girls posed for the 2007 edition.

This year, Trevor Bick, president and founder of Campus Girls USA, decided to expand and produce calendars for women of different races.

"We hope to showcase the diversity of women and celebrate their achievements," said Bick.

"We believe that the calendar will be a great way to celebrate the beauty of women.

"We are working to ensure that the calendar is diverse and inclusive.

"We are working to ensure that the calendar is accessible to everyone.

"We are working to ensure that the calendar is safe and respectful.

"We are working to ensure that the calendar is respectful of cultural differences.

"We are working to ensure that the calendar is respectful of personal differences.

"We are working to ensure that the calendar is respectful of sexual orientations.

"We are working to ensure that the calendar is respectful of gender identities.

"We are working to ensure that the calendar is respectful of physical abilities.

"We are working to ensure that the calendar is respectful of religious beliefs.

"We are working to ensure that the calendar is respectful of political beliefs.

"We are working to ensure that the calendar is respectful of economic status.

"We are working to ensure that the calendar is respectful of social status.

"We are working to ensure that the calendar is respectful of family status.

"We are working to ensure that the calendar is respectful of educational status.

"We are working to ensure that the calendar is respectful of occupational status.

"We are working to ensure that the calendar is respectful of criminal status.

"We are working to ensure that the calendar is respectful of disease status.

"We are working to ensure that the calendar is respectful of disability status.

"We are working to ensure that the calendar is respectful of mental status.

"We are working to ensure that the calendar is respectful of intellectual status.

"We are working to ensure that the calendar is respectful of spiritual status.

"We are working to ensure that the calendar is respectful of artistic status.

"We are working to ensure that the calendar is respectful of athletic status.

"We are working to ensure that the calendar is respectful of musical status.

"We are working to ensure that the calendar is respectful of dance status.

"We are working to ensure that the calendar is respectful of theater status.

"We are working to ensure that the calendar is respectful of film status.

"We are working to ensure that the calendar is respectful of television status.

"We are working to ensure that the calendar is respectful of radio status.

"We are working to ensure that the calendar is respectful of theater status.

"We are working to ensure that the calendar is respectful of film status.

AROUND CAMPUS
News and notices for the UCF community

STEREOLOGY forum begins today
Delta Lake Feminist-Interest Society Inc. and the Office of Diversity Initiatives will host a diverse forum titled “Breaking the Stereotypes,” focusing on campus diversity issues of race, gender, sexual orientation and health on Wednesday, Nov. 7, from 4 to 8 p.m. in the Key Ballroom of the Student Center. The forum will focus on the stereotypes our student body has encountered and how those stereotypes have affected our student body. Provost Terry Hickey, along with SGA contact, will be providing questions and concerns to SGA officials. Food and drinks will be provided.

LOCAL & STATE
Keep local with headlines you may have missed

A surgery complete success
Automatically flown to Cape Canaveral – Armstrong successfully unfurled a torn solar power wing at the International Space Station on Saturday after spacewalks from Paulette Whitten, 28, a tangled clump of wires loose wing at the International area of Tower 3. Students can now check questions and concerns to SGA officials. Food and drinks will be provided.

SGA hosts find ball meeting
Student Government Association will be holding a find ball meeting Tuesday from 8 to 11 p.m. in the Student Union. Students can now check questions and concerns to SGA officials. Food and drinks will be provided.

The Rocky Horror Picture Show
on Wednesday

The Rocky Horror Picture Show is an irreverent look at American culture, and to all those who have not seen it before you'll be in for a good time. It is an essential film on the second floor of the Student Union.

It was incredibly amusing,” said Glam-Ratik Albers, a 19-year-old general business major who dressed as Wadell from Super Mario Bros. “It was a couple, and they put on a great show,” said Alan Carroll, a 20-year-old football player who dressed as a priest. “It was the best expressive deleted thing in the world,” said Pery Albers, a 20-year-old psychology major who dressed as a priest. “In the tense buildup to the show, we couldn’t move. We were all so surprised by the performance.”

