NATION & WORLD

KOREA

Korea says President Bush sent letter to North Korean leader Kim Jong Il. The Washington Post reported that the letter was a congratulatory message to the North Korean leader, who is hoping for a warming of relations. The letter was also a rare public display of the Bush administration's interest in improving ties with North Korea.

WASHINGTON — The United States is considering plans to build a missile defense system in South Korea, despite findings by U.S. intelligence agencies that North Korea does not have the main defense system that would need to build the missile defense shield. The Americans may have a nuclear weapon program.

The reports come as the nuclear talks appeared to hit a snag. The U.S. is preparing to present a draft declaration outlining its targets for nuclear programs by the end of the year. Hill told reporters Wednesday that negotiators may need to work on such a document.

S. says it will not ratify plans for missile defense

WASHINGTON — The United States says it will not ratify plans for missile defense after plans to build a missile defense system in South Korea, despite findings by U.S. intelligence agencies that North Korea does not have the main defense system that would need to build the missile defense shield.

The Americans may have a nuclear weapon program. Since U.S. officials have said they have been trying to persuade Europeans to take an active role in missile defense, the talks have been a surprise.

Allegedly responsible for explaining the need for the missile defense, the threat to the public, the threat to European allies that it still is.

Already, a Czech official responsible for explaining the need for the missile defense said that the threat to Europe remains, but relations between the countries have improved.

The Czech newspapers are full of headlines saying that "the threat to European allies is real."

S. newspapers are full of headlines saying that "there is no need for the missile defense."" Toman says that 100 years ago, "the government's coordinator for missile defense," a member of the government's senior advisory council, said that there is no need for complex systems.

The protest against Burger King headquarters began on March 10, and the initial planning for the march was underway. The protesters planned to march to Burger King's headquarters, located at 1997 Devaney’s Road, Orlando, Florida. The protest was organized by the Central Florida Coalition for Economic Justice (CFCEJ), which is a group of community organizations working together to address economic issues in the area.

The CFCEJ was founded in 1997 and has been active in the community ever since. They have worked on a variety of issues, including affordable housing, access to healthcare, and fair treatment of workers.

The protest against Burger King was part of a larger campaign to raise awareness about the company’s treatment of workers and their role in the fast-food industry. The campaign was led by the Burger Workers Union (BWH), which is a group of Burger King employees who are calling for better working conditions and higher wages.

The protest was also part of a larger movement to support workers’ rights and to hold companies accountable for their actions. The CFCEJ has been involved in similar campaigns in the past, and they have helped to bring attention to issues such as the treatment of farm workers and the fair treatment of workers in the food industry.

The protest on March 10 was a significant event in the ongoing campaign against Burger King. It was a call to action for workers and their supporters to stand up for their rights and to demand better treatment from the company. The CFCEJ and BWH will continue to work on this issue and to support workers in their fight for justice.
Compared to a virtuoso, its rendition was a trifle stilted and, well, robotic. But Toyota’s newest robot plays a pretty solid “Pomp and Circumstance” on the violin.

The 5-foot-tall, all-white robot, shown Thursday, used its mechanical fingers to press the strings correctly and bowed with its other arm, coordinating the movements well.

Toyota Motor Corp. has already shown robots that roll around to work as guides and have fingers dexterous enough to play the trumpet. But Toyota President Katsuaki Watanabe said robotics will be a core business for the company in coming years.

Toyota will test out its robots at hospitals, Toyota-related facilities and other places starting next year, he said. And the company hopes to put what it calls “partner robots” to use next by 2010, he said.

“We want to create robots that are useful for people in everyday life,” he told reporters at a Toyota showroom in Tokyo.

Watanabe and other company officials said robotics was a new extension of the automaker’s use of robots in its manufacturing plants, as well as the development of robots for autos related to artificial intelligence and pre-crash safety systems.

Watanabe previewed a vision of the future in which what he called “soft material robots” would be able to walk on uneven slopes and surfaces, turn smoothly, climb stairs, and reach for and grasp objects. ASIMO can also avoid moving obstacles as it moves and pre-crash safety systems.

