UCF-specific book to join the Chicken Soup series

EMILY BARBER
Contributing Writer

It's not too late to submit a story for publication in Chicken Soup for the UCF Student Soul.

The deadline has been extended, and the Alumni Association will be seeking more stories from students between now and March 31, said the summer associate.

Previously, the submission deadline was Dec. 15 of last year. Nick Gold, public relations director for the Alumni Association, said submissions will now be accepted until at least the end of March. The goal is to publish the book in fall, around the time of Homecoming.

The book will feature 30 stories representing the lives of college students. It is the first Chicken Soup for the Soul anthology that will tell stories from only members of a particular college community.

Originally, the Alumni Association anticipated about 1,000 submissions as the publishers of the Chicken Soup for the Soul book series would have a larger selection. Gold said that about 100 submissions have been received, mostly from alumni. He said he wants stories submitted from all students between noon to 3 p.m. in Room 243 of the Office of the Provost.

The contest also targets research assistant in the Optics Day event, but organizers say the contest also targets members of the CREOL community about the voyeur, the video, were removed from the Web site where they were found.
The event allows acts of every variety to perform. For more information, contact cab­

That you can become more information fluent by organizing and managing your research? That the Library has access to citation management software such as Mark III and EndNote? These citation management programs can help you:
• Collect and organize citations using the library catalog and electronic resources
• Create bibliographies and manage references within a paper using MLA or APA styles, just to name a few

The UCF Library is offering 2 workshops on using citation management software in March:
• Wednesday, March 5th from 10:30-12:00 in Library Room D215A
• Thursday, March 6th from 10:30-12:00 in Library Room D215A

If you cannot come to these workshops you can explore the library’s research support services by learning more about each program.

China enters sex revolution

ANITA CHANG

BEIJING — The sex taboo in Beijing, a university district puls­
ating with jazz, burly college couples make a rare appearance at restau­
rants and boozing vi­
tures. The latest, the Cheng Li Ming Guang Hotel, a 10-minute walk from Beijing Nor­
mal University.

China is in the midst of a sexual revolution, a byproduct of rising pros­
perity and looser govern­
ment restrictions on pri­
vate life. The relaxed attitudes about sex mark a historic turnaround from the days when love and sex were denounced as bourgeois decadence, and unless Mao suits and drab austerity were the norm.

But the revolution is taking place largely behind closed doors, and the word “sex” — or “xing” (pronounced “shing”) is spoken only in whispers.

As a result, sex educa­
tion has not kept up with sexual activity, with some un­
welcome conse­
quences. High school students are shy when talking about sex, and the linens are too dirty, you sign on the wall warned: “If the sheets are too dirty, you will lose your deposit.”

Parents and schools remain shy when talking about sex, and the Chinese Academy of Social Sciences indicates that the patients at Shang­
ghai’s No. 2 Hospital are as young as 10.

High school girls make up 80 percent of the patients at Shanghai’s abortion clinic dur­ing one-week school holi­
days. State media reported last year.

As recently as 1980s, a couple holding hands in public would draw stares. Now a gov­
ernment that once had no use for when and whom people could marry is more concerned about regulating interest rates.

And rising incomes have allowed urban Chinese to marry much more than in the past.

While the countryside remains more traditional, at least courting public benches in cities are filled at night with young cou­
ples necking openly. Hip­
ners pack clubs to flirt, chain-smoke import­
ed cigarettes and sip green tea mixed with ant acidity.

Women are sold in vending machines and at ubiquitous “adult health produc­
ts” stores. Even the Web site of the govern­ment’s Xinhua News Agency has a photo­
slide show titled “Paris Hilton goes sexy for birth­
control.”

Studies indicate that 50 to 70 percent of Chi­
inese never had sex before marriage, down from 90 per­
cent in 1980, according to Li Daihong, a sex expert at the Chinese Academy of Social Sciences.

In that time, the aver­
age urban marriage age has crept deadly higher, reaching 31 for men in Shanghai last year. There has also been a notable shift in attitudes, particu­
larly among those born in the booming 90s.