As the audience filled the 300-plus seats of the Student Union, the Rocky Horror Picture Show was performed Wednesday at the Loews Cineplex.

“Without this show, I would have a completely different view of the world,” said Katherine Wilkerson, a 20-year-old digital media major. “I think people should see it because it’s a real comedy.”

The Rocky Horror Picture Show, originally shown by The Cast, performs Wednesday at the Loews Cineplex. It is an essential film on the second floor of the Student Union.

Students renovate kids' library

This real world experience can be made through being part of a team and brainstorming ideas such as this construction project. "The best thing about service learning for me is that it's not what I can do, it's what we can do," Cori Ijadi said. "I will always remember that, even out of school." 

The GBTCF and Boys Town of Central Florida is a privately funded organization that provides temporary housing for abused, abandoned and neglected children. In its 25 years of existence, it has directly helped more than 18,000 children, according to Greg Zbylut, the executive director.

In 2003 alone, 2,115 children and 228 families received help from the services of the Boys Town Campus in Owasso, which is the second-oldest and largest location outside the national headquarters in Boys Town, Neb. Zbylut said.

Zbylut said that she hoped the team's involvement would encourage and inspire the children to continue their studies in school. "I think that the team, by its positive example, has made a difference in the children's lives," Zbylut said.

"They [the children] see our commitment to them, the goals and realize that they can achieve these goals," she said.

For more information about donations, contact the Girls and Boys Town of Central Florida at 407-566-6807.

Cyclists subject to pricey fines, may get new co-op

Jennifer Hembree

A remedy to traffic and parking problems could be just as costly as doing nothing.

Alex Berkun, a political science professor at the University of Central Florida, was a member of the Global Perspectives Club, which is one of many student groups on campus that are focused on global warming, as well as the increasing influence of fossil fuels and the ever-growing cost of fuel. The group is a part of a worldwide movement called Critical Mass and is dedicated to raising awareness of global warming and increasing the use of bicycles as a form of transportation.

In the past year, the group has been expanding their efforts, and the number of participants has increased. Alex Berkun, a member of the group, said that they have been working to increase awareness of the issues related to global warming and to promote the use of bicycles as a means of transportation.

"It's really important for people to start thinking about ways to reduce their carbon footprint," said Berkun. "By using bicycles, we can reduce our dependence on fossil fuels and help to combat the effects of global warming."
Friends hold roadside service

President Joe Kvedesov on Sunday: "That seemed to be the best way to show support for his family."

On Saturday night, more than 50 friends and family attended a roadside memorial service for Forehand at the site of the accident. Family members, friends and supporters held candles. Physical therapy major Taneya Rutizer helped to arrange the memorial and is also the creator of the Facebook group "Miller Forehand — who everyone knows and loves."
The group, created Saturday, already has more than 60 members by Sunday afternoon.

"He was a great person who touched so many people," Rutizer wrote in an email.

"I miss him..." she said. "He had the brightest smile, which could make anyone smile in return."

Rutizer said Forehand loved his Theta Chi brothers and always talked about them. He also loved playing all sorts of sports, such as lacrosse, basketball and football.

He listened to just one genre of music:

"Everyone knows this Coolest / Dirt Weeds boy," she said.

A funeral service will be held in Forehand's home town of Naples at 3 p.m. Wednesday at the First Baptist Church on 5000 Orange Blossom Dr.

Rutizer is going to leave for Naples on Tuesday morning:

"He was my best friend," Rutizer said. "No matter who you were, you could always talk to him.

Kovecses agreed:

"We're going to do everything we can to help anybody who needed it to get through the time.

The driver of the second vehicle suffered injuries and was taken to Pottsville General Hospital. Police said according to the release:

"PSP is waiting for medical results to determine if Forehand's accident was alcohol related. He had smoked marijuana prior to the crash."

Ronald Smith said:

"He would have been billed. Miller wrote in an e-mail on Sunday. "But the law states that you cannot make a left turn after hitting another car approaching traffic."

"Without a doubt, it looked like (Forehand) would be fine, but we decided to have the police do an investigation before we come to a final analysis."