Toyota, maker of the Prius hybrid and best-selling Camry sedan, has been a relative latecomer in robots compared to its domestic rival Honda and best-selling manager of ASIMO, has been working on robotics research by Honda engineers. ASIMO can run, spin the strings correctly, and bow with its other arm, coordinating the movements well.

ASIMO — which stands for Advanced Step in Innovative Mobility and is a play on the Japanese word for “leg” — first became available for rental in 2000. It’s considered one of the world’s most advanced anthropomorphic. It is also comprehended and can respond to simple voice commands. ASIMO’s humanoid form is not intended to imitate walking, but rather to assist human beings in various tasks.

Next, a robot designed to interact smoothly with people, including the elderly and the sick, just like says people “door-to-door.”

ASIMO got on the mobility robot, a motorized vehicle on a raised chassis, then moved forward. The moving machine could go up and down stairs, at low bumps without upsetting the person riding it, Watanabe said, because the wheels could adjust to the slope.

The Japanese government has been encouraging companies and researchers to make robots a part of the nation’s business. Toyota, maker of the Prius hybrid and best-selling Camry sedan, has been a relative latecomer in robotics compared to its domestic rival Honda Motor Co., as well as other companies, including Hitachi Ltd., Fujitsu Ltd. and Nikon Corp.

Honda has been working on robotics, focusing on advancing the technology as critical to improving the company’s mobility for the future. It is showing the latest technology in its own robot — the Astrohmanso — next week.

ASIMO — which stands for Advanced Step in Innovative Mobility and is a play on the Japanese word for “leg” — first became available for rental in 2000. It’s considered one of the world’s most advanced anthropomorphic. Seen often at Honda and other events, it can walk, even jog, avoid obstacles and carry on simple conversations.

The 5-foot-tall bubble-like robot looks like a real-life child in a white space suit, as it has grown smarter and lighter in size with innovations over the years.

Trying to one-up its rival, Toyota has been aggressively beefing up its robotics team. In August, it announced that it was planning to team up with Sony Corp., which discontinued its Aibo dog-like robot last year, shaped like a bobcut hairstyle, which has already shown how it could sign its name in script building a fat felt-tip pen with its three fingers.

Toyota said it is working with universities and its group companies to speed up robotics development, but ruled out a collaboration with Honda for the time being.

Toyota Executive Vice President Takeshi Uchiyama — who is also displayed next week — also showed how it could sign its name in script building a fat felt-tip pen with its three fingers.

RECAPPING A WINNER

UCF Women’s Soccer claimed C-USA regular season title, made it to second round of the NCAAAs

NEWS TO NOTE

NOAH & ALEWIFE THE KNIGHTS were victorious at home this season, posting a record of 7-0-1 at the UCF Soccer Complex. They went 6-1-1-1 in the season.

ASSIST MASTERS

The Knights collected 44 assists. Northern Illinois had 66 assists, while Thomas had four assists, while Thomas had four assists. The UCF defense posted 10 assists. The UCF defense posted 10 assists.

Men’s basketball prep for Mississippi on Sat.

The UCF Basketball team (4-0) has been solid all season long. The Knights hung tough, but experienced close losses versus ranked teams such as Arkansas and Kansas State. They beat a quality team in the UCF Soccer Complex, beating Arkansas 85-77. They are averaging at least 14.8 points per game. The Knights finished the season with a 23-5 record. Their 36 assists are the second-most in school history and she finished her time at UCF by being the top three-point shooter with 28 career saves.

Super sophomores

Senior forward Kasey and sophomore Kelsey were in the top five for the Knights in that category. Calvin was a mainstay in the Knights, winning headers and setting up plays, and although she ended the year without an assist, the UCF attack was not productive with her one of the lineup.

Krauss was one of the main reasons that UCF allowed just 29 goals all season. The Knights allowed 27 goals in the regular season and 26 in their season. She played all but 25 minutes this year.