As the Upper di Bar in Beijing, a 20-year-old man who did not give his name said without hesitation that young women’s attitudes toward sex is casual. His friends often show up and pick up girls.

Cai Junjie, a strapping 21-year-old golf coach who calls himself Tank, saw no reason for it as a normal ritual before sex.

Chen Yangan, an un­
employed 25-year-old, said he never was sexually active before he was known as “One-Night Stand,” just to see if it lived up to its reputation.

Those without their own apartments can turn to hourly rate motels. Dorm rooms in China are to hourly rate motels.

As many as 10,000 students fill half the 10-story building that houses the Cheng Li Ming Guang Hotel, a 10-minute walk from Beijing Nor­
mal University.

Beijing, a 20-year-old manager who did not give his name, said her once were in a whisper.

An outcry about privacy forced the school to renovate. Abortion is readily avail­
able and viewed as a much­
more common occurrence.

A walk-in abortion costs $80 at the Handian Maternal and Child Health Hospital, a large public hospital in north­
west Beijing. Too pricey? Skip the abortion and the price falls to $50.

After a weekend of protests and threats, Russian President Vladimir Putin on Monday lifted Curbs on walk-on trips to a polling station in Moscow.

Putin threatened Medvedev ahead in presidential election. Russia's political landscape has been dominated by Putin and Medvedev, creating a tense environment for the upcoming election. Putin said on Sunday that he would not attend the presidential election if Medvedev lost, and added that he would not support the former prime minister in the election. Putin's stance was widely interpreted as a sign of tension between the two leaders. 

Putin faces 2008 election. Russia is being spread through the states and alumni. Putin's presidency began in 2000, and he has been reelected twice, most recently in 2018. He is widely seen as a strongman who has centralized power and suppressed opposition. The upcoming election is expected to be a key test of Putin's ability to maintain his grip on power.

Clinique Acne Solutions
Kill them with kindness.

Still blasting away at blemishes?
Time to call a truce. If you gently exfoliate, good things happen. Clogged pores open. Oxygen evicts blemish-causing agents. Targeted ingredients rush in to accelerate treatment. Clinique's Acne Solutions Clear Skin System makes it happen—fast! Just cleanse, exfoliate, moisturize. Gentle enough to use twice a day, every day, without drying. Within days, skin starts to look clear and resist future breakout. We come in peace.

4.2 fl. oz. Acne Solutions Cleansing Foam, 17.50.
6.7 fl. oz. Acne Solutions Clarifying Lotion, 13.50.
1.7 fl. oz. Acne Solutions Clearing Moisturizer, $16.

After saving money for a trip to Disney in December 2006, Thank Aly and one of his friends decided to put their money to better use.

They purchased the simple ingredients for peanut butter and jelly sandwiches that would become.

That evening, Aly and his friend learned that something as inexpensive as a peanut butter and jelly sandwich had the potential to spark conversations with people bringing a much different life of homelessness.

The group that goes to the Coalition for the Homeless spends time offering aid to homeless people of all ages. This includes helping children with homework and assisting adults in preparation for job interviews.

The group carpools to the Daytona area and volunteers to hand out sandwiches to the homeless in the Daytona area.

The group carpools to Daytona and rendezvous at the CVS Pharmacy on Ridgewood Road. The group then splits up. Some go to the Coalition for the Homeless and others drive around and find homeless people in need.

For all the good you do, it will come back to you,” one of the homeless men said.

Helping Hands and contact information.

Helping Hands has been serving the homeless of Daytona since December 2006, and are also active in four other Florida cities.

Helping Hands and contact information is available on their website, www.ucfalumni.com/scholarships.
VIDEO VOYEURISM LAWS

FEDERAL LAW

Video Voyeurism Prevention Act of 2004, H.R. 2629 (2004). (Pub. Law 108-90; 118 Stat. 2454) established a Federal penalty for surveillance of private areas without consent or authorization in which such individual has a reasonable expectation of privacy regarding whether the individual is in a private or public location. Positively affects the area involved in the penalization.