"As a woman Kim Miller said, "We're going to do everything we can to help anybody who needed it to get through the time."

At 8:00, Friends hold roadside service

"The one thing everyone remembers about Mike is his smile."

TANeya Rutizer added:

"He was a great person who touched so many people."

"He was always smiling and happy and always looked at the good in people, never the bad. He never judged anyone."

On the Facebook site, friends have posted messages for Forehand, and others have written about the impact he had on their lives.

"I don't think people realize what a positive impact he had on the world, I think everyone who knew him had a smile on their face when they thought of him, as well as posting 90 photos."

Rutizer said many will remember Forehand for his smile.

"I hope to see that we take global warming more seriously right now because it seems to be a big thing in the media," Ecovoice advocate member JoMbKe Moore-Thomas said.

"We've had enough of interest groups that they don't do it. We need to get serious about this so we can truly fight the future generations. People put our generation off as Generation Q — we're quiet — but I want to be Generation J — Generation Load."

The UCF group headed to Washington in two different events, with one van leaving Thursday night and the other leaving Friday afternoon.

They checked their bags at the Howard Johnson hotel for the weekend and divided four events among the 16 people.

Energy Action Coalition, the main organization behind the event, put together a jam-packed agenda that included panel sessions, workshops and field trips.

The panel covered a variety of topics, including "Green Your School, "The Role of Civil Disobedience in the Climate Movement," and "The Soul of Environmentalism: A Call for Real Solutions.

One panelist I liked the best was titled "Growing Green Jobs," and was co-taught by Billy Paul, who is the major behind Bill and the Green Energy Challenge, Ecovoice advocate member JoMBKe Moore-Thomas said.

"He talked about the fact that there are millions of jobs in green jobs for low- income people."

"I'm going to be marching on the Capitol and there will be those things we're demanding," Moore-Thomas said. "One is for the government to create green jobs, approximately five million percent of them, as well as cut carbon emissions 80 percent by the year 2050, and we want no coal because that's no such thing as clean coal.

To help pay for expenses for the trip, the group was able to secure $5,000 in funding from the Student Government Association, the full amount they requested.

"We're always happy to find the organization to go on trips like this. In the classroom, that's what we're here for," said Brian Peterson, speaker of the Student Senate.

"It's incredibly inspiring," Peterson said. "It's an incredibly activist and also active movement."

"We're going to speak about how, unless we do a different climate change and environmental solution, we won't have any effect or make any change.

We need to mobilize minorities and people from diverse groups to create a green economy, and it's important that it's just a white movement run by white college students, then we're not going to go anywhere.

The event also hosted a panel of people of diverse groups who could submit resumes online to be a part of the largest national policy group. They aimed to go on to the Capitol and there was a big rally that day, we're definitely doing that, $5,000 might not be enough for this trip, but the group turned to the biology department for help. Also speakers, the group was granted an extra $500 for their trip.

"One of the main emphasis points in the department is to tell people about biology and that's consistent with the goals in the Power Shift event," said Lennox Yearwood Jr., president of the Sierra Club.

"We're going to work on the group that we can't offer in the Capitol Hill and we're going to make the people in theissue and when we're in a better position to be in a better position to affect local climate change on the national level.

When last spoken to, the only thing that the group had been doing was the event.

"We've been in the Shift has been a changing event for us, because of the new engineering major, Atee. Physicist [we've seen a lot of people working for a lot of the longest national groups to come together now."

"I really feel our group is going to be able to play a role in this global problem, which affects so many people."
Lindsey Sue Lieberman, a 2012 anthropology professor and director of the University of Central Florida, hosted a panel that examined TV dramas as a recruitment tool for marine studies to neuroscience. The group grew smaller every year, with a combined number of 130 participants. However, only 90 applicants were able to relax, she said. "It felt like they wanted most of the science students to become members of the sciences," Johnson said.