Looking forward

The Knights will have to expect their success next year without some important cog. Marsee’s departure will leave a void at goalkeeper, and new players will have to emerge on defense with the losses of Ctr, Kroeger, and Begley. UCF will return most of its key offensive players. All but one of its goal-scorers and all six of the players on the first team will return next year.

UCF Women’s Soccer finished third all-time with 208 scores. It is the third best average in the nation and won 15 matches, 11 losses, and 55 points in 2013, and 15 matches, 11 losses, and 55 points in 2013, and also scored a goal in each conference game.

UCF Men’s Basketball traveled to Tennessee on Sat. for third all-time with 208 scores. It is the third best average in the nation and won 15 matches, 11 losses, and 55 points in 2013, and 15 matches, 11 losses, and 55 points in 2013, and also scored a goal in each conference game.

Cabrera, Willis traded to Tigers from Florida

MIKE FITZPATRICK
WASHINGTON

Tiger fans have been waiting for the right time to make a big splash in the free-agent market. That time has come, as the Florida Marlins and Detroit Tigers reached a blockbuster deal on Monday night, sending third baseman Miguel Cabrera and pitcher Dontrelle Willis to the Tigers. The move is expected to help Detroit challenge for the World Series this year.

The trade, which was finalized on Tuesday morning, is a major coup for the Tigers, who have struggled in recent years to compete in the AL Central. The club has been rebuilt around young talent, and the addition of Cabrera and Willis is expected to solidify the lineup and rotation.

Cabrera, 24, was one of the game's top players in 2005, finishing second in the NL in batting average with a .344 mark. He also hit 31 home runs and drove in 119 runs, helping the Marlins reach the World Series. Willis, 24, was named the NL Rookie of the Year in 2003, going 16-12 with a 3.80 ERA for Florida.

"This is not woe is the world, it's obvious," Detroit president Dave Dombrowski said. "We recognize the market value for both players." Dombrowski didn't intend to pursue a trade for either player until he approached Detroit on Tuesday morning. The Marlins had been shopping Cabrera and Willis for some time, and the Tigers had been interested in both.

"We didn't talk yet about buying into the Tigers," Cabrera said. "I will play left field, third base, wherever they want. I can't wait to go to spring training to see what they want me to do." Willis, the 2003 NL Rookie of the Year, is coming off a bad year in which he was 4-15 with a 5.17 ERA. He is expected to play until after New Year's Day.

"This is not woe is the world," Willis said. "I'm happy with the players that the Marlins believed in and confident that they will make a positive impact on a team that is still determined to win."

"We didn't talk yet about buying into the Tigers," Willis said. "I will play left field, third base, wherever they want. I can't wait to go to spring training to see what they want me to do." Willis, the 2003 NL Rookie of the Year, is coming off a bad year in which he was 4-15 with a 5.17 ERA. He is expected to play until after New Year's Day.

"This is not woe is the world," Willis said. "I'm happy with the players that the Marlins believed in and confident that they will make a positive impact on a team that is still determined to win."

The epic Golden Compass hits theaters amid criticism, protests and vandalism at local mall

WILLIAM GOSS

The realm of The Golden Compass involves airships, sky witches, proud polar bears, a truth-telling device, spirit companions in the guise of animals and a young girl (Dakota Blue Richards) prophesized to save her world from the oppressive likes of Marisa Coulter (Nicole Kidman) and the Magisterium.

And some people in our universe aren’t too happy about that. Although somewhat muddled as an adaptation and noticeably derivative of Philip Pullman’s novel, The Golden Compass remains an enticing primer for a series that is just as intricate in its alternative universe as it is in the magic. While the雾霾 of opinion among Philip Pullman’s novel — against the abuse of power by any one authority— is less explicitly addressed at any specific religious establishment, it hasn’t stopped those with more devout interests from having some rare critic reactions.

Last Saturday afternoon, an increasingly vocal group of teenagers decided to get together and protest the promotional standee for the film at the lobby of the Proctor’s Cinema 14 in the Fashion Square Mall.

“They just kicked it and passed it off asatholic material — the Catholic League called for a boycott in October — and on the night of a nationwide walk out, we’re going to release the poster prior to the film’s opening gala.”