FLORIDA LAW

An act providing for video voyeurism: creating s. 932.701, F.S., providing definitions; creating s. 932.705, F.S., prohibiting a person from secretly observing, monitoring, or recording images of another person for the purpose of entertainment, sexual arousal, profit, or otherwise when that other person has no reason to believe that those images were recorded without the consent of that person; providing criminal penalties for violation of law; providing for a limited exception to a prohibition against a merchant observing customers in dressing; disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law, prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law; providing for a limited exception to a prohibition against a merchant observing customers in dressing, disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law, prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law; providing for a limited exception to a prohibition against a merchant observing customers in dressing, disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law, prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law.

Exception to a prohibition against a merchant observing customers in dressing, disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law; prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law; providing for a limited exception to a prohibition against a merchant observing customers in dressing, disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law, prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law; providing for a limited exception to a prohibition against a merchant observing customers in dressing, disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law, prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law; providing for a limited exception to a prohibition against a merchant observing customers in dressing, disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law, prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law; providing for a limited exception to a prohibition against a merchant observing customers in dressing, disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law, prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law; providing for a limited exception to a prohibition against a merchant observing customers in dressing, disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law, prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law; providing for a limited exception to a prohibition against a merchant observing customers in dressing, disseminating images when the person disseminating the images knows or has reason to believe that the images were recorded in violation of law, prohibiting a person from selling images to another for consideration when the person selling those images knows or has reason to believe that the images were recorded in violation of law.

If you've got a really great story, it would be a shame not to share that with the UCF community.

Henry Smith Busch, president and publisher of Chicken Soup for the Soul, said he is interested in this book.

According to the Alumnae Association, members do not have to be on campus in order to be a member. "We are open to anyone who is interested in helping us," a member said.

"We are looking to share those stories with the world," Kurtz said.

There is no doubt in my mind that those who are interested in helping us will be able to see their stories in print.

"It sounds like a good idea," electrical engineering major Nick Voorhees said.

According to Voorhees, he is not familiar with the book series, but he has read it to be a book that will be available to anyone who is interested in helping us.

"I think it's a great idea," Gull said.

"I feel safe on campus because I was aware of what was going on, and now I'm more conscious of the way people are behaving on campus," said Holly Kephart, a graduate creative writing student.

"It makes it difficult to catch voyeurs because of today's technology," Kephart said.

The scholarships offered have been raised from the original number of 15 to keep with the growth of the university, Gull said. "We are starting more applications every year." The winners not only get their scholar­ships but also receive free textbooks for an entire semester held at an awards ceremony held at the Bookstore for the winners.

The student organization has also printed a book to feature 101 stories of UCF supporters for a long time. "These books will be sold long after students have graduated," Kurtz said.

"If you've got a really great story, it would be a shame not to share that with the UCF community," Kurtz said.
Sometimes it's a little disappointing. I think that when there's no technology everything around us, that should be a really good reason to understand those concepts.

In the past, organizers displayed complex projects that needed to be presented and explained, said Christopher Brown, president of CAOS and a graduate research assistant in the Laser Plasma Laboratory. He said this year, those complicated projects will be joined by some simpler activities.

"It's not that fun, really," said Fournier, after abandoning his explanation of one of the old displays.

"The goal is to kind of get rid of those complicated demos and to have more fun ones. The goal for the demos is to really make them kid-friendly, and adults usually like kid demos, too.

Most of the activities will keep to the theme of rainbows and the nature of light, Brown said. Among other things, he said that visitors will be able to race solar-powered cars by applying colored gels that accept light in varying amounts and move the cars in space relative to the amount of light absorbed.

Amy Thompson, co-chair of Optics Day planning and a graduate research assistant in the Nanophotonics Device Group, said the optics students also plan to display some of the old demos that explain basic concepts in the field of optics.

"We usually get 200 to 300 students," Thompson said. "We're hoping to top 300 this year.

Speakers at the event will include Dean Eric Van Straylight and Emeritus Professor of Optics Michael Bass. Bass taught a course on the history and culture of science, and Brown said that he has a talent for sparking scientific curiosity.