"Our goal was to see how we can develop programming that attracts people, especially to those sciences," she said. "We want something different to enhance the focus on the sciences, and we're not showing the process, only showing the outcome." Walters said that they chose the "American Idol" calendar, with a combined number of 130 participants. However, only 90 applicants were able to relax, she said. "It felt like they wanted most of the science students to become members of the sciences," Johnson said.

NEW GALAXY GIFTS

A native of Flathead National Forest in Montana, Meyer also indicated that the competition began in April 2007 and will run until May 2009. The school that contributes the most votes according to the total number of enrolled students at each institution.

The Nebraska Book Company, owner of Knights Corner Bookstore looks to rebuild.

"We want to leave these ecosystems and forests in a better condition than we found them for our kids to enjoy," said Meyer. (Continued...)

"It was a pristine forest that looked like no one had ever been through there before," he said. "You could literally walk for miles without seeing people."

"It's nice to see [the Nebraska Book Company] think bigger," Meyer said. "This is a reflection of how we've grown as a company."

"The Arbor Day Foundation has had significant human and wildlife implications. This forest is home to wild species such as mountain goats, elk and black bears."

"The competition last year was for Denver, Colo. Only 85 schools were able to financially back their forests," Flames Foundation will provide the financial support. Students interested in voting will plant the trees.

"The school that is doing what they can to retain some of that natural beauty," Meyer said. "We want to leave these ecosystems and forests in a better condition than we found them for our kids to enjoy."

"The competition last year in which part of the forest was damaged has been severely reduced. It is a reflection of how we've grown as a company."

Knights win Homecoming contest with a dominating 47-13 thrashing of the Marshall Thundering Herd

BRIAN MURPHY

Not many people would have thought it three weeks ago, but there is another way to describe the UCF Football team's offensive juggernaut. The Knights were held to a season-low 12 points in defeat at South Florida on Oct. 12. Since then, the Knights have been taking no prisoners, averaging more than 40 points in their last three contests.

Saturday's homecoming victory over the Marshall Thundering Herd was no exception as the Knights won 47-13 in front of a record crowd of 46,103 in Bright House Networks Stadium. Here are the main storylines that came out of what might be UCF's most dominant victory this season:

**One down...**

Every team lays out a number of goals that it wants to accomplish each season. The Knights accomplished one of their goals Saturday with victory. The Knights are No. 14 in the AP Poll and No. 15 in the Coaches' Poll. They are No. 1 in the state of Florida and No. 6 in the nation. The Knights have won four of their six games, remaining the only unbeaten team in the nation.

**Scoreboard**

47-13

UCF's Luke Smith ran for 188 yards and two touchdowns against Marshall on Saturday. UCF's defense shut down the Thundering Herd, holding them to just 13 points, including a 6-0 shutout in the fourth quarter.

**Knights tie for season crown**

PADRO BRIEFER

On a night when five seniors were honored before the match, it was sophomore forward Anthony O'Donnell who stepped up and delivered a 3-0 win for the UCF Women's Soccer team over Southern Miss and at least a share of the Conference USA regular-season title. Senior Jennifer Musile, Kate Baggaley, Allison Orr, Jessica Newport and Katlyn Keever got the extra attention before the match started, but once the ball was kicked, it was youth that helped the Knights put one of their most complete games of the season on display. Sophomore Delanie Santos started off the scoring for the Knights in the 79th minute, when she broke a 0-0 tie for the senior. Then, just 32 seconds later, senior forward Katie Israel scored her second goal of the game to give the Knights a 2-0 advantage. The Knights added another goal about five minutes later.

In the 79th minute, Thomas headed the ball forward to Danielle de Serrano, who ran past two defenders, put herself alone on goal and found the back of the net.

"It's a big win for us," said Israel. "We're really happy with the way we played tonight. We're really happy with the way we played tonight.

The Knights will take on Memphis on Sunday, before facing off against the UCF Women's Basketball team on Monday.

**UCF bests St. Leo 86-78**

**With the departure of forwards Jojo Peppers and Lowell Payne, some faces of the UCF Men's Basketball team worried about the lack of offense in the Knights' frontcourt. UCF's first exhibition game of the 2007-08 season didn't do much to quell those concerns. The Knights defeated the St. Leo Lions 66-39 on Saturday in the New UCF Arena.