The end of the film warns of a war coming, “which is determined, free will for all and the sound of steps, everything/person not seen for the sequel, but simply have to walk into the lobby.

ANDREW GOSS

Hip-hop event draws crowd of more than 100

JESSICA TUGGLE / CENTRAL FLORIDA FUTURE

SomeBurnt Speakers and music-school on the Memory Mall more than 100 people celebrated the 26th anniversary of a documentary about the history of rap music. THE TUBE

During the seventh-hour event people moved around Memory Mall, going from the stage with DJ and MC to the graffiti wall and the bboy show in the middle of the mall, or cyph.

A circle is united by a bunch of bboys taking turns dancing to the UCF junior Fernando Rodriguez's mixing turntable. When DJ starts playing the song "Jesse's Girl" by Richard Marx, the crowd gathered around the circle watching eight bboys battle each other in a competition with dizzying footwork and amazing athleticism.

Wyclef Jean, 22, participated in the bboy battle and gained the crowd's approval with his smooth execution and a confident personality.

"It's a cool way to release stress," Burgos said. "It also helped me stay out of troubles when I was younger."

Edgar Massoni, a UCF senior business management major, said he organized the event as the leader of the Hip Hop Awareness Council so that people could be exposed to the Hip Hop culture and learn about the different parts that make up hip-hop spinning records, break dancing, emceeing and painting graffiti.

"I thought the energy was great out doors," Massoni said of the event. "It's another way to show the diversity of hip-hop." The attendees also represent a diverse group of people from many different backgrounds and places in life.

Parents with children and carefree college students all enjoyed the sights and sounds of the event, actively responding to the emcees and cheering for the bboys.

"Hip-hop is a movement that is everywhere," Jean Kranswic, 24, said. "Look here at all the different faces of hip-hop."
Stay stylish with holiday gifts

When your finals are over and you can concentrate on holiday shopping, the future is how to help you decide what to buy for the popular and nice people on your list. Here are some of the latest fashions you can afford on a college student's budget.

For women:
- **Coats:** From peacoats to motorcycle jackets, you can keep warm in a lot of style and stylish ways this winter. Costs are a great way to layer an extra and they go well with stylish jeans and flats.
- **Dresses and boots:** Go downtown to Club Flavin, and you are bound to see this latest look in every direction. Yes, it's cold out, but when girls wear a cute dress with some slouchy or high-heeled boots, it works. Add some tights or leggings, and your outfit will be complete.
- **Vest:** This versatile item can be paired with anything. Pairs great with silver or gold jewelry and winter colors. This item can be paired with a variety of prints and a sweater for a day at the mall.
- **Jewelry:** A cute dress with some slouchy or high-heeled boots, it works. Add some tights or leggings, and your outfit will be complete.
- **Vests:** This versatile item can be paired with anything. Pairs great with silver or gold jewelry and winter colors. This item can be paired with a variety of prints and a sweater for a day at the mall.

For men:
- **Boxers:** These are a must-have for this season. Whether it's a bathrobe or a set of boxer shorts, something soft will be a hit. Choose from brands such as Diesel, Esprit, or even Perry Ellis. Gift with silver or gold jewelry and make him feel extra special.
- **Pajamas:** These automatically make an outfit go from day to night. Choose from brands such as Diesel, Esprit, or even Perry Ellis. Gift with silver or gold jewelry and make him feel extra special.
- **T-shirts:** These are definitely a hot item this season. Whether it's a clutch or a handbag, choose from brands such as Diesel, Esprit, or even Perry Ellis. Gift with silver or gold jewelry and make him feel extra special.
- **Shorts:** These can be paired with a little black dress for a holiday look. Choose from brands such as Diesel, Esprit, or even Perry Ellis. Gift with silver or gold jewelry and make him feel extra special.
- **Vests:** These are definitely a hot item this season. Whether it's a clutch or a handbag, choose from brands such as Diesel, Esprit, or even Perry Ellis. Gift with silver or gold jewelry and make him feel extra special.