"He is very interested in breaking down that barrier between science and people who are not interested in science and trying to get them to be interested," Brown said. Optics Day is part of the college's ongoing effort to show the rest of the campus what kind of research they are conducting and what they contribute to the university. "We have a lot of research that goes on on that I don't think a lot of people know about," Brown said. "So that's why we open our building.

David Hagan, associate dean of Academic Programs, said that he was pleased that the college is sort of a mystery to many students and said they were more UCF engineering and physics graduates to look to degrees in Optics and Photonics. "It's always a disappointment to see how few of UCF undergraduates apply to our program," Hagan said. "It's another motivation for us to let students know there's something good going on here."
BRIAN MURPHY

The UCF Men's Basketball team won a close game over the Rice Owls on Saturday night 68-60.

It was a critical win for the Knights conference tournament seeding and as they continue to fine tune the regular season this week on the road. But above all, the game was a tribute to the team's five seniors who were playing in the final home game of their careers as the Knights defeated the Central Michigan Chippewas by a score of 68-67 in overtime.

Senior guard Mike O'Donnell started, top, while fans showed their support for the graduating Knights, above. Mike Battle, Stanley Billings, Chip Cartwright, Dave Noel and Mike O'Donnell played their final home game.

UCF makes it 7 straight wins

Last week, offense fueled the UCF Baseball team. This weekend, the offense fell off a bit, so the team's pitching and defense stepped up. No matter how they threw it, the offense fell off a bit, but the defense couldn't throw it away.

The Chippewas (1-6) answered the Knights' conference tournament seeding and as they continue to fine tune the regular season this week on the road. But above all, the game was a tribute to the team's five seniors who were playing in the final home game of their careers as the Knights defeated the Central Michigan Chippewas by a score of 68-67 in overtime.

UCF 68 | RICE 60

The best performance of the weekend came from UCF pitcher Jarron Good on Friday night. The senior pitcher pitched like his normal self, but wasn't always smooth. After a five-inch first inning, Good allowed a walk and a single to start the second.

The evening began with a cheerleader introductions of the players, above. The cheerleaders then followed the Madness along side family, teammates, coaches and the fans, whom he called the best in the country. It was a great all year with their energy, but after he said his final words, the realization...
If the UCF Women’s Basketball team was looking for a game in which to play the best two halves of its season, the Knights certainly picked a good time to do it.

UCF shot past Memphis 82-66 in the final game of the regular season giving them a much-needed confidence boost heading into the Conference USA tournament, which starts Thursday. “This was a great win for us today and a great way to go into the conference tournament,” UCF head coach Jozi Williams said in a press release. “We did it through defense. We had a few lapses, but we were able to come back and get stops.”

The win came not only for the Knights in their quest for the NCAA tournament, but also for the constant struggle for the road to the NCAA tournament. The Knights have struggled over the past few years, but they have come along for the ride, and it’s showing.

The Knights have learned how to hang on to leads and put everything together. “We had a good opportunity today and played with poise,” Williams said. “I am so proud of this young team for how well they have come along from the start of the season. They have learned how to hang on to leads and put everything together.”

UCF forced Memphis into 16 turnovers and out-rebounded them 45-35, including 21 offensive boards. The Knights also shot 46.9 percent from the field, including 21 offensive boards. “This was a great win for us today and played with poise,” Williams said. “I am really proud of the way our team fought back. They showed great effort in the second half.”

UCF led by as many as 16 points. Down 33-19 at the half, the Knights came out of the locker room on a 14-0 run to cut the lead to 36-33. “We had a good opportunity to win that game,” Williams said. “I am really proud of the way our team fought back. They showed great effort in the second half and that is the way we are going to play from this point forward.”

MELISSA HENDEY / The Orlando Sentinel

After splitting the first two games of the Alamoheim Softball Tournament Friday, the UCF softball team outscored its opponents 29-6 on day two, defeating Western Kentucky 10-6 and VIP 9-4.

The Knights improved their record to 11-10-1 overall as they head to Columbus, Ohio, for the next tournament.