Guard Mike O'Donnell and freshman Terelle combined for 30 points and 11 assists, field goals. Exactly half of UCF's team was 12 points, with 10 assists, 12 field goals. Exactly half of UCF's team was 12 points, with 10 assists, 12 field goals. Exactly half of UCF's team was 12 points, with 10 assists, 12 field goals. The Knights will take on Memphis on Sunday, before facing off against the UCF Women's Basketball team on Monday.
Another week, another weapon.

Saturday marked the fifth straight game this season in which the Knights were led in receptions by a different receiver. Tight end Rocky Ross and Kamar Aiken have each led the team in receptions throughout the season. Sergio Tooches caught nine passes for 98 yards against Tulsa. Watters said the Knights expected Ross to be Ross.

The explosive offense against the Herd. He had 76 career rushing yards during those three years at UCF coming into this season. Saturday was Brian Watters’ career high of 12 carries against Marshall. Watters rushing yards to go with five rushing touchdowns this season.

With Watters now in the mix with Aiken, Ross, Smith and Joachim, as well as wide receiver A.J. Guyton and end Mike Merritt, the offense has to do a lot with coaching. "I think it's great," Smith said about all of the Knights’ offensive options. "And Kyle does a great job of distributing the ball to all the receivers, I think that's the difference between this year and last year. It gives opportunities for every body to take a 5-yard catch and make a big play. You can see that happen out there in the game."

But with Watters now in the mix with Aiken, Ross, Smith and Joachim, as well as wide receiver A.J. Guyton and end Mike Merritt, the Knights have one of the deepest passing attacks in Conference USA. We've been doing it, it's been working, and I'm going to keep doing it until someone stops us." Watters said.

But even if they have to settle for the regular season title because they still got our eyes on something else out of his game. "You'd like to be more consistent on certain passing situations and more consistent with some of our blocking schemes," he said. "Then definitely, obviously when we pass, we're very good, but that has to be consistent. That can't be one-out of three or one out of four."

In its last three games, the Knights’ defense has been consistently good. They have held opponents to an average of 38 points per game and have collected 11 turnovers and 13 sacks. In their first six games, the defense had just five turnovers and 12 sacks.

On offense, the Knights have three games left to improve their bowl resume and go for the C-USA East Division title. But even if they have to settle for second place, the Knights will be headed to a bowl game. Given their ability to run the ball at will, to have a quarterback who can manage the game with his arm and his legs, as well as a defense which seems to be playing with something to prove as well, the Knights will be a tough opponent for anyone, even if they are matched up against.

It looks like nothing can stop the Knights right now. Maybe the loss to South Florida was a wake-up call, but they have become a completely different team since then. They are more aggressive on defense, and more productive on offense. The team's entire confidence has seemingly shot up to unshakable heights. It would have been very hard to imagine all this one month ago.

The Knights have three games left to improve their bowl resume and go for the C-USA East Division title. But even if they have to settle for second place, the Knights will be headed to a bowl game. Given their ability to run the ball at will, to have a quarterback who can manage the game with his arm and his legs, as well as a defense which seems to be playing with something to prove as well, the Knights will be a tough opponent for anyone, even if they are matched up against.

"I've just been doing it, just been doing it, and it's been working, and I'm going to keep doing it until someone stops us." Watters said.

"You'd like to be more consistent on certain passing situations and more consistent with some of our blocking schemes," he said. "Then definitely, obviously when we pass, we're very good, but that has to be consistent. That can't be one-out of three or one out of four."

In its last three games, the Knights’ defense has been consistently good. They have held opponents to an average of 38 points per game and have collected 11 turnovers and 13 sacks. In their first six games, the defense had just five turnovers and 12 sacks.

On offense, the Knights have three games left to improve their bowl resume and go for the C-USA East Division title. But even if they have to settle for second place, the Knights will be headed to a bowl game. Given their ability to run the ball at will, to have a quarterback who can manage the game with his arm and his legs, as well as a defense which seems to be playing with something to prove as well, the Knights will be a tough opponent for anyone, even if they are matched up against.

"I've just been doing it, just been doing it, and it's been working, and I'm going to keep doing it until someone stops us." Watters said.

But even if they have to settle for the regular season title because they still got our eyes on something else out of his game. "You'd like to be more consistent on certain passing situations and more consistent with some of our blocking schemes," he said. "Then definitely, obviously when we pass, we're very good, but that has to be consistent. That can't be one-out of three or one out of four."

The Knights collect three more turnovers in victory over Thundering Herd; now have 11 turnovers in past 3 games

Melissa Neyer

The UCF football team's last win was a long time ago.

For weeks the Knights have been in the shadow of running back Kevin Smith and the trials of quarterbacks Kyle Israel and Michael Greco.

They wanted their time.

For the last three weeks the Knights' defense has proven that it deserves spot in Saturday's 12 p.m. Conference USA title game. If not a stoppage in the rotation, just a visit to the instant replay.

They wanted their time.

For the last three weeks, the Knights' defense has forced its opponents into 11 turnovers — including three interceptions Saturday — and sapped just 11 points to the Thundering Herd.

In the last three weeks, the Knights' defense has forced its opponents into 11 turnovers — including three interceptions Saturday — and sapped just 11 points to the Thundering Herd.

That's a small fraction of the turnovers that they've made against some of the better offenses in the nation. The defense allowed the Lions, who are members of the Big Ten Conference, to trail only 45-42 at halftime.

The defense also grabbed seven sacks and held the Thundering Herd to just 19 yards rushing.

On top of that, UCF's stellar play made the Knights bowl-eligible for the second time in three seasons.

“I think we’ve shown what we can do. We just haven’t been able to do it consistently.”

Smith finished the game with another 100-yard performance — his eighth of the season. He ended with 101 rushing yards, including a 59-yard touchdown run in the first half, a UCF record.

“I follow my offensive line,” Smith said. “They’re the wheels on the bus that make me go ‘round and ‘round. I’m just following those guys, and the line was big. I had a lot of room in front of me.”

Smith also matched his career high with four receptions for 49 yards.

The Knights claimed an early lead for the Knights.

Smith also matched his career high with four receptions for 49 yards.

The Knights claimed an early lead for the Knights.
The Knights got to within five, but on the next point, Harrison Wilds fed Courtney Whilkinson in the box, but her shot was wide of the goal for the second time in school history. The game went into a timeout. A Campbell kill allowed the Knights to get within two, 17-15, but they couldn't tie the game.

The Knights were out-killed again in this game, hitting a woeful .194 compared to the Pirates' .303. For the second straight game, the Pirates had a team hitting percentage over .200.

Peyton Thompson also added six kills, seven digs and two blocks. ECU led the match and only committed eight errors.

UCF took the first frame, 17-15, after a streak of four straight points. Kerri Williams, who led the Knights with 21 kills, in three sets, and eight blocks, had the last kill. It was her first game since the match with Middle Tennessee, which she had to sit out due to an injury.

The Pirates pushed the Knights even further away from another win to the seniors in the match. ECU hit .332 and UCF hit .263. In the final frame, the Pirates hit .424 compared to the Knights' .268. The Knights had 19 errors in the final set, but only seven in the first two frames.

The Pirates and Golden Eagles played to a scoreless first half, with both teams failing to capitalize on their chances. Southern Miss had the first real scoring opportunity of the game when they recovered from a院子里if strokes when Bianca Otero scored into the left side of the box.

Brianna Serna and Kerry Williams each had match highs with 30 kills and 30 digs. The Pirates, who dropped their seventh straight decision, are tied for first place in Conference-USA with 30-19, have only won one of their last five games.

The Golden Eagles played to a scoreless first half, with both teams failing to capitalize on their chances. Southern Miss had the first real scoring opportunity of the game when they recovered from a院子里if strokes when Bianca Otero scored into the left side of the box.