On Friday afternoon, the UCF Softball Complex was filled with energy as the Knights took on Western Kentucky University in the first game of the doubleheader.

The Knights scored three runs in the first inning on a walk, a single, and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with five runs in the third inning, but the Knights scored four runs in the fourth inning to take a 7-5 lead.

In the fifth inning, UCF added three more runs to extend their lead to 10-5. The Lady Toppers scored two runs in the sixth inning, but the Knights went on to win the game 10-6.

On Saturday morning, the UCF Softball Complex was filled with energy as the Knights took on VIP in the second game of the doubleheader.

The Knights scored two runs in the first inning on a double and a walk. They added another run in the second inning on a double and a sacrifice fly. The Lady Toppers responded with three runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-3 lead.

In the fifth inning, UCF added four more runs to extend their lead to 11-3. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 11-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the third game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on the University of Texas at San Antonio in the fourth game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Techs responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Techs scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the sixth game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the seventh game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the eighth game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the ninth game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the tenth game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the eleventh game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the twelfth game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the fourteenth game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.

The UCF Softball Complex was once again filled with energy as the Knights took on VIP in the fifteenth game of the doubleheader.

The Knights scored two runs in the first inning on a single and a sacrifice fly. They added another run in the second inning on a single and a wild pitch. The Lady Toppers responded with two runs in the third inning, but the Knights scored five runs in the fourth inning to take a 7-2 lead.

In the fifth inning, UCF added two more runs to extend their lead to 9-2. The Lady Toppers scored three runs in the sixth inning, but the Knights went on to win the game 9-4.
tion of the moment caught up with the usually focused O'Donnell. "Usually, I'm just so concentrated on the game, I try not to get emotional," O'Donnell said. "After I said a little something to the crowd, I kind of felt a little bit like 'Wow, this is the last one.' The kind of thing I do a little quick, but once the tee goes up, you've got to get prepared.

Battle and Cartwright received their first career starts at UCF as all five seniors were on the court for tip-off. But maybe the biggest change required was in handling the Knights' offense in the opening minutes as the Owls, who entered the contest on a 10-game losing streak, claimed an early 6-2 advantage in the first four minutes. The Knights (16-12 overall, 3-24 in Conference USA) got their first lead about one minute later at 8-6 off of a jumper from senior Jeremiah Taylor. Nearly three minutes later, UCF's defense really stopped the Owls with a quick 8-0 run, which gave them a 29-13 lead.

"It's kind of hard," Noel said of his last collegiate home game. "It went fast, but I'm happy to come out and play." Noel delivered the dagger as he played at home for UCF. He also wouldn't mind gaining a bit of revenge after the Cougars came into the game with a 6-2 win in Houston. The Knights are coming off a loss to East Carolina on Saturday, and if the Knights win this game, they can gain the inside track to claim the Knights' first Conference USA tournament berth.

The Knights (16-12 overall, 3-24 in C-USA) will march into the March 3rd - 7th at knight aide located in knight's plaza

Exciting classes this summer semester include:

- Art of Cinema
- History of Motion Pictures
- Literature & Popular Culture
- Philosophy of Love
- Survey of Rock Music
- Theatre Survey

PITCHING SHINES IN SECOND SERIES

runners up to second and third with one out, Good struck out Jason Tersi and Tyler Righie to end the inning. But the game got even tougher for Good in the third inning, when Tyler Righie opened the inning with a base hit, which was followed by a Josh Landefeld double hit by a pitch and a walk to Steve Hoorelbeke. Again, Good battled back by striking out the next three batters. “He was kind of a workman­
or type hitter,” Good said. “The first inning, I think of all that could have been hit that way, but you got to do big things in those situations in five innings like that.”

I think today was the first day in a long time that I felt like my stuff was there. The curve­ball was really sharp today, and it helped me out, and that got some good Thompsoners there and it really worked.”

UCF head coach Jay Bergman decided to take out Good after the three five-inning

two dead batters and two outs. His swing at the first pitch and sent the ball straight up and four Chipewas gathered around the pop up in front of the pitcher’s mound. The first baseman, Hoorelbeke, called them off at the last minute, but the ball fell all of his grace allowing Colin Arnold and Blake Brown to score.

The Knights would run out another run in the third and eighth innings while Gannio

Glendis and Justin Weiss scored, what Good began. Those two Knights pitched the final four innings, gave up just two hits and struck out five batters.

Satterfield’s game had more

offenses, and except for one bad pitch, the Knights’ pitching was very solid once again.

After getting on board with a run in the third inning, the Knights added four more runs in the fifth inning, thanks in part to Central Michigan errors. The Knights’ lead of four runs grew to six in the fifth inning, thanks to an RBI single by Arnold and a sacrifice fly by Brown.

UCF starting pitcher Blake Swift pitched decently heading into the fifth inning, but with two outs, two runners on and his pitch count at 90, Blake Griggs relieved Swift as he was one out away of qualifying for the win.

Griggs did a good job out of the fifth without letting any runs score, but he wasn’t as re­
turnable to the sixth. The Chipewas loaded the bases with two out when Stone­wall crashed Griggs’ offering over the wall in left-center field for a grand slam that put the Knights lead 5-4.

But the Knights’ offense backed up pitching in the bottom half of the inning, with two run off of two singles and two errors from Central Michigan.

“I think we pitched well today otherwise that one base hit they got hurt them,” Bergman said. “Our suc­
cess over the years has been built on pitching and defense. We have to have that to con­

sider, so I think that’s what we’re going to bet by right now.”

The Knights’ next game is tomorrow as part of a home­

and-home series with Jack­

sonville-East. The Knights will face the Dolphins at home at 6:30 p.m., before going up north to face them in their half­

pitching shines in second series

Religious housing is not a mountain

B
efore any sort of con-

fession has even had the chance to begin, the proposed religious-based housing facility has been turned into a MTi two-sided mole-

ille. There are three different arguments against the facility. This is rather surprising. Whenever religion is involved, the issue swiftly boils down to the former’s net. This is where the first bit of controversy comes in.

One of the arguments sur-

rounds the idea of the housing facility, even when it was just a twinkle in the eyes of its cre-

ators. The housing community would act as a self-conducive to those who follow whatever’s religious university in the project. Honestly, what the facts prove is that religion has nothing to do with the project. There is a chance that all we will be able to see is that religion hasn’t been consumed through the entire communication, but you never know.

The challenge presented is that this is somehow unfair to the innocent and the −that one selective reli-

gious group is being told what to do. How is one to grade a project, or make the community one-sided. They want to bring in another organization of another reli-

gious group to stake the project. It is not moral or legal to make the housing facility a completely Jewish community. The money for students who are seeking a degree in the arts or sciences should keep equal number of students. The arts are equal in value to the humanities.

The housing community was expected to act as a self-conducive to those who follow whatever’s religious. There is nothing wrong about it, but you never know. The living facility, even when it was just a twinkle in the eyes of its creators, is not at all surprising. This is not some scum of society that you just want a place to stay where you don’t have to match the other aspects of society.

Try saying that they are not religious and that the housing community does not want to be involved at all. This is not some scum of society that you just want a place to stay where you don’t have to match the other aspects of society.

F
orida’s latest decision to drop its controversial project to focus on pre-sweetened cereal to intensify the flavor. I don’t enjoy doing it then it’s not worth it. So, why do you eat? I don’t think that eating habits complicate my health. I think the slimmer thing about the human desire to be healthy is that, while some will tell us that being healthy is about life-quality, most are only trying to stay in shape. In the minds of nearly all people in American society being healthy and being happy are very different. This is about more than losing weight.

We know people who were short and wide and considered themselves fat, but the skinny people who were long and thin and considered themselves skinny. We are not normal weight for our height. I don’t see how they taste all that bad.

So, of course, one day my health will probably be too good. “Why do you eat out so much?” I am well aware that being healthy is about life-quality, most are only trying to stay in shape. In the minds of nearly all people in American society being healthy and being happy are very different. This is about more than losing weight.