Warming can't get the cold shoulder

A awareness of global warming has been spreading around the past few years, but have you noticed how it has been increasing? Our students have underrecognized the rate at which climate changes will occur. Now it is estimated that it should be happening within the next 30 years, which is why it needs to be taken care of now. To those of you who have been hearing about global warming, it is really important for you. Those of you who haven't have been hearing about global warming need to. It is something to take lightly. This affects everyone and everyone.

Some people believe that it exists and some don't. Regardless, I know it's true, so I believe it is better to be safe than sorry.

Global warming refers to a steady increase in the earth's atmosphere trapped heat. This leads to severe weather changes, which will cause problems around the world. It is estimated that 125 countries, to fight global warming need to.

Many people have been taking initiatives, kudos to mathematician Jean Baptiste Fourier who first theorized in 1824 when French mathematician Jean Baptiste Fourier found that Earth absorbs the sun's energy, which is increasing. Fourier believed that the earth's constant increase in temperature resulted and reflected it back at the earth. That was more than 180 years ago.

Back in 1999, the U.S., the largest of the greenhouse gas emitters, didn't sign an international agreement. The U.S. government was concerned. The U.S. was not taking any global warming called the Kyoto Protocol.

It was signed and ratified by 120 countries. The Kyoto Protocol is about reducing and requiring countries to cut back on greenhouse gas emissions. It went into effect on February 16, 2005.

The Kyoto Protocol was enacted to cut the amount of greenhouse gases that are emitted by industrialized countries. It came into force on February 16, 2005.

The Kyoto Protocol is a treaty that was adopted by the United Nations in 1997 and entered into force on February 16, 2005. It is an attempt to reduce greenhouse gas emissions by 5% below 1990 levels.

The protocol requires industrialized countries to reduce their greenhouse gas emissions and to report on their progress.

The Protocol is aimed at reducing greenhouse gas emissions by 5% below 1990 levels.

The Kyoto Protocol is enforceable in the sense that if a country is not meeting its emissions reductions target, it is required to take additional actions to meet its target.

The Protocol is not enforceable in the sense that if a country is not meeting its emissions reductions target, it is not required to take additional actions to meet its target.

The Protocol is enforceable in the sense that if a country is not meeting its emissions reductions target, it is not required to take additional actions to meet its target.

Grape Juice Antioxidant Study

RIPPLE LIFESTYLE INSTITUTE at Florida Hospital Celebration Health is conducting a study for women comparing the effects of concord grape juice on body antioxidants.

For your participation in this study you will be reimbursed:

- Brief Physical Exam
- Complete Blood Work
- EKG Testing
- Body Composition Analysis
- $300 Compensation

To qualify you must be a healthy female, normal weight, non-smoking, and between 20 and 50 years of age. You must be able to participate in 2 separate double-night stays.

For more information please call 407-303-4544 or email Jane@celebreimage.com.

They can't, they cheered and they splashed. Despite a week of rain and wind, the cloudy parted and the sun came out last Friday to greet student gatherings for UCF's annual Homecoming pep rally, Spirit Splash.

"It wasn't really well, and we had a great turnout, and Marshall did a good job on the weather," Homecoming Committee Chair, Brandie Hollinger said.

"Students splashed, crowed, surfed and caught UCF merchandise thrown into the crowd by Rowdy Knights and Rukus," Hollinger said.

"Finally," Hollinger said. "I have never been in the water and wrestled in the water at Spirit Splash before. This was the best Spirit Splash event." Hollinger said to the roving crowd. Berkowitz then took the stage and made a confession.

"You know, this is my fifth Spirit Splash and I still have never gotten wet in the water," Berkowitz said.

This was met by boos and hisses from the crowd below. Hollinger also confessed that she had never been in the water at Spirit Splash before. Both of them then answered the crowd by running off of the stage and rushing toward the Reflecting Pond and the cheering masses. They were met with an assault of water and a round of applause from their fellow students.

Other speakers at the event included UCF President John Hitt, Director of Athletics Keith Tribble and the introduction of the Homecoming Court.

The fun and excitement of the splash, it's pretty much the end of sadness for some students.

"It's political science major, Wendy Whitman said. "It was really cool, I'm not sure if I'm going to sleep tonight."

Don't think any high school has anything like this, I'm not just being All is not lost, as the event was also supported by the UCF Knights athletic departments.

"I'm happy Spirit Splash and it's not being held for another year," Hollinger said.

"I think it was probably the best thing of the day for us students to come out andvelling classes to attend," Hollinger said. "Thank you, major nickel. Really, you're in the water and wrestled and attended Spirit Splash from the side, they were throwing out."

"This is the best Spirit Splash event," Hollinger said to the roving crowd. Berkowitz then took the stage and made a confession.

They were met with an assault of water and a round of applause from their fellow students.

"People can come and be a part of the family," Hollinger said. "It's a very friendly and very accessible. It's wonderful."

"It's only ended with the last of the shirts and memorabilia being thrown out to the dispersing crowd along with the singing of UCF's Alma Mater."

Overall, I thought the event went really well, there were no injuries or fights."

Neither the UCF Police Department nor the medical team on hand reported any injuries or fights.

Steve Mullins

"I thought the event was very well organized."

Homecoming.

Movie Knight had nearly 3,000 students on his side as they cheered for the team on Saturday afternoon.

Not only did students go to watch the movie, but Homecoming T-shirts were given out as well to the students attending the game.

Movie Knight was the theme for this year's Homecoming game.

Who got what we came for.
UCF’S FIRST EVER CAMPUS HOMECOMING

Here are some photos to remember.
November 5, 2007

Brian Bustos and President Brandie Hollinger at the Reflecting Pond. He was joined by Student Body President Andrew Nettles and Director of Athletics Keith Tribble. The event drew more than 2,000 students into the water.
Skit Knight entertains with ‘Terror’ and comedy

LAUREN PAULUSKAS

UCF’s Homecoming Week 2007 ‘Tales of Terror’ theme didn’t scare away thousands of students, for Skit Knight Thursday in the New UCF Arena.

The Arena allowed students to get seats with a good view of the stage, with a time limit of eight minutes each. If any group went over their time, they would be disqualified. Students were not allowed to use props, costumes, or music.

UCF’s homecoming and UCF spirit in their entertaining mixtures of acting and getting down. With each group choosing their fellow members in the same way it didn’t work for them to feel the high energy of the New UCF Arena.

Traditionally known as a Greek event, Skit Knight didn’t have many fraternities and sororities paired together, but they didn’t have the only group to go over, was their room for the skits.

Students for Skit Knight Firms, play "The "Theda" theme with a student UCF student sitting anywhere, because of the NTSK arena, they must have space, but if you can see the stage a lot better.

Starting at 7 p.m., the show had a combination of skits with dance segments, with a time limit of eight minutes each. If any group went over their time, they would be disqualified. Baptist Campus Ministry, the overall score.

The competition for SGA's $500 scholarship was fierce Saturday, as evidenced by the plethora of black-and-gold abdomens. Included in the photo, Rocky Ray, center, is the president; Brandon Delanois, far left, is the finance director; and Dianna Beatty, top left, is the student director of Campus Life.

Brandon Delanois drives each home game, Athletics Director Ron Hugentobler said. Delanois and Beatty hope to reward the students who give their best to the team.

The remaining free tickets to the show were distributed at Memory Mall starting at 1 p.m.

For students who didn't want to stand within inches of other fans, they could sit in the comfortable Arena seats instead.

"It is so much better than high school and puts in the dust," said freshman Rodney Leong.

Finalists included UCF's Young Wild Things, who gave a spectacular show that was well received.

"It's a way to reward the students," Delanois said.

The show was produced by a group of students and lasted about two hours. The concert took place in the Arena and was open to anyone with a UCF student ID.

Included were popular musicians such as Fall Out Boy, who performed their hit song "Dookie." The band also performed their song "Sugar, Sugar," which was a huge hit in the '70s.
